

STUDENT EXHIBITION 2014

On behalf of the Langara Fine Arts faculty and staff, I would like to acknowledge and celebrate the talent and commitment by the students participating in the 2014 Graduating Exhibition, and accompanying catalogue.

Congratulations to you, the graduates - You stuck with a program that required many long days and sleepless nights. You fought through the trials and tribulations of mastering various new and difficult media. During this process you developed your ideas and imagery, defining your artistic voice. Your two years of hard work and dedication has brought you one step closer to your future goals.

In this time of celebration, be thankful for the support of friends and family. Those connections made here and at home, along with the new skills you have developed, will carry you through a lifetime. We wish you all the best as you continue your journey to new heights!

A handwritten signature in black ink that reads "Milos Campbell". The signature is written in a cursive, flowing style.
