Course Format:

[Course format may vary by instructor. The typical course format would be:]

Lecture 4 h + Seminar 0 h + Lab 0 h

Credits: 2

Transfer credit: For information, visit bctransferguide.ca

Course Description, Prerequisites, Corequisites:

This course is the fourth in a series of five that address the promotion of health, healing and client safety. Participants explore and develop the essential knowledge, competencies, and critical components of foundational nursing skills from an evidence-informed perspective. Participants will have the opportunity to practice and demonstrate completion of ethical, competent, and safe nursing skills at the expected term 4 level.

Prerequisite(s): BIOL 2292 with a minimum "C+" grade and one of the following: A minimum "C+" grade in NURS 2109, 2160, and 2161; OR a minimum "C+" grade in NURS 1103 and an "S" grade in NURS 1104.

Corequisite(s): NURS 2209, 2261, 2263.

Registration restricted to students admitted to the Nursing program

Learning Outcomes:

Upon successful completion of this course, students will be able to:

- Be an independent, self-directed, self-reflective, and life-long learner who is an accountable professional
- Aware of the requisite skills and abilities that are required to attain the entry-level registered nurse competencies
- Make competent, safe, and ethical decisions using critical inquiry based on multiple ways of knowing, and evidence-and informed research
- Develop a strong foundation in nursing theory, concepts and knowledge, health sciences, humanities, informatics, research, and ethics
- Demonstrate the critical components of all nursing skills including: Asepsis, Assessment, Comfort, Privacy, Teaching, Safety, Organization, Resources, Body Mechanics and Documentation
- Explain the purpose, principles and rationale involved with each nursing skill

snəwəyət̚ leləm̚ Langara College acknowledges that we are located on the unceded territory of the Musqueam people.

- Practice the select number of nursing skills (term specific) in the context of the whole person using the components of the decision making framework safely, competently, and ethically
- Provide written feedback for self and/or peers based on the critical components of a nursing skill during practice and open lab
- Practice using appropriate –age and culturally safe interpersonal communication
- Recognize the limitations of their individual experience and knowledge, and seek guidance from experienced practitioners
