Langara College
Calendar 2008-2009
Langara College reserves the right to alter or discontinue programs, courses, fees, and policies and procedures regulating admission, registration, and graduation from the College. Regulations affecting the student body may be changed in accordance with College governance policies and are effective as determined by the appropriate College authorities. Revisions apply to prospective students as well as registered students. Any revisions will be in the form of addenda and errata which will be available as Calendar Updates on the Langara College website.

2008 SUMMER SEMESTER (200820) May - August
Refer to the Summer Semester 2008 Registration Guide and Course Schedule on the Langara College website for important information concerning registration and deadline dates for fee payment, refunds, course drops and adds, and withdrawals.

March 25: Summer Semester 2008 Registration commences.
May 5: First day of classes for regular semester courses and half-semester courses that begin in May.
June 5: Annual Graduation Ceremonies
June 17: Last day of classes for half-semester courses that began in May.
June 18 - 19: FINAL EXAMINATIONS for half-semester courses that began in May. EXAMS MUST BE WRITTEN as scheduled.
June 20: First day of classes for half-semester courses that begin in June.
June 25: Fall Semester 2008 Registration begins for returning arts and science students with 33 or more registration points and for selected career programs. Students may log into myLangara in early June to find their registration date and time.
July 29: Fall Semester 2008 Registration begins for returning arts and science students with less than 33 registration points, for new students, and for most career programs. Check the Fall Semester 2008 Registration Guide and Course Schedule on the Langara College website for registration information.
July 31: Last day of classes for regular semester courses and half-semester courses that began in June.
August 4: B.C. Day. College closed.
August 6 - 7: Study Days for final examinations.
August 8 - 15: FINAL EXAMINATIONS for regular semester courses and half-semester courses that began in June. EXAMS MUST BE WRITTEN as scheduled.
August 31: Last day of the Summer Semester.

Consult the Summer Semester 200820 Registration Guide and Course Schedule for additional important information/dates and updates to this schedule.

2008 FALL SEMESTER (200830) SEPTEMBER - DECEMBER
Refer to the Fall Semester 2008 Registration Guide and Course Schedule on the Langara College website for important information concerning registration and deadline dates for fee payment, refunds, course drops and adds, and withdrawals.

June 24: Fall Semester 2008 Registration begins for returning arts and science students with 33 or more registration points and for selected career programs. Students may log into myLangara in early June to find their registration date and time.
July 29: Fall Semester 2008 Registration begins for returning arts and science students with less than 33 registration points, for new students, and for most career programs. Check the Fall Semester 2008 Registration Guide and Course Schedule on the Langara College website for registration information. Students may log into myLangara in early June to find their registration date and time.
TBA New Student Orientation.
September 1: Labour Day. College closed.
September 2: First day of classes for regular semester courses and half-semester courses that begin in September.
October 13: Thanksgiving Day. College closed.
October 15: Last day of classes for half-semester courses that began in September.
October 16 - 17: FINAL EXAMINATIONS for half-semester courses that began in September. EXAMS MUST BE WRITTEN as scheduled.
October 20: First day of classes for half-semester courses that begin in October.
November 11: Remembrance Day. College Closed.
November 20: Spring Semester (200910) Registration commences. Check the Spring Semester 2009 Registration Guide and Course Schedule on the Langara College website for registration information.
December 2: Last day of classes for regular semester courses and half-semester courses that began in October.
December 3 - 4: Study Days for final examinations.
December 5 - 15: FINAL EXAMINATIONS for regular semester courses and half-semester courses that began in October. EXAMS MUST BE WRITTEN as scheduled.
December 31: Last day of the Fall Semester.

Consult the Fall Semester 2008 Registration Guide and Course Schedule for additional important information/dates and updates to this schedule.
2009 SPRING SEMESTER (200910) January - April
Refer to the Spring Semester 2009 Registration Guide and Course Schedule on the Langara College website for important information concerning registration and deadline dates for fee payment, refunds, course drops and adds, and withdrawals.

November 20: Spring Semester 2009 Registration commences.
January 6: First day of classes for regular semester courses and half-semester courses that begin in January.
February 17: Last day of classes for half-semester courses that began in January.
February 23 - 24: FINAL EXAMINATIONS for half-semester courses that began in January. EXAMS MUST BE WRITTEN as scheduled.
February 25: First day of classes for half-semester courses that begin in February.
March 15: Last day to apply for Certificates, Diplomas, Citations and Associate Degrees for graduation in June.
March 30: Summer Semester 2009 Registration commences. Check the Summer Semester 2009 Registration Guide and Course Schedule on the Langara College website for registration information.
April 7: Last day of classes for regular semester courses and half-semester courses that began in February.
April 8 - 9: Study Days for final examinations.
April 10: Good Friday. College closed.
April 14-22: FINAL EXAMINATIONS for regular semester courses and half-semester courses that began in February. EXAMS MUST BE WRITTEN as scheduled.
April 30: Last day of the Spring Semester.

Consult the Spring Semester 2009 Registration Guide and Course Schedule for additional important information/dates and updates to this schedule.

2009 SUMMER SEMESTER (200920) May - August
Refer to the Summer Semester 2009 Registration Guide and Course Schedule on the Langara College website for important information concerning registration and deadline dates for fee payment, refunds, course drops and adds, and withdrawals.

March 30: Summer Semester 2009 Registration commences.
May 4: First day of classes for regular semester courses and half-semester courses that begin in May.
June 4: Annual Graduation Ceremonies.
June 16: Last day of classes for half-semester courses that began in May.
June 18 - 19: FINAL EXAMINATIONS for half-semester courses that began in May. EXAMS MUST BE WRITTEN as scheduled.
June 22: First day of classes for half-semester courses that begin in June.
June 22: Fall Semester 2009 Registration commences. Check the Fall Semester 2009 Registration Guide and course Schedule on the Langara College website for registration information.
July 1: Canada Day. College closed.
August 5: Last day of classes for regular semester courses and half-semester courses that began in June.
August 6-7: Study Days for final examinations.
August 10-17: FINAL EXAMINATIONS for regular semester courses and half-semester courses that began in June. EXAMS MUST BE WRITTEN as scheduled.
August 31: Last day of the Summer Semester.

Consult the Summer Semester 2009 Registration Guide and Course Schedule for additional important information/dates and updates to this schedule.
Mission
Langara College provides accessible education that meets the needs of our diverse community.

The education and services provided are comprehensive, current, and innovative. Our curriculum is based on an integrated and cross-disciplinary approach designed to enhance the learner’s ability to apply and transfer knowledge.

We value and are committed to a learning and working environment characterized by encouragement, free enquiry, integrity, mutual respect, professionalism, recognition of achievement, and social responsibility.

History
Langara College courses and programs were first offered in 1965 at the King Edward Centre of Vancouver City College. The current site at West 49th Avenue has housed these offerings since 1970. Langara College was established as an independent public college under the Provincial College and Institute Act on April 1, 1994.

Facilities
Langara College consists of two main instructional buildings that house lecture theatres, multi-use classrooms, study and seminar rooms, science laboratories, technical-vocational workrooms, a theatre, studios for the cultural and performing arts, and service areas including a bookstore, cafeteria, day-care centre, and athletic facilities. In addition, we have a new award-winning library/classroom building and a Students’ Union building is under construction.

Academic Breadth
Langara College offers both credit and non-credit programming. Credit (or Regular) Studies include first- and second-year Arts and Science university-transfer programs and courses and more than 30 career program options. Completion of these programs may lead to a bachelor degree, associate degree, diploma or certificate. Langara College non-credit programming is offered through Continuing Studies, and the 500 courses and 35 certificate programs are focused on personal or professional development or English proficiency.

Affiliation
Langara College is a member of the Association of Canadian Community Colleges.

Regular Studies
Regular Studies courses and programs require that students formally apply for admission to the College. These courses and programs include first- and second-year arts and science university-transfer courses and programs, and career programs of one to four years in duration.

Semester System
Each semester is four months in length and the three semesters in the academic year are:
- Fall Semester – September to December
- Spring Semester – January to April
- Summer Semester – May to August
Most courses are scheduled for a full semester; however, some two-month courses may be offered. Two four-month semesters of full-time study (minimum 15 credits each semester) normally constitute a complete academic year of study at Langara College. Some career programs require enrolment in three semesters per year.

Graduation
Although students can complete their requirements for a Langara College credential in any semester, convocation occurs only once per year in June. Students must apply to graduate; please refer to the Graduation section of this Calendar for further information.

Course Load
The normal maximum course load per semester is five courses with three or more credits, to a maximum of 18 credits. Some career programs vary from this norm. Students who have carried a full course load and maintained a grade point average of 3.5 or higher may register for additional credit with the approval of the Registrar.

Full Time/Part Time Definition
Langara College defines a full course load as 15 credits or more. Full-time study is defined as nine credits or more. Part-time study is defined as fewer than nine credits. Please refer to the scholarship section of the Langara College Calendar regarding eligibility requirements that may include alternative definitions.

Program Start Dates
Students may commence arts and science programs at the beginning of any Langara College semester. Most career programs commence in September, although some programs have January and May start dates.

Day/Evening/Weekend Offerings
Langara College operates on a twenty-four hour clock. Many academic courses at Langara College have both day and evening sections. Classes at Langara College are scheduled between 0830 hours and 2230 hours Monday through Thursday, and on Friday, from 0830 hours to 1630 hours. There are a limited number of Saturday courses offered.

CONTINUING STUDIES
Langara College Continuing Studies offers a rich and diverse range of lifelong learning opportunities. Many courses or programs are complementary to regular credit courses at Langara College. Whether the objective is to improve business skills, enhance a career path, expand individual creativity, or develop a more holistic approach to personal well-being, Continuing Studies offers over 500 courses and 35 certificate programs designed with the needs of the student in mind. Students can choose to focus on personal, organizational or community development through studies in a wide variety of program areas.

Check the Langara College website, drop by the Continuing Studies Office for a program catalogue, or contact 604.323.5322 for information.
ADMISSION INFORMATION

General Requirements

1. Citizenship Status
   Only Canadian citizens and those who have permanent resident (landed immigrant) status in Canada may enrol at Langara College as domestic students. The College may request evidence of citizenship or permanent residence status.

2. International Students
   International students may be accepted at the College on a cost-recovery basis. Please refer to the international student information in this Calendar.

3. English Language Proficiency
   Applicants must possess a level of English proficiency sufficient to support studies at Langara College.

ADMISSION REQUIREMENTS

ACADEMIC REQUIREMENTS

Regular Academic Admission
   The academic requirements for admission to Langara College are:
   - Successful completion of a BC secondary program (Grade 12) or the equivalent or
   - Successful completion of an A.B.E. (Adult Basic Education) or G.E.D. (General Educational Development) program.

Dean’s Admission
   Applicants not eligible for Regular Academic Admission may be granted Dean’s Admission by the Dean of Student Support Services or delegate on the basis of age, background, previous education, and general suitability for direct entry to college-level studies. Prospective students must be at least 19 years of age on the first day of the semester in which they want to enrol.

Conditional Admission
   Applicants currently enrolled in BC Grade 12 who are missing only one course for Grade 12 graduation, may appeal for admission to Langara College. To be considered for conditional admission, applicants must:
   1. Be currently enrolled in the missing course, maintaining a 60% average.
   2. Complete an Application for Admission and an Appeal for Admission and Re-admission form, both available from the Registrar’s Office.
   3. Submit an official transcript of Grade 11 and 12 courses completed to date of application to the College and an interim transcript of the course in progress, along with the forms in (2) above, to the Registrar’s Office.

Secondary/Post-Secondary Concurrent Studies
   BC Secondary students entering or currently in Grade 12 who have demonstrated academic excellence may apply for limited admission to university transfer or open career courses while attending secondary school.

Enrolment will be restricted to three credits of study per semester. Admission will be approved on a semester by semester basis until students have met Grade 12 graduation requirements or have reached the age of 19 years.

Transfer Credit
   Transfer guides and course planning sessions, designed to assist students with course selection in university-transfer programs, are available from the Counselling Department. If you are transferring between institutions in British Columbia, you may refer to the BC Transfer Guide at www.bctransferguide.ca.

NOTE:
   Langara College is not able to guarantee registration in specific programs or courses even if you have been granted admission. Successful registration is also dependent upon having the required prerequisites for individual programs and/or courses.

Specific Program Requirements

Many Langara College programs have specific admission requirements in addition to those listed under General Requirements and Admission Requirements. Please refer to the program section of this Calendar for more information.

Students wishing to apply under this category of admission must submit an application for admission, co-signed by a parent or legal guardian, a letter of support from their secondary school principal, an official final transcript of their Grade 11 year, and a copy of any interim transcripts of their Grade 12 year, if available.

Appeals for admission and re-admission are accepted at the Registrar’s Office up to one week before the first day of classes.

NOTE:
   appeals for admission and re-admission are accepted at the Registrar’s Office up to one week before the first day of classes.

Students wishing to apply under this category of admission must submit an application for admission, co-signed by a parent or legal guardian, a letter of support from their secondary school principal, an official final transcript of their Grade 11 year, and a copy of any interim transcripts of their Grade 12 year, if available.

Appeals for admission and re-admission are accepted at the Registrar’s Office up to one week before the first day of classes.

NOTE:
   Langara College is not able to guarantee registration in specific programs or courses even if you have been granted admission. Successful registration is also dependent upon having the required prerequisites for individual programs and/or courses.

Transfer Credit
   Transfer guides and course planning sessions, designed to assist students with course selection in university-transfer programs, are available from the Counselling Department. If you are transferring between institutions in British Columbia, you may refer to the BC Transfer Guide at www.bctransferguide.ca.

Transfer To Langara College
   Upon request, 50% of Langara College diploma, certificate, associate degree and bachelor degree program requirements may be transferred from another recognized post-secondary institution. These credits must have been completed within the first 50% of your program. Transfer credit is not included in the calculation of GPA.

To request transfer credit, you must submit a Transfer Credit Request Form (available from the Registrar’s Office or on the College website), an official transcript from the transferring institution, course outlines for courses completed outside BC, and the appropriate fees. The deadline for transfer credit required to meet prerequisite requirements is ten weeks before the semester begins; the deadline for transfer credit required to meet graduation requirements is the end of February each year. If you need the credit only to meet prerequisite requirements, you may go to the appropriate department for a prerequisite override. Students with an acceptable post-secondary English or Communications course may apply at the Registrar’s Office for a Langara English Test (LET) or a Language Proficiency Index (LPI) exemption. Official transcripts are required.
Admission Information

International Baccalaureate/Advanced Placement Courses
If you have completed the International Baccalaureate Diploma or have passed an Advanced Placement Examination administered by the College Entrance Examination Board, you may be eligible for college credit. Please refer to the British Columbia Transfer Guide or contact the Registrar’s Office for further information. You must complete a Transfer Credit Request Form and submit an official IB or AP transcript.

Transfer credit is not included in the calculation of your Langara College GPA.

Transfer To Other Institutions
If you plan to transfer from Langara College to another educational institution, you should consult the Registrar’s Office of that institution to determine the transferability of courses you have taken at Langara College. The institution to which your official transcript is sent may evaluate your courses, appraise your letter grades, and compute your grade point average in accordance with its own policies and regulations. You may also refer to the BC Transfer Guide at www.bctransferguide.ca. If you plan to transfer, you should discuss your plans with a College counsellor; however, the responsibility for the final choice of a course or program is yours.

Prior Learning, Flexible Assessment and Recognition
Langara College values students and the learning they have acquired through non-formal education, work and life experiences. Prior Learning, Flexible Assessment and Recognition (PLFAR) is a way that such learning may be assessed for college credit. The College has implemented a PLFAR service for Langara College students. Opportunities for PLFAR are dependent upon the resources available to support the process, and therefore, will only be available from time to time. Students are advised to check with the relevant department to confirm whether flexible assessment is available within the department.

Document Verification
All documents are routinely verified. Evidence of falsified documents will result in the denial of your admission to the College. Information on falsified documents is shared with the Association of Universities and Colleges of Canada.

Retention of Student Records
Records of academic performance at Langara College are retained indefinitely. Materials supporting your admission may be destroyed two years after your first registration. Before submitting irreplaceable material to support your application, check with the Registrar’s Office.

All admissions material will be destroyed after one year if you do not register into courses.

Freedom of Information and Protection of Privacy
Information received and maintained as part of your student record is collected under the authority of the Colleges and Institutes Act. Signing the application form authorizes the College to use the student record information for the purpose of research and College operations. Langara College gathers and maintains information for the purposes of admission, registration and other fundamental activities related to attending a public post-secondary institution in British Columbia and being a member of the Langara College community. This information is protected and used in compliance with the Freedom of Information and Protection of Privacy Act.

For further information please contact the Registrar.

How To Apply

Langara College accepts applications in person, by mail or on the Langara College website.

Application Dates

Apply early as your registration date is determined by your date of application.

Application deadlines are normally three to four months before the start of the semester in which the programs and courses begin. Please check with the Registrar’s Office for more information.

International Students - Please refer to International Education Admissions.

New Students

To be considered for admission, you must submit an application form, a non-refundable application fee, and all supporting documents (official copies only) to Admissions, Registrar’s Office. If you are currently a Grade 12 secondary school student, you may submit your application before you have received your final secondary school transcript.

Prospective students may make application to Langara College eleven months prior to the semester in which they want to register.

Application Requirements

1. A non-refundable application fee * must be submitted with your application. Students who apply for admission but do not register and who re-apply for admission within three semesters following the first semester for which they applied are not required to submit an additional application fee.

2. All transcripts and educational documents must be official (photocopies are not accepted).

NOTE:

All transcripts and supporting documents submitted with an application for admission become the property of Langara College and are under no circumstances returned to the applicant. Exceptions may be made for irreplaceable documents, providing you inform the Registrar’s Office upon submission of the documents that the documents cannot be replaced.

BC Secondary School students currently in Grade 12 may have their records sent electronically to Langara College by the Ministry of Education. Students must request this on the Post-Secondary Choice Form and provide their BC Personal Education Number on their application for admission to Langara College. No further action is necessary. If you do not have your grades forwarded electronically, you must provide an official transcript to the Registrar’s Office as soon as it is available.

If you wish to register in a course that has a prerequisite and you have earned the prerequisite at another institution (secondary or post-secondary), you must request that this information be put on your file at least ten weeks in advance of your registration date. (See Transfer Credit)

For secondary school prerequisites (if you are not a current BC Secondary School student), you must submit an official transcript of secondary school courses completed. For post-secondary prerequisites, you must submit an official transcript from the transferring institution, copies of course descriptions, and a Transfer Credit Request Form and associated fee. Transcript Request forms are available from the Registrar’s Office, or you may download them from the College website.

Reactivation of Application

If you apply to the Arts and Science program for a specific semester but do not register into any courses for that semester, you must reactivate your application for the semester that you are interested in attending. Reactivation requests are subject to the same deadline dates as new applications. We strongly advise that you submit reactivation requests to the Registrar’s Office as soon as possible. You are not required to pay an additional application fee if you are re-activating within three semesters following the first semester for which you applied.

Reactivation forms are available from the Registrar’s Office, or you may download them from the College website.

Returning Students

Arts and Science students who have previously registered at Langara College and who have a Langara academic record are not required to re-apply for admission to the Arts and Science Program or courses, but you must update your address if it has changed since you last attended. Please refer to the current Registration Guide and Course Schedule for information on registration.

A unique nine-digit Langara College ID number will be assigned to you. This ID number is required for registration and must be noted on all documents and correspondence submitted to Langara College. If you register for courses, this number must be used in all of your transactions with the College.

IMPORTANT NOTE: Programs may fill quickly or may have waitlists. You are advised to apply early. For admission updates refer to the Langara website.

How To Apply

Langara College accepts application to Career Programs and Arts & Science Limited Enrolment programs in person, by mail or on the Langara College website. Applications to some of these programs require that you complete an application supplement that is specific to the program. These are available at www.langara.bc.ca/registrar/forms.html.

For program admission requirements, refer to the descriptions of specific programs in this Calendar or on the College website. Submit applications for admission along with all supporting documents (official copies only) to Admissions, Registrar’s Office.

Career and Arts & Science Limited Enrolment program applicants who satisfy the criteria for admission to the program will be admitted on a first-come, first-served basis, except as noted in the program admission requirements. Langara College may deny admission to those applicants who do not possess the requisite capabilities for success.

A non-refundable application fee * must be submitted with your application if you have not previously been a student in an Arts and Science, Career, or Arts and Science Limited Enrolment program at Langara College.

* Please see the College website for fee information.

NOTE: Langara College does not guarantee admission to all qualified applicants as the number of seats available for programs is limited. Students may apply to the Arts and Science Program at the same time they apply to a career or limited enrolment program, particularly if they wish to register for Arts and Science courses in the event they are not admitted to a career program.

Application Dates

Applications are accepted during the eleven-month period immediately preceding the program intake date. All applications received PRIOR to these dates will be returned.

Applicants to Theatre Arts and Nursing Programs should refer to the program description section of this Calendar.

Applicants are normally selected four months prior to the program start date. Thereafter, applicants may be considered if seats are available.

Application Requirements

1. Secondary school graduation is normally required for admission to career programs. Based on other qualifications and experience, applicants who are 19 years of age or older may be considered for some programs without secondary school completion.

Some programs have additional academic requirements and/or require additional submissions and procedures such as interviews, testing, auditions, or portfolios. Check program listings for detailed admission requirements.

2. Applicants currently in BC Grade 12, who satisfy admission requirements, may be considered for conditional acceptance based on mid-term marks. Final acceptance is subject to confirmation of graduation. Provincial exams must be written for examinable BC secondary school courses that are needed to meet program admission requirements.

3. Applicants are required to meet appointment times and dates for testing and interviews.

NOTE: All transcripts and supporting documents submitted with an application for admission become the property of Langara College and are under no circumstances returned to the applicant. Exceptions may be made for irreplaceable documents, providing you inform the Registrar’s Office upon submission of the documents that the documents cannot be replaced.

BC Secondary School students currently in Grade 12 may have their records sent electronically to Langara College by the Ministry of Education. Students must request this on the Post-Secondary Choice Form and provide their BC Personal Education Number on their application for admission to Langara College. No further action is necessary. If you do not have your grades forwarded electronically, you must provide an official transcript to the Registrar’s Office as soon as it is available.

If you wish to register in a course that has a prerequisite and you have earned the prerequisite at another institution (secondary or post-secondary), you must request that this information be put on your file at least ten weeks in advance of your registration date. (See Transfer Credit)

For secondary school prerequisites (if you are not a current BC Secondary School student), you must submit an official transcript of secondary school courses completed. For post-secondary prerequisites, you must submit an official transcript from the transferring institution, copies of course descriptions, and a Transfer Credit Request Form and associated fee. Transcript Request forms are available from the Registrar’s Office, or you may download them from the College website.

A unique nine-digit Langara College ID number will be assigned to you. This ID number is required for registration and must be noted on all documents and correspondence submitted to Langara College. If you register for courses, this number must be used in all of your transactions with the College.
International Students

Introduction
International students are welcome at Langara College in Arts and Science (university-transfer) programs and many Career programs.

Admission Requirements for Arts and Science (University-Transfer) Programs

GENERAL REQUIREMENTS

Age
Applicants must be 18 years of age or older at the time of enrolment. Graduates of BC Grade 12 or the equivalent may be admitted if they will be 18 years of age or older by the end of the first semester of enrolment.

ACADEMIC REQUIREMENTS
Successful completion of BC Grade 12 or equivalent (12 years of formal education).

ENGLISH LANGUAGE PROFICIENCY

English is the language of instruction at Langara College. You are required to demonstrate proficiency in the English language prior to admission to post-secondary programs. You are required to demonstrate English language proficiency by one of the following:

- TOEFL (paper-based) with a total score of 550 or higher and an essay score of 4.0 or higher, OR
- TOEFL (computer-based) with a total score of 213 or higher and an essay score of 4.0 or higher, OR
- TOEFL (internet-based) with a total score of 80 or higher and a minimum of 18 in Listening, 20 in Reading, 18 in Speaking, and 20 in Writing, OR
- IELTS 6.5, OR
- CAEL 60 overall with essay 60, OR
- LPI (Language Proficiency Index) Level 4 with essay 24, OR
- LET (Langara English Test) Level 2, OR
- ELA (English Language Assessment) 145 offered by VCC (Vancouver Community College), OR
- Successful completion of LEAP Level 8 OR
- Successful completion of B.C. Grade 12 English or Communications or equivalent, OR
- Successful completion of a post-secondary English or Communications course for which Langara College awards transfer credit, OR
- Successful completion of VCC English 099.

NOTE:
If you do not meet the English language proficiency requirement for admission to the Arts and Science (university-transfer) program, you may apply to the Langara English for Academic Purposes (LEAP) program. LEAP is a full-time, integrated, intensive English and academic skills program that prepares you for college and university study. Refer to the International Education web page for more information on the LEAP program and the Short Term Proficiency (STEP) program, which is available for those students who are not eligible for LEAP.

ORIENTATION AND COURSE PLANNING

International students are required to attend the orientation and course planning sessions offered by the Counselling Department. Counsellors are available to help you with your educational, career, and personal concerns.

APPLICATIONS THAT ARE COMPLETE BUT ARE RECEIVED AFTER THE PUBLISHED DEADLINE WILL BE PROCESSED ON A SPACE-AVAILABLE BASIS.

Admission Requirements for Career and Arts and Science Limited Enrolment Programs

A number of Career and Arts & Science Limited Enrolment programs are open to international students. The current list is available on the Langara College website.

GENERAL REQUIREMENTS

Age
Applicants must be 18 years of age or older at the time of enrolment. Graduates of BC Grade 12 or the equivalent may be admitted if they will be 18 years of age or older by the end of the first semester of enrolment.

ACADEMIC REQUIREMENTS

Successful completion of BC Grade 12 or equivalent (12 years of formal education).

ENGLISH LANGUAGE PROFICIENCY

English is the language of instruction at Langara College. You are required to demonstrate proficiency in the English language prior to admission to post-secondary programs. For Career programs and Arts and Science Limited Enrolment programs, you must obtain the minimum score on ONE of the following tests or have courses as described in “c” and “d” below:

- a. Langara English Test (LET) - a minimum score of 3; or
- b. Language Proficiency Index (LPI) - a minimum score of 24 with a score of 5 in the English usage section; or
- c. An “A” in one of BC English 12 or BC English Literature 12; or
- d. A minimum “C–” in a university-level English or Communications course for which Langara awards transfer credit or an “S” in either of these Langara English courses: ENGL 1107 or 1108.

SPECIFIC PROGRAM REQUIREMENTS

You are required to meet any additional admission requirements specified for the program of your choice in the program section of this Calendar.

ADMISSION NOTES:

Applications for a Career or Arts and Science Limited Enrolment Program are advised to submit an additional application for the Arts and Science (university-transfer) Program. As admission to Career Programs and Arts and Science Limited Enrolment Programs is not guaranteed, you can pursue a post-secondary education as an Arts and Science student to complete university-transfer courses or to upgrade your skills in English, mathematics and science to meet the requirements of your desired Career program or Arts and Science Limited Enrolment program. See Arts and Science admission requirements. You are not required to pay a second application fee for this additional application.
How to Apply to all Programs
– The Application Process
1 Complete an application form for each program to which you are applying. Return the form(s) and all necessary documents to the College with the non-refundable application fee*, payable to Langara College, by VISA or Mastercard. Return the application to Langara College Registrar’s Office, International Admissions, 100 West 49th Avenue, Vancouver, British Columbia, CANADA V5Y 2Z6.
2 To apply online, visit the Langara College website. Remember to send by mail all of the required documents as soon as possible.
3 You will receive an ‘Offer of Admission’ if you are admissible to the College.
4 Confirm acceptance of the College’s Offer of Admission by paying the International Student Semester Fee*, which includes a non-refundable, non-transferable Commitment Fee.* These fees will be applied to your tuition fees.
5 Upon receipt of your International Student Semester Fee, the College will send you a ‘Letter of Acceptance’ confirming your acceptance into the College.
6 Take your ‘Letter of Acceptance’ or ‘Provisional Letter of Acceptance’ to the Canadian embassy or High Commission to apply for a study Permit and an entry visa to Canada.
7 When you arrive at the College, you must give the international education department a copy of your study Permit, a copy of the photo page of your passport, and proof of medical insurance.

* Fees are subject to change. Please see the College website for fee information.

Documents Required for Application Evaluation
1 A completed Langara College Application Form for each program to which you are applying indicating the desired start date.
2 Official transcripts/marksheets/academic records that show all the subjects taken and grades obtained for the last two years of secondary school studies. If the date of graduation is not shown on the transcript, proof of graduation such as a graduation certificate or a graduation statement issued by the appropriate educational authorities must be submitted to the Registrar’s Office.
3 Official post-secondary transcripts may be used in lieu of secondary school transcripts. The transcript must indicate successful completion of at least one full academic year, or successful completion of a minimum of 24 university-level credits at a recognized North American university or college.
4 Official English translations of the above documents must also be submitted if the original documents are not written in English.
5 All transcripts submitted are confidential and become the property of the College.
6 Proof of English language proficiency. Official test scores or transcripts must be sent directly to the College from the testing authority or school.
7 Some Career programs and Arts and Science Limited Enrolment programs may require further documentation. Consult the College Calendar or College website for specific program requirements.
8 When you arrive at the College, you must give the International Education Department a copy of your Study Permit, a copy of the photo page of your passport, and proof of medical insurance.

Application Deadlines

ARTS AND SCIENCE (UNIVERSITY-TRANSFER) PROGRAMS
Apply at least six months before the start of the program. Applications are accepted beginning 11 months before the intake semester. Most programs have September intakes, but some programs accept students in January and May. In many parts of the world, the processing time required to obtain a Study Permit from a Canadian Embassy or High Commission or Consulate Office is 6-8 weeks or more. It is your responsibility to make sure that you are able to report to the College on the first day of classes for your program. For the latest information on admission to Langara and application and document deadlines, please refer to the Langara College International Education website.

CAREER PROGRAMS AND ARTS AND SCIENCE LIMITED ENROLMENT PROGRAMS
Apply at least six months before the start of the program. Applications are accepted beginning 11 months before the intake semester. Most programs have September intakes, but some programs accept students in January and May. In many parts of the world, the processing time required to obtain a Study Permit from a Canadian Embassy or High Commission or Consulate Office is 6-8 weeks or more. It is your responsibility to make sure that you are able to report to the College on the date designated on your Letter of Acceptance, approximately five weeks before the semester begins, to attend an orientation and course planning session, write any necessary placement tests, and obtain necessary course registration information. For the latest information on admission to Langara and application and document deadlines, please refer to the Langara College International Education website.
Access to the Registration System
Students register online by logging into myLangara. The semester schedule of courses, registration times, dates, important deadlines, information regarding preparation for registration including course prerequisite requirements for the semester are published online and in print in the Registration Guide and Course Schedule, available approximately two months prior to the beginning of each semester. The online version is updated regularly.

International students will be required to pay an International Student Semester Fee, which includes a non-refundable, non-transferable commitment fee, for their first three semesters in regular studies courses. Thereafter, they will be required to pay the commitment fee only. For information on fees, please refer to the Fees section on the Langara College website.

Personal Identification Number
Students are required to enter their nine-digit Langara College Identification Number and their six-digit Personal Identification Number (PIN) to access the registration system. The student’s birth date in year, month, and day (YYMMDD) order has been set as the PIN. If no birth date is on file, students must contact the Registrar’s Office. Students are advised to change their PIN when they access the registration system for the first time. The same PIN is used for all registrations unless students change their PIN on myLangara or at the Registrar's Office.

IMPORTANT: Keep your Langara College ID and PIN strictly confidential.

Prerequisites
A prerequisite is a requirement students must fulfill before registering in a course. Unless otherwise noted, a minimum “C-” or an “S” grade in the prerequisite course is required. As well as courses, prerequisites may include minimum scores on placement or diagnostic tests, departmental permission, or acceptance into a particular program. Students must ensure that prerequisites not completed at Langara College are entered in their file. Transfer credit is not automatically granted; students must apply for transfer credit.

To request transfer credit, students must submit to the Registrar’s Office:
- a completed Transfer Credit Request Form (available from the Registrar’s Office or at www.langara.bc.ca);
- an official transcript from the transferring institution;
- course outlines for courses completed outside BC; and
- the appropriate fees.

The deadline for transfer credit required to meet prerequisite requirements is ten weeks before the semester begins.

The registration system verifies prerequisite requirements and does not allow students to register into courses if prerequisites are not met.

Secondary School Course Prerequisites
To have secondary school prerequisites put on their Langara student file, students must provide the Registrar’s Office with an official secondary school transcript. Students currently in BC Grade 12 may request that the Ministry of Education electronically send their transcript to Langara College.

Post-Secondary School Course Prerequisites (Transfer Credit)
Post-secondary school courses are not automatically added to the Langara student file. Students must request that Langara evaluate their previous courses for transfer credit.

To have post-secondary school prerequisites put on their Langara student file, students must submit a Transfer Credit Request Form and an official transcript at least two months prior to the beginning of the semester.

NOTE: A department may exclude a student from a course when that student’s skills make the course clearly unnecessary for proceeding into advanced levels in the same subject.

Registration on a Non-Credit Basis (Audit)
Qualified students who have the necessary prerequisites may take courses on a non-credit basis (this does not include restricted career program courses). The course name and number is noted on a student's record with the symbol (*) indicating the course was taken on a non-credit, ungraded basis. All registrations for courses taken on a non-credit basis must be done in person at the Registrar's Office after the first day of classes. Fees for non-credit registration are the same as for credit registration.

Langara College will not permit changing a registration from a non-credit to a credit basis or from a credit to a non-credit basis for any reason after the student’s original registration.
Registration for Returning Students
Returning students register at an assigned registration date and time each semester. Registration times for Arts & Science students are determined using a combination of the number of credits completed and their Langara College cumulative grade point average. Students registering in the semester immediately following their first semester at Langara College register according to their date of application to the College. Returning career program students register by program and program term.

Students can obtain their registration time by logging into my.Langara two weeks before registration commences each semester.

NOTE:
- Credit will be granted for a “D” grade, but advancement is not permitted to the next course level without departmental approval.
- The College reserves the right to restrict or refuse registration into a course in which a grade of “D”, “F”, “N”, “U” or “W” has previously been received.
- Students who receive grades of “D”, “F”, “N”, “U”, or “W” in any of their career program courses must obtain Department Chair/Co-ordinator permission to proceed in the program.
- Students may not register for the same course more than twice in the following subject areas without receiving departmental permission: Art, History, Biology, Chemistry, Chinese, English, French, Japanese, Mathematics, Physics, Spanish, and Statistics.
- Career programs may be governed by additional departmental policies and procedures. Students must meet all program requirements to continue in the program.

Academic Standing and Registration Requirements

ACADEMIC STANDING REQUIREMENTS
Students registered in courses/programs at Langara College are expected to maintain a minimum academic standard and will be placed on academic probation or academic suspension if they fail to do so.

- Minimum Academic Standard – Semester grade point average of 1.50 or higher and no more than one letter grade of “F”, “N”, or “U” for that semester.
- Good Standing – The status of a student who is not on Academic Probation, Academic Suspension, or other suspension.

Refer to the Academic Standing – Academic Probation and Academic Suspension Policy on the College website for additional information.

ACADEMIC PROBATION
Students will be placed on academic probation if they have failed to achieve the minimum academic standard in their most recent semester.

Students on Academic Probation are permitted to register in the next semester, but they should consult a Langara College Counsellor for academic advice. The College will inform students of, and encourage them to use, other services available to support their academic studies and goals.

To return to good standing, students on academic probation must achieve the minimum academic standard in the subsequent semester. Students who do not attend Langara College immediately following the semester in which they were placed on academic probation will remain on academic probation in the next semester in which they register.

Students in career programs may be governed by additional departmental policies and procedures.

See the Langara College Academic Standing – Academic Probation and Academic Suspension Policy on the College website for additional information on academic probation.

ACADEMIC SUSPENSION
Students on academic probation who do not achieve the minimum academic standard in their next semester will be placed on academic suspension.

Students on a first academic suspension will not be permitted to register for the following three semesters. Students returning after a first academic suspension will be on academic probation when they re-register at the College. They may take a maximum of eleven credits when they re-register at the College. In Career programs and Arts & Science limited enrollment programs, the Program Coordinator or Department Chair will decide on the course load limit.

Students on Academic Suspension may return to their studies before the completion of the normal suspension period after successful completion of academic remediation. Refer to Appendix 1 of the the Langara College Academic Standing – Academic Probation and Academic Suspension Policy.

To achieve good standing, students returning after a first academic suspension must achieve the minimum academic standard in their first semester following the academic suspension. Students who do not achieve good standing will be placed on a second academic suspension, which will result in a longer stand-out period and will require an application in writing to the Registrar for re-admission to the College. Re-admission is not automatic and not guaranteed.

See the Langara College Academic Standing – Academic Probation and Academic Suspension Policy on the College website for additional information on academic suspensions.
Introduction
Langara College requires all members of the College community to conduct themselves in a manner that promotes a learning and working environment characterized by encouragement, free enquiry, integrity, mutual respect, professionalism, recognition of achievement, and social responsibility. The College community respects diversity, is civil, and provides for individual safety.

Langara College creates policies to address important issues and outline practices and expected behaviours.

Langara College students must be aware of and comply with the College policies and procedures contained in this Calendar and the semester Registration Guide and Course Schedule, in addition to those listed in the Policies section on the Langara College website.

