

Dear Committee Members,

Please accept the following as my summation of my Langara research grant.

My research assistant, Alison Kelly, has now completed 216 pages of typed documentation, compiled from collected notes, which represent my thirty five years of teaching and performing in the field of Physical Theatre. The amount of information gathered is extensive and the transcribing has, therefore, been a lengthy process. Time has also been spent on reviewing and clarifying questions regarding often illegible and confusing notes. The material has now been alphabetized, cross referenced and reorganized into a much clearer and logical order. The resulting document is now easy to access and, therefore, it is a much more valuable asset.

Traditionally, learning in this field has been passed on from master to student through oral teachings and by "doing" the work. Little is written on the subject. This makes having my notes recorded even more important and meaningful to me.

Thank you to the committee for the finances that enabled this process to happen.

Sincerely,

Wendy Gorling