The following list of College policies, most of which are on the College website, are relevant to students who are registered:

- Aboriginal Education: Consultation with Aboriginal Peoples
- Aboriginal Students: Access To Education and Student Support
- Academic Conduct
- Academic Standing - Academic Probation and Academic Suspension
- Appeal of Final Grade
- Bursaries
- Citizenship: Eligibility For Enrolment
- Code of Conduct
- Computer and Computing System Use
- Concerns about Instruction
- Conducting Investigations
- Course Credit: Special Consideration
- Course Outlines*
- Criminal Record Search
- Educational Offerings: Credentials
- Final Exams*
- First Nations’ Employment Equity
- Flexible Assessment
- Human Rights
- Managing Access to Student Computer Records
- Registration Fee Payment and Refund
- Rescheduling of Exams*
- Scholarships
- Services for Students with Disabilities

* For information, contact the Registrar's Office.

Student and Faculty Responsibilities
Once admitted to Langara College, students are responsible to be aware of and abide by all policies, procedures, and deadlines published in the Langara College Calendar, the Registration Guide and Course Schedule, and on the College website.

Instructors have a responsibility to provide students with frequent evaluation throughout the semester. Students have a responsibility to keep their work up-to-date so that their instructors can inform them of their progress. Instructors have a responsibility to keep regular office hours including tutorial or seminar hours where applicable. Students have a responsibility to take advantage of these times to discuss problems or questions they may have.

Attendance
Students must attend all classes, lectures, laboratories, workshops, practicums, and seminars. Irregular attendance may result in exclusion from classes. Absence for any cause in no way relieves students of their responsibility to complete the course work to the satisfaction of the instructor.

If students are unavoidably absent because of illness or some other acceptable reason, they are still responsible for class work or assignments missed. If repeated absences are due to illness, students may be asked to submit a medical certificate.

Academic Freedom
The College recognizes academic freedom. For clarification of the term academic freedom, see either a Dean of Instruction or the Dean of Student Support Services.
**Introduction**

All fees are subject to change. For information on Langara College fees, please refer to Fees on the Langara College website.

**Registration on a Non-Credit (Audit) Basis - Regular Studies**

Fees for non-credit registration are the same as for credit registration.

**Senior Citizen Tuition Fee Exemption**

Exemption from payment of tuition fees (all other fees, e.g., Students’ Union, materials, must be paid) is available to residents of BC who are 65 years of age or older. This fee exemption is applicable to courses in which there are seats available after registration has been completed. Senior citizens who wish to ensure registration in a specific course may do so by registering and paying in the same manner as a regular student.

Any senior citizen wishing to register with the tuition fee exemption must write a letter to the Dean of Student Support Services indicating what course(s), section(s) into which they wish to register.

**Fee Payment (Regular Studies)**

Fees are due by the fee payment deadline indicated in each semester’s Registration Guide. If fees are not paid by this deadline, students will be dropped from all courses. Payment for registrations completed after the fee payment deadline are due immediately after registration. Any outstanding balances following the seventh day of classes will be subject to compounding interest and late payment charges. Check the Registration Guide for details.

Please read the Registration Fee Payment and Refund Policy available on the College website.

**FEE PAYMENT OPTIONS:**

- Pay by Visa or Mastercard by logging into myLangara.
- Pay at a financial institution by Internet/telephone banking service. The student’s nine-digit Langara Identification Number is the account number. Please carefully enter this number or payment will not be posted to the correct account.
- Pay at any branch of the Bank of Montreal using a Langara College Fee Payment Form available from the Registrar’s Office or Information Kiosk.
- Pay by cheque using the Financial Services (Room B231) drop box. A Langara College Fee Payment Form must be included.

**Fee Receipts - T2202A Certificates (Tuition and Education Amounts)**

T2202A Certificates for the previous calendar year are available for viewing and printing through myLangara on the College website.

**Fee Refunds**

Check the schedule in the Registration Guide and Course Schedule for refund dates.

Please read the Registration Fee Payment and Refund Policy available on the College website for further details.

**Outstanding Debt and NSF Payments**

Late charges are applied to all overdue accounts. A $15.00 fee will be charged for NSF cheques. Students remain responsible for any outstanding balances, and if their fees are not paid by the dates indicated in the Registration Guide, interest and late payment fees will be charged. All future financial transactions within the College must be paid by cash, money order or certified cheque.

Students who have an outstanding debt to the College for any reason (non-payment of fees, library fines, overdue books, unreturned equipment, etc.) will not be permitted to register for courses, be assessed for application to other College programs, or receive any College credential or official transcript.

**CONTINUING STUDIES FEES**

Visit the Continuing Studies website for the most current course and fee information.
Assignments and Classwork
Normally, term essays, projects, and reports assigned during the semester, account for 65 to 80 percent of the grade for each course. The final examination provides an additional means of measuring achievement. Considering this, it is vital for success in any course or program at Langara College that students maintain a consistent effort in all assignments and class work. Many instructors have tutorial periods available every week, particularly for students who need extra help.

Final Examinations
To receive course credit, students must write the scheduled final examination for each course taken. The schedules are displayed prominently about the campus and on the College website at least one month before the examinations begin. To receive credit for courses, students must be available for their examinations as scheduled. It is students’ responsibility to be aware of the time and date of their final examinations. If possible, final examinations will be rescheduled upon request for any student scheduled to write:

- Two or more examinations at the same time;
- Two or more examinations each exceeding one hour in duration with an intervening break of less than 30 minutes;
- More than three examinations in one day; or
- More than four hours of examinations in one day.

Final examinations will not be rescheduled for reasons other than those noted above. Requests for rescheduling of examinations must be made on the appropriate form available from the receptionist in the Administration Office, Room B235, before 1630 hours on the date indicated on the preliminary final examination schedule.

Grade Point Average, Semester (Sem GPA)
To calculate Sem GPA, multiply the letter grade point equivalent for each course by the number of credits granted for that course. Then add up these figures for all courses and divide the total by the total of credits for all courses attempted, not including courses resulting in “S”, “SR”, “U”, or any notations - see Grades, Grade Points, and Notations.

Grade Point Average, Cumulative (CGPA)
To calculate CGPA, multiply the letter grade point equivalents for all Langara College courses completed by the number of credits granted for all courses completed. Then add up these figures for all courses and divide the total by the total of credits for all courses you have attempted, not including courses resulting in “S”, “SR”, “U”, or any notations - see Grades, Grade Points, and Notations. If students repeat a course, only the more recent grade will be used in the calculation of their grade point average; however, the original grade will remain on their record.

Withdrawals
Students wanting to discontinue a course after the published course-drop deadlines must officially withdraw from the course. Students can withdraw from courses by logging into myLangara. The “W” notation is not included in the calculation of a student’s grade point average and is not included when determining academic standing.

Once a final assessment or grade for a course has been determined, students cannot change that assessment or grade by withdrawing from the course.

The final withdrawal date is the last business day of the third month in the semester. Withdrawal dates for accelerated half-semester course sections are noted in the Registration Guide and Course Schedule.

After the final withdrawal date, an “N” grade is assigned to students who do not complete the course. In the calculation of the grade point average, an “N” grade is included and carries a grade point equivalent of 0.00.

Statement of Grades
Students can obtain their grades by viewing their academic record by logging into myLangara on the Langara College website.

Appeal of Final Grades
Appeal of a final grade must be made within 14 working days from the last day of final examinations in the semester.

For more information on appeals and deadline dates, see the Langara College Appeal of Final Grade Policy on the College website.

Please contact the Registrar’s Office for Appeal of Final Grades forms and procedures.

ACADEMIC RECORD & OFFICIAL TRANSCRIPTS

The Registrar’s Office maintains a permanent record of students’ courses, credits, grades, and notations. An official transcript is a copy of a student’s permanent record bearing both the signature of the Registrar or delegate and the seal of Langara College. There is a fee for official transcripts.

To access their academic record or to order an official transcript, students can log into myLangara. Their personal identification number (PIN) and Langara ID are required for login.

Official transcripts may also be obtained through the Registrar’s Office, in person or in writing (by mail with a cheque or credit card number or by fax with a credit card number). Students must meet all obligations relating to fees, library books or fines, and borrowed equipment before the College will release an official transcript.

Students should order a transcript well in advance of the time for which they need it; transcripts may take a week to process. Students who require additional forms from licensing boards, graduate schools, etc., to be completed may receive their transcript within seven working days; however, depending on the complexity of the information requested, additional forms may take up to eight weeks to process. Students who need an official transcript immediately after final examinations, should order it before the last day of classes.

Students who need a transcript quickly may request a “rush” transcript from the Registrar’s Office. Rush transcripts are processed by the next working day. They cannot be ordered over the Web, and they cannot be ordered for end of semester grades. There is an additional fee for this service.
## Grades, Grade Points & Notations

Langara College uses a letter system to grade your achievements.

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>GPA</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.33</td>
<td>Distinguished Achievement for consistently distinguished accomplishment in examinations, reports, and class participation. This definition applies to “A+”, “A”, and “A-”.</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
<td></td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
<td></td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
<td>Above Average Achievement for consistent mastery of the subject matter of this course. This definition applies to “B+”, “B”, and “B-”.</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
<td></td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
<td></td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
<td>Satisfactory Achievement for sufficient comprehension of the subject. This definition applies to “C+”, “C”, and “C-”.</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
<td></td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
<td></td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
<td>Marginal Performance for completion of a course but with below average achievement. (College credit will be granted, but students will not normally be permitted to proceed to the next course.)</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
<td>Unsatisfactory Achievement for completion of a course without demonstrating sufficient knowledge of the content to receive credit.</td>
</tr>
<tr>
<td>N</td>
<td>0.00</td>
<td>No Credit This grade is awarded to the student who, having registered in a course: 1. Ceases to attend or to participate in class work after the final withdrawal date: the last business day of the third month of the semester. 2. Does not write the final examination.</td>
</tr>
<tr>
<td>SR</td>
<td>-</td>
<td>Satisfactory but Restricted Student is progressing but receives no credit. Not included in the calculation of the GPA.</td>
</tr>
<tr>
<td>S</td>
<td>-</td>
<td>Satisfactory Not included in the calculation of the GPA.</td>
</tr>
<tr>
<td>U</td>
<td>-</td>
<td>Unsatisfactory Not included in the calculation of the GPA.</td>
</tr>
</tbody>
</table>

Notations and symbols are assigned only by the Registrar’s Office.

- **AEG** - Aegrotat standing.
- **DE** - Grade deferred. Extension granted for course completion.
- **NG** - No grade or credit granted. Not included in the calculation of the GPA.
- **0** - 0(zero) in the credit column indicates no credit in this course.
- **T** - Transfer credit awarded. Not included in the calculation of the GPA.
- **W** - Withdrawal. Course not included in calculation of grade point average.
- **X** - Duplicate course. Not included in the calculation of the GPA.
- ***** - Indicates that the student took the course on a non-credit basis. Not included in the calculation of the GPA.
- **#** - Grade not available at time of printing
- **@** - Registration incomplete due to non-payment of fees.
- **IP** - Course in progress
- **EX** - Exemption granted for a required course in a specific program.
CREDENTIALS

**Introduction**
Credentials are officially conferred annually at the graduation ceremonies that are held on the first Thursday in June.

To receive Bachelor Degrees, Associate Degrees, Diplomas, Certificates, or Citations, all requirements specific to each program as outlined in this Calendar must be completed. In addition, for all programs, you must complete at least 50% of the program at Langara College and this must be the final 50% of the program. Any exceptions to this regulation or to any other specified requirements of the program must receive prior approval from the Graduation Adjudication Committee through the Registrar’s Office.

**Multiple Credentials**
A student who has qualified for an associate degree, a diploma, or a certificate in one program and wishes to receive a second associate degree, diploma, or certificate in a different program may apply credits and courses from the first credential toward the requirements for the second credential where appropriate. All required courses for the second program area must be completed. A minimum of 50% of the course work applied toward the second credential must be from courses that were not used to satisfy the requirements for the first credential. In addition, the final 50% of course work in any associate degree, diploma, or certificate must be successfully completed at Langara College.

In the case of a post-diploma certificate program, there must be a minimum of 15 unique credits that were not used to satisfy the requirement for the first credential.

**Credentials**

**BACCALAUREATE DEGREE**
A baccalaureate degree requires the completion of a specific program of study requiring a minimum of 120 credit hours of university-level study.

**ASSOCIATE DEGREE**
An associate degree requires the completion of two years (at least 60 credits/20 three or more credit courses) of university-level study in a variety of academic areas. Associate degree requirements are mandated by the BC Ministry of Advanced Education.

**DIPLOMA**
A diploma requires the completion of a specific program of study, usually requiring 60 to 75 credits and a minimum of 20 three or more credit courses.

**CERTIFICATE**
A certificate requires the completion of a specific program of study, usually requiring 30 to 42 credits and a minimum of 10 courses.

**CITATION**
A citation requires the completion of a specific program of study, usually requiring 12 to 18 credits and a minimum of four courses.

See the section entitled “Credentials offered at Langara College” for a full list of our credentials.

GRADUATION

**Application for Graduation**
All students, whether in Arts & Science programs or Career programs, must apply for graduation. Applications are available from the Registrar’s Office, the Counselling Department, and the Langara College website. Students should apply for graduation immediately following completion of their program. The deadline for receipt of applications is March 15. Students completing their program in April must apply by the March 15 deadline.

**Confirmation of Graduation**
Applications for graduation are assessed upon receipt, and if the student has completed all program requirements and is eligible to receive a Langara College credential, the student will be sent a notification confirming that the credential has been granted and a notation indicating that the credential has been granted will appear on the student’s transcript. Credential parchments are awarded at the annual ceremonies for graduation held on the first Thursday in June.

**Graduation with Distinction**
Students who achieve an overall grade point average of 3.67 or greater in the final sixty credits of a degree program, the final thirty credits of an associate degree or diploma program, or the final fifteen credits of a certificate program are eligible to graduate with distinction.

**Requests for Graduation Adjudication**
Students who want to request a substitution for a program requirement or who want to request an exception to any credential or graduation requirement must write to the Graduation Adjudication Committee before March 15. Visit the Registrar’s Office website for details.
Athletics and Intramurals
The Department of Athletics and Intramurals offers a variety of activities for the student population, from intercollegiate athletics to campus recreation.

INTERCOLLEGiate ATHLETICS:
Langara College competes in the BC Colleges Athletic Association (BCCAA), which includes 14 member colleges and university-colleges from across the province. Institutions compete in the following sports for men and women: badminton, basketball, and soccer.

Langara College is also a member in good standing in the Canadian Colleges Athletic Association (CCAA), the national governing body of Intercollegiate Athletics in Canada. Over the past 35 years, the Falcons have won 22 National Championships and 148 Provincial Championships (including 57 individual badminton titles); a feat matched by few colleges in the country. Any student attending Langara College and carrying a minimum course load of 9 credit hours per semester is entitled to try out for any of the collegiate sports offered and is allowed a maximum of five years of athletic eligibility.

INTRAMURALS (CAMPUS RECREATION):
The Intramurals Program offers extensive recreational activities for students, staff and faculty all year round. In striving to meet their objectives, the Department of Athletics and Intramurals has designed recreational opportunities for fun and total participation in a relaxed environment.

Activities include basketball, badminton, volleyball, tennis, aerobics, softball, outdoor soccer and much more. Interested students can call the Director of Athletics and Intramurals at 604.323.5682 or visit the Department of Athletics and Intramurals in the gymnasium for further information. Individual day lockers, shower facilities, and towel service are available to students.

Bookstore
The Langara College Bookstore stocks texts and supplementary books for College courses as well as other books and periodicals of general interest and necessary stationery supplies. It is also the campus shop for College mugs, T-shirts, pins, cards, gift wrap, and other items of special interest to Langara College students. At the beginning of each semester, the store extends its opening hours into the evening. To encourage students to buy their texts early and avoid the rush, we offer a generous returns policy, and we buy back textbooks each semester.

For current hours, returns, buy-back policies, and other information, please check the Bookstore link on the Langara College website.

Child Development Centre
The Langara Child Development Centre is a full-time inclusive day-care centre that serves 62 children ages 18 months to five years in three separate programs—one toddler and two 3-5 years programs. We are an inclusive centre with some spaces designated for children with special needs. Priority in placement is given to students and employees of Langara College.

Government subsidy based on financial need is available through the Ministry of Human Resources.

Counselling Department
The Langara College Counselling Department responds to the needs of students by encouraging their educational success and personal growth. The counsellors are professionals trained to provide a variety of confidential counselling services.

Appointments are available between 0830 and 1700 hours Monday through Thursday and between 0830 and 1530 hours on Fridays. For an appointment, please phone the receptionist at 604.323.5221. Drop-ins are available for emergency situations or short consultations.

For current information and additional resources, please visit Counselling on the Langara College website.

CAREER COUNSELLING
Counsellors help students identify and develop their career goals through individual and group counselling. This process helps students identify their interests, abilities, values and needs; explore career information; and make career decisions.

EDUCATIONAL COUNSELLING
Counselling is provided to help students choose courses that will meet their educational goals. Current information about university-transfer courses and Langara College's career programs is maintained and provided by the Counselling Department.

PERSONAL COUNSELLING
Counselling is available to help students resolve personal issues that may affect their academic performance or well-being. Issues may include stress management, adjustment to college, interpersonal relationships, communication skills, assertiveness training, and self-esteem. Referrals are made for students requiring long-term counselling or therapy.

CAREER RESOURCE CENTRE
The Counselling Department assists students considering career options by providing information and reference material on a wide variety of occupations. The Career Resource Centre is located in the Counselling Department. A collection of college and university calendars, career literature, and information on labour market trends is available.

WORKSHOPS
The Counselling Department offers a variety of workshops to promote student success:
- Assertiveness Training
- Career Planning
- Communication Skills
- Improving your Memory
- Mature Students: Skills for Success
- Stress Management
- Study Skills
- Test Anxiety
- Time Management

Students may sign up for these free workshops in the Counselling Department.

DESIGNATED SERVICES
The Counselling Department has counsellors available to assist Aboriginal students, international students, and students with disabilities.

Disability Services and Support
GENERAL INFORMATION
Students with disabilities must have an intake appointment and provide appropriate medical documentation at least three (3) months prior to commencing studies. Students who will require books in alternate format, sign language interpreters, or Typewell services must contact the Disability Services Office at 604.123.5509 six (6) months prior to commencing studies.

The Disability Services Manager works with the student to arrange appropriate services on a case-by-case basis. When support services are being requested, students are required to register with the Disability Services Office, provide appropriate disability documentation, and sign a release form in accordance with the Freedom of Information and Protection of Privacy Act procedures.

ELIGIBILITY
Services are offered to students with permanent disabilities such as:
- Neurological Disabilities (including ADD/HD)
- Learning Disabilities
- Physical Disabilities
- Hearing Disabilities
- Visual Impairments
- Chronic Health Disabilities
- Mental Health Disorders
STUDENT SUPPORT SERVICES

- Disability Services will also assess students who have a documented temporary disability and provide assistance and/or referral.

**Disability Services can also provide assistance and support for students who suspect they may have, but have not yet been diagnosed with, a disability, including learning disabilities.

Some of the services provided for students with documented disabilities include:
- New Student Orientation
- Facilitating access to College courses, programs, and services for admissible students
- Academic advising and/or referral
- Work with students in determining and accessing academic accommodation
- Adaptive computer lab

Please contact Disability Services and/or visit our website for more information.

Students with disabilities may be eligible for grants through the Ministry of Advanced Education. Please inquire with the Financial Aid Office.

Financial Aid Department
Visit the Financial Aid section of this Calendar.

Aboriginal Students
Aboriginal students have access to the following services provided by the Manager, Services to Aboriginal Students and the Aboriginal Liaison Counsellor:
- Advocacy and liaison with Band/Tribal administrations, sponsoring agencies, community resources, Langara programs and services
- Assistance with the transition into Langara College and/or transfer to other post-secondary institutions upon completion of studies at Langara
- College Orientation

The Manager promotes the advancement of initiatives in Aboriginal Education at Langara College. The Counsellor provides confidential educational, personal, and career counselling.

Manager
Services to Aboriginal Students
Office: B142
Phone: 604.323.5645
Fax: 604.323.5590

Janet Laloge-Holme
Aboriginal Liaison Counsellor
Counselling Department: B111
Appointments: 604.323.5221

THE DAVE PEARSON CENTRE
The Dave Pearson Centre will be located in the Langara Students’ Union (LSU) building (currently under construction) and provides an academic and social support system for all Aboriginal students. An Aboriginal Student Liaison position is also elected to the LSU to represent the Aboriginal student body.

Dave Pearson Centre
Langara Students’ Union
604.324.3881

Health Services
Health Services at Langara College are highly confidential, friendly, and easily accessed. Health Services are provided to the students of Langara College with an emphasis on prevention of illness and promotion of health. Students are encouraged to access Health Services for immunizations, prevention and treatment of sexually transmitted infections, birth control counselling and supplies, and short term counselling and stress management.

Physicians are available for the assessment, diagnosis, and treatment of medical conditions. Health Services is staffed by a nurse, physicians, and a medical office assistant. A psychologist is available one day per week and a psychiatrist is available one-half day per week. The nurse and medical office assistant are first-aid trained and can assess acute injuries that happen on campus or en route to Langara College.

Health Services has pamphlets and books for student use. If Health Services can not help a student, the student will be directed to other resources.

A limited number of over-the-counter medications are available with an appointment to see either the doctor or the nurse. Health Services dispenses birth control pills and condoms.

Valid medical insurance is expected, but students are not refused service if they are temporarily without health insurance; students can be helped to obtain a BC health care card.

- Hours: Monday to Friday 0830 to 1600 hours
- Phone: 604.323.5236
- Location: ‘B’ Building, Room B101
- Emergency Number: 4444
  (internal campus line only)

Learning Centre
The Learning Centre offers courses, workshops and tutoring to help students develop skills and meet the academic expectations of college courses.

TUTORING IN THE WRITING CENTRE
Drop-in tutorial help is available in The Writing Centre, located in L208 at the south end of the new library building. Skilled tutors will be on hand for one-on-one sessions in which students will be given advice about how to improve their academic writing. Students will receive direction in how to improve grammar and mechanics, how to generate theses, how to develop expository, argumentative and research papers, and how to build essential proofreading skills. This free service is available on a drop-in, first-come-first-served basis. Students should be aware that the Writing Centre is not a proof-reading service: staff will not correct assignments.

BIOLoGY HELP CENTRE
The Biology Help Centre is available to students currently enrolled in Biology. Visit the Biology website for details.

CHEMISTRY HELP CENTRE
The Chemistry Help Centre provides drop-in tutoring for Langara students registered in Chemistry courses. Check the Chemistry website for the current schedule.

MATHEMATICS AND STATISTICS ACTIVITY CENTRE
Drop-in tutorial help for Mathematics and Statistics courses is available in the Mathematics and Statistics Activity Centre, located in Room L207 at the south end of the new library building. Help from faculty tutors is available for most courses and, at times, for lower-level courses from student peer tutors. The Centre houses resources such as computers, video tapes, reference books, and posters to support classroom activities in all Mathematics and Statistics courses. It also serves as a location for collaborative and individual study, and for the mastery testing component of our Mathematics 1100 and 1101 courses.

PHYSICS HELP CENTRE
The Physics Help Centre provides drop-in tutoring for Langara students registered in Physics courses. Current schedules will be announced in Physics classes and posted outside the Physics Lab (A352).
Library and Media Services

THE LIBRARY
The Langara College Library provides many services and resources to assist students. Resources include books, journals, magazines, newspapers, databases, and a large collection of audiovisual materials. Check the website for library resources, research help, what’s new, and additional information.

LIBRARY HOURS
Library hours may change. Please phone 604.323.5384 or check the website for current hours.

REFERENCE AND INFORMATION SERVICE
A reference librarian is available to help students use catalogues, indexes, and the Internet to locate materials and information. The Ask a Librarian service lets you chat online with or email questions to a reference librarian.

LIBRARY INSTRUCTION
Librarians offer classes that provide a foundation in library research concepts. They also teach research skills for different subjects. Other ways to learn more about library research include using the “Learn to do Research” section on the library website and asking the librarian at the reference desk for help.

COMPUTER LABS
Two drop-in computer labs (L108, L109) are available to registered students for word processing, Internet searching, and using course-related software.

LIBRARY CATALOGUE
The library catalogue, available online, lists print, audiovisual, and online materials in the Langara College Library collection.

COURSE MATERIALS ON RESERVE
Some textbooks, other books, articles, and media, which are selected by instructors, are kept on Reserve. Reserve materials may be signed out on short-term loan.

JOURNALS AND MAGAZINES
The library subscribes to many popular magazines and academic journals. These periodicals may be borrowed. Many articles are available online through the library’s subscriptions to full-text databases.

MEDIA COLLECTION
Audiovisual materials include videos, DVDs, films, audio cassettes, CDs, and CD-ROMs. Langara College’s partnership with the National Film Board makes over 2500 NFB films available on site. Many media items are available for borrowing.

BORROWING MATERIALS
To borrow library materials, students must be registered in courses at Langara. Loan periods and fines vary according to the type of item. Students are responsible for all items signed out on their card. Fines are levied on overdue materials. Students who owe fines or have outstanding materials will not be permitted to register in subsequent semesters, obtain credentials, or receive official transcripts until these debts to the College are paid.

INTER-LIBRARY LOAN SERVICE
This service is a way for students to obtain books, articles, and videos unavailable at Langara College. Students may ask for assistance at the reference desk or may use the online interlibrary loan request form.

INSTRUCTIONAL MEDIA SERVICES
Instructional Media Services (IMS) assists students with the production of materials for class presentations and assignments. Overhead transparency and lamination services can be purchased. Students are encouraged to consult staff for advice and suggestions on video or audio production for course-related projects. Equipment such as VCRs, slide and film projectors, digital video projectors, and audiostream cassette players can be scheduled for in-class presentations. IMS is located on the second floor of the Bookstore building.

Lost and Found
The Lost and Found, located in the Information Kiosk (604-323-5686), holds articles for one semester. Thereafter, they are sold to raise funds for student bursaries or given to charitable organizations for distribution.

Orientation for New Students
Orientation is an important part of enrolment. Each semester, before classes begin, the College hosts an orientation for new students. Participating in this event is an excellent way to find out more about Langara College and to prepare for college studies.

Parking
User-pay parking is in effect on campus. The north-east parking lot is reserved for employees. Unauthorized cars (those without appropriate tags) will be fined or towed away at the expense of the owners. Students with disabilities should contact the Disability Services Co-ordinator for special parking facilities.

The parkade is open for visitors and student use. Access is from the south driveway.

Parking lots and the parkade are closed at 2330 hours Monday to Friday, 1900 hours Saturday and Sunday and all statutory holidays. Vehicles remaining on site after hours will be removed at the owner’s expense.

Street parking in the surrounding area is restricted, and regulations are enforced by fines and tow-away penalties.

For details, visit the online parking information.

Registrar’s Office
The Registrar's Office provides a variety of services and information to assist students in admissions, registration, graduation, and transfer to other institutions:

- Langara College Calendars
- Applications for admission
- Admissions information
- Registration Guide and Course Schedule
- Transfer credit requests
- Enrolment verification letters and forms
- Change of name and address requests
- Official and unofficial transcripts requests
- Applications for graduation
- Replacement of credential requests
- Information about ‘holds’ on transcripts and registration
- Course outline requests
- Graduation adjudication requests

The Registrar's Office receives appeals relating to final grades, admissions, and re-admission.

Student Identification Cards
Instructional Media Services (IMS) takes photos for the Langara student photo ID cards at times and locations posted throughout the College and on the College website. All new students are entitled to one free card. Lost or stolen cards can be replaced for a fee. Students with cards that have expired can get valid date stickers at the Library. Student cards can be used as a Library card with a bar code issued by the Library, to access other College services, and to receive student discounts, where applicable.
FINANCIAL AID

Introduction
The Langara Financial Aid Department responds to the needs of currently enrolled and prospective students by attempting to reduce financial barriers that might impede educational success. Students who find themselves in a financial dilemma or an emergency are advised to come to the Financial Aid Office, Monday to Friday between 1030 and 1600 hours, and ask to speak to an advisor.

General Information
The Financial Aid Office administers a variety of assistance programs. Staff are available to help students complete various forms relating to financial assistance. Staff can also help with budgeting and advice on general financial planning. Students experiencing financial difficulties should visit the Financial Aid Office. Staff are often able to help students find solutions to financial problems. A brief description of financial support programs available at Langara College follows. For more information and/or for funding applications, please speak to the receptionist in the Financial Aid Office.

For budgeting and financial planning information, please visit www.canlearn.ca.

StudentAid BC
StudentAid BC provides assistance in the form of Canada Student Loans or a combination of Canada Student Loans, B.C. Student Loans, and possibly grant funding. The amount and type of assistance awarded is based on need as assessed by the Provincial Authority. It takes approximately six weeks to process a Student Loan application. Students are therefore advised to apply early. Submitting online applications can speed up the approval process. Students are reminded that this is an assistance program aimed at complementing, not replacing, their own financial resources. To be eligible for StudentAid BC student loan funding, students must be registered in 60% of a full course load (9 credit hours), or 40% (6 credit hours) for students with permanent disabilities. To apply for a Student Loan online or to check the status of a Student Loan, visit www.aved.gov.bc.ca/studentaidbc/

First-year students from low income families who are enrolled in programs of at least two years may be eligible for tuition assistance through the Canada Access Grant for Students from Low-Income Families. Students with permanent disabilities may be eligible for Canada Access Grants for Students with Permanent Disabilities. The grant for students with disabilities can assist with both educational costs (e.g., tuition, books, and supplies) and living costs. Speak with the Langara College Financial Aid Department or visit www.hrsc.gc.ca/en/learning/canada_student_loan/grant1.shtml for further information. These programs are administered through StudentAid BC.

Adult Basic Education Student Assistance Program (ABESAP)
ABESAP is a provincially-funded program designed to fund the direct educational costs of students enrolled in programs such as:

- Academic Upgrading (when not repeating courses for better grades)
- Pre-Vocational courses
- English Language Training
- Adult Special Education

ABESAP is intended for students who have left the secondary school system without completion and who wish to pursue upgrading. The amount of the grant awarded to the student is based on a standard needs assessment procedure.

Student Work Assistance Program (SWAP)
The Student Work Assistance Program (SWAP) provides paid employment for students who demonstrate financial need. Students must be enrolled in a minimum of nine credits. (Students with permanent disabilities who are registered with Langara College Disability Services require a minimum of six credits.) This enrolment must be maintained throughout the semester in order to remain eligible for the SWAP program.

First term students are eligible, but those students who are past their first semester must have a cumulative grade point average of 2.00.

Students should contact departments on campus to check for availability of SWAP positions or visit the “For Job Seekers” link on the Langara College website for our Student Employment postings. See the Financial Aid Department for further information.
Out-of-Province Student Loan Program
Some Student Loan applications and website addresses for other provinces and the Yukon and NorthWest Territories are available in the Financial Aid Office.

Canada Study Grant Program for High Need Part-Time Students (HNPT - CSG)
This program is designed to assist students who are required to study part-time and whose income falls below a prescribed threshold. The program is funded by the Federal Government and is limited to students who are enrolled in 20-50% of a full-time post-secondary course load. Canada Study Grant funding is designed to help with direct educational costs such as tuition and books. The amount of assistance awarded to the student is based on a standard part-time student needs assessment procedure. Students cannot be in default of past Canada Student Loans.

Canada Study Grant Program for Students with Permanent Disabilities
This program is designed to assist students who have permanent functional limitations or impairments. The awards are intended to meet expenses that are not covered by other support programs and agencies. The program is funded by the Federal Government and is available to qualified part-time post-secondary students with permanent disabilities. Student financial need eligibility is established through the standard StudentAid BC needs assessment procedure. To be eligible for the program, students must first apply for assistance through the regular StudentAid BC Student Loan and have assessed need. Any service/equipment costs must not have been covered by another source.

Emergency Loans
Emergency Loans are used to assist students when Student Loans have been approved but are delayed. In some circumstances, other types of income are used as security for an Emergency Loan; each situation is considered separately. Students in emergency situations are advised to see the receptionist in the Financial Aid office to set up an interview with an Advisor.

Langara College Scholarships
Scholarships are awarded for academic merit. In order for the competition for scholarships to be as equitable as possible, an applicant must meet certain eligibility conditions. Please check with the Financial Aid Department for these conditions. As well, scholarship recipients must satisfy any donor requirements and generally must be Canadian citizens, landed immigrants, or convention refugees with proof of status.

The Langara College scholarships include the following:

- **General Scholarships** that are available to Langara College students currently registered in a minimum of 12 credits and who were registered in a minimum of 12 credits in one of the past two semesters. Applications which may be required, can be obtained from the Financial Aid Department.
- **Departmental Scholarships** that are normally available to Langara College students registered in a minimum of 12 credits and who were registered in a minimum of 12 credits in one of the past two terms. (Exceptional circumstances may apply.) Students receive the recommendation of program faculty when they meet specific scholarship criteria. Please check with specific departments to see if an application is required.

**NOTE:**
As criteria change from time-to-time, please contact the Financial Aid Department or view the Langara College Calendar at www.langara.bc.ca for the most up-to-date scholarship information.

Langara College Bursaries
A bursary is a non-repayable award that is based on financial need and satisfactory academic standing. Bursaries may be open to students in any program or restricted to students in specific programs, courses, or terms of study. Bursary recipients must satisfy donor requirements and must be Canadian citizens, landed immigrants, or convention refugees with proof of status. Bursaries are given out for the semester in which the student makes an application. Generally, applications must be returned to the Financial Aid office by the middle of the second month of the semester. Please check with the Financial Aid Office for exact dates. All applicants will be notified of the results. Bursary applications are available from the Financial Aid Office.

Some bursaries are term-specific. Others may be awarded in any semester.

Please note that in addition to the bursaries listed at the back of this Calendar, Langara College has instituted entrance bursaries to assist students from selected secondary schools to study at the College in the September following graduation from Grade 12. Students should contact their secondary school counselling department or the Langara College Financial Aid Department for details. Langara has a limited number of entrance bursaries for mature students to begin study in any semester, for First Nations students, and for students entering the Journalism or Social Service Worker programs. Contact the Financial Aid Department for details and application forms.
**General Info**

**Theatre - Studio 58**

Studio 58, the professional theatre training program at Langara College, presents four full-length plays and two “Risky Nights” projects between October and April. All productions are designed and directed by professionals from the Vancouver theatre community. Theatre Arts students in the 4th, 5th, and 6th terms of the acting program perform in the shows, and production students, along with lower-term acting students, work backstage and provide technical support.

Ticket prices are very reasonable. ALL Studio 58 shows have two FREE preview performances for students. Reservations are advised. Call the box office at 604.323.5227 or contact TICKETS TONIGHT www.ticketstonight.ca for more information or visit the Studio 58 website at www.langara.bc.ca/studio58 for further details.

**Langara College Alumni Relations**

Alumni Relations provides programs and services that foster the involvement and participation of alumni. The Alumni Council, consisting of alumni volunteers, was formed in 1999 to develop, maintain and enhance a lifelong relationship between alumni and Langara College. Together Council members and College employees work to create community awareness.

Alumni who have completed 30 credits in Arts & Science, or who hold any approved Langara College credential, are eligible for a photo-ID card at no charge. This card provides access to special privileges and benefits listed on the College website.

Alumni are kept current on alumni news, special events, reunions, and Langara College news through the annual publication of InView. Alumni are encouraged to update their contact and personal information online through the alumni website. Nomination forms for the Outstanding Alumni Awards are also available online. Contributions to the InView newsletter and volunteers for a number of new initiatives are always welcome.

**Students’ Union**

**Introduction**

Formed in 1969, the Langara College Students’ Union is an organization composed of all registered students at Langara College. Membership in the Union begins at registration upon the payment of membership fees. Membership ceases at the end of the semester following the student’s last semester of studies.

**Function**

On campus, the primary function of the Students’ Union is the protection and advocacy of the rights and interests of its members. The Union actively works for positive change on issues affecting students directly, such as student financial assistance, and indirectly, such as world peace.

**Operations**

The Students’ Union operates as a co-operative, providing services to members. These include an inexpensive photocopy service, a student discount program and more. A new Students’ Union building is currently under construction.

**More Information**

Further information and copies of your Students’ Union Constitution and By-laws are available from the main office of the Students’ Union located in the Students’ Union trailer by the Library.

**College Advancement & Alumni Relations**

**College Advancement**

College Advancement is responsible for Alumni Relations and fundraising activities to support the College.

**LANGARA COLLEGE DEVELOPMENT**

College Advancement is responsible for identifying and cultivating potential donors for projects that will benefit the College and our students. College Advancement receives donations, bequests, funds and property in support of the students, programs and activities of Langara College, oversees the recognition and stewardship of donors, administers bequests, endowments, and trusts in support of the activities of Langara College and administers and distributes donated funds and property in support of Langara College.

Examples of fundraising projects include development of new awards (scholarships and bursaries), development of proposals seeking funding for specific College projects as developed or identified by College employees, and development of proposals for funding for unique or innovative programs or activities.

**WHY DOES LANGARA COLLEGE NEED ADDITIONAL FUNDING?**

To achieve our mission of providing accessible education that meets the needs of our diverse community and to honour our commitment, we must continually develop new programs and courses and keep up-to-date with information and educational technology, at the same time keeping costs affordable for our students - many of whom cannot depend on their families for help.

Programs: Overview

Introduction
A Langara College program consists of a planned selection of courses that together provide purposeful study towards some definite educational or occupational goal.

Arts and Science Programs
Langara College offers Arts and Science courses and programs in a variety of subject areas that can lead to a College credential. Most Arts and Science courses have transfer credit at universities in British Columbia and will transfer to other universities within Canada. Students may opt to begin with a general Arts and Science program that will allow them to take a variety of courses without having to identify at the beginning of their studies which program they want to complete. These students can determine the program they want to complete at any time during their studies and will identify their program of study when they apply for graduation.

With appropriate course selection, students may progress to an Associate of Arts Degree, Associate of Science Degree, or an Arts and Science Diploma, to specialized training in a career field, or to advanced study at other post-secondary institutions.

Arts and Science programs that do not have limited enrolment require only that you apply for the general Arts and Science Program. You will identify the program from which you want to graduate when you apply for graduation.

Arts and Science Limited Enrolment Programs
Arts and Science programs with limited enrolment require that students apply directly to the program before they begin their study at Langara. These programs may have additional admission requirements.

Priority course registration is available to students who have applied to and been accepted in certain programs of study that have limited enrolment. These limited enrolment programs are denoted by (LE) in the Arts and Science Program listing.

NOTE: Many courses within Arts and Science limited enrolment programs are available to students who are not admitted to the program. Check the course description portion of this Calendar for information on these courses and subject areas.

Interdisciplinary Studies Programs
The Department of Interdisciplinary Studies (IDS) currently offers two-year Arts and Science Diploma and Associate Degree programs that provide multidisciplinary perspectives on a variety of topics. All IDS programs subscribe to the principle that exploring issues and ideas beyond the boundaries of individual single subject areas is stimulating and informative. Interdisciplinary Studies programs are also committed to offering students unique opportunities to develop their analytical and communication skills, assets that have widespread applications.

Specific requirements for a diploma or associate degree vary from program to program, but each program allows students the opportunity to assemble a set of university-transfer courses that meet program core requirements while accommodating individual student interests. This is accomplished through a program structure that encourages students to include a wide range of optional support course selections to meet diploma requirements.

Areas of Concentration

- Canadian Studies
- Classical Studies
- Environmental Studies
- Family Studies
- Latin American Studies
- Peace and Conflict Studies
- Women's Studies

Upon completion of the first year of post-secondary studies (10 courses, 30 credits), students may make a formal declaration in writing to the Chair of the Department of Interdisciplinary Studies stating their intention to pursue a diploma or an associate degree with a concentration in an IDS program.

The selection of students to participate formally in one of the IDS programs is based upon completion of 10 courses (30 credits) and CGPA (3.0 minimum preferred) and provides priority registration in those courses needed to fulfill the diploma or associate degree requirements. Students not formally selected to participate in a departmental program may still pursue a diploma or associate degree in their selected area of concentration, but they register for all required courses according to the normal registration schedule for Arts and Science students.
External Studies Programs

These are one-semester interdisciplinary and limited enrolment programs, offered from time to time, that include several weeks of travel and study. Students will be introduced to discipline-specific studies relative to the countries in which they are travelling. Exact format will vary with each program.

Some recent examples of field studies programs include:

- European Studies (Study in Europe) (LE)
- Greek Field Studies (Study in Greece) (LE)
- Haida Gwaii Studies (LE)
- Study in Italy (LE)

For more information, visit External Studies on the Langara College website.

Institutes

These programs are one-semester intensive interdisciplinary programs addressing a single theme. A small cohort of students will explore the given theme through three discipline-specific studies. Institutes will be offered from time to time on campus. Exact format will vary with each program.

A recent example of an institute program is the Langara Environment Institute.

Career Programs

Langara College offers career programs, developed with the co-operation of community-based advisory committees, in fields that lead to careers in the arts, business, industry, and community services.

Langara offers career programs leading to one-year certificates, two-year diplomas, and four-year bachelor's degrees. Although some of Langara's career programs require that students complete the program within a specific time period, many of the programs can be completed on a part-time basis.

Students are required to apply directly to a career program, and they may be required to submit supplementary applications, letters of reference, portfolios, and/or evidence of completion of other prerequisites. Refer to program admission descriptions for details.

NOTE:
Many courses offered as part of a career program are available to students who are not admitted to the program. Check the course description portion of this Calendar for information on restrictions and prerequisites.

General Education Program

The General Education Diploma is appropriate for students who prefer a diverse selection of courses and do not necessarily plan to undertake university study. Students may select from among the basic requirements of at least 20 courses (minimum 60 credits) from any of the Langara College offerings that are eligible to be used for a Langara College credential. Students must choose a minimum of 6 credits from the offerings of the English Department.

At least six credits from the offerings of the English Department must be completed. Students who have a Langara College certificate, may transfer in the 10 courses (minimum 30 Langara credits) of Arts and Science courses from another institution provided they were earned before the completion of the certificate. The last 50% of any program must be completed at Langara College.

Some examples of co-ordinated programs include:

- Social Service Worker Co-ordinated Program
- Education Assistant Co-ordinated Program
CO-OPERATIVE EDUCATION

Introduction
Langara College Co-operative Education programs enable students to integrate academic studies with related, practical work experience. Co-op students alternate terms of classroom studies with terms of paid, full-time employment with a participating employer. The primary goal of Co-operative Education is to help students develop the hands-on skills and confidence necessary to succeed in today’s competitive job market. Co-operative Education can help break down the “no experience — no job” barrier.

Langara College’s Co-op instructors develop career-related work placements with suitable local businesses, government, and non-profit organizations. Students are strongly encouraged to start building their professional networks, thereby learning to self-market their skills and abilities. Through a competitive application, interview and selection process, students are matched with employers. Employers make the final hiring decision. Although every effort is made to arrange placements, the College cannot guarantee that a student will be selected for a placement.

Work Term
Each work term is generally four months in duration (minimum 360 hours). During each work term, the Co-op instructor monitors the progress of each student on the job.

Note: Students who are in any program may be eligible for a co-operative education experience. For further information, contact the Co-operative Education Office at 604.323.5434 or visit the office in Room A167.

Admission Requirements
To be admitted and participate in a Co-operative Education option, students must:

• Be enrolled in 3 program courses (minimum 9 credits) or more, not including BUSM 2300;
• Achieve and maintain a minimum GPA of 2.6;
• Successfully complete an employability assessment interview with a Co-op instructor; and
• Successfully complete BUSM 2300 with a “C” or higher.

Co-operative Work Term Credit
To receive full credit for a work term and to qualify for a subsequent work term, each student must:

• Receive a satisfactory evaluation from the employer’s designated work place supervisor;
• Have completed a formal work term report; and
• Remain enrolled as a student in subsequent academic terms.

Note: Credits are earned for each co-op work term. The fee for each credit is the same as for a normal academic credit. Students are responsible for all work-term related expenses such as transportation, accommodation, and meals.

Graduation
Students successfully completing all requirements for each academic term and each co-op work term (two work terms for a diploma; three to four work terms for a bachelor’s degree) in a program will be awarded a credential with a Co-operative Education designation.

ABORIGINAL STUDIES (LE)

Department: Aboriginal Studies
Division: Social Sciences
Program Type: Arts and Science Limited

OPTIONS
- Associate of Arts Degree (Area of Concentration: Aboriginal Studies)
- Arts and Science (Aboriginal Studies) Diploma
- Aboriginal Studies Post-degree Certificate

General Information
The Aboriginal Studies Program is an integrated university-transferable program that addresses historic and contemporary Aboriginal issues in Canada. The Aboriginal Studies Program is unique and comprehensive. The program welcomes all Aboriginal and non-Aboriginal students.

The Aboriginal Studies Program has been designed to maximize options for graduates. In this respect, the program curriculum adopts a unique outcome approach, providing flexible options for students in terms of employment or further post-secondary education. The Aboriginal Studies Program also strives to overcome many of the systemic barriers that can hinder the success and completion rates for many Aboriginal students. Equal emphasis is placed on developing analytical, critical thinking, and interpersonal communication skills, as well as laying a solid foundation for additional educational pursuits.

The curriculum provides students with a thorough understanding of the historic and current circumstances of Aboriginal life in Canada and internationally, while at the same time looking to the future in terms of Aboriginal self-government and community development.

The three options of study in the Aboriginal Studies Program differ in the number of credits required for each option and in that the Associate of Arts Degree option requires Math and Science. The option chosen will depend on the needs and future goals of the student. The Associate Degree and Diploma Programs can be completed in 4 semesters. The Certificate can be completed in 2 semesters. All options can be completed on a part-time basis.

A unique and integral aspect of the Aboriginal Studies Program is the seminar component in which both students and faculty participate.

The goals of these seminars are:
- To expose the students to and stimulate discussion on different topics that may or may not be covered in the classroom.
- To promote and foster a sense of community amongst the Aboriginal Studies Program students and faculty.
- To provide for open discussion and feedback from the students to assist in program evaluation and to facilitate change.
- To establish a supportive atmosphere between students and the program faculty to enhance completion/retention rates. Elders often participate in the seminars.

Program intake: September, January, and May

Admission Requirements
Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS
Completion of BC Grade 12 or equivalent or be 19 years of age or older.

One of the following:
- LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C’ grade; or an ‘S’ grade in one of ENGL 1107, 1108 or 1110.

NOTE:
Students who do not meet the above English requirements may be admitted to the program; however, students so admitted must complete all program requirements which include six credits of first-year university-transferable English to qualify for graduation. To complete all program requirements these students will be required to sit the LET in their first semester and attain appropriate test scores. Should the student not attain the appropriate score the student may be required to take remedial courses. Students admitted with a missing admission requirement will be notified in their acceptance letter of the conditions of their acceptance.

PROGRAM REQUIREMENTS
A letter of intent that outlines your reasons for wanting to enrol in this Program your educational goals and your career goals.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
(Applications will not be considered until all documents have been received.)
- Completed application for admission form.
- Official transcript(s).
- LET or LPI scores (if applicable).
- Letter of intent.

Please refer to the program application dates in the Application for Admission section in this Calendar.
**Associate Of Arts Degree (Area of Concentration: Aboriginal Studies)**

**CURRICULUM**
Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. All of the following Aboriginal Studies core courses (Total 30 credits):
   - ABST 1100, 1102, 1104, 1115, 1116, 1150, 1200, 2120
   - AND either ABST 2100 and 2101 or ABST 2230 and 2240
2. Attendance and completion of 3 of the following bi-weekly seminars:
   - ABST 1105, 1106, 1107, 1108
3. Students must also complete the general requirements of an Associate of Arts Degree including:
   - 6 credits in first-year English
   - 6 credits in Humanities (other than English)
   - 3 credits in either Mathematics, Statistics or Computer Science
   - 3 credits in Science (ABST 1207 meets this requirement)
   - 3 credits in a Lab Science (ABST 1206 meets this requirement)

Students must maintain a 2.0 or higher grade point average calculated on all courses counting towards the degree.

Elective choices must be made in consultation with the Program Co-ordinator. Please request a complete list of acceptable electives from the Co-ordinator.

**Aboriginal Studies Post-Degree Certificate**

**General Information**
Students wishing admission to the Post-Degree Certificate Program must have a university degree in an appropriate discipline. The Post-Degree Certificate is composed of 30 credits from the program's core courses. The intent of the certificate is to provide an educational option for university graduates whose work requires knowledge of Aboriginal issues.

**Admission Requirements**
Please refer to the general requirements for Admission and Application to Langara College programs.

**ACADEMIC REQUIREMENTS**
A university degree in an appropriate discipline, e.g., Social Sciences.

**DOCUMENTS REQUIRED FOR APPLICATION EVALUATION**
(Applications will not be considered until all documents have been received.)
- Completed application for admission form.
- Official transcript(s).

**APPLICATION AND SUPPORTING DOCUMENTS DEADLINE**
Applications are accepted on an ongoing basis.

**CURRICULUM**
For a Post-Degree Certificate, students must complete 30 credits from the following:
- ABST 1100, 1102, 1104, 1115, 1116, 1150, 1200, 2100, 2101, 2120, 2230, 2240

Course planning must be approved by the Program Co-ordinator.

**Arts and Science (Aboriginal Studies) Diploma**

**CURRICULUM**
Within the framework of the general requirements of the Arts and Science Diploma, students must complete the following:

1. All of the following Aboriginal Studies ‘core’ courses (Total 30 credits):
   - ABST 1100, 1102, 1104, 1115, 1116, 1150, 1200, 2120
   - AND either ABST 2100 and 2101 or ABST 2230 and 2240
2. Attendance and completion of 3 of the following bi-weekly seminars:
   - ABST 1105, 1106, 1107, 1108
3. General Diploma requirements including:
   - ENGL 1127/1128 or 1129/1130.

Elective choices must be made in consultation with the Program Co-ordinator. Please request a complete list of acceptable electives from the Co-ordinator.

**ACCOUNTING**

**Department:** Langara School of Management  
**Division:** Business and Community Programs  
**Program Type:** Career

**OPTIONS**
- Accounting Diploma
- Accounting Co-operative Education Diploma
- Bachelor of Business Administration, Accounting Concentration (see Business Administration)

**General Information**
The objective of this two-year diploma program is to prepare for careers in Accounting. Many of the program courses are eligible for university-transfer credit or exemptions for the courses offered by the Certified General Accountants Association, the Certified Management Accountants Society or the Institute of Chartered Accountants. The curriculum includes a mix of business and academic courses that provide students with both the practical skills required in accounting and proficiency in business decision-making and analysis. Graduates of this program who meet the minimum academic entrance requirements will be able to ladder into the third year of the Bachelor of Business Administration Program.

Program intake: September, January, and May

**Admission Requirements**
Students interested in this program must apply to the Bachelor of Business Administration (BBA) Program in the Langara School of Management. An Accounting Diploma is awarded upon completion of appropriate courses within the first two years (60 credits) of the BBA program. Please see the Business Administration (BBA) program information for admission requirements.
**Accounting Diploma**

**CURRICULUM**

To obtain an Accounting Diploma, students will be required to attain 60 credits.

* Compulsory for students wanting to do the co-op option. Optional for all other students in the program.

**Admission Requirements**

To be admitted and participate in the Co-operative Education Option you must:

- Be enrolled in 3 or more program courses (minimum 9 credits) not including BUSM 2300;
- Achieve and maintain a minimum GPA of 2.6
- Successfully complete an employability assessment interview with a Co-op instructor; and
- Complete BUSM 2300 with a ‘C’ or higher.

Also see Co-operative Education Programs

**Accounting Co-operative Education Diploma**

Students who wish to participate in this option must maintain above-average academic standing and demonstrate potential for success in their chosen professional field.

Usually, four-month (minimum of 360 hours) work terms are scheduled for the third and fifth terms of the program. Two work terms need to be completed for a Co-op designated diploma. Employers provide the Co-op instructors with job descriptions to be posted. Students submit their resumes via the Co-op instructor, who will submit the package to the employer and arrange job interviews. Students are also strongly encouraged to start building their professional network and be an active participant in self-marketing to source their co-op work placements.

Employers make the hiring decisions and establish the working conditions, salary and benefits. The Co-operative Education option has proven to be of great benefit to students. Students have the opportunity to apply their knowledge, to develop skills in a practical work setting, and to gain related experience before commencing their professional careers.

**CURRICULUM**

To obtain an Accounting Co-operative Education Diploma, students will be required to attain 69 credits.

**Applied Computer Science and Technology**

**Department:** Computing Science and Information Systems  
**Division:** Mathematics and Sciences  
**Program Type:** Arts and Science

**Options**

- Arts and Science (Applied Computer Science and Technology) Diploma  
- Arts and Science (Applied Computer Science and Technology) Co-operative Education Diploma

**General Information**

Langara College’s two-year Applied Computer Science and Technology Program (ACST) is a program of study leading to an Arts and Science Diploma. This university-transfer program prepares students for meeting the challenges of information technology by providing them with life-long opportunities for academic and career advancement through blended (theoretical concepts and hands-on experience) and practical (co-op placement) education.

Program intakes: January, May and September

**Admission Requirements**

Please refer to the information regarding general requirements for admission and Application to Langara College programs. Students considering this program are advised to review the Computer Studies Diploma and to consult with the Computing Science and Information Systems Coordinator of Student Affairs.

### Admission Requirements

To be admitted and participate in the Co-operative Education Option you must:
- Be enrolled in 3 or more program courses (minimum 9 credits) not including BUSM 2300;
- Achieve and maintain a minimum GPA of 2.6 in each term;
- Successfully complete an employability assessment interview with a Co-op Officer; and
- Complete BUSM 2300 with a ‘C’ or higher.

### Arts and Science (Applied Computer Science and Technology) Co-operative Education Diploma

Students who wish to participate in this option must maintain above average academic standing and demonstrate potential for success in their chosen professional field.

Usually four-month (minimum of 360 hours) work terms are scheduled. Two work terms need to be completed for a Co-operative Education designated diploma. Beginning each January, May and September, some of these work terms are extended for a total of eight months.

Employers provide the Co-op Officers with job descriptions to be posted. Students submit their resumes via the Co-op Officer who will submit the package to the employer and arrange job interviews. Students are also strongly encouraged to start building their professional network in order to source their co-op work placements.

Employers make the hiring decisions and establish the working conditions, salary and benefits. The Co-operative Education option has proven to be of great benefit to students. Students have the opportunity to apply their knowledge, to develop skills in a practical work setting, and to gain related experience before commencing their professional careers.

### NOTE:
Substitution of courses or exemptions can be made. Consult with the Department.

A student must earn a grade of ‘C’ or higher in all program courses to be eligible for the diploma. In addition, a grade of ‘C’ or higher is required in those Computer Science courses that are prerequisites to other Computer Science courses. Students must have an interview with the Program Co-ordinator.
 applied Urban and rural Planning (LE)

Division: Social Sciences
Department: Applied Urban & Rural Planning
Program Type: Arts and Science Limited
Enrolment

OPTIONS:
• Applied Urban and Rural Planning Diploma
• Applied Urban and Rural Planning (Concentration in Urban Planning) Diploma
• Applied Urban and Rural Planning (Concentration in Environmental Planning) Diploma
• Applied Urban and Rural Planning (Concentration in Rural Planning) Diploma

AREAS OF CONCENTRATION

Students in the Applied Planning Program may select from a number of diploma formats. In addition to the main program, Diploma in Applied Urban and Rural Planning, students may focus on an area of concentration:
• Urban Planning
• Environmental Planning
• Rural Planning.

Admission Requirements

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS

• Completion of BC Grade 12 or equivalent or be 19 years of age or older.
• One of the following:
  • LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with level 3) and/or 690 in one of ENGL 1107, 1108 or 1110.
  • One of the following:
    • A mathematics diagnostic Test score that fulfills the mathematics requirement before beginning the second year of the program.
    • Students must meet UNBC entry requirements. The UNBC program is accredited by the Canadian Institute of Planners.

Program graduates may be eligible to transfer to the School of Environmental Planning at UNBC to complete a degree in planning. Students must meet UNBC entry requirements. The UNBC program is accredited by the Canadian Institute of Planners.

Program intake: September

Students in the Program are eligible for student membership in the Canadian Association of Certified Planning Technicians.
PROGRAM NOTES
• Computer skills are important for students in the program. BCAP 1200 is recommended as an early elective if students need to upgrade their skills in word-processing, spreadsheets and presentation and graphics. As an alternative students may take CPSC 1000.
• Field trips are organized for some courses in the program. These are normally arranged for Fridays. Although individual commitments may prevent you from attending all field trips we recommend you attend these when possible. You will find the experience and knowledge you gain from a field trip will be an advantage for completing specific projects and courses.

Applied Urban And Rural Planning Diploma

CURRICULUM
To be eligible for the Applied Urban and Rural Planning Diploma, you must complete at least 20 courses (minimum 60 credits) including:

Students who are currently employed in a planning position may be eligible for prior learning assessment for some or all of the Applied Planning Seminars.

Most courses required for the program are offered only once per academic year. Students should plan their program of courses with this knowledge in mind. For information on the course schedule, please refer to the Department web page.

ARTS (GENERAL)
Program Type: Arts and Science

OPTIONS
• Associate of Arts Degree
• Arts and Science Diploma

ASSOCIATE OF ARTS DEGREE (A.A.)
The Associate of Arts Degree requires the successful completion of 20 courses (minimum 60 credits) that have assigned or unassigned credit at Simon Fraser University, the University of British Columbia, the University of Victoria, or the University of Northern British Columbia.

Within the 20 courses (at least 60 credits), you must complete:

1. 6 credits in first-year English;
2. 36 credits in Arts (including a minimum of 18 credits in Arts at the second-year level taken in two or more subject areas) which must include:
   a. 6 credits in the Social Sciences;
   b. 6 credits in Humanities (including the Creative and Performing Arts) other than English;
   c. 24 additional credits in Arts;
3. 9 credits in Science which shall include at least:
   a. 3 credits in Mathematics or Computing Science or Statistics;
   b. 3 credits in a laboratory science;
4. 9 credits of first- or second-year courses (You may include university-transfer credit from career program and Human Kinetics and Recreation courses);
5. the last 50% of the courses used towards the associate degree at Langara College within the last five years; and
6. all courses used towards the degree with a cumulative GPA of 2.0, including a minimum GPA of 2.0 in all Langara College courses used towards the degree.

No course may be used to meet more than one of the specific requirements.

In addition to the regular Associate of Arts Degree (Arts - General), Langara College offers Associate of Arts Degrees in the following concentrations:
• Aboriginal Studies - Arts and Science Limited Enrollment Program*
• Asian Studies
• Canadian Studies
• Classical Studies
• Commerce and Business Studies
• Creative Writing
• English
• Environmental Studies
• Family Studies
• Geography
• Latin American Studies
• Mathematics
• Peace and Conflict Studies
• Psychology
• Women's Studies*

* Courses within these programs are available to non-limited enrolment program students.

ASSOCIATE DEGREE DEFINITIONS
FIRST-YEAR AND SECOND-YEAR COURSES
• A first-year course is defined as a course which has assigned or unassigned transfer credit at the 100-level at UBC, SFU, UVic or UNBC.
• A second-year course is defined as a course which has assigned or unassigned transfer credit at the 200 level or higher at UBC, SFU, UVic or UNBC.
• An arts course is defined to be any first- or second-year course in a subject area for which there is a Baccalaureate of Arts degree at UBC, SFU, UVic or UNBC.
• A science course is defined to be any first or second-year course in a subject area for which there is a Baccalaureate of Science degree or Baccalaureate of Applied Science degree at UBC, SFU, UVIC or UNBC. A laboratory science is one in which a substantial component of student instruction involves the study of natural phenomena.

NOTE:
For a classification of Langara College courses, i.e., humanities, arts, social science, science and lab-science, see the online course descriptions.
ARTS AND SCIENCE (GENERAL)

Arts And Science Diploma

General Requirements
See the Arts and Science Diploma Programs listing in Program Information.

Program intakes: January, May and September

DIPLOMA REQUIREMENTS
20 courses (at least 60 credits) including:
• At least 15 courses (minimum 45 credits) from the following disciplines:
  Aboriginal Studies
  Asian Studies
  Art History
  Anthropology
  Astronomy
  Biology
  Canadian Studies
  Chemistry
  Chinese
  Classical Studies
  Communications
  Computer Science
  Economics
  English (students must complete one of ENGL 1127 or ENGL 1128 and one of ENGL 1129 or ENGL 1130)
  Environmental Studies
  Family Studies
  French
  Geography
  Geology
  Greek
  History
  Japanese
  Latin
  Latin American Studies
  Mathematics
  Peace and Conflict Studies
  Philosophy
  Physics
  Political Science
  Psychology
  Religious Studies
  Sociology
  Spanish
  Statistics
  Women’s Studies.
• 15 credits from the above-mentioned courses career program courses or human kinetics and recreation courses.

NOTE:
A small number of courses such as MATH 1100 cannot be used towards a diploma. Please refer to the course description section of this Calendar.

ASIAN STUDIES

Department: Asian Studies
Division: Social Sciences
Program Type: Arts and Science

OPTIONS
• Associate of Arts Degree (Area of Concentration: Asian Studies)
• Arts and Science (Asian Studies) Diploma

General Information
When successfully completed, these programs will make the student eligible for acceptance to the second or third year of the Department of Asian Studies at UBC, or the second- or third-year level of the Faculty of Arts in most BC universities, provided all other entry requirements are also fulfilled. With the proper economics and mathematics courses taken at Langara College, the student may qualify for further studies in business at university. Students are responsible for confirming their selection of transfer courses with the appropriate university faculty.

The challenges and opportunities of an international career are many, especially if you are interested in cultural, linguistic, social and political similarities and differences among people.

Through a continuation of study at university, careers in education, research, business management, government and related areas will be more available to you.

Program intakes: January, May and September

ASSOCIATE OF ARTS DEGREE
(Area Of Concentration: Asian Studies)

CURRICULUM
Within the framework of the general requirements of the Arts and Science Diploma, students must complete at least 20 courses (minimum 60 credits) including:
1. ENGL 1127 or 1128 and ENGL 1129 or 1130
2. ASIA 1105 and 1106
3. ASIA 1100, 1101, 1130 and 1135
4. Two of the following: ASIA 2200, 2208, 2209
5. Four of the following: ASIA 1140, 1170, 1215, 1225, 1230, 1235, 1240, 1270
6. Four of the following: AHIS 1115, 1215
   CHIN 1115, 1215, 1117, 1217
   GEOG 1160
   HIST 2243
   JAEN 1115, 1215, 1117, 1217
   RELS 1120, 1210, 1215
7. Four university-transferable electives
BIOLOGY
Department: Biology
Division: Mathematics and Science
Program Type: Arts and Science

OPTIONS
- Associate of Science Degree (Area of Concentration: Ecology) (see Ecology)
- Associate of Science Degree (Area of Concentration: General Biology)
- Associate of Science Degree (Area of Concentration: Microbiology/Molecular Biology)

ASSOCIATE OF SCIENCE DEGREE (AREA OF CONCENTRATION: GENERAL BIOLOGY)

CURRICULUM
Within the framework of the general requirements of the Associate of Science Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. BIOL 1115 and 1215
   BIOL 2315 and 2415
   CHEM 1120, 1220 and 2250*
   CHEM 2316 and 2416
   ENGL 1127 or 1128
   ENGL 1129 or 1130
   MATH 1171 or 1173/1183 or 1153/1253 or 1174; and
   MATH 1271 or 1273/1283 or 1274
   PHYS 1118 and 1101 (or 1125); or PHYS 1101 (or 1125) and 1225
2. Three of the following:
   BIOL 2340
   BIOL 2350
   BIOL 2440
   BIOL 2490
3. Any one second-year Biology course
   *CHEM 2250 is optional, but it may be required to transfer a full second year to some institutions.

ASSOCIATE OF SCIENCE DEGREE (AREA OF CONCENTRATION: ECOLOGY)

CURRICULUM
Within the framework of the general requirements of the Associate of Science Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. BIOL 1115 and 1215
   BIOL 2315 and 2415
   CHEM 1120, 1220 and 2250*
   CHEM 2316 and 2416
   ENGL 1127 or 1128
   ENGL 1129 or 1130
   MATH 1171 or 1173/1183 or 1153/1253 or 1174; and
   MATH 1271 or 1273/1283 or 1274
   PHYS 1118 and 1101 (or 1125); or PHYS 1101 (or 1125) and 1225
2. Two of the following:
   BIOL 2340
   BIOL 2350
   BIOL 2440
   BIOL 2490
   *CHEM 2250 is optional, but it may be required to transfer a full second year to some institutions.

ASSOCIATE OF SCIENCE DEGREE (AREA OF CONCENTRATION: MICROBIOLOGY/MOLECULAR BIOLOGY)

CURRICULUM
Within the framework of the general requirements of the Associate of Science Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. BIOL 1115 and 1215
   BIOL 2315 and 2415
   BIOL 2380 and 2490
   CHEM 1120 and 1220 and 2250*
   CHEM 2316 and 2416
   ENGL 1127 or 1128
   ENGL 1129 or 1130
   MATH 1171 or 1173/1183 or 1153/1253 or 1174; and
   MATH 1271 or 1273/1283 or 1274
   PHYS 1118 and 1101 (or 1125); or PHYS 1101 (or 1125) and 1225
2. Three of the following:
   BIOL 2340
   BIOL 2350
   BIOL 2440
   BIOL 2490
   *CHEM 2250 is optional, but it may be required to transfer a full second year to some institutions.
The bachelor of business administration (BBA) is a four-year baccalaureate degree in business for students interested in careers in the fields of Accounting, Business, or Marketing. The degree provides a solid foundation of theory and practical knowledge with specialized courses in each of the three concentrations. The degree program is highly applied in that students work closely with organizations, applying their knowledge to business situations as they learn.

The degree program may be completed on a full-time (4 years) or part-time basis and is designed to offer maximum flexibility in delivery methods and schedules. Many courses, particularly at the third- and fourth-year level, are offered in the evenings, on weekends and online (in whole or in part).

In the final two years of the degree, students are required to undertake a practicum of 360 hours (approved business experience may be used in lieu) or the Cooperative Education option. As well, they will work as members of a cross-functional consulting team to solve a business problem or develop a business opportunity.

The BBA has concentrations in Accounting, Business Management (with an optional specialization in International Business Management) and Marketing Management.

In the first two years of the degree, students are advised to complete diploma requirements in one of the following programs: Accounting, Business Management, Financial Management, International Business Management, or Marketing Management. Students who plan their courses accordingly may opt to exit after 60 credits with their desired diploma (see specific diploma requirements in this Calendar). Students who complete all diploma and degree requirements will graduate with both credentials.

Program intakes: January, May and September

COOPERATIVE EDUCATION OPTION
Students who wish to participate in this option must maintain above-average academic standing and demonstrate potential for success in their chosen professional field.

A minimum of three work terms (360 hours each) need to be completed for a Co-op designated degree (two at the diploma level and at least one at the third- or fourth-year level). Employers provide the Co-op instructors with job descriptions to be posted. Students submit their resumes via a Co-op instructor, who will submit the package to the employer and arrange job interviews. Students are also strongly encouraged to start building their professional network and be an active participant in self-marketing to source their Co-op work placements.

Employers make hiring decisions and establish working conditions, salary and benefits. The Co-operative Education option has proven to be of great benefit to students. Students have the opportunity to apply their knowledge, to develop skills in a practical work setting, and to gain related experience before commencing their professional careers.

ADMISSION OPTIONS
There are two access routes for admission to the Bachelor of Business Administration Degree program:

• First-year Entry
• Third-year Entry

1. BACHELOR OF BUSINESS ADMINISTRATION—FIRST-YEAR ENTRY
(Includes first-year entry into the Accounting, Business Management, Financial Management, International Business Management, or Marketing Management diploma programs.)

Students may apply for admission to the first year of the degree program with the intention of completing a Bachelor of Business Administration with a concentration in Accounting, Business Management (optional International Business Management specialization), or Marketing Management AND/OR completing a Diploma in Accounting, Business Management, Financial Management, International Business Management or Marketing Management. Applicants are asked to declare a BBA concentration or diploma option on their application for admission. The Business Management concentration provides the greatest flexibility for students who wish to leave their options open in the first year.

For admission into first year, applicants must meet the following admission requirements.

ADMISSION REQUIREMENTS
Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS
• Completion of BC Grade 12 or equivalent or be 19 years of age.
• One of the following:
  • LET with a minimum level 3; LIPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an A; BC English Literature 12 with an A; a university-level English or Communications course for which Langara awards transfer credit with a minimum C grade; or an S in one of ENGL 1107, 1108 or 1110.
• Applicants pursuing the accounting concentration are required to have Principles of Math 11 with a minimum C grade within the last 3 years (or a Math Diagnostics Test (MDT) score that will allow registration into Math 1118).
• Principles of Math 11 is recommended for all other applicants.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
(Applications will not be considered until all documents have been received.)

• Completed application for admission form.
• Official transcripts (if applicable)
• LET or LIPI scores (if applicable)

Bachelor of Business Administration

CURRICULUM (FOR FIRST-YEAR ENTRY)
REGULAR AND CO-OP OPTION
To obtain a Bachelor of Business Administration Degree, students are required to complete a minimum of 123 credits. Courses may be taken on a full-time or part-time basis. Recommended course sequencing is available from the School of Management Department. Students are advised to complete diploma requirements in one of the following: Accounting, Business Management, Financial Management, International Business Management, or Marketing Management, in their first two years of study (60 credits). Once students have completed 60 credits, their academic standing will be reviewed for permission to progress into the third and fourth year of the program. Preference will be given to students achieving a minimum GPA of 2.33.
1. All courses from the following: (57 Credits)
   BCAP 1200
   BCAP 5100 or 3200
   BUSM 1285
   BUSM 1500
   BUSM 2200
   BUSM 4200
   BUSM 4300
   CMNS 1118
   CMNS 2228
   ECON 1220
   ECON 1221
   ENGL 1127 or 1128
   INTB 3100
   MARK 2100
   MARK 4250
   MATH 1118 * or 1119
   PHIL 3200
   STAT 1123
   STAT 1224 or 3223*
   *Accounting Concentration requires MATH 1118 and STAT 3223. Math 1118 requires Math 11 with a minimum 'C' grade.

   NOTE: Students are advised to review individual course descriptions for prerequisites. As not all courses will be offered in every semester, students should take care and consult with the department when planning their course schedule.

2. Seven General Education Electives (21 Credits)
   A general education elective is defined to be any university-transferable course in a subject area other than BCAP, BUSM, COOP, FMGT, INTB, or MARK that has assigned or unassigned transfer credit at UBC, SFU, UVIC, or UNBC.

3. In order to graduate, students must complete a work experience component either by a) practicum or b) Co-operative Education. (Approved business experience may be used in lieu).
   a. Practicum Option (3 Credits): BUSM 3200 (Practicum must be in subject area of concentration.)
   b. Co-operative Education Option:
      A minimum of three co-op work terms (9 credits), with at least one work term (3 credits) at the third- or fourth-year level. To be admitted and participate in the Co-operative Education Option, you must:
      • Have completed at least one Co-operative Education work term at the diploma level;
      • Be enrolled in 3 program courses (minimum 9 credits), not including BUSM 2300;
      • Have achieved and maintained a minimum GPA of 2.6;
      • Have successfully completed an employability assessment interview with a Co-op instructor; and
      • Have successfully completed BUSM 2300 with a minimum 'C' grade.

4. One of the following concentrations (42 Credits)
   A. Accounting Concentration
      • All of the following: (30 Credits)
        FMGT 1115
        FMGT 1215
        FMGT 1321
        FMGT 2294
        FMGT 2308
        FMGT 2325
        FMGT 2371
        FMGT 2421
        FMGT 2423 or elective
        FMGT 2474
      • Any two of the following: (6 Credits)
        FMGT 3121
        FMGT 3223
        FMGT 3263
        FMGT 4221
        FMGT 4225
      • Any two additional courses from category 2 above or from the following: (6 Credits) BUSM 3220
        BUSM 4100
        BUSM 4200

   B. 1. Business Management Concentration
      • All of the following: (21 Credits)
        BUSM 1100
        BUSM 3200
        BUSM 3220
        BUSM 4100
        BUSM 4120
        BUSM 4220
        FMGT 1116 or 2293
      • Seven Business Electives (21 Credits)
        • Any BCAP course, except BCAP 0012, 1112 and 1420
        • Any BUSM courses, except BUSM 2300
        • Any INTB course
        • Any MARK course
        • Any FMGT course

      Note: Students are advised to choose electives that fulfill the requirements for one of the diploma exit options: Accounting, Business Management, Financial Management, International Business Management, or Marketing Management.

   B. 2. Business Management Concentration (International Business Management Specialization)
      • All of the following: (27 Credits)
        BUSM 1100
        BUSM 3200
        BUSM 4100
        BUSM 4120
        FMGT 1116 or 2293
        INTB 1200
        INTB 2300
        INTB 2400
        INTB 2435 or 4220
      • Five Business Electives (15 Credits)
        Any BCAP course, except BCAP 0012, 1112 and 1420
        Any BUSM courses, except BUSM 2300
        Any INTB course
        Any MARK course
        Any FMGT course

      Note: Students are advised to choose electives that fulfill the requirements for one of the diploma exit options: Accounting, Business Management, Financial Management, International Business Management, or Marketing Management.

2. BACHELOR OF BUSINESS ADMINISTRATION - THIRD-YEAR ENTRY
   Students who have successfully completed a diploma in Accounting, Financial Management, Business Management, International Business Management (formerly International Business) or Marketing Management (formerly Marketing and Sales) diploma at Langara College (or who meet other admission requirements as outlined in Academic Requirements below) may apply to complete the final two years of the Bachelor of Business Administration Degree in one of the following concentrations: Accounting, Business Management (with an optional specialization in International Business Management), and Marketing Management.

   The final two years of the BBA build on the solid foundation of the Diploma programs’ courses and provides the students with additional skills in strategic management, organizational development, operations management, project management, and many specialized courses in each of the three concentrations. The program is highly applied in that students work closely with organizations, applying their knowledge to business situations as they learn.
As many of today's business students work part-time, the program is designed to offer maximum flexibility in delivery methods and schedules. Many courses are offered in the evenings and weekends, or online (in whole or in part).

Students are required to undertake either a practicum of 300 hours (approved business experience may be used in lieu) or the Co-operative Education Option. As well, they will work as members of a cross-functional consulting team preferably with a not-for-profit organization to solve a business problem or develop a business opportunity.

Admission Requirements

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS:

There are three access routes for admission to the third year of the Bachelor of Business Administration Degree. Students seeking admission must have completed at least 20 courses and a minimum of 60 credits of post-secondary studies in one of the following ways:

1. Graduation from one of the following Langara College programs:
   - Financial Management/Accounting
   - Business Management
   - Marketing Management
   - International Business Management;
   - OR

2. Graduation from another institution’s diploma program that is similar to one of the above programs (see Note 2 below); OR

3. The completion of at least 20 courses and a minimum 60 credits (see Note 2 below). These courses must be eligible to be used towards a Langara College diploma or associate degree and may be taken at either Langara College or at other institutions (or combination thereof).

NOTE 1: Students who have graduated from the Financial Management Program may need to meet with a representative of the department to determine if any bridging courses (see below) are required depending on which area of concentration is desired. Students requiring more than three bridging courses will be admitted into second year of the program until these courses are complete.

NOTE 2: Students requesting admission under categories 2 and 3 above must meet with a representative of the department to determine if some or all of the bridging courses (see below) are required for their desired program concentration. Students requiring more than three bridging courses will be admitted into second year of the program until these courses are complete. The bridging courses and all of the program courses must be completed for graduation from the degree program.

Bridging Courses

(For Third-Year Entry)

ACCOUNTING CONCENTRATION

BCAP 1200
ENGL 1127 or CMNS 1118
FMGT 1115
FMGT 1321
FMGT 2294 or 1323
FMGT 2308
FMGT 2325
FMGT 2371

CURRICULUM FOR THIRD-YEAR ENTRY BACHELOR OF BUSINESS ADMINISTRATION CONCENTRATIONS

ACCOUNTING CONCENTRATION - THIRD-YEAR ENTRY

Listed below are the courses required for graduation in the Bachelor of Business Administration in the Accounting Concentration. Although some courses in the program are required as prerequisites for others, there is considerable flexibility in the order that most courses may be taken. All students will meet with a departmental advisor (the chair or delegate) to discuss a course sequence appropriate to the student's employment and personal needs and goals.

PROGRAM PREFERENCE

Preference will be given to applicants who:
- Have completed an Accounting Business Management
- Financial Management
- International Business Management or Marketing Management (Marketing & Sales) program at Langara College;
- apply a minimum of four months prior to the intake date; and
- have a GPA of 2.33 or higher.

CURRICULUM

1. All of the following (15 Credits):
   - BCAP 3100 or 3200
   - BUSE 4200
   - BUSM 4300
   - INTB 3100
   - MKGT 2100

2. Any two of the following (6 Credits):
   - FMGT 3121
   - FMGT 3223
   - FMGT 3263
   - FMGT 4221
   - FMGT 4225

3. Any two additional courses from category 2 above or from the following (6 Credits):
   - BUSE 3200
   - BUSE 4100
   - BUSE 4120

4. All of the following (12 Credits):
   - CMNS 2228
   - ECON 1210 or 1221
   - PHIL 3200
   - STAT 3223

5. Seven General Education Electives (21 Credits): A general education elective is defined to be any university-transferable course in a subject area other than BCAP, BUSM, COOP, FMGT, INTB, or MARK that has assigned or unassigned transfer credit at UBC, SFU, UVic or UNBC.

   a. Practicum Option (3 Credits):
      - BUSM 3000

   b. Co-operative Education Option:
      - A minimum of three co-op work terms (9 credits), with at least one work term (3 credits) at the third- or fourth-year level. To be admitted and participate in the Co-operative Education Option, you must:
        - Have successfully completed BUSM 2300 with a minimum 'C' grade.
        - Be enrolled in 3 program courses (minimum 9 credits), not including BU SM 2300;
        - Have achieved and maintained a minimum GPA of 2.6 in each term;
        - Have successfully completed an employability assessment interview with a Co-op instructor; and
        - Have successfully completed BUSM 2300 with a minimum 'C' grade.

NOTE: Students are advised to review individual course descriptions for prerequisites. Not all courses will be offered in every semester; students should take care when planning their course schedule.
BUSINESS MANAGEMENT CONCENTRATION - THIRD-YEAR ENTRY

Listed below are the courses required for graduation in the Bachelor of Business Administration with a Business Management Concentration. Although some courses in the program are required as prerequisites for others, there is considerable flexibility in the order that most courses may be taken. All students will meet with a departmental advisor (the chair or delegate) to discuss a course sequence appropriate to the student’s employment and personal needs and goals.

CURRICULUM

1. All of the following (21 Credits):
   - BCAP 3100 or 3200
   - BUSM 3200
   - BUSM 4100
   - BUSM 4120
   - BUSM 4200
   - BUSM 4300
   - INTB 3100

2. All of the following (6 Credits):
   - BUSM 3220
   - INTB 4220

3. Two Business Electives from the following (6 Credits):
   - Any BCAP course (except BCAP 0012, 1112 and 1420)
   - Any BUSM course (except BUSM 2300)
   - Any INTB course
   - Any FMGT course
   - Any MARK course

4. All of the following (12 Credits):
   - CMNS 2228
   - ECON 1220 or 1221
   - PHIL 3200
   - STAT 1224 or 3223

5. Five General Education Electives (15 Credits):
   - A general education elective is defined to be any university-transferable course in a subject area other than BCAP, BUSM, COOP, FMGT, INTB, or MARK that has assigned or unassigned transfer credit at UBC, SFU, UVic or UNBC.

6. In order to graduate, students must complete a work experience component either by (a) practicum or (b) Co-operative Education. (Approved business experience may be used in lieu).
   - a. Practicum Option (3 Credits):
      - BUSM 3000
   - b. Co-operative Education Option:
      - A minimum of three co-op work terms (9 credits), with at least one work term (3 credits) at the third- or fourth-year level.

NOTE:
Students are advised to review individual course descriptions for prerequisites. Not all courses will be offered in every semester; students should take care when planning their course schedule.

BUSINESS MANAGEMENT CONCENTRATION (WITH INTERNATIONAL BUSINESS MANAGEMENT SPECIALIZATION) - THIRD-YEAR ENTRY

Listed below are the courses required for graduation in the Bachelor of Business Administration with a Business Management (International Business Management) Concentration. Although some courses in the program are required as prerequisites for others, there is considerable flexibility in the order that most courses may be taken. All students will meet with a departmental advisor (the chair or delegate) to discuss a course sequence appropriate to the student’s employment and personal needs and goals.

CURRICULUM

1. All of the following (21 Credits):
   - BCAP 3100 or 3200
   - BUSM 3200
   - BUSM 4100
   - BUSM 4120
   - BUSM 4200
   - BUSM 4300
   - INTB 3100

2. All of the following (12 Credits):
   - INTB 1200
   - INTB 2300
   - INTB 2400
   - INTB 2415 or 4220

3. All of the following (12 Credits):
   - CMNS 2228
   - ECON 1220 or 1221
   - PHIL 3200
   - STAT 1224 or 3223

NOTE:
Students are advised to review individual course descriptions for prerequisites. Not all courses will be offered in every semester; students should take care when planning their course schedule.

4. Five General Education Electives (15 Credits):
   - A general education elective is defined to be any university-transferable course in a subject area other than BCAP, BUSM, COOP, FMGT, INTB, or MARK that has assigned or unassigned transfer credit at UBC, SFU, UVic or UNBC.

5. In order to graduate, students must complete a work experience component either by (a) practicum or (b) Co-operative Education. (Approved business experience may be used in lieu).
   - a. Practicum Option (3 Credits):
      - BUSM 3000
   - b. Co-operative Education Option:
      - A minimum of three co-op work terms (9 credits), with at least one work term (3 credits) at the third- or fourth-year level.

   To be admitted and participate in the Co-operative Education Option, you must:
   - Have completed at least one Co-operative Education work term at the diploma level;
   - Be enrolled in 3 program courses (minimum 9 credits), not including BUSM 2300;
   - Have achieved and maintained a minimum GPA of 2.6 in each term;
   - Have successfully completed an employability assessment interview with a Co-op instructor; and
   - Have successfully completed BUSM 2300 with a minimum ‘C’ grade.
PROGRAMS

BUSINESS MANAGEMENT

Department: Langara School of Management
Division: Business and Community Programs
Program Type: Career

OPTIONS
• Business Management Diploma
• Business Management Co-operative Education Diploma
• Bachelor of Business Administration, Business Management Concentration (see Business Administration)
• Bachelor of Business Administration, Business Management Concentration with Optional International Business Management Specialization (see International Business Management & Business Administration)

General Information
This practical, interdisciplinary, career-oriented two-year diploma program prepares students for a variety of management positions. The Business Management Diploma program provides students with a solid grounding in a variety of business subjects including accounting, marketing, research methods in business, management principles, organizational behaviour, entrepreneurship, entrepreneurial financial management, business planning, business presentation skills, law and courses such as economics, English, communications, and mathematics of business.

Graduates of this program who meet the minimum academic entrance requirements will be able to ladder into the third year of the Bachelor of Business Administration Program.

The Business Management Diploma is designed so that students can choose to change their focus of studies within or after the first year and transfer into the Marketing Management or International Business Management program. Applicants are encouraged to apply for the Co-operative Education option during their first term in the program.

Program intake: September, January, and May.

Admission Requirements
Students interested in this program must apply to the Bachelor of Business Administration (BBA) Program in the Langara School of Management. A Business Management Diploma is awarded upon completion of appropriate courses within the first two years (60 credits) of the BBA program. Please see the Business Administration (BBA) program information for admission requirements.

CURRICULUM
1. All of the following (21 Credits):
   - BCAP 3100 or 3200
   - BUSM 3200
   - BUSM 4100
   - BUSM 4120
   - BUSM 4200
   - BUSM 4300
   - INTB 3100

2. Four of the following (12 Credits):
   - MARK 3100
   - MARK 3200
   - MARK 3210
   - MARK 3250
   - MARK 3400
   - MARK 4100
   - MARK 4220
   - MARK 4250

3. All of the following (12 Credits):
   - CMNS 2228
   - ECON 1220 or 1221
   - PHIL 3200
   - STAT 1224 or 3223

4. Five General Education Electives (15 Credits):
   - A general education elective is defined to be any university-transferable course in a subject area other than BCAP, BUSM, COOP, FMGT, INTB, or MARK that has assigned or unassigned transfer credit at UBC, SFU, UVic or UNBC.

5. In order to graduate, students must complete a work experience component either by (a) practicum or (b) Co-operative Education (Approved business experience may be used in lieu).
   - a. Practicum Option (3 Credits): BUSM3000
   - b. Co-operative Education Option:
     A minimum of three co-op work terms (9 credits), with at least one work term (3 credits) at the third- or fourth-year level. To be admitted and participate in the Co-operative Education Option, you must:
     • Have completed at least one Co-operative Education work term at the diploma level;
     • Be enrolled in 3 program courses (minimum 9 credits), not including BUSM 2300;
     • Have achieved and maintained a minimum GPA of 2.6 in each term;
     • Have successfully completed an employability assessment interview with a Co-op instructor; and
     • Have successfully completed BUSM 2300 with a minimum ‘C’ grade.

NOTE:
Students are advised to review individual course descriptions for prerequisites. Not all courses will be offered in every semester; students should take care when planning their course schedule.
BUSINESS MANAGEMENT DIPLOMA

CURRICULUM

To obtain a Business Management Diploma, students will be required to attain 60 or 63 credits as described below:

All of the following: (Total: 60 or 63 credits)

<table>
<thead>
<tr>

Two Business Electives chosen from:
- Any BCAP course (except BCAP 0012 and BCAP 1112)
- Any bUSM course (except bUSM 2300)
- Any INTB course
- Any FMGT course
- Any MARK course

Two General Education Electives:
- A general education elective is defined to be any course in a subject area other than BCAP, bUSM, COOP, FMGT, INTB or MARK that has assigned or unassigned transfer credit at UBC, SFU, UVIC or UNBC.

With prior written approval of the Business Management Department, another relevant course other than those listed above may be used as an elective.

* BUSM 2300 is a compulsory course for students wanting to do the Co-op Option and highly recommended for all other program students.

NOTE:
Substitution of courses or exemptions can be made only with Departmental permission.

BUSINESS MANAGEMENT CO-OPERATIVE EDUCATION DIPLOMA

Students who wish to participate in this option must maintain above-average academic standing and demonstrate potential for success in their chosen professional field.

Usually, four-month (minimum of 360 hours) work terms are scheduled for the third and fifth terms of the program. Two work terms need to be completed for a Co-op designated diploma.

Employers provide the Co-op instructors with job descriptions to be posted. Students submit their resumes via the Co-operative instructor, who will submit the package to the employer and arrange job interviews. Students are also strongly encouraged to start building their professional network and be an active participant in self-marketing to source their co-op work placements.

Employers make the hiring decisions and establish the working conditions, salary and benefits. The Co-operative Education option has proven to be of great benefit to students. Students have the opportunity to apply their knowledge, to develop skills in a practical work setting, and to gain related experience before commencing their professional careers.

Admission Requirements

ACADEMIC REQUIREMENTS

To be admitted and participate in the Co-operative Education Option you must:
- Be enrolled in 3 or more program courses (minimum 9 credits) not including BUSM 2300;
- Achieve and maintain a minimum GPA of 2.6 in each term;
- Successfully complete an employability assessment interview with a Co-op instructor; and
- Complete BUSM 2300 with a “C” or higher.

Also see Co-operative Education Programs.

CURRICULUM

To obtain a Business Management Co-operative Education Diploma, students will be required to attain 69 credits as described below:

All of the following: (Total: 69 credits)

<table>

</table>

NOTE:
Students are advised to review individual course descriptions for prerequisites. Not all courses will be offered in every semester; students should take care and consult with the Department when planning their course schedule.
CANADIAN STUDIES
Department: Interdisciplinary Studies
Division: Humanities
Program Type: Arts and Science

OPTIONS
• Associate of Arts Degree (Area of Concentration: Canadian Studies)
• Arts and Science (Canadian Studies) Diploma

ASSOCIATE OF ARTS DEGREE
(AREA OF CONCENTRATION: CANADIAN STUDIES)

CURRICULUM
Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:
1. Any 2 core courses of the following:
   - CnsT 1110
   - CnsT 1120
   - CnsT 1130
   - CnsT 1140
   - CnsT 1150
2. All of the following:
   - HisT 1116 and 1126
   - EnGl 1127 or 1128
   - EnGl 1129 or 1130
   - EnGl 2225
3. Any 5 courses of the following:
   (maximum of 2 courses in any one subject area)
   - ANTH 1150, 1180, 2240
   - Econ 1221
   - Fren (any French course)
   - GEOG 1120, 1130, 1150, 1155
   - Hist 1161, 2207, 2217, 2269
   - Hkin 2261
   - PhIL 2226
   - Poli 1119, 2209, 2219
   - SoCi 1121
   - WMST 1116, 1216
   or any additional Canadian Studies Courses.
4. Attendance at a three-part series of lectures on Canadian topics CnsT 1105 (0 credit - no tuition fee) or satisfactory completion of one Special Project specifically related to Canadian Studies, to be determined and supervised by the Interdisciplinary Studies Department.

ARTS AND SCIENCE
(CANADIAN STUDIES)
DIPLOMA

CURRICULUM
Within the framework of the general requirements of the Arts and Science Diploma, students must complete at least 20 courses (minimum 60 credits) including:
1. Any 2 core courses of the following:
   - CNST 1110
   - CNST 1120
   - CNST 1130
   - CNST 1140
   - CNST 1150
2. All of the following:
   - HIST 1116 and 1126
   - ENGL 1127 or 1128
   - ENGL 1129 or 1130
   - ENGL 2225
3. Any 5 courses of the following:
   (maximum of 2 courses in any one subject area)
   - ANTH 1150, 1180, 2240
   - ECON 1221
   - FREN (any French course)
   - GEOG 1120, 1130, 1150, 1155
   - HIST 1161, 2207, 2217, 2269
   - Hkin 2261
   - PHIL 2226
   - POLI 1119, 2209, 2219
   - SOCI 1121
   - WMST 1116, 1216
   or any additional Canadian Studies Courses.
4. Attendance at a three-part series of lectures on Canadian topics CnsT 1105 (0 credit - no tuition fee) or satisfactory completion of one Special Project specifically related to Canadian Studies, to be determined and supervised by the Interdisciplinary Studies Department.

CHEMISTRY
Department: Chemistry
Division: Mathematics and Sciences
Program Type: Arts and Science

ASSOCIATE OF SCIENCE
DEGREE (AREA OF CONCENTRATION: CHEMISTRY)

CURRICULUM
Within the framework of the general requirements of the Associate of Science Degree, students must complete at least 20 courses (minimum 60 credits) including:

All of the following:
1. CHEM 1120, 1220, 2222, 2224, 2316, 2416
2. ENGL 1127 or 1128, ENGL 1129 or 1130
3. One of the following Mathematics streams:
   - MATH 1153, 1253, 1271; or MATH 1171, 1271; or MATH 1173, 1183, 1273, 1283
4. MATH 2371, 2362
5. One of the following Physics streams:
   - For students who have not completed BC Physics 12: PHYS 1118 and one of PHYS 1101 or 1125.
   - For students who have completed BC Physics 12: One of PHYS 1101 or 1125, and PHYS 1225
### CHINOOK BUSINESS

Division: Business and Community Programs  
Department: Financial Management  
Program Type: Career

#### General Information

The Chinook Business program is a two-year business diploma program with some pre-Chinook Foundation Skill Building courses. The program will provide students with business fundamentals that will allow students of Aboriginal ancestry to gain the skills required for a career in business. After the pre-Chinook foundation courses are complete, students will study mathematics, economics, communications, accounting, additional business topics, and Aboriginal studies. In addition, an integrative Chinook program course is taken during these years as a visiting student at the University of British Columbia. Students also participate in a paid summer internship between years one and two. Upon completion of the program, students are able to enter the workforce. Qualified students may choose to continue their education and complete a Bachelor of Commerce (Chinook Major) degree program at the University of British Columbia.

Program intake: September

#### Admission Requirements

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

**ACADEMIC REQUIREMENTS**

- Completion of BC Grade 12 or equivalent or be 19 years of age or older.
- One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an A; BC English Literature 12 with an A; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.
- ‘C’ or higher in Mathematics 11 or a Mathematics Diagnostic Test score of 60.

**PROGRAM REQUIREMENTS**

Must be of Aboriginal ancestry. Documents Required for Application Evaluation (Applications will not be considered until all documents have been received.)

- Completed application for admission form.
- Official transcripts(s).
- LET or LPI scores (if applicable).

Please refer to the program application dates in the Application for Admission section in this Calendar.

#### Chinook Business Diploma

**Pre-Chinook Skill-Building Courses**

Students must successfully complete the following courses:

- **MATH** - Students must have the prerequisite requirements to allow registration into MATH 1174, Calculus 1 - Economic and Business Applications, in Year 1 of the program. Students who do not have Principles of Mathematics 12 with a minimum B grade or MATH 1170 with a minimum C- grade will have to take the appropriate MATH courses that will help them to meet these prerequisites. These courses may include MATH 1150, 1152, and 1170. Check the prerequisite requirements for the Langara MATH courses. Note: Students must complete MATH 1170 or Principles of Mathematics 12 within three years of attempting to register into MATH 1174.
  - BUSM 1100
  - BCAP 1200

**CURRICULUM**

Students must complete the following courses: (Total: 60 credits)

Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:
1. All of the following:
   - CLST 1110 and 1120
   - ENGL 1127 or 1128
   - ENGL 1129 or 1130
2. 1 of the following:
   - HIST 2210 and 2211
   - GREK 1115 and 1215
   - LATIN 1115 and 1117
3. At least 4 of the following:
   - AUHIS 1114, 1214
   - ANTH 1170, 1185, 2250
   - CLST 1102, 2230, 2276
   - ENGL 1181, 2237 (designated section)
   - HIST 1113, 1114, 1123, 1190, 2236, 2237
   - LATIN 1101, 2225, 2227
   - PHIL 1100, 1101 (with prior approval of Program Co-ordinator)
   - RELS 1230
   - Other such relevant courses as may be offered from time to time.
4. Registration and attendance for one semester in CLST 1105 (0 credit), a weekly colloquium on classical topics.

For more detailed information contact the Co-ordinator of Classical Studies.

ARTS AND SCIENCE (CLASSICAL STUDIES) DIPLOMA

The Arts and Science Diploma program in Classical Studies gives students an opportunity to study many aspects of the civilizations of Greece and Rome.

CURRICULUM
Within the framework of the general requirements of the Arts and Science Diploma, students must complete at least 20 courses (minimum 60 credits) including:
1. All of the following:
   - CLST 1110 and 1120
   - ENGL 1127 or 1128
   - ENGL 1129 or 1130
2. 1 of the following:
   - HIST 2210 and 2211
   - GREK 1115 and 1215
   - LATIN 1115 and 1117
3. At least 4 of the following:
   - AUHIS 1114, 1214
   - ANTH 1170, 1185, 2250
   - CLST 1102, 2230, 2276
   - ENGL 1181, 2237 (designated section)
   - HIST 1113, 1114, 1123, 1190, 2236, 2237
   - LATIN 1101, 2225, 2227
   - PHIL 1100, 1101 (with prior approval of Program Co-ordinator)
   - RELS 1230
   - Other such relevant courses as may be offered from time to time.
4. Registration and attendance for one semester in CLST 1105 (0 credit), a weekly colloquium on classical topics.

For more detailed information contact the Co-ordinator of Classical Studies.

COMMERCIAL STUDIES

Department: Financial Management
Division: Business and Community Programs
Program Type: Arts and Science and Arts and Science Limited Enrolment

OPTIONS
• Associate of Arts Degree (Area of Concentration: Commerce and Business Studies)
• Arts and Science (Commerce) Diploma (LE)

ASSOCIATE OF ARTS DEGREE (AREA OF CONCENTRATION: COMMERCE AND BUSINESS STUDIES)

CURRICULUM
Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:
1. All of the following:
   - ECON 2296, 2298
   - BUSM 2200
   - MARK 1115
   - STAT 2225
   - MATH 2310
2. UBC transfer students are also suggested to take BCAP 3200 or CSIS 2500.
3. Students planning to go to SFU should take BCAP 3200 or CSIS 2500 and BUSM 2200 and STAT 1182.

ARTS AND SCIENCE (COMMERCIAL STUDIES) DIPLOMA (LE)

The Arts and Science (Commerce) Diploma Program provides courses needed for equivalency to pre-Commerce and first-year Commerce. The diploma program in place at Langara College is geared more specifically to UBC, but if space is available and with some amendments, this program also facilitates transfer to SFU and UVic. (Please consult with a counsellor regarding requirements.)
The diploma program also provides a basis for entry into general business fields and a business-oriented direction for mathematically inclined students. The program leads to a Diploma in Arts and Science (Commerce). It is also possible for students to complete an Associate of Arts Degree with a concentration in Commerce and Business Studies.

Transfer to UBC, SFU or UVic Faculties of Commerce will depend on those institutions and each application will be considered on its merits. Students with a previous university degree should contact these universities first before applying for the Commerce transfer program.

The need to maintain a minimum cumulative grade point average (CGPA) of 3.0 cannot be overemphasized due to the highly competitive nature of admission into business faculties at all three universities.

Graduates of the Langara Arts and Science (Commerce) Program will be eligible for admission into the third year of Royal Roads University’s Bachelor of Commerce in Entrepreneurial Management Program, provided all other entrance criteria are met and space is available in the Bachelor of Commerce Program.

Graduates may also be eligible to continue at Langara College in the Bachelor of Business Administration Program upon completion of some bridging courses.

Program intake: September

Admission Requirements
Students enter this program in the second year. First-year students apply to the regular Arts and Science program and register in the courses outlined below under first and second terms. Upon completion of the first-term courses students may make application to the Commerce transfer program. Please consult with a Langara College Counsellor regarding requirements.

CURRICULUM

FIRST TERM (TOTAL: 15 CREDITS)

<table>
<thead>
<tr>
<th>Course No.</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 1127 or 1128</td>
<td>3</td>
</tr>
<tr>
<td>ECON 1220 or 1221</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1174 (Note 1)</td>
<td>3</td>
</tr>
<tr>
<td>2 Electives (Notes 2, 3 and 4)</td>
<td>6</td>
</tr>
</tbody>
</table>

SECOND TERM (TOTAL: 15 CREDITS)

<table>
<thead>
<tr>
<th>Course No.</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 1129 or 1130</td>
<td>3</td>
</tr>
<tr>
<td>ECON 1220 or 1221</td>
<td>3</td>
</tr>
<tr>
<td>3 Electives (Notes 2, 3 and 4)</td>
<td>9</td>
</tr>
</tbody>
</table>

Students may apply for the second year of the Arts and Science (Commerce) Program once the first-term courses have been completed, and they are registered in the second-term courses listed above. This program commences each September and admission is based on the student’s CGPA (3.0 minimum preferred). Admission will guarantee early registration. The remainder of the curriculum for this diploma program is as follows:

THIRD TERM (TOTAL: 15 CREDITS)

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Students are advised to contact the university they plan to attend to ensure they are aware of any changes to admission/transfer requirements.

NOTES:
1. MATH 1171 or 1173/1183 may be used in lieu of MATH 1174.
2. Students are advised not to enrol in the equivalent of UBC Commerce or UBC Statistics courses as electives. Public Speaking is a required non-credit course for UBC and must be taken there in third-year Commerce.
3. SFU transfer students do not require ECON 2296, 2298, MATH 2310, and MARK 1115 and STAT 2225, but they are required to take BCAP 3200 or CSIS 2500 and STAT 1182.
4. MATH 2310, STAT 1181 and 2225 must be completed to obtain credit for UBC’s Commerce 290 and 291. SFU requires only STAT 1181 and 1182.
5. UBC transfer students are also suggested to take BCAP 3200 or CSIS 2500.
6. This elective is not required for the Arts and Science (Commerce) Diploma; however, UBC transfer students should complete this elective (for a total of 63 credits) to fulfill the full two years of the UBC program.
ASSOCIATE OF SCIENCE DEGREE (AREA OF CONCENTRATION: COMPUTER SCIENCE)

CURRICULUM
Within the framework of the general requirements of the Associate of Science Degree, students must complete at least 23 courses (minimum 69 credits) including the following:
1. CPSC 1150 or 1155
CPSC 1160, 1181 and 1280
CPSC 2150, 2190 and 2280
MATH 1171 or MATH 1173/1183
MATH 1271 or MATH 1273/1283
MATH 2362
2. Six credits from the following: CMNS 1118, 2228, ENGL 1127 or 1128, 1129 or 1130, and 1140 (See note 3)
3. Six credits university-transferable arts (excluding English, Communications, and Mathematics)
4. 18 credits of university-transferable electives, at least three of which are in a lab science. (See notes.)

NOTES:
1. Students planning to transfer to UBC are recommended to take MATH 2371, PHYS 1125, 1225, STAT 1181, 2281 and a university-transferable Biology.
2. Students planning to transfer to SFU are recommended to take CPSC 1401, 2301, 2401, 2451, STAT 2281, and a university-transferable physical science.
3. Students planning to transfer to UVic are recommended to take MATH 2371, 2475, CPSC 1050, 2180, 2301, CMNS 1118, and ENGL 1140.

Students who wish to participate in this Co-operative Education option must maintain above-average academic standing and demonstrate potential for success in their chosen professional field.

Two work terms (minimum 360 hours) need to be completed for a Co-op designated associate degree. Work terms may be done back to back.

Employers make the hiring decisions and establish the working conditions, salary and benefits. The Co-operative Education option has proven to be of great benefit to students. Students have the opportunity to apply their knowledge, to develop skills in a practical work setting, and to gain related experience before commencing their professional careers.

ASSOCIATE OF SCIENCE DEGREE (AREA OF CONCENTRATION: COMPUTER SCIENCE CO-OPERATIVE EDUCATION)

CURRICULUM
Within the framework of the general requirements of the Associate of Science Degree, students must complete at least 23 courses (minimum 69 credits) including the following:
1. CPSC 1150 or 1155
CPSC 1160, 1181 and 1280
CPSC 2150, 2190 and 2280
MATH 1171 or MATH 1173/1183
MATH 1271 or MATH 1273/1283
MATH 2362
2. Six credits from the following: CMNS 1118, 2228, ENGL 1127 or 1128, 1129 or 1130, and 1140 (See note 3)
3. Six credits university-transferable Arts (excluding English, Communications and Mathematics)
4. 18 credits of university-transferable electives, at least three of which are in a lab science. (See notes.)
5. BUSM 2300, COOP 2301, and 2501.

NOTES:
1. Students planning to transfer to UBC are recommended to take MATH 2371, PHYS 1125, 1225, STAT 1181, 2281 and a university-transferable Biology.
2. Students planning to transfer to SFU are recommended to take CPSC 1401, 2301, 2401, 2451, STAT 2281, and a university-transferable physical science.
3. Students planning to transfer to UVic are recommended to take MATH 2371, 2475, CPSC 1050, 2180, 2301, CMNS 1118, and ENGL 1140.

Students who wish to participate in this Co-operative Education option must maintain above-average academic standing and demonstrate potential for success in their chosen professional field.

Two work terms (minimum 360 hours) need to be completed for a Co-op designated associate degree. Work terms may be done back to back. Employers make the hiring decisions and establish the working conditions, salary and benefits. The Co-operative Education option has proven to be of great benefit to students. Students have the opportunity to apply their knowledge, to develop skills in a practical work setting, and to gain related experience before commencing their professional careers.

COMPUTER STUDIES

Department: Computing Science and Information Systems
Division: Mathematics and Sciences
Program Type: Arts and Science Limited Enrolment

OPTIONS
• Computer Studies Diploma (LE)
• Computer Studies Co-operative Education Diploma (LE)
• Computer Studies Foundation Certificate (LE)
• Computer Studies Foundation Co-operative Education Internship Certificate (LE)

COMPUTER STUDIES DIPLOMA

SPECIALIZATIONS:
• Computer Engineer
• Network Security Administrator
• Software Engineer and Project Manager
• Web Developer

This two-year program prepares students for direct entry into a career in the information technology field or for university transfer to continue a baccalaureate degree. Flexible options include choosing from a variety of specializations and co-op work placements. Students may select multiple specializations within a single diploma.

Program intakes: January, May and September

ADMISSION REQUIREMENTS

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS
• Completion of BC Grade 12 or equivalent or be 19 years of age or older.
• One of the following: LET with a minimum level of 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an “A”; BC English Literature with an “A”; a university-level English or Communications course for which Langara awards transfer credit with a minimum “C-”; or an “S” in one of
ENGL 1107 or 1108 or 1110.
- Within the last three years 75 or higher on the Langara College Mathematics Diagnostic Test or “C” or higher in Mathematics 12.

**NOTE:**
- Students who do not meet the above English or Mathematics requirements may be admitted to the program as determined by the department. Students admitted with a missing admission requirement will be notified in their acceptance letter of the conditions of their acceptance and they will be required to meet with the department to plan their program of study.
- Students not meeting the English requirement will be required to sit the LET in their first semester in the program to attempt to attain a LET with a minimum level of 3. If students do not attain the required score they will be required to take English foundation courses. To remain in the program students who have completed 32 program credits must have successfully completed or be eligible to take one of ENGL 1127, ENGL 1128, CMNS 1115, or CMNS 1118.
- Students not meeting the Mathematics requirement will be required to attain the appropriate Math Diagnostic Test (MDT) score or obtain permission of the Mathematics/Statistics Department to allow them to register into the required Mathematics/Statistics courses in the program. If students do not attain the required score they will be required to take mathematics foundation courses.
- Students admitted on a conditional basis must complete all program requirements to be eligible for graduation.
- Substitution of courses or exemptions may be made. Consult with the Department.

**DOCUMENTS REQUIRED FOR APPLICATION EVALUATION**

(Applications will not be considered until all documents have been received.)
- Completed application for admission form
- Official transcript(s)
- LET or LPI scores (if applicable)

Please refer to the program application dates in the Application for Admission section in this Calendar.

**CURRICULUM**

You must complete at least 20 courses (minimum 60 credits) including:
- CPSC 1150 or 1155
- CPSC 1050 or CSIS 1300
- CPSC 1030 or 1401 or CSIS 1410
- CPSC 1160, 1181, 2228, ENGL 1127, 1128, 1129, 1130, and 1140
- 9 credits of university-transferable electives from any department, 3 credits of which must be numbered 2000 or above.
- 6 credits of electives from CSIS or CPSC numbered above 2000.

**NOTE:**
- Students must complete the following courses as their electives for a named specialization:
  3. Software Engineer and Project Manager: CPSC 2211 and CSIS 2500.
  4. Web Developer: CPSC 1030, 2211, and one of CPSC 2030 or 2130.

**COMPUTER STUDIES**

**CO-OPERATIVE EDUCATION DIPLOMA**

**SPECIALIZATIONS:**
- Computer Engineer
- Network Security Administrator
- Software Engineer and Project Manager
- Web Developer

Students who wish to participate in this option must maintain above average academic standing and demonstrate potential for success in their chosen professional field.

Usually four-month (minimum of 360 hours) work terms are scheduled. Two work-terms need to be completed for a Co-operative Education designated diploma. Beginning each January, May or September, some work terms are extended for a total of eight months. Employers provide the Co-op Officers with job descriptions to be posted. Students submit their resumes via the Co-op Officer who will submit the package to the employer and arrange job interviews.

Students are also strongly encouraged to start building their professional network and be an active participant self-marketing in order to source their co-op work placements. Employers make the hiring decisions and establish the working conditions, salary and benefits. The Co-operative Education option has proven to be of great benefit to students.

Also see Co-operative Education Programs.

**Admission Requirements**

To be admitted and participate in the Co-operative Education Option you must:
- Be enrolled in 3 or more program courses (minimum 9 credits) including BUSM 2300;
- Achieve and maintain a minimum GPA of 2.6 in each term;
- Successfully complete an employability assessment interview with a Co-op Officer; and
- Complete BUSM 2300 with “C” or higher.

Also see Co-operative Education Programs

**CURRICULUM**

You must complete at least 23 courses (minimum 69 credits) including:
- CPSC 1150 or 1155.
- CPSC 1050 or CSIS 1300.
- CPSC 1030 or 1401 or CSIS 1410.
- CPSC 1160, 1181, 2228, 1220, and 1280.
- PHIL 1102 or CPSC 1191 or 2190.
- CPSC 2261 and 2301.
- 3 credits of an approved business course (i.e., any BUSINESS, INTEGRITY, MARKETING, or FINANCE course) excluding BUSM 2300 and COOP courses.
- CPSC 2190 or a university-transferable MATH or STAT course.
- 6 credits from the following: CMNS 1115, 1118, 2228, ENGL 1127, 1128, 1129, 1130, and 1140.
- 9 credits of university-transferable electives from any department, 3 credits of which must be numbered 2000 or above.
- 6 credits of electives from CSIS or CPSC numbered above 2000.

**NOTE:**
- Students must complete the following courses as their electives for a named specialization:
  3. Software Engineer and Project Manager: CPSC 2211 and CSIS 2500.
  4. Web Developer: CPSC 1030, 2211, and one of CPSC 2030 or 2130.

**COMPUTER STUDIES FOUNDATION CERTIFICATE**

This one-year program provides a varied selection of introductory and intermediate level computing courses and can serve as the first year in the two-year Computer Studies Diploma program. An optional co-operative education internship program provides for work experience in the Information Technology field.

Program intakes: January, May, and September

**NOTE:**
- Substitution of courses or exemptions may be made. Consult with the Department.
Admission Requirements
Students interested in the Computer studies Foundation Certificate should apply to the Computer studies Diploma program.

CURRICULUM
You must complete at least 11 courses (minimum 32 credits) including:
- CPSC 1150 or 1155
- CPSC 1160 or 1181
- CPSC 1220, 1280, and 1320
- CSIS 1300
- BUSM 2300
6 credits of electives from CSIS or CPSC numbered above 1020.
3 credits from the following:
  - CMNS 1115, 1118, ENGL 1127 or 1128.
3 credits of electives from any department.

Program Type: Arts and Science

ASSOCIATE OF ARTS DEGREE
(AREA OF CONCENTRATION: CREATIVE WRITING)

CURRICULUM
Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:
1. All of the following:
   - ENGL 1126 or 1127 or 1128
   - ENGL 1129 or 1130
   - ENGL 2223
   - ENGL 2224
2. 3 credits from the following:
   - ENGL 2225
   - ENGL 2227
   - ENGL 2230
   - ENGL 2231
   - ENGL 2233
   - ENGL 2234
   - ENGL 2235
   - ENGL 2237
   - ENGL 2238
   - ENGL 2239 (ENGL 2239 is recommended for students who wish to take ENGL 2266)
   - ENGL 2327
   - ENGL 2330
   - ENGL 2430
3. 9 credits from the following:
   - ENGL 2236
   - ENGL 2246
   - ENGL 2256
   - ENGL 2266
   - ENGL 2276

CREATIVE WRITING

Department: English
Division: Humanities
Program Type: Arts and Science

CRIMINAL JUSTICE

Department: Criminal Justice
Division: Business and Community Programs
Program Type: Career

General Information
Langara College's two-year (four-term) Criminal Justice Program leads to a diploma. It prepares students for a variety of careers with public and private agencies in the field of law enforcement. It is primarily designed for those seeking an entry-level job in the field. However, individual courses may be available from time to time to non-program students at Langara College and to those who wish to upgrade their knowledge and skills in the field. It is designed to be taken full-time, but may be taken part-time with departmental permission.

The program blends university-transfer academic arts courses, skills-based courses, and practical experience. Courses are offered during the semesters beginning in January and September of each year; however, students can only enter the full-time program in September.

Program intake: September

Admission Requirements
Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS
- Completion of BC Grade 12 or equivalent or be 19 years of age or older.
- One of the following:
  - LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
(Applications will not be considered until all documents have been received.)
- Completed application for admission form.
- Official transcript(s).
- LET or LPI scores (if applicable).

Please refer to the program application dates in the Application for Admission section in this Calendar.

Program students must complete all courses in each term with a minimum of ‘C’ to enroll in the following term. In some cases, prior written approval may be granted by the Department Chair to permit a student to advance to the next term. Students who are given a waiver will be required to repeat the course to obtain the minimum ‘C’ required for graduation.

Program students will be encouraged to participate in an appropriate volunteer experience with a criminal justice agency while in the program. Students will be encouraged to attend various extracurricular activities, such as field trips and guest speaker lectures, from time to time while in the program.

NOTE:
Be sure to check the prerequisites for the Arts and Science courses that are part of the program.

DIETETICS

Department: Nutrition and Food Service Management
Division: Business and Community Programs
Program Type: Arts and Science

OPTIONS

- Associate of Science Degree (Area of Concentration: Dietetics)
- Arts and Science (Dietetics) Diploma

ASSOCIATE OF SCIENCE DEGREE (AREA OF CONCENTRATION: DIETETICS)

The Associate of Science Degree (Area of Concentration: Dietetics) Program prepares students for application to the Dietetics Program at UBC. Once students have completed 54 credits of their Associate Degree requirements and the remainder of the courses are in progress, application can be made to UBC (deadline February 28). Students planning on this program of study are advised to speak with the Department Chair of the Nutrition and Food Service Management Program prior to beginning the program.

CURRICULUM

Within the framework of the general requirements of the Associate Degree, students must complete at least 24 courses (minimum 69 credits) including:

- BIOL 1115 and 1215
- BIOL 2315 and 2415
- BIOL 2370
- CHEM 1120 and 1220
- CHEM 2316 and 2416 and 2250
- ENGL 1127 or 1128 and 1129 or 1130
- FSRV 2112 and 2212
- FSRV 3114 and 3214
- FSRV 4234 or 4323 or 4424
- PSYC 1115 and 1215; or SOCI 1120 and 1121
- STAT 1124 and 1224; or 1181 and 2225

Program students must complete all courses in each term with a minimum of ‘C’ to enroll in the following term. In some cases, prior written approval may be granted by the Department Chair to permit a student to advance to the next term. Students who are given a waiver will be required to repeat the course to obtain the minimum ‘C’ required for graduation.

Program students will be encouraged to participate in an appropriate volunteer experience with a criminal justice agency while in the program. Students will be encouraged to attend various extracurricular activities, such as field trips and guest speaker lectures, from time to time while in the program.

NOTE:
Be sure to check the prerequisites for the Arts and Science courses that are part of the program.

ARTS AND SCIENCE (DIETETICS) DIPLOMA

The Arts and Science (Dietetics) Diploma Program prepares students for application to the Dietetics Program at UBC. Once students have completed 54 credits of their diploma requirements and the remainder of the courses are in progress, application can be made to UBC (deadline Feb. 28). Students planning on this program of study are advised to speak with the Department Chair of the Nutrition and Food Service Management Program prior to beginning the program.

CURRICULUM

Within the framework of the general requirements of the Arts and Science Diploma, students must complete 21 courses including:

- BIOL 1115 and 1215
- BIOL 2315 and 2415
- BIOL 2370
- CHEM 1120 and 1220
- CHEM 2316 and 2416 and 2250
- ENGL 1127 or 1128 and 1129 or 1130
- FSRV 2112 and 2212
- FSRV 3114 and 3214
- FSRV 4234 or 4323 or 4424
- PSYC 1115 and 1215; or SOCI 1120 and 1121
- STAT 1124 and 1224; or 1181 and 2225

Program students must complete all courses in each term with a minimum of ‘C’ to enroll in the following term. In some cases, prior written approval may be granted by the Department Chair to permit a student to advance to the next term. Students who are given a waiver will be required to repeat the course to obtain the minimum ‘C’ required for graduation.

Program students will be encouraged to participate in an appropriate volunteer experience with a criminal justice agency while in the program. Students will be encouraged to attend various extracurricular activities, such as field trips and guest speaker lectures, from time to time while in the program.

NOTE:
Be sure to check the prerequisites for the Arts and Science courses that are part of the program.
Program Type: Career

General Information
This energetic two-year program is designed to appeal to the highly motivated, creative student who likes variety and challenges. The Display+Design Program teaches a unique combination of design skills that encompass areas of visual presentation and merchandising, prop building, special event design, basic interior design concepts, drafting, and basic graphic presentation skills. The creative process and problem solving are emphasized in all studio courses.

Along with these design skills, the business aspects of communications, marketing, advertising, special event planning and entrepreneurship are introduced. These skills enable the successful student to accomplish design tasks that range from the design of a stationery package, the conceptual design of retail and exhibit spaces, decor packages for special event installations through to the visual presentation and merchandising requirements of 'real world' retail businesses.

The intention of the program is to produce a flexible graduate whose versatility in the design work world will make him/her a desirable employee.

Career Potential: Display/Visual merchandising manager, Display designer, owner of a display service, freelance display artist, merchandise coordinator, Trade show/showroom designer, special events coordinator/designer, in-store marketing personnel.

Program intake: September

ADDITIONAL COSTS
All costs are approximate and are subject to change.

YEAR ONE  YEAR TWO

Textbooks: $300.00  $200.00
Personal tools and equipment: $1,300.00  $1,000.00

NOTE: Students must achieve a minimum grade of ‘C’ in ALL three studio courses in Display+Design to enrol in the next term of the program. Students are not allowed to drop any studios in this program. It should also be noted that the graphic and interior design sections of the program require further study to enter those specific areas of design.

Program Notes

ADMISSION REQUIREMENTS
Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS
- Completion of BC Grade 12 or equivalent or be 19 years of age or older.
- One of the following:
  - LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C’ grade; or an ‘S’ in one of ENGL 1107, 1108 or 1110.

PROGRAM REQUIREMENTS
- You will be given a creative assignment that you must complete and return to the Display+Design Department.

PROGRAM PREFERENCES
- Completion of secondary school or equivalent art courses.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
(Applications will not be considered until all documents have been received.)
- Completed application for admission form.
- Official transcript(s).
- LET or LPI scores (if applicable).

Please refer to the program application dates in the Application for Admission section in this Calendar.

PROGRAM NOTES
- You should expect to commit a minimum of four hours of time per studio per week in addition to class time.
- The 3-dimensional studio requires some physical effort including lifting and the use of power tools.

**EARLY CHILDHOOD EDUCATION**

Program Type: Career

**OPTIONS**
- Early Childhood Education Diploma
- Early Childhood Education: Special Education Post Basic Citation

**GENERAL INFORMATION**

In recent years there has been an increasing demand for qualified personnel to work with young children in Early Childhood programs. Employment opportunities exist in profit and non-profit childcare centres, parent participation preschools, private nursery schools and kindergartens, inclusive childcare and preschools, family day cares and other child minding services. Employment opportunities in the field of Early Childhood increase with further education and work experience.

Langara College offers a one-year, (three semesters) full-time day program that is designed to prepare students to meet the requirements of the provincial Early Childhood Education Registry. For information regarding regulatory requirements for registration as an Early Childhood Educator in British Columbia please see the Early Childhood Education Information webpage at www.mcf.gov.bc.ca/childcare/ece. The Early Childhood Education Registry can also be reached by contacting the office at 1.888.338.6622.

Practical experience in a variety of Early Childhood centres is an essential part of the program.

Program intakes: January and September

**ADMISSION REQUIREMENTS**

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

**ACADEMIC REQUIREMENTS**

- Completion of BC Grade 12 or equivalent or be 19 years of age or older. If you do not have BC Grade 12 or equivalent and you are at least 19 years of age you may be accepted provided you have a minimum of 3 credits of university-transferable courses with a grade point average of 2.00 or higher.
- One of the following:
  - LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C’ or an ‘S’ in one of ENGL 1107, 1108 or 1110.

**DOCUMENTS REQUIRED FOR APPLICATION EVALUATION**

(Applications will not be considered until all documents have been received.)

- Completed application for admission and application supplement forms.
- Official transcript(s).
- Letters of reference.
- LET or LPI scores (if applicable).

Please refer to the program application dates in the Application for Admission section in this Calendar.

Late applications will be accepted if space is available.

**PROGRAM REQUIREMENTS**

- Completed Early Childhood Education application supplement form.
- A successful interview conducted by the Early Childhood Education Department.
- Demonstrated emotional maturity independence and an affinity for working with people.
- At least two letters of reference one of which indicates successful recent experience in the care of children under six years particularly with groups of preschool-aged children. The second letter may be a personal reference. Babysitting experience alone is not adequate. Experience means a minimum of 40 hours of volunteer work in the Province of British Columbia in a licensed child care centre with children six years and under.
- A demonstrated proficiency in the English language including the ability to speak, read and write clearly and correctly. English proficiency is most important as young children are in the process of acquiring language.
- A confidential medical history and TB test must be completed once acceptance has been offered. The medical history information that is provided relates only to a student’s ability to fully participate in the program curriculum and practices that includes lifting and carrying young children and physical work in child care centre. It is a legal requirement that students working with young children in licensed childcare centres attain a negative TB test result.
- Criminal Records Review. All students in Early Childhood Education programs in British Columbia must complete a Criminal Record Review prior to initial registration. Practicum agencies require evidence of a satisfactory Criminal Record Review. If you have a criminal conviction you are directed to contact the Criminal Records Review Program with the Ministry of Public Safety and Solicitor General Security Programs Division with regard to specific questions involving criminal convictions and the ability to register as an Early Childhood Educator in British Columbia.

* Practicum course for those students who have successfully completed all Basic Early Childhood Education courses and who wish to qualify for a Infant-Toddler License.

Entrance to Term II depends on completion of all courses in Term I with a minimum ‘C’ grade. Similarly, entrance to Term III depends on completion of all Term II courses with a minimum ‘C’ grade unless Department approval is given.

Completion of all courses in the program with a minimum ‘C’ grade is required to meet graduation requirements.

Term I serves as an introduction and overview of the field and an orientation to preschool and child care programs. Term II focuses on program planning with an emphasis on activities and learning experiences in various curriculum areas. In Term III, students are encouraged to put all the elements together, to organize and evaluate learning experiences, and to integrate the curriculum across all areas of programming.

Practical experience in the field in each term supports the particular learning objectives for that period, and the amount of time spent in the field increases with each term.
Early Childhood Education: Special Education Post Basic Citation

This program meets the criteria for the Early Childhood Education Registry. Early Childhood Educator: Special Education Credential. This program is offered on a part-time basis in the evenings in order to be easily accessible to employed early childhood educators.

Admission Requirements
Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

Academic Requirements
- You must hold an Early Childhood Education Certificate or Diploma from an approved institution or a valid Early Childhood Education Registry Early Childhood Educator Licence. (See Langara College Early Childhood Education Diploma Program)

Documents Required for Application Evaluation
(Applications will not be considered until all documents have been received.)
- Completed application for admission form.
- Official transcript indicating completion of an Early Childhood Education Certificate or Diploma or an official copy of your Early Childhood Education Registry Early Childhood Educator Licence.

Application and Supporting Documents Deadline
- April 15 for the September intake.
- September 30 for the January intake.

Late applications will be accepted if space is available.

Program Notes
- For information regarding regulatory requirements for registration as an Early Childhood Educator in BC, please see the Early Childhood Information webpage at www.mcf.gov.bc.ca/childcare/ce or call 1.888.338.6622.

Curriculum

First Term (Total: 6 or 7 Credits)
Course No.  Credits
ECED 2410 (optional)  1
ECED 2415  3
PSYC 2318  3

Second Term (Total: 9 Credits)
Course No.  Credits
ECED 2417  3
ECED 2418  3
ECED 2419  3

Students must obtain a minimum ‘C’ in all courses to advance to the second term and have a minimum ‘C’ in all courses in the program to receive a credential.

Ecology

Department: Biology
Division: Mathematics and Science
Program Type: Arts and Science

Options
- Associate of Science Degree (Area of Concentration: Ecology)

Associate of Science Degree (Area of Concentration: Ecology)

Curriculum

Within the framework of the general requirements of the Associate of Science Degree, students must complete at least 20 courses (minimum 60 credits) including:
1. All of the following:
   - BIOL 1115 and 1215
   - BIOL 2315 and 2415
   - BIOL 2380 and 2480
   - CHEM 1120 and 1220 and 2250 *
   - CHEM 2316 and 2416
   - ENGL 1127 or 1128
   - ENGL 1129 or 1130
   - MATH 1171 or 1173/1183 or 1153/1253 or 1174
   - MATH 1271 or 1273/1283 or 1274
   - PHYS 1118 and 1125 (or 1215); or PHYS 1121 (or 1125) and 1225
2. Two of the following:
   - BIOL 2340
   - BIOL 2350
   - BIOL 2440
   - BIOL 2450
   - CHEM 2250 is optional, but it may be required to transfer a full second year to some institutions.
EDUCATION ASSISTANT

Department: Education Assistant
Division: Creative Arts, Social Service, and Education
Program Type: Career

OPTIONS
• Education Assistant Certificate
• Education Assistant Co-ordinated Diploma

General Information
In the public school system, a movement away from segregated classrooms toward inclusive classrooms has resulted in dramatic changes in the ways students with disabilities are educated.

In this framework, there is a need to provide Education Assistants with the theoretical and practical knowledge and experience that meets the individual needs of all children. An important goal of the Education Assistant Program is to provide Langara College students with opportunities to become competent and employable educators.

The Role of the Education Assistant
Successful Education Assistants have an aptitude for working with adults and with children, are patient, interested in education and in learning, consider schools to be interesting and exciting places, and enjoy working in a world of rapidly changing ideas.

The Education Assistant performs a variety of paraprofessional duties in the public school system:
• Works under the direction of teachers, administrators, or other professionals.
• Assists in the development and implementation of individualized or group curriculum skills, behavioural support, learning support, life-skills development, and work experience.
• Assists in the modification and adaptation of curriculum to meet the individual learning needs of students.
• Attends to and provides personal assistance to students who require assistance with toileting, positioning, diapering, mobility, feeding, grooming, and dressing.
• Transfers and assists students moving to/from wheelchairs, desks, and work areas.
• Supervises students in a variety of community-based activities.
• Attends and participates in school-based team meetings (and other meetings) as required by the support teachers or school administrators.
• Participates in parent-teacher meetings where required.
• Performs other related work as required.

Program intake: September

Admission Requirements
Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS
• Completion of BC Grade 12 or equivalent. If you do not have BC Grade 12 or equivalent and you are at least 19 years of age you may be accepted providing you have a minimum of three credits of university-transferable courses with a minimum grade point average of 2.0.
• One of the following:
  LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.

PROGRAM REQUIREMENTS
• Recent volunteer or work experience in the school system with students with disabilities. Preference will be given to applicants who have 100 hours of recent volunteer experience with children with disabilities in school or related settings.
• A minimum of two recent letters certifying that volunteer experiences were successful are required. Note: Letters from relatives or friends are not acceptable.
• Good knowledge of the English language and the ability to speak and write clearly and correctly.
• Criminal Records Review. All students in the Education Assistant Program must complete a Criminal Records Review prior to the first practicum. Practicum placement facilities require evidence of a satisfactory Criminal Records Review in order for program students to work with children/adolescents in the school system.

PROGRAM PREFERENCES
• Post-secondary studies with a minimum grade point average of 2.0.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
(Applications will not be considered until all documents have been received.)
• Completed application for admission form.
• Official secondary school (Grade 12) transcript.
• Post-secondary school transcript (if applicable).
• Two letters of reference.
• LET or LPI scores (if applicable).

Please refer to the program application dates in the Application for Admission section in this Calendar.
**Education Assistant Co-ordinated Diploma**

To receive the Education Assistant Co-ordinated Diploma, students must successfully complete the Education Assistant Certificate and an additional 10 courses (minimum 30 credit hours) of arts and science courses from the following disciplines: Aboriginal Studies, Art History, Anthropology, Astronomy, Biology, Canadian Studies, Chemistry, Chinese, Classical Studies, Communications, Computer Science, Economics, English, Environmental Studies, Family Studies, French, Geography, Geology, Greek, History, Japanese, Latin, Latin American Studies, Mathematics, Pacific Rim, Peace and Conflict Studies, Philosophy, Physics, Political Science, Psychology, Religious Studies, Sociology, Spanish, Statistics, and Women’s Studies. At least six credit hours from the offerings of the English Department must be completed. Unless you transfer in courses earned before you started the Education Assistant Certificate program, you must complete the 10 courses at Langara. Refer to Co-ordinated Programs information for details.

**Engineering (LE)**

Department: Physics  
Division: Mathematics & Sciences  
Program Type: Arts and Science Limited  
Enrollment

**General Information**

The Arts and Science (Engineering) Certificate Program provides courses needed for equivalence to the first year of the University of British Columbia Applied Science Program. Most of the courses are courses that would be taken by many students planning further studies in the physical sciences at any college or university, but two of the courses, PHYS 1219 and CPSC 1090, are particular to UBC’s Applied Science program. The program is sufficient on its own for a Langara College certificate and can serve as the first year towards an Arts and Science Diploma or an Associate of Science Degree.

Transfer to UBC second-year Applied Science or to other faculties or institutions will depend on those institutions and each application will be considered on its merits. The need to maintain a high grade-point average and to demonstrate the ability to handle a heavy course load cannot be overemphasized. Generally, students who have received the Arts and Science (Engineering) Certificate and who have completed all the courses required for the certificate at Langara College are admitted with a lower GPA than would otherwise be required.

Subsequent application to UBC will require a minimum GPA of 2.5 in the 42 to 44 credits of the program, which ordinarily must be earned in the three semesters indicated. The Langara College certificate will require a minimum GPA of 2.5 in the 42 to 44 credits, which must be earned in a period of no longer than five consecutive semesters.

Program intake: September.

**Admission Requirements**

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

**Academic Requirements**

- Completion of BC Grade 12 or equivalent or be 19 years of age or older.
- One of the following: LET with a minimum level 4 or LPI with a minimum 25.
- BC English 12 or equivalent with an ‘A’ or BC English Literature 12 with an ‘A’
- a minimum ‘C’ grade in a university-level English or Communications course for which Langara gives transfer credit
- an ‘S’ in one of ENGL 1107, 1108 or 1110.
- Within the last 3 years: ‘B’ or higher in Chemistry 12 or equivalent ‘B+’ or higher in CHEM 1118 or results** on the Chemistry Diagnostic Test that will qualify you to register into CHEM 1120.
- Within the last 3 years: ‘B’ or higher in Principles of Mathematics 12 or equivalent ‘C+’ or higher in Principles of Mathematics 12 and ‘C+’ or higher in Calculus 12 or ‘C+’ or higher in MATH 1170 or 90 or higher on the Mathematics Diagnostic Test.
- Within the past 3 years: ‘B’ or higher in Principles of Physics 12 or equivalent ‘B+’ or higher in PHYS 1118.

**Program Preference**

Program preference will be given to applicants who have demonstrated that they can handle a heavy course load.

**Documents Required for Application Evaluation**

(Applications will not be considered until all documents have been received.)
- Completed application for admission form.
- Official transcript(s).
- LET or LPI scores (if applicable).

Please refer to the program application dates in the Application for Admission section in this Calendar.

**ENGLISH**

Department: English  
Division: Humanities  
Program Type: Arts and Science  

**OPTIONS**

- Associate of Arts Degree (Area of Concentration: English)
- Associate of Arts Degree (Area of Concentration: Creative Writing) (see Creative Writing)

---

**ENVIRONMENTAL STUDIES**

**CURRICULUM**

Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. All of the following:
   - ENGL 1126 or 1127 or 1128
   - ENGL 1129 or 1130
   - ENGL 2223
   - ENGL 2224

2. 12 credits from the following:
   - ENGL 2225
   - ENGL 2227
   - ENGL 2230
   - ENGL 2231
   - ENGL 2233
   - ENGL 2234
   - ENGL 2235
   - ENGL 2237
   - ENGL 2238
   - ENGL 2239
   - ENGL 2327
   - ENGL 2330
   - ENGL 2430
   - or one of ENGL 1125, 1135, 1181, 1191, 1195, 1295, 2236, 2246, 2256, 2266, 2276.

---

**ASSOCIATE OF ARTS DEGREE (AREA OF CONCENTRATION: ENGLISH)**

**CURRICULUM**

Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. All of the following (21 credits):
   - GEOG 1155
   - ENGL 1127 or 1128
   - ENGL 1129 or 1130
   - ENVS 1105, 2390, 2410, and 2470

2. 8 courses (24 credits) from the following:
   - ABST 1206, 1207, 2230, 2240
   - ANTH 1120, 1132, 1180, 2240
   - APPL 2310 (see Note 1)
   - CMNS 1115, 1118, 2228
   - ECON 1110, 1220, 1221
   - GEOG 2155, 2230, 2250
   - HIST 2215, 2217, 2260
   - PHIL 1100, 1104, 2202, 2210
   - POLI 1119, 1140, 1250, 2229, 2240, 2245
   - SOCI 2240
3. 4 (minimum 12 credits) courses from the following:
   BIOL 1115 or 1118; and 1215 or 1218
   CHEM 1117 or 1120; and 1217 or 1220
   GEOG 1190 or GEOL 1110 (see Note 2)
   GEOG 1180
4. 1 course (minimum 3 credits) in Mathematics, Computer Science, or Statistics.

NOTES:
1. Students should consult with the Langara College Calendar and the Applied Planning Co-ordinator about the prerequisites for APPL 2310.
2. At some other institutions GEOG 1190 and GEOL 1110 are considered identical courses. Students who take both GEOG 1190 and GEOL 1110 may not receive transfer credit for both courses. Please consult the BCCAT transfer guide or the Langara Geography Department.
3. When choosing courses, students should consult the Associate of Science general requirements to ensure they choose a selection of courses that meet these requirements.
4. Selection of courses is critical to those students planning to proceed beyond the two-year program. Consultation with the Environmental Studies Co-ordinator is highly advised. (For example: CHEM 1217, BIOL 1118 and 1218 transfer as science credit for non-science majors. Those considering a science degree should register in CHEM 1120 and 1220, BIOL 1115 and 1215).

ASSOCIATE OF SCIENCE DEGREE (AREA OF CONCENTRATION: ENVIRONMENTAL STUDIES)

CURRICULUM
Within the framework of the general requirements of the Associate of Science Degree, students must complete at least 20 courses (minimum 62 credits) including:
1. All of the following (minimum 21 credits):
   BIOL 1115 or 1118
   BIOL 1215 or 1218
   CHEM 1117 or 1120
   CHEM 1217 or 1220
   ENGL 1127 or 1128
   ENGL 1129 or 1130
   ENV 1025, 2390, 2410 and 2470
   GEOG 1155 and 1180
   GEOG 1190 or GEOL 1110 (see Note 5)
2. 8 courses from the following:
   ABST 1206, 1207, 2230, 2240
   ANTH 1120, 1132, 1180, 2240
   APPL 2310 (see Note 3)
   BIOL 1115, 1215, 1118, 1218, 1185, 2285, 2286, 2315, 2340, 2370, 2380, 2415, 2440, 2450, 2470, 2480, 2580
   CHEM 1117, 1120, 1217, 1220, 2222, 2224, 2227, 2250, 2316, 2416
   CMNS 1115, 1118, 2228
   ECON 1110, 1220, 1221
   ENGL 2237 (see Note 4)
   GEOG 1120, 1130, 1150, 2155, 2210, 2230, 2250, 2290
   GEOL 2205, 2207
   HIST 2215, 2217, 2260
   PHIL 1100, 1104, 2202, 2210
   POLI 1119, 1140, 1250, 2229, 2240, 2245
   SOC 2240
   STAT 1124
   Any 2 first-year, university-transfer Mathematics courses (minimum 6 credits)
   Any 2 first-year, university-transfer Physics courses (minimum 6 credits)

NOTES:
1. At some other institutions, GEOG 1190 and GEOG 1110 are considered identical courses. Students who take both GEOG 1190 and GEOG 1110 may not receive transfer credit for both courses. Please consult the BCCAT transfer guide or the Langara Geography Department.
2. When choosing courses, students should consult the Associate of Science general requirements to ensure they choose a selection of courses that meet these requirements.
3. The content of ENGL 2237 varies with the instructor and the semester. Only sections with significant Environmental Studies content may be counted towards the diploma.
4. At some other institutions, GEOG 1190 and GEOL 1110 are considered identical courses. Students who take both GEOG 1190 and GEOL 1110 may not receive transfer credit for both courses. Please consult the BCCAT transfer guide or the Langara Geography Department.
5. Students have taken STAT 1123, 1127, 1128, POLI 2219 or PHIL 1105 prior to the Fall Semester 2007 may use these courses as electives.
6. Selection of courses is critical to those students planning to proceed beyond the two-year program. Consultation with the Environmental Studies Co-ordinator is highly advised. (For example: CHEM 1217, BIOL 1118 and 1218 transfer as science credit for non-science majors. Those considering a science degree should register in CHEM 1120 and 1220, BIOL 1115 and 1215).
7. Students should consult the Langara College Calendar for the list of Environmental Studies Scholarships.

ARTS AND SCIENCE DIPLOMA (ENVIRONMENTAL STUDIES)
**EXTERNAL STUDIES**

**External Studies Programs (Field Schools)**

**General Information**

These programs are one-semester interdisciplinary and limited enrolment (LE) programs, offered from time to time, that include several weeks of travel and study. Students will be introduced to discipline specific studies relative to the countries in which they are travelling. The exact format will vary with each program.

Some recent examples of external studies programs include the following:
- Archaeology Field School (LE)
- European Studies (Study in Europe) (LE)
- Greek Field Studies (LE)
- Haida Gwaii (LE)
- Religious Studies Field School (LE)
- Study in Italy (LE)
- Study in London (LE)
- Study in Thailand (LE)

**FAMILY STUDIES**

**Department:** Interdisciplinary Studies  
**Division:** Humanities  
**Program Type:** Arts and Science

**OPTIONS**
- Associate of Arts Degree (Area of Concentration: Family Studies)  
- Arts and Science (Family Studies) Diploma

**ASSOCIATE OF ARTS DEGREE (AREA OF CONCENTRATION: FAMILY STUDIES)**

**CURRICULUM**

Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. All of the following:
   - ENGL 1127 or 1128
   - ENGL 1129 or 1130
   - ENGL 2237 (approved section) or ENGL 2225 (approved section), or ENGL 2234
   - FMST 1115
   - HIST 1155
   - PHIL 1100 or 1227
   - PSYC 2319
   - SOCI 2230

2. Any 3 of the following courses:
   - ANTH 1120
   - CLST 1102
   - CMNS 1115
   - PCCN 1202
   - PSYC 2323, 2324, 2424, 2425, 2426
   - WMST 1116 or 1216
   - WMST 1195

3. 1 of the following options:
   - Attendance in FMST 1105 (0 credit) OR completion of a supervised project on a topic related to marriage and/or family issues.
   - Any 3 of the following:
     - ANTH 1120
     - CLST 1102
     - CMNS 1115
     - PCCN 1202
     - PSYC 2323, 2324, 2424, 2425, 2426
     - WMST 1116 or 1216
     - WMST 1195

**ARTS AND SCIENCE (FAMILY STUDIES) DIPLOMA**

The two-year Family Studies Diploma Program is for individuals interested in understanding the nature of long-term relationships to further personal and/or career objectives. It is the only such program offered in the BC College system.

An Arts and Science (Family Studies) Diploma requires at least 20 courses (minimum 60 credit hours of study). Up to 15 credit hours may include courses from the career and human kinetics course selections. Students must achieve a minimum ‘C’ GPA in the program’s core course offerings to be awarded a diploma.

As part of the Interdisciplinary Studies Department, the broad range of courses provides students with a sound basis for continuing their studies in a variety of academic disciplines including Psychology, Sociology, Education, Social Work, and Family Sciences. Selections from the program’s offerings, taken in conjunction with Langara College’s Social Service Worker Certificate Program, would allow a student to complete a College Diploma in Co-ordinated Studies.

**CURRICULUM**

Within the framework of the general requirements of the Arts and Science Diploma, students must complete at least 20 courses (minimum 60 credits) including:

1. All of the following:
   - ENGL 1127 or 1128
   - ENGL 1129 or 1130
   - ENGL 2237 (approved section) or ENGL 2225 (approved section), or ENGL 2234
   - FMST 1115
   - HIST 1155
   - PHIL 1100 or 1227
   - PSYC 2319
   - SOCI 2230

2. Any 3 of the following courses:
   - ANTH 1120
   - CLST 1102
   - CMNS 1115
   - PCCN 1202
   - PSYC 2323, 2324, 2424, 2425, 2426
   - WMST 1116 or 1216
   - WMST 1195

3. 1 of the following options:
   - Attendance in FMST 1105 (0 credit) OR completion of a supervised project on a topic related to marriage and/or family issues.
Program intake: January

Program Type: Career

Department: Film Arts
Division: Creative Arts, Social Service, and Education

OPTIONS
• Film Arts (Acting) Certificate
• Film Arts (Writing) Certificate
• Film Arts (Directing) Certificate

General Information
Film Arts offers an eight-month, post-accreditation Certificate in Film Arts in three areas: Acting for the Screen, Writing for the Screen, and Directing for the Screen. The program will run January through August.

Courses in film studies, film principles, and film practice, will overlap, resulting in a creative and collaborative environment in which students will practice their skills with the other key creators of each craft area. These overlapping courses are designed so students will develop a dynamic understanding of the film making process.

Nevertheless, each Certificate will be a stand-alone program. The Film Arts Program is designed as three parallel paths, each one concentrating on its own area of expertise and resulting in a portfolio of work and a base of knowledge that will give the student a significant advantage when entering the workforce in the professional world of film production.

Students wishing to obtain a second Certificate in another stream of the Film Arts Program must take the courses unique to that Certificate. Students accepted in the Film Arts Certificate Program must take Term 1 (Spring) and Term 2 (Summer) consecutively.

Program intake: January

Admission Requirements
Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS
• ALL STREAMS:
  ENGL 1127 or 1128 and ENGL 1129 or 1130 or equivalent transfer credit with a minimum grade of 'C-'.

Students without 6 credits of university-transferable English may be considered by the Program Co-ordinator if they have one of the following:
LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an 'A'; BC English Literature 12 with an 'A'; a university-level English or Communications course for which Langara awards transfer credit with a minimum 'C-'; or an 'S' in one of ENGL 1107, 1108 or 1110.

Students admitted without the 6 credits of university-transferable English will need to complete ENGL 1127 or 1128 and 1129 or 1130 before they can register into ENGL 2230 or 2330. Completion of ENGL 2230 or 2330 is required to receive the Film Arts Certificate.

• ACTING STREAM:
A college or university theatre arts diploma in performance including first-year English or a degree educational or professional equivalent. For exceptions please see NOTE below.

• WRITING STREAM:
60 post-secondary credits including first-year English at least one second-year literature course and two creative writing courses including Introduction to Screenwriting (ENGL 2256 or equivalent) or a degree educational or professional equivalent. For exceptions please see NOTE below.

• DIRECTING STREAM:
The successful completion of 60 post-secondary credits in theatre arts fine arts or film studies including first-year English or a degree educational or professional equivalent. For exceptions please see NOTE below.

NOTE: Applicants with extensive relevant film-related experience may be able to have the requirement of 60 post-secondary credits in a particular discipline waived by the Coordinator of Film Arts dependent on a satisfactory interview and possible assessment testing in which the applicant has demonstrated that they have achieved the levels of learning (outcomes) that would otherwise be expected of applicants with 60 post-secondary credits. Please contact the Film Arts Coordinator to discuss.

PROGRAM REQUIREMENTS
ACTING STREAM:
• In addition to the academic requirements admission is dependent on the successful completion of an audition and/or interview.
• Good knowledge of the English language including the ability to speak read aloud and write clearly and correctly.

WRITING STREAM
• In addition to the academic requirements each candidate will be assessed at entry on the basis of a written portfolio. An interview may be required.
• Good knowledge of the English language including the ability to speak read aloud and write clearly and correctly.

DIRECTING STREAM:
• In addition to the academic requirements each candidate will be assessed at entry on the basis of a video portfolio of maximum six minutes to which s/he has contributed in a key creative role and/or an interview.
• Good knowledge of the English language including the ability to speak read aloud and write clearly and correctly.

PROGRAM PREFERENCES
Preference is given to candidates who have a demonstrated commitment to pursuing a career in the film industry.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
• Completed application for admission form. Please indicate whether you are applying for the Acting Stream the Writing Stream or the Directing Stream.
• Official transcript(s).
• Resume.
• For Authors: a letter of application citing your goals in joining the Film Arts Program.
• For Writers: a portfolio of a minimum ten page (maximum twenty-four page) original screenplay or part of a screenplay written by the applicant.
• For Directors: a letter of application citing your goals in joining the Film Arts Program and a video portfolio (VHS mini-dv or DVD) of maximum six minutes to which he or she has contributed in a key creative role as director, actor, cinematographer or editor. These will not be returned.

Please refer to the program application dates in the Application for Admission section in this Calendar.

Late applications will be considered if space is available.

PROGRAM NOTES
• Students will be required to pay materials fees in addition to tuition. See the Course Schedule for material fee information.
• Students will be required to purchase additional materials for their video productions.

**FINANCIAL MANAGEMENT**

**Department:** Langara School of Management  
**Division:** Business and Community Programs  
**Program Type:** Career

**OPTIONS**

- Financial Management Diploma  
- Financial Management Co-operative Education Diploma

**General Information**

The objective of this two-year diploma program is to prepare for careers in accounting and financial services. The curriculum includes a mix of business and academic courses that provide students with both the practical skills required in accounting and financial services and proficiency in business decision-making and analysis. Many of the program courses are eligible for university-transfer credit or exemptions for the courses offered by the Certified General Accountants Association, the Certified Management Accountants Society, or the Institute of Chartered Accountants. As well, many of the courses carry credit towards a professional designation in the fields of credit management, banking, trust administration, and insurance.

The program provides students with the opportunity to customize their program to suit their particular requirements. Students will be required to obtain 60 credits. Forty-five of the credits will come from compulsory courses, nine credits will come from optional financial management courses, and six credits may be academic electives. Thus students wishing to maximize their credits in either accounting or finance will be able to do so, but those interested in a general diploma in financial management will be able to pick from a variety of courses according to their interests.

**General Information**

The objective of this two-year diploma program is to prepare for careers in accounting and financial services. The curriculum includes a mix of business and academic courses that provide students with both the practical skills required in accounting and financial services and proficiency in business decision-making and analysis. Many of the program courses are eligible for university-transfer credit or exemptions for the courses offered by the Certified General Accountants Association, the Certified Management Accountants Society, or the Institute of Chartered Accountants. As well, many of the courses carry credit towards a professional designation in the fields of credit management, banking, trust administration, and insurance.

The program provides students with the opportunity to customize their program to suit their particular requirements. Students will be required to obtain 60 credits. Thus students wishing to maximize their credits in either accounting or finance will be able to do so, but those interested in a general diploma in financial management will be able to pick from a variety of courses according to their interests.

Graduates of this program who meet the minimum academic entrance requirements will be able to ladder into the third year of the Bachelor of Business Administration (BBA) Program. Those who wish to pursue the Accounting Concentration may be admitted into the BBA, but they will need to complete all the bridging courses to meet upper-division courses prerequisites. Graduates who wish to undertake one of the other concentrations should meet with the department.

Program intake: September, January, and May.

**Admission Requirements**

Students interested in this program must apply to the Bachelor of Business Administration (BBA) Program in the Langara School of Management. A Financial Management Diploma is awarded upon completion of appropriate courses within the first two years (60 credits) of the BBA program. Please see the Business Administration (BBA) program information for admission requirements.

**Financial Management Diploma**

**CURRICULUM**

To obtain a Financial Management Diploma, students will be required to attain 60 or 63 credits as described below:

**Program intake:** September, January, and May.
FINANCIAL MANAGEMENT
Co-operative Education Diploma

Students who wish to participate in this option must maintain above-average academic standing and demonstrate potential for success in their chosen professional field.

Usually, four-month (minimum of 360 hours) work terms are scheduled for the third and fifth terms of the program. Two work terms need to be completed for a Co-op designated diploma.

Employers provide the Co-op instructors with job descriptions to be posted. Students submit their resumes via the Co-op instructor, who will submit the package to the employer and arrange job interviews. Students are also strongly encouraged to start building their professional network and be an active participant in self-marketing to source their co-op work placements.

Employers make the hiring decisions and establish the working conditions, salary and benefits. The Co-operative Education option has proven to be of great benefit to students.

To be admitted and participate in the Co-operative education option, students must maintain above-average academic standing and demonstrate potential for success in their chosen professional field.

Also see Co-operative Education Programs

ADMISSION REQUIREMENTS
To be admitted and participate in the Co-operative Education Option you must:

- Be enrolled in 3 or more program courses (minimum 9 credits) not including BUSM 2300;
- Achieve and maintain a minimum GPA of 2.6 in each term;
- Successfully complete an employability assessment interview with a Co-op instructor; and
- Complete BUSM 2300 with a ‘C’ or higher.

CURRICULUM
To obtain a Financial Management Co-operative Education Diploma, students will be required to attain 69 credits as described below:

All core courses from the following: (Total: 48 credits)

<table>
<thead>
<tr>
<th>Course No.</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BCAP 1200</td>

NOTE:
Students are advised to review individual course descriptions for prerequisites.

Not all courses will be offered in every semester; students should take care when planning their course schedule.

FINE ARTS

Department: Fine Arts
Division: Creative Arts, Social Service, and Education
Program Type: Career

General Information
The Fine Arts Program provides two years of intensive study in Fine Arts. The program has excellent transferability to universities and art schools in British Columbia, Canada and the USA. The Fine Arts Diploma offers a dual purpose to the prospective student:

1. preparation leading toward advanced study at other Art institutions; and
2. foundation training for employment opportunities.

The program emphasis is on studio art with the opportunity for specialization in the second year. Diploma requirements include academic courses in English, Art History and Cultural Theory.

Drawing and Design are considered core courses. Students must complete Drawing and Design each term before advancing to the next term.

Program intake: September.

Admission Requirements
Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS
- Completion of BC Grade 12 or equivalent or be 19 years of age or older.
- One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C-’; or an ‘S’ in one of ENGL 1107, 1128 or 1110.

PROGRAM REQUIREMENTS
Lower Mainland applicants must attend a Fine Arts Information Session offered in the spring by the Fine Arts Department. You will be notified of dates and times by the Registrar’s Office or you may call the Fine Arts Department at 604.323.5229. If you live outside the Lower Mainland you must contact the Fine Arts Department for an information package.
Completion of a Fine Arts Candidate Questionnaire. The questionnaire will be distributed at Fine Arts Information Sessions. If you live beyond the Lower Mainland the questionnaire will be included in the information package. Please note that information packages will not be sent to addresses within the Lower Mainland. A portfolio of art work indicating your area of interest and involvement in art may be required but should not be submitted unless the department specifically requests one.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
(Applications will not be considered until all documents have been received.)
- Completed application for admission form.
- Official transcript(s).
- LEF or LPI scores (if applicable).

PROGRAM NOTES
- Material fees. You must pay a materials fee in each studio for each term of the program for basic supplies and you must also purchase a specific list of personal supplies/tools.
- You should expect to commit about 4 hours of studio work per week per studio in addition to class time.

Please refer to the program application dates in the Application for Admission section in this Calendar.

Fine Arts Diploma

CURRICULUM

FIRST TERM (TOTAL: 21 CREDITS)

Course No.  Credits
AHIS 1114 (See Note 1)  3
ENGL 1127 or 1128  3
FINA 1110 or 1170  3
FINA 1120  3
FINA 1130  3
FINA 1140  3
FINA 1160  3

SECOND TERM (TOTAL: 21 CREDITS)

Course No.  Credits
AHIS 1214 (See Note 2)  3
ENGL 1129 or 1130  3
FINA 1210 or 1270  3
FINA 1220  3
FINA 1230  3
FINA 1240  3
FINA 1260  3

You must successfully complete Drawing and Design each term before advancing to any studies in the next term.

You must achieve a minimum of a 'C' grade each term in all studio courses to be eligible to register in any Fine Arts courses in the following term.

Completion of all first-year core courses and transfered equivalence is required before entry into second year. Students who have completed all first-year core courses and satisfy second-year course prerequisites, may take second-year courses if approved by the department.

THIRD TERM (TOTAL: 18 CREDITS)

Course No.  Credits
AHIS 1113, 1115, 1117, 1118, 1119, 1195, 1215, 1216, 1301 or 1302 (See Note 3)  3
FINA 2150 or one of ENGL 2223, 2224, 2225, 2230, 2231, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2246, 2256, 2266, 2276, 2330  3
*4 studios including:
FINA 2120  3
FINA 2140 and/or 2141  3 or 6
Plus one or two of:
FINA 2110  3
FINA 2130  3
FINA 2160  3 or 6
FINA 2171  3 or 6

FOURTH TERM (TOTAL: 18 CREDITS)

Course No.  Credits
AHIS 1113, 1115, 1117, 1118, 1119, 1215, 1216, 1301, or 1302 (See Note 3)  3
FINA 2250 or one of ENGL 2223, 2224, 2225, 2230, 2231, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2246, 2256, 2266, 2276, 2330 not taken in the Third Term  3
*4 studios including:
FINA 2220  3
FINA 2240 and/or 2241  3 or 6
Plus one or two of:
FINA 2210  3
FINA 2230  3
FINA 2260  3
FINA 2271  3 or 6

*Students in Terms 3 and 4 are restricted to four second-year studios in each of these semesters. Students who have previously completed the AHIS and ENGL courses that are required in these semesters may take an additional studio with departmental approval.

NOTES:
1. AHIS 1114 is preferable for maximum transferability in a Fine Arts program; however, students may substitute this course with AHIS 1112.
2. AHIS 1214 is preferable for maximum transferability in a Fine Arts program; however, students may substitute this course with AHIS 1212.
3. Students complete two of the courses listed to complete second-year Fine Arts; however, with departmental approval, students may substitute AHIS 1110, AHIS 1210, AHIS 1195, and AHIS 1295 for these courses.
4. Be sure to check the prerequisites for the Arts and Science courses which are part of the program.
5. Students may take Creative Writing to complete their Fine Arts Diploma but taking Creative Writing courses may not satisfy some university requirements for second-year English Literature.
6. The number of Fine Art studio electives in the second year is dependent upon enrolment.
GEOGRAPHY

Department: Geography  
Division: Social Sciences  
Program Type: Art and Science

ASSOCIATE OF ARTS DEGREE  
(AREA OF CONCENTRATION: GEOGRAPHY)

CURRICULUM

Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. 6 credits from following:
   GEOG 1100  
   GEOG 1120  
   GEOG 1130  
   GEOG 1150  
   GEOG 1155  
   GEOG 1160  
   GEOG 1170

2. All of the following:
   GEOG 1180  
   GEOG 1190 or GEOI 1110  
   ENGL 1127 or 1128  
   ENGL 1129 or 1130

3. 9 credits from following:
   GEOG 2155  
   GEOG 2210  
   GEOG 2230  
   GEOG 2250  
   GEOG 2270  
   GEOG 2290

HUMAN KINETICS

Department: Human Kinetics  
Division: Business and Community Programs  
Program Type: Arts and Science

General Information

The Human Kinetics department offers a variety of courses to meet the different needs of the student population. The following academic program is primarily intended for those seeking to complete two years of university-transferable course work towards a degree in Human Kinetics, Physical Education or Kinesiology.

Admission Requirements

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

HUMAN KINETICS DIPLOMA

Diploma Requirements

A student must complete at least 20 courses (minimum of 60 credit hours) including:

1. 6 credit hours of university-transferable English
2. 27 credit hours of the following Human Kinetics core courses:
   Human Kinetics 1103, 1151, 1161, 1190, 1191, 2230, 2231, 2284, 2275
3. 27 credit hours of elective Human Kinetics courses (i.e. Human Kinetics, 1100, 1115, 1116, 2215, 2217, 2252, 2261, 2361) or Non-Human Kinetics university-transfer courses

NOTE:

Students are advised to consult with the institution to which they want to transfer to determine the transfer credit of the courses they want to use towards the Human Kinetics Diploma. Students are also advised to consult with the Human Kinetics Department or the Counseling Department when selecting elective courses for the diploma.

NOTE:

The above is a program example. Courses may be taken out of this sequence, but all of the above courses or equivalents must be completed to receive a Diploma in Human Kinetics.
INSTITUTE
Department: Institute
Division: Social Sciences
Program Type: Institute

General Information
These programs are one-semester intensive interdisciplinary programs addressing a single theme. A small cohort of students will explore the given theme through three discipline-specific studies. Institutes will be offered from time to time on campus. Exact format will vary with each program.

A recent example of an institute program is the Langara Environment Institute.

INTERNATIONAL BUSINESS MANAGEMENT
Department: Langara School of Management
Division: Business and Community Programs
Program Type: Career

OPTIONS
- International Business Management Diploma
- International Business Management Co-operative Education Diploma
- Bachelor of Business Administration, Business Management Concentration with Optional International Business Management Specialization (see Business Administration)

General Information
This practical, interdisciplinary, career-oriented program leads to a Diploma in International Business Management. The program's courses provide a comprehensive exposure to international trade practices from a business, cultural, economic, financial and geo-political perspective of the world's major business.

Students graduate with a solid grounding in a variety of business subjects including International Marketing, International Law, International Distribution, Research Methods in Business, Accounting, Marketing, Management Principles, Organizational Behaviour, Business Planning, Business Presentation Skills, Business Law and courses such as Economics, English, Communications, and Mathematics of Business.

As the global economy is more integrated, career opportunities continue to grow rapidly for those with an international business education.

Graduates of this program who meet the minimum academic entrance requirements will be able to ladder into the third year of the Bachelor of Business Administration Program.

The International Business Management Diploma is designed so that students can choose to change their focus of studies within the first year and transfer into the Business Management or Marketing Management program.

Applicants are encouraged to apply for the Co-operative Education option during their first term in the program.

Program intake: September, January, and May.

Admission Requirements
Students interested in this program must apply to the Bachelor of Business Administration (BBA) Program in the Langara School of Management. An International Business Management Diploma is awarded upon completion of appropriate courses within the first two years (60 credits) of the BBA program. Please see the Business Administration (BBA) program information for admission requirements.

CUTRICULUM
International Business Management Diploma
To obtain an International Business Management Diploma, students will be required to attain 60 or 63 credits as described below:
All of the following:

A general education elective is defined to be any course in a subject area other than BCAP, BUSM, COOP, FMGT, INTB or MARK that has assigned or unassigned transfer credit at UBC, SFU, UVic or UNBC.

* BUSM 2300 is a compulsory course for students wanting to do the Co-op Option and highly recommended for all other program students.

NOTES:
Students are advised to review individual course descriptions for prerequisites. Not all courses will be offered in every semester; students should take care and consult with the Department when planning their course schedule.
INTERNATIONAL BUSINESS MANAGEMENT CO-OPERATIVE EDUCATION DIPLOMA

Students who wish to participate in this option must maintain above-average academic standing and demonstrate potential for success in their chosen professional field.

Usually, four-month (minimum of 360 hours) work terms are scheduled for the third and fifth terms of the program. Two work terms need to be completed for a Co-op designated diploma.

Employers provide the Co-op instructors with job descriptions to be posted. Students submit their resumes via the Co-op instructor, who will submit the package to the employer and arrange job interviews. Students are also strongly encouraged to start building their professional network and be an active participant in self-marketing to source their co-op work placements.

Employers make the hiring decisions and establish the working conditions, salary and benefits. The Co-operative Education option has proven to be of great benefit to students.

Students who wish to participate in this option must maintain above-average academic standing and demonstrate potential for success in their chosen professional field.

Admission Requirements
To be admitted and participate in the Co-operative Education Option you must:

- Be enrolled in 12 or more credit hours in program courses;
- Achieve and maintain a minimum GPA of 2.6 in each term;
- Successfully complete an employability assessment interview with a Co-op instructor; and
- Complete BUSM 2300 with a ‘C’ or higher.

Also see Co-operative Education Programs.

CURRICULUM
To obtain an International Business Management Co-operative Education Diploma, students will be required to attain 69 credits as described below:

INTERNET/WEB COMPUTING AND SOFTWARE DEVELOPMENT

Department: Computer Science
Division: Mathematics and Science
Program Type: Arts and Science Limited Enrolment

OPTIONS
- Internet/Web Computing & Software Development Certificate
- Internet/Web Computing & Software Development Co-op Internship Certificate

General Information
The Internet/Web Computing and Software Development (iCSD) certificate program is for individuals who wish to enter the information technology (IT) field. The program emphasizes Internet/Web programming and provides a solid foundation of the technical side of e-business. There are many programs that offer training in Internet/Web technologies. The iCSD program is unique in that it not only teaches specific skills in network management and Website design, but also focuses on software development with multimedia-intensive and platform-independent code for Internet, intranet-, and extranet-based applications.

The ICSD program objectives are:
- To provide participants with a solid foundation in Internet/Web technologies;
- To meet the needs of computing professionals who find their computing skills obsolete;
- To provide non-computing professionals (e.g., engineers) with a new career.

The iCSD program is a one-year (three-semester) certificate program that also offers an optional co-operative education internship term. The program is designed to give participants both an in-depth understanding of Internet/Web technology and principles, and an ability to develop Internet/Web-based applications.

The program courses provide a unique, integrated hands-on learning experience in the following areas: Internet technologies, operating systems, Web servers, enterprise database development, and Java, XML, SOAP, Oracle, SQL.

The iCSD certificate offers university-level, transferable courses. Many students pursue a university computer science degree after graduating. Langara College also offers both two years of university-transfer courses and an Associate of Science Degree in Computer Science.

Students gain hands-on experience in well-equipped labs using state-of-the-art computing facilities. The Computer Science Department uses three labs containing Pentium computers. A Novell Network network provides file and printing services as well as connections to an IBM RS/6000 UNIX System and to the...
There are excellent career opportunities for ICSD graduates. Skilled and knowledgeable personnel in IT, in particular Internet/Web computing, are in high demand. Emerging e-business technologies have opened up new opportunities for IT professionals and Internet developers.

Program intakes: January, May and September.

**Admission Requirements**

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

**ACADEMIC REQUIREMENTS**

- Completion of BC Grade 12 or equivalent or be 19 years of age or older.
- One of the following:
  - LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.
- Within the last three years ‘C’ or higher in CPSC 1150 or one year of professional computing experience.

**NOTE:**

- Students who do not meet the above English requirements may be admitted to the program as determined by the department. Students admitted with a missing admission requirement will be notified in their acceptance letter of the conditions of their acceptance and they will be required to meet with the department to plan their program of study.
- Students not meeting the English requirement will be required to sit the LET in their first semester in the program to attempt to attain a LET with a minimum level of 3. If students do not attain the required score they will be required to take English foundation courses. To remain in the program students who have completed 32 program credits must have successfully completed or be eligible to take one of ENGL 1127, ENGL 1128, CMNS 1115, or CMNS 1118.
- Students admitted on a conditional basis must complete all program requirements to be eligible for graduation.
- Substitution of courses or exemptions may be made. Consult with the Department.

**PROGRAM REQUIREMENTS**

- Good knowledge of the English language including the ability to write and speak clearly and to read understand and interpret information accurately.
- An interview with the ICSD Co-ordinator.

**PROGRAM PREFERENCE**

At least one year of employment experience in computer programming.

**DOCUMENTS REQUIRED FOR APPLICATION EVALUATION**

(Applications will not be considered until all documents have been received.)

- Completed application for admission form.
- Official transcript(s).
- LET or LPI scores (if applicable).

Please refer to the program application dates in the Application for Admission section in this Calendar.

**INTERNET/Web Computing & Software Development Certificate**

**Admission Requirements**

To be admitted and participate in the Co-operative Internship Option you must:

- Be enrolled in 3 or more program courses (minimum 9 credits) not including BUSM 2300;
- Achieve and maintain a minimum GPA of 2.6 in each term;
- Successfully complete an employability assessment interview with a Co-operative Education instructor;
- Complete BUSM 2300 with a ‘C’ or higher.

Also see Co-operative Education Programs

**CURRICULUM**

You must complete at least 12 courses (minimum 36 credits) including:

- CPSC 1030 or 1480 or 2030 or 2130
- CPSC 1160, 1181, 1220, and 1280
- CPSC 2211, 2261, 2301, 2490, and 2810
- BUSM 2300
- COOP 2301

With departmental permission, substitution of CPSC 2150, 2220 and/or 2280 may be permitted in lieu of some of the above CPSC courses.
The Journalism Program offers professional training to students planning to become practicing journalists, and introduces them to important aspects of the communications industry. Its goal is to provide students with the skills and knowledge necessary for entry-level jobs in journalism, either in print or in broadcasting. The program emphasizes strong writing skills, the necessary groundwork for careers in all journalism sectors.

The program is offered in two distinct patterns: the diploma stream, over four terms with a summer break in the middle; or the certificate stream over two consecutive terms.

The diploma stream aims to provide high school graduates with a combination of journalism courses and an introduction to liberal arts courses relevant to the journalist’s work. The first year provides introductory and basic skills courses; the second year focuses on advanced journalism practices. Between years, students are encouraged to seek summer employment with community media outlets to gain experience. A Diploma in Journalism is awarded for successful completion of the four-term diploma stream.

The certificate stream is designed to give students with an appropriate university degree the opportunity to take specialized journalism training at high speed. This intensive, skills-oriented experience is designed to build on the student’s academic background, providing the student with the tools to work as a well-informed professional journalist. The first semester focuses on introductory and basic skills courses; the second semester on advanced journalism practices. A Certificate in Journalism is awarded for successful completion of the two-term certificate stream.

The first part of the program in both streams introduces the student to basic journalism skills and the importance of journalism to the community. Focus is on news writing, journalism history, page design and layout, reporting for radio, and photojournalism. Students will also experience the life of a reporter by researching, conducting interviews, and writing stories for the program’s weekly newspaper, The Voice, which is circulated on campus and in the surrounding community, as well as on the Web.

The second part of the program provides students with courses in advanced reporting techniques, specialty reporting, and television reporting. Students spend considerable time on off-campus assignments focusing on civic issues and the courts.

Senior student gain experience as editors of The Voice. This is an intensive, hands-on experience in producing a newspaper, including story planning, editing, page design, photo editing, pagination, and uploading to the Web. At this point, advanced students may have the opportunity to pursue special projects involving broadcasting, corporate communications, or magazine production. Diploma stream students, in their fourth term, spend a five-week internship in the area of their choice: community papers, dailies, radio, television, news, magazines, or corporate communications. Certificate stream students have no fieldwork requirements.

Throughout the program, with assistance from the industry, students will be introduced to reporters and editors invited to class as guest lecturers or seminar participants.

**GRADING**

The Journalism Department requires that its students meet the following criteria in order to remain in and complete the program. A student must grade of no less than ’C-' in all Journalism and support courses. Any student who receives a ’D’, an ’F’, or withdraws from any course will not be allowed to enrol in the next semester, except with permission of the Department. Successful completion of all courses in any term is a prerequisite to continuing to the next term. A student who receives a ’D’ or an ’F’ or withdraws from any journalism or support course will be allowed to progress in the program only after successfully repeating the failed or incomplete course or courses.

**MATERIAL FEES**

Some Journalism courses carry material fees.

**NOTE:**

Be sure to check the prerequisites for Arts and Science courses that are part of the Program.

Program intake: September.
Diploma Program Courses
Diploma students must obtain credit in all of the Journalism and academic courses below. It is permissible to take the academic courses before enrolling in the Journalism Program.

**JOURNALISM CERTIFICATE**

**Admission Requirements**

**ACADEMIC REQUIREMENTS**
- A university degree in a field judged by the Journalism Department to be useful for journalism. Persons lacking a degree but with substantial academic achievement combined with a demonstrated interest or limited experience in journalism may be admitted by permission of the Journalism Department.

**PROGRAM REQUIREMENTS**
- A high level of achievement in English and/or writing in your previous academic work.
- Successful completion of the Journalism Program entrance test that includes sections on English language usage, current events, and news writing.
- Keyboarding skills of at least 40 wpm.
- A résumé.
- A minimum 500-word typed statement of intent indicating why you want to be a journalist and your career goals.
- An interview with journalism faculty may be required.

**DOCUMENTS REQUIRED FOR APPLICATION EVALUATION**
(Applications will not be considered until all documents have been received.)
- Completed application form.
- Official transcript(s).
- Résumé.
- Statement of intent.

**APPLICATION AND SUPPORTING DOCUMENTS DEADLINE**
- Application may be submitted up to April 30 for September intake. Late applications will be accepted if space is available.

**PROGRAM NOTES**
- Submission of a portfolio of your writing or your video or audio projects is strongly recommended. Do not send originals of published materials; photocopies are acceptable. Video or audio tapes will be returned. You may submit the portfolio with your application or at the time of your entrance test.
- Experience in a school newspaper or similar media is an asset.
LATIN AMERICAN STUDIES

Programs

Department: Interdisciplinary Studies
Division: Humanities
Program Type: Arts and Science

OPTIONS
• Associate of Arts Degree (Area of Concentration: Latin American Studies)
• Arts and Science (Latin American Studies) Diploma

General Information

The Latin American Studies Program explores geographically and culturally diverse region of Latin America and its rich history and contemporary significance. In a globalizing world in which our societies and economies are increasingly intertwined and interdependent, there is growing demand for people with such international knowledge and understanding. Introductory core courses are team taught by instructors from different backgrounds and focus on the history, culture, and political economy of Latin America. Elective courses can be selected from a range of disciplines.

The Latin American Studies Program provides students with a broad background and basic knowledge that can be applied to a variety of work opportunities in Canada or abroad, such as working with NGOs, social work and/or community development groups, or international business. Students may also transfer the diploma or associate degree to university in order to pursue a bachelor’s degree in Latin American Studies or in a related discipline.

ASSOCIATE OF ARTS DEGREE (AREA OF CONCENTRATION: LATIN AMERICAN STUDIES)

CURRICULUM

Within the framework of the general requirements of the Arts and Science Diploma, students must complete at least 20 courses (minimum 60 credits) including:

1. All of the following courses:
   - ENGL 1127 or 1128
   - ENGL 1129 or 1130
   - LAMS 1100 and 1101
   - LAMS 1105 (lecture series – attendance required)
   - SPAN 1115 (or equivalent proficiency)

2. At least four of the following courses with significant Latin American content:
   - ANTH 1160, 2230
   - AHIS 1117
   - ENGL 2234, 2237 (check with program co-ordinator)
   - ECON 1120
   - GEOG 2270*
   - LAMS 2203, 2204, 2206, 2221
   - POLI 1250*, 2240*
   - One of: SPAN 1118, 1205,1215,1218, 2119, 2219, 2301, 2401

   * Only sections with significant Latin American content may be counted towards the Associate of Arts Degree with a concentration in Latin American Studies.

   Any one of:
   - SPAN 1118, 1205, 1215, 1218, 2119, 2219, 2301, 2401

   (NOTE): Only one Spanish course may be counted among the minimum four courses with significant Latin American content, but students are encouraged to include more Spanish courses among their electives. A student who already has credit for SPAN 1115 and 1215 or equivalent proficiency may substitute two second-year courses for them.

   WMST 1195 (check with program co-ordinator)

   * Only sections with significant Latin American content may be counted towards the Arts and Science (Latin American Studies) Diploma.

3. Any course taken as an integral part of a Latin American Studies field studies program will count toward the Latin American Studies concentration.

ARTS AND SCIENCE (LATIN AMERICAN STUDIES) DIPLOMA

CURRICULUM

Within the framework of the general requirements of the Arts and Science Diploma, students must complete at least 20 courses (minimum 60 credits) including:

1. ENGL 1127 or 1128
   - ENGL 1129 or 1130
   - LAMS 1100 and 1101
   - LAMS 1105 (lecture series – attendance required)
   - SPAN 1115 (or equivalent proficiency)
   - ENGL 2234, 2237 (check with program co-ordinator)
   - ECON 1120
   - GEOG 2270*
   - LAMS 2203, 2204, 2206, 2221
   - POLI 1250*, 2240*

   * Only sections with significant Latin American content may be counted towards the Associate of Arts Degree with a concentration in Latin American Studies.

2. At least four of the following courses with significant Latin American content:
   - ANTH 1160, 2230
   - AHIS 1117
   - ENGL 2234, 2237 (check with program co-ordinator)
   - ECON 1120
   - GEOG 2270*
   - LAMS 2203, 2204, 2206, 2221
   - POLI 1250*, 2240*
   - One of: SPAN 1118, 1205,1215,1218, 2119, 2219, 2301, 2401

   (NOTE): Only one Spanish course may be counted among the minimum four courses with significant Latin American content, but students are encouraged to include more Spanish courses among their electives. A student who already has credit for SPAN 1115 and 1215 or equivalent proficiency may substitute two second-year courses for them.

   WMST 1195 (check with program co-ordinator)

   * Only sections with significant Latin American content may be counted towards the Arts and Science (Latin American Studies) Diploma.

3. Any course taken as an integral part of a Latin American Studies field studies program will count toward the Latin American Studies concentration.

LEISURE STUDIES

Programs

Department: Human Kinetics
Division: Business and Community Programs

General Information

The following academic diploma is intended primarily for those seeking to complete two years of university-transfer course work towards a degree in Recreation, Leisure, and Sport Studies.

This diploma from the Department of Human Kinetics does not by itself transfer to other colleges and universities. The individual courses taken to fulfill the requirements of this diploma must be assessed for their transfer credit status. Students are responsible to check with the institutions to which they want to attend to determine the transferability of courses.

Program intakes: January, May and September

LEISURE STUDIES DIPLOMA

Admission Requirements

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

DIPLOMA REQUIREMENTS

A student must complete at least 20 courses (minimum 60 credits) including:

1. RECR 1160 and HKin 1161
2. 9 credit hours from other Recreation courses numbered RECR 1160 to 2470 excluding Recreation Portfolio and Internship courses.
3. 18 to 24 credit hours from other HKin or RECR courses excluding Recreation Portfolio and Internship courses.
4. 21 to 27 credit hours from non-Human Kinetics and non-RecReation (HKin and RECR) electives including at least 6 credit hours in English and at least 9 credit hours from the Social Sciences.

www.langara.bc.ca 2008-2009 • Langara College Calendar
SAMPLE CURRICULUM

FIRST TERM (TOTAL: 15 CREDITS)

Course No. | Credits
--- | ---
RECR 1160 | 3
RECR 1162 | 3
RECR 1170 | 3
BCAP 1200 | 3

PSYC 2317 | 3
ENGL 1129 | 3
HKIN 1161 | 3

THIRD TERM (TOTAL: 16 CREDITS)

Course No. | Credits
--- | ---
RECR 2260 | 3
RECR 2356 | 2
RECR 2357 | 2
RECR 2470 | 3
RECR 2471 | 3
BUSM 1100 | 3

FOURTH TERM (TOTAL: 15 CREDITS)

Course No. | Credits
--- | ---
SCI 1120 | 3
PSYC 1115 | 3
HKIN 2232 | 3

2 other university-transfer electives
Human Kinetics and Recreation courses that presently receive transfer credit to SFU, UBC, UNBC, and UVic may be used to fulfill the elective course requirements for diplomas or associate degrees in Arts and Science.

LIBRARY & INFORMATION TECHNOLOGY

Department: Library & Information Technology
Division: Business and Community Programs
Program Type: Career

OPTIONS
- Library & Information Technology Diploma
- Library & Information Technology (Flexible Participation Option) Diploma

General Information
This two-year, four-term Library & Information Technology Diploma Program has been developed in accordance with the recommendations made by the Canadian Library Association Committee on Library Technicians (Role and Education). The program prepares students for para-professional duties in libraries. Students will spend more than one-half of their time learning library and related business techniques. Some of the program’s courses are transferable to universities.

Library course work involves lectures, field trips, field work and workshops. The program’s two practicums occur in April and May; the first year practicum is four weeks and the second year practicum is four weeks. The field work experience exposes you to the realities of the job and to potential employers.

Langara College’s Library & Information Technology Diploma is recognized across Canada. Graduates of the Program are currently employed in a wide range of libraries and information services: in public libraries, in those associated with universities, colleges and schools, and in public institutions, business, government and special libraries. Graduates may also work for companies supporting information based software programs and resources. Library & Information Technicians usually work under professional librarians except in smaller libraries where they might work alone. Graduates may be required to catalogue, issue and receive a host of library holdings: books, film, pictures, maps, computer files, and sound recordings. They must know how to locate specialized materials and maintain library collections. Graduates can also expect to become involved with public programs, library tours and children’s programs, or provide technical support to the library or information centre patrons.

Library & Information Technicians should enjoy people, books and information organization. A permanent interest in learning is characteristic of the most effective library workers. There is a need for accuracy and attention to detail in the program and throughout your working career. Graduates should have a minimum keyboarding speed of 45 wpm using a word processor.

Students in the Library & Information Technology Diploma program will select either a General Stream, a Technology Stream, or a First Nations Stream.

Programs intake:
Library & Information Technology (Flexible Participation Option) Diploma - January, May and September.

Admission Requirements
Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS
- Completion of BC Grade 12 or equivalent or be 19 years of age or older.
- One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C-’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.

PROGRAM REQUIREMENTS
- Good knowledge of the English language and the ability to speak and write clearly and correctly.
- Testing that includes completion of several short essays that provide evidence of good written communication skills and familiarity with the library community and field and a filing activity that demonstrates your aptitude for following written rules and performing typical library procedures.
- An interview conducted by program faculty in which your communication skills and knowledge of the library and information field will be assessed.
- Two current letters of reference attesting to your abilities in an academic or employment setting.
- Demonstrated emotional maturity and an affinity for working with people.

PROGRAM PREFERENCES
- Minimum keyboard speed of 30 wpm is strongly recommended.
- Familiarity with basic computer operations (file management document creation etc.) is strongly recommended.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
(Applications will not be considered until all documents have been received.)
- Completed application for admission.
- Official transcript(s).
- Two current letters of reference.
- LET or LPI scores (if applicable).
Programs

Please refer to the program application dates in the Application for Admission section in this Calendar.

PROGRAM NOTES

- If you have keyboarding skills sufficient to demonstrate a corrected typing speed of 45 wpm you may consult with the Department Chair regarding Flexible Assessment for this requirement.
- On a space-available basis, students may be considered for admission to the program for studies on a part-time basis. A minimum commitment of two core program (LIBR) courses and one support course per term is required for consideration for this status.

</tbody>
</table>

NOTE

1. Students who have keyboarding skills sufficient to demonstrate a corrected typing speed of 45 wpm may consult with the Department Chair regarding Flexible Assessment for this requirement.

2. General Stream - Students in the General Stream must choose their electives (9 credits in total) from the following courses:
   - MARK 1115; HIST 1116, 1126, 2207 or 2217; PSYC 1115 or 1215; and POLI 1119, 2209 or 2219. Students holding a Bachelor of Arts or Science degree from a recognized Canadian post-secondary institution, with a minimum overall grade point average of 2.0 in that degree, may transfer up to 9 credits of any arts or science courses in which a minimum grade of ‘C’ was achieved.
   - Technology Stream - Students in the Technology Stream must complete BCAP 2311 or CPSC 1480; BCAP 3200 or CSIS 2500; and one course from the electives listed in the General Stream, see Note 2. As BCAP 2311 is offered only in alternate years, students are advised to register for this course when it is offered.

3. Technology Stream - Students in the Technology Stream must complete BCAP 2311 or CPSC 1480; BCAP 3200 or CSIS 2500; and one course from the electives listed in the General Stream, see Note 2. As BCAP 2311 is offered only in alternate years, students are advised to register for this course when it is offered.

4. First Nations Stream - Students in the First Nations Stream must complete three of the following Aboriginal Studies courses (9 credits): ABST 1100, 1102, 1104, 1115, 1116, 1150, 1200, 2140, 2230, and 2240.

5. Students in the Library & Information Technology Diploma program must achieve a minimum grade of ‘C’ (or an ‘S’ in courses graded S/U) in all courses required for the program in order to receive the Library & Information Technology Diploma.

6. Be sure to check the prerequisites for the Arts and Science courses that are part of the program.

LIBRARY & INFORMATION TECHNOLOGY DIPLOMA

(Flexible Participation Option)

**General Information**

The flexible participation option is a distance education option for students in the Library & Information Technology program. Selected courses will be offered in each semester (Spring, Summer, and Fall). Flexible Participation Option program students must have a minimum participation of 3 LIBR credits (one course) in each of two semesters annually, including their first two terms of studies. Students may take up to 16 program credits in any semester.

A limited selection of courses will be offered in each semester. There is no guarantee that a specific course will be offered in any specific semester or year. Students who wish to complete the diploma within three years are advised to take courses in the semester they are scheduled.

Choose three courses from one of the following streams (Total: 9 credits):

- General Stream (see Note 2)
- Technology Stream (see Note 3)
- First Nations Stream (see Note 4)

NOTE

1. Students who have keyboarding skills sufficient to demonstrate a corrected typing speed of 45 wpm may consult with the Department Chair regarding Flexible Assessment for this requirement.

2. General Stream - Students in the General Stream must choose their electives (9 credits in total) from the following courses: MARK 1115; HIST 1116, 1126, 2207 or 2217; PSYC 1115 or 1215; and POLI 1119, 2209 or 2219. Students holding a Bachelor of Arts or Science degree from a recognized Canadian post-secondary institution, with a minimum overall grade point average of 2.0 in that degree, may transfer up to 9 credits of any arts or science courses in which a minimum grade of ‘C’ was achieved.

3. Technology Stream - Students in the Technology Stream must complete BCAP 2311 or CPSC 1480; BCAP 3200 or CSIS 2500; and one course from the electives listed in the General Stream, see Note 2. As BCAP 2311 is offered only in alternate years, students are advised to register for this course when it is offered.

4. First Nations Stream - Students in the First Nations Stream must complete three of the following Aboriginal Studies courses (9 credits): ABST 1100, 1102, 1104, 1115, 1116, 1150, 1200, 2140, 2230, and 2240.

5. Students in the Library & Information Technology Diploma program must achieve a minimum grade of ‘C’ (or an ‘S’ in courses graded S/U) in all courses required for the program in order to receive the Library & Information Technology Diploma.

6. Be sure to check the prerequisites for the Arts and Science courses that are part of the program.
Admission Requirements

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS

- Completion of BC Grade 12 or equivalent or be 19 years of age or older.
- One of the following:
  - LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.
- A minimum score of 70 on the Langara College Mathematics Diagnostic Test written within the last year or ‘C’ or higher grade in Principles of Mathematics 12.

NOTE:

- Students who do not meet the above English or Mathematics requirements may be admitted to the program as determined by the department. Students admitted with a missing admission requirement will be notified in their acceptance letter of the conditions of their acceptance and they will be required to meet with the department to plan their program of study.
- Students not meeting the English requirement will be required to sit the LET in their first semester in the program to attempt to attain a LET with a minimum level of 3. If students do not attain the required score they will be required to take English foundation courses. To remain in the program students who have completed 32 program credits must have successfully completed or be eligible to take one of ENGL 1127, ENGL 1128, CMNS 1115, or CMNS 1118.
- Students not meeting the Mathematics requirement will be required to attain the appropriate Math Diagnostic Test (MDT) score or obtain permission of the Mathematics/Statistics Department to allow them to register into the required Mathematics/Statistics courses in the program. If students do not attain the required score they will be required to take mathematics foundation courses.
- Students admitted on a conditional basis must complete all program requirements to be eligible for graduation.
- Substitution of courses or exemptions may be made. Consult with the Department.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION

(Applications will not be considered until all documents have been received.)

- Completed application for admission form.
- Official transcript(s).
- LET or LPI scores (if applicable).
- Mathematics Diagnostic Test (if applicable).

APPLICATION AND SUPPORTING DOCUMENTS DEADLINE

- Please refer to the program application dates in the Application for Admission section in this Calendar.

CURRICULUM

You must complete at least 20 courses (minimum 60 credits) including:

- CPSC 1000 or BCAP 1200
- CPSC 1040 or 1150 or 1155
- CPSC 1030, 1220, and 1480
- CSIS 1300, 1310, 1410, 2302, and 2500
- BUSM 1100, 1115, 1200, and 2200
- BUSM 1500 or BUSM 1310, and CPSC 1320
- FMGT 1116
- MARK 1115
- MATH 1118
- 6 credits from the following: CMNS 1115, 1118, 2228, ENGL 1127, 1128, 1129, 1130, and 1140
MARKETING MANAGEMENT

Department: Langara School of Management
Division: Business and Community Programs
Program Type: Career

OPTIONS
- Marketing Management Diploma
- Marketing Management Co-operative Education Diploma
- Bachelor of Business Administration, Marketing Management Concentration (see Business Administration)

General Information
This two-year, career-oriented diploma program prepares students for careers in general marketing, sales, advertising, retailing, distribution and customer service fields. The program focuses on the principles and practices of marketing in communications, promotions, business research, and marketing’s role in different types of profit and non-profit organizations.

It combines practical hands-on course work with a good foundation in theoretical marketing and general business concepts including courses in Accounting, Marketing Communications Design, Research Methods in Business, Advertising, Selling Skills, Integrated Marketing Communications, Organizational Behaviour, Business Presentation Skills, Law, and courses such as Economics, English, Communications, and Mathematics of Business. Graduates of this program who meet the minimum academic entrance requirements will be able to ladder into the third year of the Bachelor of Business Administration Program.

The Marketing Management Diploma is designed so that students can choose to change their focus of studies within the first year and transfer into the Business Management or International Business Management program.

Applicants are encouraged to apply for the Co-operative Education option during their first term in the program.

Program intake: September, January, and May.

CURRICULUM
You must complete at least 23 courses (minimum 69 credits) including:
- CPSC 1000 or CAP 1200
- CPSC 1040 or 1150 or 1155
- CPSC 1030, 1200, and 1480
- Csis 1300, 1310, 1410, 2302, and 2500
- BUSM 1100, 1115, 1200, 2200, and 2300
- BUSM 1500 or CPSC 1320
- FMGT 1116
- MARK 1115
- MATH 1118

6 credits from the following: CMNS 1115, 1118, 2228, ENGL 1127, 1128, 1129, 1130, and 1140
- COOP 2301 and 2501

NOTE:
Be sure to check the prerequisites for the Arts and Science courses which are part of the Program.
Also see 'Co-operative Education Programs'.

Admission Requirements
To be admitted and participate in the Co-operative Education Option you must:
- Be enrolled in 3 or more program courses (minimum 9 credits) not including BUSM-2300;
- Achieve and maintain a minimum GPA of 2.6 in each term;
- Successfully complete an employability assessment interview with a Co-operative Education instructor; and
- Complete BUSM 2300 with a “C” or higher.

Admission Requirements
Students interested in this program must apply to the Bachelor of Business Administration (BBA) Program in the Langara School of Management. A Marketing Management Diploma is awarded upon completion of appropriate courses within the first two years (60 credits) of the BBA program. Please see the Business Administration (BBA) program information for admission requirements.

Marketing Management Diploma

CURRICULUM
To obtain a Marketing Management Diploma, students will be required to attain 60 or 63 credits as described below:

Two Business Electives chosen from:
- Any BCAP course (except BCAP 0012 and BCAP 1112) Any BUSM course (except BUSM 2300)
- Any INTB course
- Any FMGT course
- Any MARK course

Two General Education Electives
- A general education elective is defined to be any course in a subject area other than BCAP, BUSM, COOP, FMGT, INTB or MARK that has assigned or unassigned transfer credit at UBC, SFU, UVic or UNBC.

With prior written approval of the Business Management Department, another relevant course other than those listed above may be used as an elective.

* BUSM 2300 is a compulsory course for students wanting to do the Co-op Option and highly recommended for all other program students.

NOTES:
Students are advised to review individual course descriptions for prerequisites. Not all courses will be offered in every semester; students should take care and consult with the Department when planning their course schedule.
Marketing Management Co-Operative Education Diploma

Students who wish to participate in this option must maintain above-average academic standing and demonstrate potential for success in their chosen professional field.

Usually, four-month (minimum 360 hours) work terms are scheduled for the third and fifth terms of the program. Two work terms need to be completed for a Co-op designated diploma. Employers provide the Co-op instructors with job descriptions to be posted. Students submit their resumes via the Co-op instructor, who will submit the package to the employer and arrange job interviews. Students are also strongly encouraged to start building their professional network and be an active participant in self-marketing to source their co-op work placements.

Employers make the hiring decisions and establish the working conditions, salary and benefits. The Co-operative Education option has proven to be of great benefit to students. Students have the opportunity to apply their knowledge, to develop skills in a practical work setting, and to gain related experience before commencing their professional careers.

Admission Requirements

ACADEMIC REQUIREMENTS

To be admitted and participate in the Co-operative Education Option you must:

- Be enrolled in 3 or more program courses (minimum 9 credits) not including BUSM 2300;
- Achieve and maintain a minimum GPA of 2.6 in each term;
- Successfully complete an employability assessment interview with a Co-op instructor; and
- Complete BUSM 2300 with a “C” or higher.

Also see Co-operative Education Programs.

CURRICULUM

To obtain a Marketing Management Co-operative Education Diploma, students will be required to attain 69 credits as described below:

All of the following: (Total: 63 credits)

Course No.  Credits
BCAP 1200  3
BUSM 1285  3
BUSM 1500  3
BUSM 2200  3
BUSM 2300  3
CMNS 1118  3
ECON 1220 or ECON 1221  3
ENGL 1127 or ENGL 1128  3
FMGT 1116  3
MARK 1115  3
MARK 1200  3
MARK 2000  3
MARK 2100  3
MARK 2400  3
MARK 2430  3
MA TH 1118 or MA TH 1119  3
STAT 1123  3

Two business electives chosen from:
- any BCA P course (except BCA P 0012 and BCA P 1112)
- any BUSM course (except BUSM 2300)
- any INTB course
- any FMGT course
- any MARK course  6

Two General Education Electives

A general education elective is defined to be any course in a subject area other than BCA P, BUSM, COOP, FMGT, INTB or MARK that has assigned or unassigned transfer credit at UBC, SFU, UVic or UNBC.  6

With prior written approval of the Business Management Department, another relevant course other than those listed above may be used as an elective.

WORK TERM 1 (TOTAL: 3 CREDITS)

Course No.  Credits
COOP 2301  3

WORK TERM 2 (TOTAL: 3 CREDITS)

Course No.  Credits
COOP 2501  3

NOTES:

Students are advised to review individual course descriptions for prerequisites. Not all courses will be offered in every semester; students should take care and consult with the Department when planning their course schedule.

MATHEMATICS

Department: Mathematics
Division: Mathematics and Sciences
Program Type: Arts and Science

OPTIONS

- Associate of Arts Degree (Area of Concentration: Mathematics)
- Associate of Science Degree (Area of Concentration: Mathematics)

ASSOCIATE OF ARTS DEGREE

(Area Of Concentration: Mathematics)

CURRICULUM

Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. MATH 1171; or 1173 and 1183; or 1153 and 1253
2. MATH 1271; or 1273 and 1283
3. MATH 2362
4. MATH 2371
5. MATH 2373
6. MATH 2471
7. MATH 2475
8. MATH 2365 or 2485 (see Note 1)
   STAT 1181
   STAT 2281
   CPSC 1150
   CPSC 1181
   CPSC 2190 or 1160 (see Note 2)
   ENGL 1127 or 1128
   ENGL 1129 or 1130 or 1140
2. 1 Lab-science Elective
3. 2 Social Science Electives
4. 2 Humanities Electives

NOTES:

1. SFU requires MATH 2365
2. SFU requires CPSC 2190; UBC requires CPSC 1160
ASSOCIATE OF SCIENCE DEGREE (AREA OF CONCENTRATION: MATHEMATICS)

CURRICULUM
Within the framework of the general requirements of the Associate of Science Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. MATH 1171; or 1173 and 1183; or 1153 and 1253
   MATH 1271; or 1273 and 1283
   MATH 2362
   MATH 2371
   MATH 2373
   MATH 2471
   MATH 2475
   MATH 2365 or 2485 (see Note 1)

2. STAT 1181
3. CPSC 1150
4. CPSC 1160
5. CPSC 2190 or 1160 (see Note 2)
6. ENGL 1127 or 1128
7. ENGL 1129 or 1130 or 1140

NOTES:
1. SFU requires MATH 2365
2. SFU requires CPSC 2190; UBC requires CPSC 1160

MICROBIOLOGY/MOLECULAR BIOLOGY

Department: Biology
Division: Mathematics and Science
Program Type: Arts and Science

ASSOCIATE OF SCIENCE DEGREE (AREA OF CONCENTRATION: MICROBIOLOGY/MOLECULAR BIOLOGY)

CURRICULUM
Within the framework of the general requirements of the Associate of Science Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. BIOL 1115 and 1215
   BIOL 2315 and 2415
   BIOL 2370 and 2470
   BIOL 2330 and 2430
   CHEM 1120, 1220 and 2250*
   ENGL 1127 or 1128
   ENGL 1129 or 1130
   MATH 1171 or 1173/1183 or 1153/1253 or 1174; and
   MATH 1271 or 1273/1283 or 1274
   PHYS 1118 and 1101 (or 1125); or
   PHYS 1101 (or 1125) and 1225

   *CHEM 2250 is optional, but it may be required to transfer a full second year to some institutions.

NURSING

Department: Nursing
Division: Nursing
Program Type: Career

General Information
The Langara College Nursing Department offers a Bachelor of Science in Nursing using the Collaborative Curriculum, revised May 2004. Upon completion of the program students are eligible to write the Canadian Registered Nurse Exam (CRNE).

The Nursing Department offers a bridge-in option to Term 4 for Licensed Practical Nurses and Registered Psychiatric Nurses. Please see the Nursing Transition Program section of this Calendar for more details.

Please note, as the program continues to evolve, the information presented on the College website and in the College Calendar is subject to change.

Purpose of the Program
The Langara College Nursing Program provides students with a broad base of knowledge and skills to practice nursing in today's and tomorrow's complex health care system. With a focus on caring and health promotion, students learn to work with individuals, families, communities, and health professionals in a variety of practice settings. The program assists students to develop sensitivity to people's experiences with health and healing. Educational methods emphasize student and faculty interactions and individual learning processes.

Program Goals
A graduate of the program will:
1. Practice nursing with a health promotion perspective and an ethic of caring within a variety of contexts and with a diverse client population;
2. Be an independent, self-directed, self-motivated, and life-long learner with a questioning mind and a familiarity with inquiry approaches to learning;
3. Be self-reflective, self-evaluative, accountable, and make clinical judgments based on different ways of knowing, including critical thinking, intuition, research, and evaluation;
4. Create and influence the future of nursing practice at a political, social, and professional level by responding to and anticipating the changing needs of society;
5. Be prepared to meet the professional practice requirement as identified by the College of Registered Nurses of British Columbia.

Program intake: January and September.
Admission Requirements
Please refer to the information regarding general requirements for admission and application to Langara College Programs. Applicants must declare all courses previously taken at other institutions and supply all required documents and official transcripts.

ACADEMIC REQUIREMENTS
Applicants must satisfy admission requirements via the criteria outlined in Route A or Route B below.

Route A
Applicants must satisfy requirements in each of five subject areas (English, Biology, Chemistry, Mathematics, and a third Science). A combination of secondary and post-secondary coursework will be acceptable. NOTE: BC Provincial Examinations must be written for all BC provincially-examinable Grade 12 courses. Courses (not including college ABE program courses) taken without completion of the BC Provincial Examination will not be accepted. Secondary school courses completed outside of BC will be assessed, and applicants will be advised whether additional requirements must be met.

ENGLISH REQUIREMENT
- English 12 - minimum ‘A’
- Or LET 5
- Or LPI 5 or 6
- Or English 12 - minimum ‘B’ and LET 4 or LPI 4 (26 on the essay)
- Or Langara’s English 1127 or equivalent - minimum ‘C’.
- Or a university-transferable English course for which Langara College awards credit - minimum ‘C’. 

NOTE: The use of an oral English language test is under review.

BIOLOGY REQUIREMENT
- Biology 12 - minimum ‘C’s’
- Or a full first-year university-transferable biological science that includes a lab component - minimum ‘C’. If there are two components to a full first-year course, a minimum grade of ‘C’ is required in each component.

CHEMISTRY REQUIREMENT
- Chemistry 11 - minimum ‘C’s’
- Or Chemistry 12 - minimum ‘C’
- Or Langara’s Chemistry 1114 or equivalent - minimum ‘C’.
- Or 3 credits university-transferable Chemistry – minimum ‘C’.
- Or Langara’s Chemistry Diagnostic Test - Level 1118

MATH REQUIREMENT
- Principles of Math 11 - minimum ‘C’
- Or Principles of Math 12 - minimum ‘C’
- Or Langara’s Math 1101 - ‘S’ (Satisfactory)
- Or 3 credits of university-transferable Math – minimum ‘C’.
- Or Langara’s Math Diagnostic Test – Level 60

THIRD SCIENCE REQUIREMENT
NOTE: The third science course must be a different course from those used to meet the Biology and Chemistry requirements above.
- Biology 11 - minimum ‘C’
- Or Biology 12 - minimum ‘C’
- Or Chemistry 11 - minimum ‘C’
- Or Chemistry 12 - minimum ‘C’
- Or Geography 12 - minimum ‘C’
- Or Geology 12 - minimum ‘C’
- Or Physics 11 - minimum ‘C’
- Or Physics 12 - minimum ‘C’
- Or Langara Physics 1114 - minimum ‘C’
- Or a minimum of 3 credits of university-transferable science - minimum ‘C’.
(Acceptable subject areas include Physics, Chemistry, Geography, Geology, Biology, and Astronomy).

Route B
An applicant holding a Bachelor’s or higher-level degree from a recognized Canadian post-secondary institution, in an appropriate field as determined by the Nursing Department, and meeting the program English requirement (see below) will be considered as having met the program admission requirements. An official transcript indicating the degree awarded must be submitted. The English requirement may be satisfied by one of the following methods:
- English 12 - minimum ‘A’
- Or LET 5
- Or LPI 5 or 6
- Or English 12 - minimum “B” and LET 4 or LPI 4 (26 on the essay)
- Or a university-transferable English course for which Langara College awards credit - minimum ‘C’.

PROGRAM REQUIREMENTS
- A Standard First Aid Certificate and CPR Basic Rescuer Level C Certificate prior to entering the Program. In Term 1, the first semester of the Program, students will be required to show evidence of having current (within the last year) certificates.

- In Term 1 of the Program, students will be required to become student registrants of the College of Registered Nurses of British Columbia (CRNBC). Registration requires that students undergo a criminal record search. If students have any questions about the criminal record search, criminal records, and eligibility for licensure, they are advised to contact the CRNBC.

- Proof of immunizations and TB Screening are required for students’ safety and for the protection of individuals, families, and groups that they will encounter during their program of studies. The Immunization and TB Screening Record must be completed once students have been notified of their acceptance to the Program.
  - Tetanus-Diphtheria (TD) Vaccine, Pertussis Vaccine, Polio Vaccine, Red Measles, Mumps, and Rubella (MMR) Vaccine, Hepatitis B Vaccine, Varicella Vaccine are required.
  - Tuberculosis Screening skin test is required.
  - An annual Flu vaccine is highly recommended.

Please note that practice placements can refuse individual students if proof of Immunization and Tuberculosis Screening is not provided, which can potentially influence progress in the Nursing Program.

PROGRAM NOTE
- The Nursing Program is physically and emotionally rigorous. If students have any concerns about existing health challenges that could limit their ability to fully participate in the Nursing Program, please contact the Nursing Department.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
(Applications will not be considered until all documents have been received.)
- Completed application for admission.
- Official transcript(s) from all educational institutions attended.
- LET or LPI scores (if applicable).

DOCUMENTS DEADLINE
- As there are two program intakes per year, there is no deadline by which applications must be received. The Nursing Program currently has a wait list of students whose applications are considered complete and who are awaiting review of their application for admission. Completed applications are reviewed for admission on a first-come, first-served basis; therefore, students are advised to provide all supporting documents as soon as possible.

PROGRAM NOTES
Students will be directly involved with clients in hospital and community agencies that may require evening and/or weekend work. Students are responsible for transportation and other expenses incurred during practice experiences.

#### STUDENT MAINTENANCE OF STANDING

Please note that students are responsible for their maintenance of standing while enrolled as students in the Langara College Nursing Program. Applicants are advised that progression in the program requires students to maintain a 2.33 (under review) cumulative GPA with no grade lower than ‘C’ for all program courses, including electives. Furthermore, when students in the Nursing Program have twice registered in a required course but have not successfully completed the course requirements, they may not continue in the Nursing Program. When students are twice unsuccessful (‘U’ or ‘W’) in any nursing practice course or consolidated practice experience, they will no longer be permitted to continue in the Nursing Program.

All students when enrolled in their first term of the Nursing Program receive a copy of Student Policies and Procedures outlining specific attendance, conduct, dress, evaluation, and promotional guidelines. If applicants have specific questions about the Student Policies and Procedures prior to entry into the Nursing Program, they may contact the Nursing Department.

### Admission Requirements

Please refer to the information regarding general requirements for admission and application to Langara College Programs.

#### ACADEMIC REQUIREMENTS

- Complete of BC Grade 12 or equivalent or be 19 years of age or older
- English 12 - a minimum ‘A’ grade
- Or LET 5
- Or LPI 5 or 6
- Or English 12 - a minimum ‘B’ grade and LET 4 or LPI 4 (26 on the essay)
- Or Langara’s English 1127 or equivalent - a minimum ‘C’ grade
- Or a university-transferable English course for which Langara College awards credit - a minimum ‘C’ grade

**NOTE:** The use of an oral English language test is under review.

---

**NURSING TRANSITION PROGRAM**

**Department:** Nursing  
**Division:** Health, Applied Science and Human Services  
**Program Type:** Career

#### General Information

The Nursing Transition Program (NTP) prepares full scope Licensed Practical Nurses and Registered Psychiatric Nurses to register in Term 4 of the Bachelor of Science in Nursing program. There are two intakes per year: January and September. In the first term, students are required to successfully complete BIOL 1190 and ENGL 1127 or 1128. In the second term, students are required to complete BIOL 1191 and ENGL 1129, 1130 or 1140. In the third term, students are required to complete BIOL 2290 and NURS 1103.

In NURS 1103, students explore concepts from Health I and II, Professional Growth I, Self and Others I and II, Healing I, and Nursing Practice I, II and III. Upon successful completion of the courses in the NTP with a minimum ‘C’ grade, students may proceed to Term 4 of Bachelor of Science in Nursing Program.

Program intakes: January and September.
PROGRAM REQUIREMENTS

- Applicant must be currently registered and licensed as a full scope Licensed Practical Nurse and Registered Psychiatric Nurse in the province of British Columbia.
- A letter of reference from students’ most recent nursing employer or instructor. This individual must be able to comment on the students’ employment or practice performance.
- An interview with program faculty may be required.
- A current CPR Basic Rescuer Level C certificate.
- Students must have a satisfactory criminal record search completed. They will be required to become student registrants of the College of Registered Nurses of British Columbia (CRNBC). Registration requires that students undergo a criminal record search. If students have any questions about the criminal record search criminal records eligibility for licensure they are advised to contact the CRNBC.
- Proof of immunizations and TB Screening are required for students’ safety and for the protection of individuals families and groups that they will encounter during their program of studies. The Immunization and TB Screening Record must be completed once students have been notified of their acceptance to the Program.
- Tetanus-Diphtheria (TD) Vaccine Pertussis Vaccine Polio Vaccine Red Measles Mumps and Rubella (MMR) Vaccine Hepatitis B Vaccine Varicella Vaccine are required.
- Tuberculosis Screening skin test is required.
- An annual Flu vaccine is highly recommended.
- Please note that practice placements can refuse individual students if proof of Immunization and Tuberculosis Screening is not provided which can potentially influence progress in the Nursing Program.

PROGRAM NOTE
The Nursing Program is physically and emotionally rigorous. If students have any concerns about existing health challenges that could limit their ability to fully participate in the Nursing Program please contact the Nursing Department.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
(Applications will not be considered until all documents have been received.)

- Completed application for admission.
- Official transcript(s) from all educational institutions attended.
- LET or LPI scores (if applicable).
- Proof of current BC license as a full scope Licensed Practical Nurse or a Registered Psychiatric Nurse.

APPLICATIONS AND SUPPORTING DOCUMENTS DEADLINE
Please refer to the Career Program application dates in the Application for Admission section within this Calendar.

NURSING TRANSITION PROGRAM (NTP)

CURRICULUM

NTP TERM 1 (TOTAL: 6 CREDITS)
Course No. | Credits
---|---
BIOL 1190 | 3
ENGL 1127 or 1128 | 3

NTP TERM 2 (TOTAL: 6 CREDITS)
Course No. | Credits
---|---
BIOL 1191 | 3
ENGL 1129 or 1130 or 1140 | 3

NTP TERM 3 (TOTAL: 6 CREDITS)
Course No. | Credits
---|---
BIOL 2290 | 3
NURS 1103 | 3
Most food service courses are transferable to the University of British Columbia nutrition and dietetic programs. For further information on specific course transferability, visit the BC Council on Admission and Transfer website (www.bccat.bc.ca).

Students are required to attend a two-week residency at Langara College in April of their second year. Attendance is mandatory in order to complete academic requirements in several fifth term courses and to be eligible to register in the practicum courses in the sixth term.

Program intakes: January, May and September

Admission Requirements
Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS
- Completion of BC Grade 12 or equivalent or be 19 years of age or older.
- One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C’; or an ‘S’ in one of ENGL 1107, 1110, or 1110.

PROGRAM REQUIREMENTS
- A one- to two-page letter of intent that explains why you wish to enter the program and that demonstrates you have an understanding of the role and responsibilities of a Nutrition Manager in a health care setting.
- Resume
- Two letters of reference attesting to the ability that would be an asset to a career in food service management one of which must be from an employer who focuses on your abilities in an employment setting.
- An interview conducted by program faculty where your communication skills and knowledge of the food service field will be assessed.
- Depending on the health policies of the fieldwork and practicum sites you may be required to have a flu shot or other vaccination/tests such as Hepatitis A and TB before starting practicum courses. A criminal record check may be required by placement sites.
- Valid Food Safe Level I Certificate or recognized equivalent food handler safety program.

PROGRAM PREFERENCES
- Applicants with previous work experience in the food service industry.
- Documented success in a previous post-secondary academic setting.
- Demonstrated emotional maturity and affinity for working with people.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
(Applications will not be considered until all documents have been received.)
- Completed application for admission form.
- Official transcript(s).
- Two letters of reference.
- Letter of intent.
- Resume
- LET or LPI scores (if applicable)
- Food Safe Level I certificate.

Upon receipt of your completed application you will be scheduled for an interview with program faculty.

APPLICATION AND SUPPORTING DOCUMENTS DEADLINE
- Three months prior to the commencement of each semester. Late applications will be accepted if space is available.
- Please refer to the program application dates in the Application for Admission section in this Calendar.

PROGRAM NOTES:
Graduates of baccalaureate programs in nutrition or dietetics may enter the program directly into the second year provided they meet the requirement for experience in the food service industry. Upon approval of block transfer credit and completion of 30 credits from the program a diploma in Nutrition and Food Service Management will be granted. The graduate will then be eligible for membership in the Canadian Society of Nutrition Management and regional associations. Advance placement will be discussed with each applicant. Admission is dependent on space availability. Ability to type a minimum of 30-40 wpm is an asset. Most courses are online with exams written on the Web. Slower typing skills will reduce your ability to complete exams during the time allotted.

Nutrition and Food Service Management Diploma
CURRICULUM
The program requires students to come to Langara College for a two-week session in April of the second year of the program and prior to completing the practica scheduled for the sixth term.

Support courses can be completed online, or in person at Langara College or at a college close to you.

Students work in their homes at times convenient to them. Typically, students can expect to spend 8-10 hours per week per course.

YEAR 1 (TOTAL: 29 OR 31 CREDITS)

FIRST TERM(*
Course No.  Credits
FSRV 1113  3
FSRV 3114  3
FSRV 3214  3

SECOND TERM(*
Course No.  Credits
FSRV 1213  3
FSRV 2112  3
FSRV 2212  3

THIRD TERM(*
Course No.  Credits
FSRV 1219  2
(*) First Year Support Courses: To be completed during First, Second or Third Terms. These requirements must be completed before students can register into Year 2 courses.

BIOL 1115, 1116, 1216 or 11904  4/4/3
CMNS 1118 or ENGL 1127 or 1140  3
CMNS 1115 or BUSM 1500  3

YEAR 2 (TOTAL: 31 CREDITS)

FOURTH TERM(**
Course No.  Credits
FSRV 2322  3
FSRV 2422  3
FSRV 4524  3

FIFTH TERM(**
Course No.  Credits
FSRV 4523  3
FSRV 2423  3
FSRV 4424  3
FSRV 2429  2
(**) Second Year Support Courses: To be completed during Fourth or Fifth Terms. These requirements must be completed before registering in Sixth Term courses.

BUSM 2200  3
PSYC 1215 or 2317  3

SIXTH TERM
Course No.  Credits
FSRV 2329  2
FSRV 2529  3

* The program requires students to come to Langara College for a two-week session in April of the second year of the program and prior to completing the practica scheduled for the sixth term.

** Students work in their homes at times convenient to them. Typically, students can expect to spend 8-10 hours per week per course.
NOTE:
1. BISC100 through Thompson Rivers University - Open Learning is an acceptable alternative to the biology courses listed above.
2. FSRV 3114, 3112, 2112, 2322 and 2422 are compressed courses each offered over one-half of the term. FSRV 3114, 2112 and 2322 are offered in the first half of term and FSRV 3214, 2212 and 2422 are offered in the last half of the term.
3. Check the prerequisites for the Arts and Science courses that are part of the program.
4. Please ensure that courses taken at other institutions are fully transferable to Langara College for graduation credit. Check the BCCAT Guide (www.bccat.bc.ca) for details. If in doubt, confirm transferability of courses selected from other institutions with the Department Chair before registering for these courses.
5. Graduates of baccalaureate programs in nutrition or dietetics are eligible for block transfer of 30 credits and may enter the second year of the program provided they meet the requirements for experience in the food service industry.
6. FSRV 4323, 4324 and 4424 together are considered equivalent to FNH 440 at UB. Related courses considered equivalent to FNH 440 at UB. Related courses can be used for course credit equivalency assessment.

PEACE AND CONFLICT STUDIES

Department: Interdisciplinary Studies
Division: Humanities
Program Type: Arts and Science

OPTIONS
- Associate of Arts Degree (Area of Concentration: Peace and Conflict Studies)
- Arts and Science (Peace and Conflict Studies) Diploma

General Information
Peace and Conflict Studies (PACS) is an interdisciplinary field of study which is concerned with the problem of human conflict, especially violent and destructive conflict, and the means by which it can be constructively and nonviolently resolved. Its interdisciplinary approach to analysis draws on the perspectives of the social sciences, history, and philosophy. Guest lecturers from these academic disciplines, as well as guests from the active world of conflict resolution, politicians, and peace leaders, will enhance the Associate Degree/Diploma and core courses, POLI 1145 (PCCN 1201) and PCCN 1202. Each of the courses listed as requirements for the Associate Degree and Diploma Programs in Peace and Conflict Studies adds to an understanding of this most complex and pressing human issue.

A specialization in this field can lead to further academic study in Peace and Conflict, a growing area in graduate programs in North American universities. Peace and Conflict Studies is also an appropriate preparation for the following career areas: politics and diplomacy; international relief and development; community and social services; public and private administration; counselling; law and corrections; and education.

Program intakes: January, May, September

ASSOCIATE OF ARTS DEGREE
(AREA OF CONCENTRATION:
PEACE AND CONFLICT STUDIES)

CURRICULUM
Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:
1. All the following:
   - ENGL 1127 or 1128
   - ENGL 1129 or 1130
   - PCCN 1105 (Attendance at this one-semester series of guest lectures on PACS topics and a journal are required.)
   - POLI 1145 (PCCN 1201)
   - PCCN 1202

2. At least six courses (no more than two courses from any one subject area) from the following:
   - ANTH 1120
   - BIOL 1118, 1185 *
   - CNST 1120, 1130, 1140
   - CHEM 1117, 1217 *
   - ECON 1119
   - ENVS 2390
   - GEOG 1100, 1155, 1160
   - HIST 1114, 1115, 2241, 2242
   - PHIL 1100, 1105, 2226
   - Political Science any two (POLI 1100 and 1140 highly recommended)
   - PSYC 1115, 1215, 2317, 2322
   - RELS 1120, 1220
   - SOCI 1120, 1121, 1220, 2222, 2223, 2240, 2250
   - WMST 1116, 1216, 2272
   - As part of the Science requirement of the Associate Degree, students are advised to take 2 courses from:
     - BIOL 1118, 1185
     - CHEM 1117, 1217

ARTS AND SCIENCE (PEACE AND CONFLICT STUDIES) DIPLOMA

CURRICULUM
Within the framework of the general requirements of the Arts and Science Diploma, students must complete at least 20 courses (minimum 60 credits) including:
1. All the following:
   - ENGL 1127 or 1128
   - ENGL 1129 or 1130
   - PCCN 1105 (Attendance at this one-semester series of guest lectures on PACS topics and a journal are required.)
   - POLI 1145 (PCCN 1201)
   - PCCN 1202

2. At least six courses (no more than two courses from any one subject area) from the following:
   - ANTH 1120
   - BIOL 1118, 1185
   - CNST 1120, 1130, 1140
   - CHEM 1117, 1217
   - ECON 1119
   - ENVS 2390
   - GEOG 1100, 1155, 1160
   - HIST 1114, 1115, 2241, 2242
   - PHIL 1100, 1105, 2226
   - Political Science any two (POLI 1100 and 1140 highly recommended)
   - PSYC 1115, 1215, 2317, 2322
   - RELS 1120, 1220
   - SOCI 1120, 1121, 1220, 2222, 2223, 2240, 2250
   - WMST 1116, 1216, 2272

* As part of the Science requirement of the Associate Degree, students are advised to take 2 courses from:

   - BIOL 1118, 1185
   - CHEM 1117, 1217

www.langara.bc.ca
PHYSICS

Department: Physics and Astronomy
Division: Mathematics and Sciences
Program Type: Arts and Science

ASSOCIATE OF SCIENCE DEGREE (AREA OF CONCENTRATION: PHYSICS)

CURRICULUM
Within the framework of the general requirements of the Associate of Science Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. All of the following courses:
   CHEM 1120
   CPSC 1150
   MATH 1171, 1271
   MATH 2362, 2371, 2475
   PHYS 1125, 1225
   PHYS 2309, 2409
   PHYS 2323, 2424

2. Recommended:
   CPSC 1160
   CHEM 1220

PROFESSIONAL COMPUTER SCIENCE AND TECHNOLOGY

Department: Computing Science and Information Systems
Division: Mathematics and Sciences
Program Type: Arts and Science Limited Enrolment

General Information
Langara College, as a partner of the new economy, has developed the Professional Computer Science and Technology Certificate (PCST) Program to provide professionals with education, skills, and retraining. This one-year certificate program is the result of comprehensive research and study which is based upon the theoretical and practical aspects of computing education. The main objectives of the program are:

1. To meet the needs of those computing professionals who find their computing skills obsolete.
2. To provide non-computing professionals (e.g., engineers) with an opportunity to improve their computing skills.
3. To provide university-transfer students who have a minimum of two years of academic studies and some programming background with practical courses.

Program intakes: January, May and September

Admission Requirements
Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS
• Completion of BC Grade 12 or equivalent or be 19 years of age or older.
• One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.
• One of the following: a minimum score of 80 on the Langara College Mathematics Diagnostic Tests, ‘B’ or higher grade in Principles of Mathematics 12, or a university-level Mathematics course ‘C’ or higher grade in CPSC 1150.

NOTE:
• Students who do not meet the above English or Mathematics requirements may be admitted to the program as determined by the department. Students admitted with a missing admission requirement will be notified in their acceptance letter of the conditions of their acceptance and they will be required to meet with the department to plan their program of study.
• Students not meeting the English requirement will be required to sit the LET in their first semester in the program to attempt to attain a LET with a minimum level of 3. If students do not attain the required score they will be required to take English foundation courses. To remain in the program students who have completed 32 program credits must have successfully completed or be eligible to take one of ENGL 1127, ENGL 1128, CMNS 1115, or CMNS 1118.
• Students not meeting the Mathematics requirement will be required to attain the appropriate Math Diagnostic Test (MDT) score or obtain permission of the Mathematics/Statistics Department to allow them to register into the required Mathematics/Statistics courses in the program. If students do not attain the required score they will be required to take mathematics foundation courses.
• Students admitted on a conditional basis must complete all program requirements to be eligible for graduation.
• Substitution of courses or exemptions may be made. Consult with the Department.

PROGRAM REQUIREMENTS
• At least one year of work experience in computer programming.
• Good knowledge of the English language including the ability to speak and write clearly and correctly. Extensive documentation is required in this program.
• An interview conducted by the Professional Computer Science and Technology Co-ordinator may be required.

DOCUMENTS REQUIRED FOR APPLICATION EVALUATION
(Applications will not be considered until all documents have been received.)
• Completed application for admission form.
• Official transcript(s).
• LET or LPI scores (if applicable).

Please refer to the program application dates in the Application for Admission section in this Calendar.
**Program Type:** Career

**Department:** Professional Photo-Imaging

**Division:** Creative Arts, Social Service, and Education

**General Information**

Langara College’s two-year, full-time (four-term) Professional Photo-Imaging Diploma Program is unique in British Columbia. It combines the aesthetic and business aspects of photography with a solid technical background. The majority of the photographic assignments are based on ‘commercial’ as opposed to ‘fine art’ considerations. This orientation gives realistic preparation for the demanding requirements of the photographic industry, as employees and as entrepreneurs. Students receive instruction in both traditional and emerging electronic/digital imaging techniques.

**NOTE:** Applicants should be aware that the Professional Photo-Imaging Department course offerings are being revised to better reflect new trends in photography and digital imaging. To determine specifics of current and projected courses please contact the department directly, or visit the department website.

**JOB OPPORTUNITIES**

Graduates of the Professional Photo-Imaging Program have found employment in almost every facet of the photographic/imaging industry. They are now in positions of leadership and many have opened their own photographic businesses. Immediately upon graduation, most graduates find employment as lab technicians, digital imagers, photographer’s assistants, or freelancers.

The photographic subjects cover such topics as advertising, architectural, commercial photography, copying, editorial, electronic imaging, and manipulation, fashion, industrial photography, lab work, photojournalism, portraiture, quality control and scientific photography. These photographic subjects are complemented by a good foundation of business and communications fundamentals, including computer applications, necessary for operating or running a small business.

A considerable amount of time is spent doing practical assignments that are representative of those undertaken by photographer’s assistants and photography technicians. Emphasis is placed on learning to meet deadlines and other industry requirements. Due to the demanding workload of classes, labs and homework assignments, a student should not contemplate employment as a means of financing studies while a term is underway.

**Curriculum**

Prospective PCST students who are not strong in structured programming and C++ and languages are to take CPSC 1150 (Introduction to Program Design) in the semester prior to starting the program. In addition, all PCST courses will be scheduled in late afternoons and evenings to accommodate the needs of students who have job commitments.

**While at school, students are encouraged to take an active part in conventions, meetings and seminars sponsored by professional photographic organizations. Unique student awards and scholarships are available as a result of this participation.**

**Program intake:** September

**ADMISSION REQUIREMENTS**

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

**ACADEMIC REQUIREMENTS**

- Completion of BC Grade 12 or equivalent.
- One of the following: LET with a minimum level 3; LPI with a minimum 25 or 24 on the essay with 5 in English usage; BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.
- ‘C’ or higher grade in Mathematics 11.

**PROGRAM REQUIREMENTS**

- A career interest in Photo-Imaging demonstrated by two of the following:
  1. ‘B’ or higher in graphic arts media visual communication or similar course in secondary school or other educational institution;
  2. Minimum two years in a camera club;
  3. Some part-time or full-time work experience in photography;
  4. Some investigation of the employment prospects at least in the local area.
- An interview with program faculty at which time you will have to demonstrate your ability to communicate effectively both verbally and in writing and you will complete a multiple choice entrance examination which is based on advanced amateur theory and mathematics. Interviews are normally conducted in May.
- If selected for an interview you must bring to the interview a portfolio of prints or slides or other graphic communication related to one or more aspects of commercial or professional photography.

**PROGRAM PREFERENCES**

- Preference is given to candidates who have Math 12 a science course and a computer course equivalent to BCAP 1200.
NOTES:
- Supply and equipment costs, which must be purchased or rented by each student, are approximately $5,000 (includes a Mac laptop computer) in the first year of the program and $3,800 in the second year of the program. Textbook costs are approximately $1000 per year.
- Be sure to check the prerequisites for the Arts and Science courses that are part of the program.
- Prerequisites for all Photography courses: ‘C+' or higher grade in all previous Professional Photo-Imaging Program courses, or permission of the Department.

PSYCHOLOGY

Department: Psychology
Division: Social Science
Program Type: Arts and Science

General Information
Psychology is a multi-faceted discipline that includes an exciting array of career options. The Associate of Arts Program with a concentration in psychology is designed to offer focus and direction to prospective psychology majors and minors.

When successfully completed, the general and specific requirements will prepare students for entry into the third-year level of most university psychology programs. However, students are responsible to confirm their selection of transfer courses with their chosen university destinations as first-year and second-year requirements can vary slightly from institution to institution.

The Psychology department at Langara College has a comprehensive selection of psychology offerings. Courses range from surveys of fundamental concepts to in-depth investigations of human behaviour.

ASSOCIATE OF ARTS (AREA OF CONCENTRATION: PSYCHOLOGY)

CURRICULUM

Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:
1. Both of the following: PSYC 1115 and 1215
2. 15 credits (5 courses) from the following:
   - PSYC 2312, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2326, 2328, 2331, 2332, 2341, 2413, 2424, 2425, and 2426

* The Advanced Options include an off-campus element of ‘field experience’ for approximately 15 working days at photographic establishments during the Spring Term.
PUBLISHING

Department:  Publishing  
Division:  Creative Arts, Social Service, and Education  
Program Type:  Career

General Information

The publishing industry has been seeing rapid change brought on by the extraordinary growth of global information networks and changes in publishing technology. The Publishing Program is a one-year, three-term program designed to provide a broad base of training for the following identifiable groups:

1. Those who wish to enter the rapidly evolving publishing industry, including the corporate communication and electronic publishing sectors;
2. Those who have set up, or who wish to set up, their own publishing businesses;
3. Those already in the industry who are trained in traditional production methods and who wish to upgrade their skills.

Some part-time placement may be available for those who have previously completed the fall semester of Publishing or for those with developed Photoshop skills who wish to study electronic publishing. If you are interested in either of these options, please inquire in October for the spring semester or in February for the summer semester.

A Publishing Diploma will be awarded for successful completion of the full three-term, one-year program.

It is not the objective of the program to produce graduates who are experts in all areas of publishing. Rather, our goal is to promote a comprehensive understanding of the publishing process and to allow students to develop their own areas of expertise. The emphasis is on creative problem solving within each area.

The Langara College Publishing Program is product-based and hands-on. Students work to create a line of professional-quality products. These include Pacific Rim Magazine (print run 18,000 with local distribution by the Globe and Mail, Pacific Rim Magazine Online (a website), a DVD project, a newsletter, personal projects and occasional outside projects — using the most advanced tools and techniques available.

Fall-colour magazine production, online publishing, writing and editing, and DVD production are the major topics of the Publishing Program, although corporate publishing, book design and production, and publishing issues are also emphasized. This approach encompasses a complete, advanced publishing sequence, setting a level of knowledge and skill that will equip students for a wide variety of publishing tasks.

Upon graduation, students will have a portfolio of tangible products they helped to create. They will have also acquired enough basic knowledge to start their own business, if that is their goal.

The Program will cover the entire print-based, graphics-and-photo intensive publication production sequence from initial concept to finished product: writing, research, text editing, page layout, graphics applications, scanning, digital photography, digital image editing, system calibration, colour correction, colour separation, colour proofing, imagesetting, ink and paper, and signature and offset printing. In addition, students will transform finished text and graphic material into Web pages, to be published on the World Wide Web. They will also learn how to create materials for a DVD, incorporating audio and video clips along with interactive devices.

The following are the three key components of the Langara College Publishing Program which will be integrated with other related courses in the curriculum and aligned with the magazine production path.

1. Print-based publishing: three main softwares will be taught — QuarkXPress, Adobe Illustrator, and Adobe Photoshop.
2. Online webpage publishing: students will use a graphical Web-browsr and the latest webpage authoring and site management software with drag-and-drop capabilities, to create materials to be published on the Internet.
3. Interactive multimedia publishing: students will integrate and synchronize text, graphics and image files, along with newly created video and sound files, to complete an interactive multimedia project.

Program content and the order of courses may be subject to modification without notice, prior to the commencement of the program, although the main scope of the curriculum will be unchanged.

Program intake: September.

Admission Requirements

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

ACADEMIC REQUIREMENTS

- Completion of BC Grade 12 or equivalent or be 19 years of age or older
- One of the following three English requirements:
  1. Minimum level 5 on the LET or LPI;
  2. Qualification for an exemption from the LET or LPI by having a C+ or higher average in a first-year university-transferable English or Communications course;
  3. Applicants with a minimum level 4 on the LPI or LET may be considered if they meet one of the Program Preferences outlined below. This must be coupled with an above-average portfolio presentation. (Some portfolio content examples: fine arts photography photos of ceramics graphic design evidence of expertise in computer graphics or new media software.)

PROGRAM REQUIREMENTS

- Letter of intent citing your goals in joining the Publishing Program.
- If you are not currently in Grade 12 you must provide a résumé indicating your work and/or post-secondary educational experience.

PROGRAM PREFERENCES

- Committed creative applicants with developed skills in compatible areas e.g. those who have successfully completed either at Langara College or elsewhere programs (or their equivalents) such as Journalism Professional Photo-Imaging Library and Information Technology Display + Design Fine Arts Marketing Management Business Management or second-year Arts and Sciences.
- Applicants with compatible work experience in the publishing industry or those who have set up or are planning to set up their own electronic publishing business or print publishing operation. A summary of applicants’ business plans may be required.
- Applicants with developed electronic publishing or computer-graphic skills (either Macintosh or PC). A practical test may be required to assess the skill level the applicant has achieved.
- Applicants with a strong background in fine arts who present a professional-level portfolio.

</tbody>
</table>

**NOTE:**
Students must successfully complete all Term One courses with a minimum “C” grade in the Fall Semester before they can proceed to Term Two courses in the Spring Semester. In extenuating circumstances, students who do not meet these minimum grade requirements may request department permission to proceed with some or all of the next term courses.

**Admission Requirements**

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

**Academic Requirements**

- Completion of BC Grade 12 or equivalent or be 19 years of age.
- One of the following:
  - LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum “C”; or an “S” in one of ENGL 1107, 1108, or 1110.

**Program Requirements**

- Previous participation in at least one area of recreation such as community projects, sports, fitness, creative arts, social recreation, inclusive recreation, outdoor recreation, or facility maintenance and management. This can be demonstrated through the letters of reference and the resume; see below.
- Three letters of reference where referees (letter writers) assess your match with the program.
- A personal resume summarizing your experience in the areas of education, employment, recreation participation, interests, hobbies, and volunteering.
- A Supplemental Recreation Program Application - This application is a questionnaire that seeks your input on your goals and education expectations.
- An interview by program faculty may be required.

**Documents Required for Application Evaluation**

Applications will not be considered until all documents have been received.

- Completed application for admission and application supplement forms.
- Official transcript(s).
- Three letters of reference.
- Resume
- LET or LPI scores (if applicable).

**Application and Supporting Documents Deadline**

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

**Program Notes**

- Before the first day of classes a medical examination indicating good emotional physical and psychological health may be required for the outdoor field school as part of the RECR 1162 course in Term 1. Upon acceptance to the program you will receive a package from the field school operator that includes information about this requirement.

GRADING

Program students must complete all Recreation courses with a minimum of ‘C-’ (or an ‘S’ in courses graded S/U) to be eligible to register in RCR 2487 or 2497 in the final semester. If missing three credits in one non-Recreation course, a program student must contact the Department Chair, in writing, requesting to enroll in either RCR 2487 or RCR 2497.

Students earning an ‘F’ or ‘U’ in any Recreation course will be unable to continue in the program. For a student with a ‘D’ in two Recreation courses, written approval may be granted by the Department Chair to permit the student to continue in the program.

SCIENCE (GENERAL)

Program Type: Arts and Science

OPTIONS

- Associate of Science Degree
- Arts and Science Diploma

ASSOCIATE OF SCIENCE DEGREE (A.Sc.)

The Associate of Science Degree requires the successful completion of 20 courses (minimum 60 credits) that have assigned or unassigned credit at Simon Fraser University, the University British Columbia, the University of Victoria, or the University of Northern British Columbia. Within the 20 courses (minimum 60 credits), you must complete:

1. 6 credits in Mathematics which shall include at least 3 credits in Calculus;
2. 12 courses (minimum 36 credits) in science, which shall include at least 3 credits in a laboratory science. These must include a minimum of 6 courses (at least 18 credits) in Science at the second-year level taken in two or more subject areas.
3. 6 credits in first-year English; and
4. 6 credits in first- or second-year Arts other than English (excluding Mathematics and laboratory-based science courses); and
5. 2 courses (minimum 6 credits) of first- or second-year Arts, Science or other university-transfer courses. (You may include university-transfer credit from career program and Human Kinetics and Recreation course offerings);
6. the last 50% of the courses used towards the degree at Langara College within the last five years; and
7. all courses used towards the degree with a cumulative GPA of 2.0, including a minimum GPA of 2.0 in all Langara College courses used towards the degree.

No course may be used to meet more than one of the specific requirements.

In addition to the regular Associate of Science Degree (Science - General), Langara College offers Associate of Science Degrees in the following concentrations:

- Biology (General)
- Biology (Molecular/Microbiology)
- Chemistry
- Computer Science
- Dietetics
- Ecology
- Environmental Studies
- Physics
- Mathematics

ASSOCIATE DEGREE DEFINITIONS

First-year and Second-year Courses

- A first-year course is defined as a course which has assigned or unassigned transfer credit at the 100-level at UBC, SFU, UVic or UNBC.
- A second-year course is defined as a course which has assigned or unassigned transfer credit at the 200 level or higher at UBC, SFU, UVic or UNBC.
- An arts course is defined to be any first or second-year course in a subject area for which there is a Baccalaureate of Arts degree at UBC, SFU, UVic or UNBC.
- A science course is defined to be any first or second-year course in a subject area for which there is a Baccalaureate of Science degree or Baccalaureate of Applied Science degree at UBC, SFU, UVic or UNBC.

A laboratory science is one in which a substantial component of student instruction involves the study of natural phenomena.

NOTE:

For a classification of Langara College courses, i.e., humanities, social science, arts, science and lab-science, see the online course description.

Arts And Science Diploma

General Requirements

See the Arts and Science Diploma Programs listing in Program Information.

Program intakes: January, May and September.

DIPLOMA REQUIREMENTS

20 courses (at least 60 credits) including:

- At least 15 courses (minimum 45 credits) from the following disciplines: Aboriginal Studies, Art History, Anthropology, Astronomy, Biology, Canadian Studies, Chemistry, Chinese, Classical Studies, Communications, Computer Science, Economics, English (students must complete one of ENGL 1127 and ENGL 1128 and one of ENGL 1129 and ENGL 1130), Environmental Studies, Family Studies, French, Geography, Geology, Greek, History, Japanese, Latin, Latin American Studies, Mathematics, Pacific Rim, Peace and Conflict Studies, Philosophy, Physics, Political Science, Psychology, Religious Studies, Sociology, Spanish, Statistics, Women’s Studies.
- 15 credits from the above-mentioned courses, career program courses, or human kinetics and recreation courses.

NOTE:

A small number of courses, such as MATH 1100, cannot be used towards a diploma. Please refer to the course description section of this Calendar.
**Programs**

- Social Service Worker Certificate
- Social Service Worker Co-ordinated Diploma

**General Information**

The nine-month (September through May) Social Service Worker Program prepares students for employment at the entry level in a variety of social service and health-related agencies. The program provides a combination of academic, experiential and community-based learning and focuses on the theory and practice of delivering basic social services. Students take eight courses each term including Arts and Science support courses. The support courses may be taken in advance of entering the program. The program emphasizes practical skills which are transferable to a wide range of community social services including: interviewing, problem solving, teamwork, self-care, working in supervised environments, assessment and referral.

The Social Service Worker Certificate is awarded to students who successfully complete the two four-month terms and subsequent five-week block practicum. A Co-ordinated Social Service Worker Diploma is awarded to students who have also completed an additional 30 credits of academic studies at Langara College (See Index — Co-ordinated Diploma). Students enter the program in September.

Employment opportunities for graduates of the Social Service Worker Program vary based on new and emerging needs, funding priorities, development of new services, and expansion of existing programs. Graduates of the program find employment in both private and public sector agencies and in a variety of programs. Among the types of organizations and services that employ graduates are Neighbourhood Houses, youth service agencies, family centres, women’s programs, immigrant service agencies, rehabilitation centres, First Nations bands and councils, advocacy organizations, social and recreational programs, the Ministry of Human Resources and the Ministry for Children and Families.

Some organizations will require the completion of a criminal record check for field placements and employment. In addition, some employers may require a valid BC driver’s license.

Program intake: September.

**Admission Requirements**

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

**ACADEMIC REQUIREMENTS**

- Completion of BC Grade 12 or equivalent or be 19 years of age or older.
- Minimum 3 credits of university-transferable courses with a grade point of 2.00 or higher.
- One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C-’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.

**PROGRAM REQUIREMENTS**

- Completed Social Service Worker application supplement form (available at the Registrar’s Office or on the Web).
- An interview conducted by program faculty.
- Demonstrated emotional maturity and an affinity for working with people.
- Previous experience in work related to the social services or human service agency or organization.
- Good knowledge of the English language and the ability to speak and write clearly and correctly.

**PROGRAM PREFERENCES**

- Preference is given to candidates who are at least 21 years of age by the time they enter the program.
- Opportunities for the required practicum placements for students under 21 years of age are limited.

**DOCUMENTS REQUIRED FOR APPLICATION EVALUATION**

(Applications will not be considered until all documents have been received.)

- Completed application and application supplement forms.
- Official transcripts.
- Two letters of reference.
- LET or LPI scores (if applicable).

Please refer to the program application dates in the Application for Admission section in this Calendar.

**Social Service Worker Co-ordinated Diploma**

To receive the Social Service Worker Co-ordinated Diploma, students must successfully complete the Social Service Worker Certificate and an additional 10 courses (minimum 30 credit hours) of arts and science courses chosen from the following disciplines: Aboriginal Studies, Art History, Anthropology, Biology, Canadian Studies, Chemistry, Chinese, Classical Studies, Communications, Computer Science, Economics, English, Environmental Studies, Family Studies, French, Geography, Geology, Greek, History, Japanese, Latin, Latin American Studies, Mathematics, Pacific Rim, Peace and Conflict Studies, Philosophy, Physics, Political Science, Psychology, Religious Studies, Sociology, Spanish, Statistics, and Women's Studies. Unless you transfer in courses earned before you began the Social Service Worker program, you must complete the 10 courses at Langara. Refer to Co-ordinated Programs information for details.
**THEATRE ARTS (STUDIO 58)**

**ACTING/PRODUCTION**

Department: Theatre Arts  
Division: Creative Arts, Social Service, and Education  
Program Type: Career

**OPTIONS**

- Theatre Arts (Acting) Diploma  
- Theatre Arts (Production) Diploma

**General Information**

Theatre Arts offers a three-year Acting Diploma Program and a two-year Production Diploma Program designed to prepare you for professional careers in theatre, film, television, and related arts. The programs graduate actors and production personnel who have a professional level of commitment and aptitude, and who have acquired the skills to become contributing members of these professions. The instructors are professional working artists in their respective fields. We maintain a close liaison with professional companies in Vancouver, casting agents, and directors, most of whom regularly employ our graduates. Intake is limited to ensure students receive intensive individual training. Some lecture and theory are part of the training, but the practical application of various skills is given greatest emphasis.

**ACTING OPTION**

Particular emphasis is placed on the development of an integrated voice and body as an expressive tool. Communication with the audience and fellow actors is stressed. Students are also encouraged to develop their creative contribution to the theatre process. The acting option comprises six terms. The emphasis in Terms 1, 2 and 3 is on class work, practical and directed study. The Production Option, after the first term, consists of classwork, practicum and directed studies. This option is not a general interest course in technical theatre. Students will be given projects related to their field of study and will have the opportunity to work with professional designers and directors. Students are given a well-rounded understanding of acting, voice, and movement in their first term. After the first term, production students assume major responsibilities on Studio 58 productions.

The Production Option comprises four terms.

Program intakes:

- Theatre Arts (Acting) Diploma - January and September
- Theatre Arts (Production) Diploma - January

**Admission Requirements**

Please refer to the information regarding general requirements for Admission and Application to Langara College programs.

**ACADEMIC REQUIREMENTS**

- Completion of BC Grade 12 or equivalent or be 19 years of age or older.
- One of the following:
  - LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit with a minimum ‘C+’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.

**PROGRAM REQUIREMENTS**

- Admission is dependent on the successful completion of an audition. You must demonstrate sufficient talent indicating you have the potential to become a professional person in the theatre arts.
- You must indicate a high degree of commitment to pursuing a professional career in the theatre, film, TV, and related arts. Auditions take place in April and May.
- Good knowledge of the English language including the ability to speak and read aloud and write clearly and correctly.

**PROGRAM NOTES:**

- It is strongly recommended that students be financially able to support themselves WITHOUT having to work during the term. Because theatre arts students are requested to put in long and often irregular hours including evenings and weekends having an outside job is extremely difficult.
- Students enrolled in the first four terms of the Acting Option are not permitted to take any performing jobs while registered in these terms. Senior students in both acting and production options sometimes are given the opportunity to gain additional experience by working with professional theatres in Vancouver and working on a film/TV project.

**Auditions**

- **Acting**: For potential acting students the audition will consist of the presentation of memorized monologues, improvisations and a sight-reading.
- **Production**: For potential production students admission will be determined through an audition (see above) as well as completion of a project and an extensive interview.

Auditions for both Acting and Production Options are held in late April, early May in Vancouver, Edmonton, Toronto, and Ottawa. Audition fee required.

Acting students are accepted to begin in September and January.

Production students are accepted to begin in January only.
GRADING
Acting: To be eligible for the second and third terms, students must receive a minimum ‘C’ grade in all subjects. To be eligible for the fourth and fifth terms, students must receive a minimum ‘B-’ grade in Acting and a minimum ‘C’ in all other subjects. To be eligible for the sixth term, students must receive a minimum ‘B-’ in THEA 2350 at the end of the fifth term.
Production: To be eligible for the second term, students must receive a minimum ‘C’ in all subjects. To be eligible for the third and fourth terms, students must receive a minimum ‘B-’ in THEA 2150 or 2250.

REPEATING
For the policy on repeating, please contact the Theatre Arts Department. Students wishing to switch their option may do so only with the approval of the Theatre Arts Department Chair/Artistic Director.

MATERIALS AND FEES
• You must pay a materials fee at the beginning of each term to cover the cost of theatre tickets, scripts, tapes, etc.
• You must provide an outfit for movement work as required by your instructor. You are also expected to provide make-up as required, and to be prepared to have your hair cut or styled whenever needed for a part in a production.
• Production students will be required to purchase additional equipment and materials.
• An additional fee for headshots is required in the final term.

COURSE OF STUDY
Unless granted previous credit for university or college-level first-year English, students must enrol in the total program.

NOTE:
Theatre Arts Program curriculum is constantly under review to ensure it meets the needs of the profession.
WOMEN’S STUDIES
Department: Interdisciplinary Studies
Division: Humanities
Program Type: Arts and Science

OPTIONS
• Associate of Arts Degree (Area of Concentration: Women’s Studies)
• Arts and Science (Women’s Studies) Diploma

ASSOCIATE OF ARTS DEGREE
(AREA OF CONCENTRATION: WOMEN’S STUDIES)

CURRICULUM
Within the framework of the general requirements of the Associate of Arts Degree, students must complete at least 20 courses (minimum 60 credits) including:

1. All the following:
   WMST 1116 and 1216
   WMST 2272 or 2274
   WMST 1105 (Colloquium - no credits, no fee)

2. At least three courses from the following:
   WMST 2272 or 2274 (whichever was not taken in No. 1 above)
   WMST 1195
   WMST 1220

Certain sections of the following courses. These course/sections must contain a minimum 30% Women’s Studies content - please see the Program Co-ordinator for further information:

- ABST 1115, 1116
- AHIS 1112, 1212, 1113, 1115, 1215, 1117, 1114, 1214, 1119, 1301, 1302
- ANTH 2260
- CLST 1102
- CNST 1120, 1130, 1140
- ECON 1119

- RELS 1220, 1230
- SOCI 1121, 2220, 2250
LANGARA COLLEGE COURSE INFORMATION

Introduction
A course at Langara College normally consists of three or more hours of classwork or equivalent per week in one subject area for a four-month period.

Course Descriptions
The courses listed in this Calendar with few exceptions will be offered at Langara College during the three semesters comprising the 2008/2009 College year. Not all courses will be offered during any one semester. Information on semester course offerings are included in the Registration Guide and Course Schedule, which is available approximately two months before the beginning of each semester.

Course Numbering
The first digit in the four-digit number indicates the year level as determined by Langara College. Please note that some courses which have a first digit of '1' may transfer as a second-year course at some universities and that some with the first digit of '2' may transfer as a first-year course. Please refer to the British Columbia Transfer Guide available in the Counselling Department or online at www.bctransferguide.ca or to the institution to which you wish to transfer for transfer credit information.

Prerequisites
A prerequisite is a requirement students must fulfil before registering in a course. Unless otherwise noted, a minimum "C-" or "S" grade in the prerequisite course is required. As well as courses, prerequisites may include minimum scores on placement tests, departmental permission, or acceptance into a particular program.

Prerequisite requirements, where applicable, are included in the course descriptions. Additional prerequisite information may be included in departmental information at the beginning of each course subject listing. For some career program courses, specific prerequisites are not indicated because admission to these courses generally depends on the degree of student success in the previous semester of the program.

Associate Degree Course Attributes
Course attributes are descriptions assigned to Langara courses to help students determine how these courses meet associate degree requirements. These attributes are assigned based on how current Langara courses transfer to the BC research universities: UBC, UBCO, SFU, UVIC, and UNBC.

Course attributes are meant solely for the purpose of determining how a course meets associate degree requirements, and they reflect how the course currently transfers to at least one of the BC research universities.

For example, a first-year course at Langara may be given a second-year attribute because it transfers to at least one of the universities as a second-year course. This Langara course may transfer to all of the other universities as a first-year course.

Credits
A standard credit represents a minimum of one hour per week of classroom work or equivalent for a semester. Most courses carry three credits but require more than three hours of classroom work or the equivalent in laboratories, seminars, tutorials, etc.

Credits are indicated in parentheses immediately after each course number.

Transferability of Courses
Please refer to the British Columbia Transfer Guide (online at www.bctransferguide.ca) or contact the receiving institution to obtain information on the transferability of Langara College courses. Information on the transferability of courses is also available from the Counselling Department.

Hours of Instruction
Hours of instruction appear after the course credits in a series of three numbers. The first number indicates the hours of lecture; the second, the hours of seminar; the third, the hours of laboratory time required each week. These numbers are approximate; instructors may adjust these allotments to meet successfully the learning goals of individual classes. Courses offered in a non-traditional format, e.g., online courses, will have equivalent instructional time that comprises independent, guided study.

Half-semester Courses
Langara College offers a limited number of courses each semester in seven-week sessions. The seven-week sessions are listed in the Registration Guide and Course Schedule with section numbers prefaced by an “A” or “B”, e.g., ENGL 1127-A01.

Distance Education Courses - Online or Guided Independent Study
Distance education courses are recommended only for students who are confident of their ability to work independently. Like all Langara College courses, they must be completed during the semester in which students enrol. For further information on these courses or on how to register for them, refer to the Registration Guide and Course Schedule.

BIOL 1215 (4 CREDITS) (4:0:2)
GENERAL BIOLOGY II
This course is an overview of living organisms (microorganisms, plants, invertebrates and vertebrates), an introduction to ecology and a survey of organ systems.

Prerequisites
Prerequisite(s): BIOL 1115 with minimum “C-” grade or equivalent.

LANGARA COLLEGE COURSES
ABST (Aboriginal Studies)

ABST 1100 (3 CREDITS) (3:0:0)
Canadian Aboriginal Experience
(Formerly: Aboriginal Colonial Experience)
This introductory course examines the experience of the Aboriginal peoples of Canada from pre-contact to present. This course focuses on the relationship between Aboriginal people and the migrants to Canada with an emphasis on British Columbia.

ABST 1102 (3 CREDITS) (3:0:0)
Aboriginal Culture, Identity and Community
This course provides students with an introduction to Indigenous worldviews, philosophies and identities. The cultural, historical, societal, spiritual and psychological dimensions of pre-contact societies will be explored thus providing a framework for understanding traditional strengths of Indigenous communities, families and individuals. Students will develop conceptual and personal frameworks to better understand the relationship of Indigenous identity to cultural, social, spiritual, and personal values.

ABST 1104 (3 CREDITS) (4:0:0)
Canadian Indian Policy
An introduction to British and Canadian Indian Policy from contact to the present. This course examines the legislation and policy governing the Aboriginal peoples of Canada and British Columbia. Emphasis will be on a critical examination of the various Indian Acts.
Note: Students with credit for ABST 1101 or 2209 should not take ABST 1104 for further credit.

ABST 1105 (0 CREDITS) (2:0:0)
Aboriginal Studies Seminar I
This bi-weekly seminar will provide a supportive atmosphere for all program students and faculty. The discourse will include all related program issues and will regularly include Elders and guest speakers.
Note: Mandatory attendance and participation required. Students must satisfactorily complete 3 of the 4 seminars (ABST 1105, 1106, 1107, 1108).

ABST 1106 (0 CREDITS) (2:0:0)
Aboriginal Studies Seminar II
This bi-weekly seminar will provide a supportive atmosphere for all program students and faculty. The discourse will include all related program issues and will regularly include Elders and guest speakers.
Note: Mandatory attendance and participation required. Students must satisfactorily complete 3 of the 4 seminars (ABST 1105, 1106, 1107, 1108).

ABST 1107 (0 CREDITS) (2:0:0)
Aboriginal Studies Seminar III
This bi-weekly seminar will provide a supportive atmosphere for all program students and faculty. The discourse will include all related program issues and will regularly include Elders and guest speakers.
Note: Mandatory attendance and participation required. Students must satisfactorily complete 3 of the 4 seminars (ABST 1105, 1106, 1107, 1108).

ABST 1108 (0 CREDITS) (2:0:0)
Aboriginal Studies Seminar IV
This bi-weekly seminar will provide a supportive atmosphere for all program students and faculty. The discourse will include all related program issues and will regularly include Elders and guest speakers.
Note: Mandatory attendance and participation required. Students must satisfactorily complete 3 of the 4 seminars (ABST 1105, 1106, 1107, 1108).

ABST 1115 (3 CREDITS) (4:0:0)
Aboriginal Contemporary Issues
(Formerly: Contemporary Social Issues for Aboriginal People)
This course examines the contemporary issues facing Aboriginal people. A variety of current issues will be examined along with their historical origins.

ABST 1116 (3 CREDITS) (4:0:0)
Aboriginal Women in Canada
(Formerly: The Roles of Aboriginal Women in Canada)
This course explores Aboriginal women in Canada from both historic and contemporary perspectives. A holistic and interactive approach will be used.

ABST 1150 (3 CREDITS) (3:0:0)
Global Indigenous Perspectives
(Formerly: International Indigenous Perspectives and the Law)
This course surveys Aboriginal people from around the world: their different perspectives and different histories. Particular attention will be paid to the recognition of Aboriginal rights and the struggle for self-determination. Applicable international law and the international bodies will also be examined.

ABST 1200 (3 CREDITS) (4:0:0)
Criminal Justice and Aboriginal People
(Formerly: Aboriginal People and the Criminal Justice System)
This course surveys the history of the application of criminal law with respect to Aboriginal people. This course examines the impact of the Criminal Code and the Criminal Justice System on Aboriginal life in Canada while focusing on contemporary conditions and the potential for reform.

ABST 1206 (3 CREDITS) (3:0:1)
Physical Resources and Aboriginal People
This course will critically examine and explore the relationship between Aboriginal people and physical resources. Both Aboriginal and Western perspectives will be reviewed and discussed regarding the following physical resources: land and environment, water, forestry, fisheries, minerals, agriculture, wildlife management, mining and energy. For each of the preceding, the Aboriginal perspective will be discussed and followed by a full description of the resource and the relevant government legislation and non-governmental organizations (NGOs). Case studies and the laboratory will support the student. This course will be of interest to anyone interested in natural resources.
**ABST 1207 (3 CREDITS) (3:1:0)**
**Aboriginal Traditional Knowledge and Contemporary Science**
This science course will integrate Aboriginal Traditional knowledge with the basic elements of the physical and biological sciences. Contemporary science will be examined and compared with Aboriginal Traditional Knowledge. The Aboriginal concepts of nature, governance, origin accounts, knowledge systems, and stewardship issues, amongst other topics, will be explored. The course will be taught from an Aboriginal perspective that is respectful of culture and Traditional Knowledge, yet attentive of the realities of contemporary science.

**ABST 2100 (3 CREDITS) (4:0:0)**
**Aboriginal Community - Applied Research**
The research must be an approved topic related to Aboriginal community issues and development. The research will be supervised by a tutor and must be in cooperation with at least one Aboriginal community. The research should be relevant to the needs of the community, or communities in question.

Prerequisite(s): ABST 1100, 1101 or 1104, 1120, 1200, 1115, and 1116.
Corequisite(s): ABST 2101

**ABST 2101 (3 CREDITS) (4:0:0)**
**Aboriginal Community - Directed Readings**
This course will be an examination and analysis of the literature pertaining to the approved applied research topic (ABST 2100) under the supervision of a tutor.

Prerequisite(s): ABST 1100, 1101 or 1104, 1120, 1200, 1115, and 1116.
Corequisite(s): ABST 2100

**ABST 2120 (3 CREDITS) (3:0:1)**
**Canadian Aboriginal Law**
(Formerly: The Canadian Constitution and Aboriginal People)
This course examines relations between Aboriginal people and the Canadian government including treaties, modern treaty-making, political negotiations, legislation, and the recognition of Aboriginal rights under the Canadian constitution. The role of Aboriginal law and traditions will be included as well as contemporary changes, reforms, and the potential these have for Aboriginal self-government.

**ABST 2202 (3 CREDITS) (3:0:1)**
**Haida Gwaii: Land, People, and Culture**
This course provides students with a comprehensive overview of Haida Gwaii and its land, people, and culture. Students will be provided with both conceptual and personal frameworks through which they will understand the unique history, geography, arts, culture and traditions of the Haida People. Haida elders and community members will frequently be guest speakers. A holistic, interdisciplinary and interactive approach will be used. This course is offered for the Haida Gwaii Field School students.

**ABST 2230 (3 CREDITS) (3:0:0)**
**Aboriginal Community Development**
(Formerly: Aboriginal Community Development and Sustainability)
This course focuses on Aboriginal community development and the needs of Aboriginal communities now and in the future. Strategies for success will be examined as Aboriginal communities move toward self-reliance. Case studies will be used to explore course concepts.

**ABST 2240 (3 CREDITS) (3:0:0)**
**Urban Aboriginal Strategies**
(Formerly: Aboriginal Urbanization)
Since 1951 there has been a rapid growth in the number of First Nations Canadians living in the city. Despite this there has been little academic attention given to the systemic study of Canadian Aboriginal peoples living in urban centres. This course introduces students to the problems and prospects faced by Canadian First Nations people in urban environments. Topics include migration, housing, employment, and a critical examination of government policy regarding acculturation and assimilation.

**ANTH (Anthropology)**

**ANTH 1120 (3 CREDITS) (3:1:0)**
**Introduction to Cultural Anthropology**
An introduction to the study of human cultures. Topics include methods, some theory and a consideration of how people obtain their living (subsistence, economy), how they live together (social structure, marriage, law etc.) and their beliefs and practices (religion, arts, rituals etc.)

**ANTH 1131 (3 CREDITS) (3:1:0)**
**Introduction to Physical Anthropology and Human Origins**
A survey of the physical and behavioral evolution of humans from the time of the earliest primates to the present; a discussion of fossil material, interpretations and theories as well as some genetics and primatology.

**ANTH 1132 (3 CREDITS) (3:1:0)**
**Introduction to Archaeology**
An introduction to the study of human prehistory; an examination of the evidence for human cultural evolution; and a consideration of the various motives, methods and techniques that have been involved in reconstructing past cultures.

**ANTH 1150 (3 CREDITS) (3:1:0)**
**Regional Studies in Anthropology: Pacific Northwest**
(Formerly: Pacific Northwest Cultural Studies)
An introduction to historic indigenous cultures of the Pacific Northwest Coast from northern California to Alaska. This is a survey course that considers the nature of the diversity of the people and cultures of the region from an ethnohistoric perspective. Topics may include subsistence and settlement patterns, language, world view, myth and art forms.

**ANTH 1160 (3 CREDITS) (3:1:0)**
**Regional Studies in Anthropology: Latin America**
An introduction to and overview of cultural development and diversity in Latin America from pre-conquest times to the present. The student will be given a broad theoretical perspective to selected topics of anthropological interest. This is a survey course and is intended to give a comprehensive background and a base for future studies.

**ANTH 1170 (3 CREDITS) (3:1:0)**
**An Introduction to Myth and Folklore**
A survey of the area of mythology, folklore and legend. Topics include types of myths, their functions in culture, theoretical approaches to their study, and a discussion of modern mythology. The student will be given a broad perspective of an important part of worldview.
ANTH 1180 (3 CREDITS) (3:1:0)
ABORIGINAL CULTURES OF BRITISH COLUMBIA
An introduction to the origins and development of Interior and Coastal peoples. This survey course will consider the earliest cultural evidence, the development of regional diversity and the indigenous cultures at the time of contact.

ANTH 1185 (3 CREDITS) (3:1:0)
PREHISTORY OF THE MEDITERRANEAN
A regional survey of the prehistoric cultures of the areas bordering the Mediterranean, covering the time from the Neolithic to the Classical period and tracing the origins of Classical civilizations through archaeological techniques.

ANTH 1190 (3 CREDITS) (3:1:0)
VISUAL ANTHROPOLOGY
This course examines the history of ethnographic film and explores issues of film production and viewing. It examines issues concerning the creation of knowledge, ethics of representation, practical filmmaking constraints, and the nature of past anthropological use of film.

ANTH 1195 (3 CREDITS) (4:0:0)
SPECIAL TOPICS
This number is reserved for Anthropology courses that may be offered from time to time by: a) Anthropology faculty who may wish to present a course in their speciality; or b) visiting Anthropology lecturers. Announcements regarding this course offering and its prerequisites, if any, will be announced in the Registration Guide and Course Schedule.

ANTH 1221 (6 CREDITS) (0:0:40)
FIELD TECHNIQUES IN ARCHAEOLOGY
A course in practical archaeological method and theory involving fieldwork. Course objectives include the recovery and interpretation of archaeological data as well as the acquisition of skills such as photography, mapping, computer applications and preparation of reports. Fieldwork: six to eight weeks plus classroom/lab for seven weeks.
Prerequisite(s): Permission of the instructor.

ANTH 1222 (3 CREDITS) (1:0:3)
METHODS IN ARCHAEOLOGY: LABORATORY ANALYSIS
A course in practical archaeological laboratory analysis techniques. Analysis of cultural materials obtained from current and past Archaeology Field Schools forms the basis of this course. Analytical techniques include artifact conservation, typology and function. Ancillary techniques include analysis and interpretation of sediments, landforms, floral remains, faunal remains, and radiometric sample preparation, among others. Scheduled to run concurrently with ANTH 1221 (6 credits) during the summer semester, may also be offered in fall and spring semesters.
Prerequisite(s): Permission of the instructor.

ANTH 1223 (3 CREDITS) (1:0:3)
METHODS IN ARCHAEOLOGY: GEOSPATIAL ANALYSIS
A course which introduces students to the field of spatial analysis. Students will participate in lectures, labs and data collection. Starting with pace and compass mapping, students will then be introduced to Global Positioning Systems (GPS), Geographic Information Systems (GIS), operation of a Total Base System and associated computer applications.
Prerequisite(s): ANTH 1221, ANTH 1222 or permission of instructor.

ANTH 1224 (3 CREDITS) (3:1:0)
ETHNOARCHAEOLOGY
This course will investigate how the study of contemporary cultures can contribute to our understanding of the behavioural relationships that underlie the production and patterning of material culture in archaeological sites.

ANTH 1295 (3 CREDITS) (4:0:0)
SPECIAL TOPICS
This number is reserved for Anthropology courses that may be offered from time to time by: a) Anthropology Faculty who may wish to present a course in their speciality; or b) visiting Anthropology lecturers. Announcements regarding this course offering and prerequisites, if any, will be announced in the Registration Guide and Course Schedule.

ANTH 1400 (3 CREDITS) (3:0:1)
FORENSIC ANTHROPOLOGY
New Course
Forensic Anthropology deals with human remains resulting from unexplained deaths, including skeletal and fossil remains from the archaeological and palaeontological records. This course focuses primarily on the recovery and analysis of skeletal human remains, explaining methodologies by which they can provide data for the medico-legal system (the courts). Foci of the course emphasize field recovery and laboratory analysis.

ANTH 1500 (3 CREDITS) (3:1:0)
INTRODUCTION TO MEDICAL ANTHROPOLOGY
New Course
Medical anthropology takes a cross-cultural and evolutionary perspective on illness and health. Its central focus is the body and our experience of our social selves through the physical. The course discusses the universal human experience of the world through the body, yet approaches the subject through specific research in biological anthropology, sociology, cultural anthropology, and psychiatry that is directly related to the cultural experience of illness and wellness at particular life stages. This course is broadening to all students, but it is especially helpful to health professionals in a multi-cultural society.

ANTH 2230 (3 CREDITS) (3:1:0)
ARCHAEOLOGY OF THE NEW WORLD
A survey of the prehistoric cultures of North, Central and South America, from human entry into the New World to the time of European settlement.
Prerequisite(s): ANTH 1132 or consent of the instructor.

ANTH 2231 (3 CREDITS) (3:0:1)
PRIMATE BEHAVIOUR
The study of nonhuman primate behaviour in an evolutionary context. Students in the course will explore the relation between environment and primate anatomy, social structure, and intelligence.
Prerequisite(s): A minimum “C” grade in one of ANTH 1131, BIOL 1115 or 1116; or permission of the instructor.

ANTH 2233 (3 CREDITS) (3:0:1)
HOMINID EVOLUTION: THE FOSSIL RECORD OF OUR ORIGINS
An in-depth study of fossil hominids in their environments, with discussion of the interpretation of this evidence in the story of human evolution.
Prerequisite(s): A minimum “C” grade in one of the following: ANTH 1131, 1132, 2231, BIOL 1115, 1116; or permission of instructor.
ANTH 2234 (3 CREDITS) (3:1:0)
Ancient Civilization: Origins, Development and Collapse

New Course
The origins and development of urban cultures and attendant states and empires represents one of the most important institutions of the modern global community. Between 10,000 and 15,000 years ago some populations began to aggregate in year-round villages based upon horticulture and/or agriculture. This lead to the development of the earliest urban centres. Today, the majority of the global population lives in cities thanks to agricultural-industrial economies. This course investigates the process of cultural developments arising from settled lifestyles, food production systems, and the development of complex socio-political institutions, including models of cultural collapse. A regional focus is followed using examples from the Near East, Easter Island and the Andean region of South America.

ANTH 2240 (3 CREDITS) (3:1:0)
Anthropology of North American Aboriginal Peoples

An introduction to North American Aboriginal people. This is a survey course that covers the period from early historic times to the present, and will consider selected contemporary issues.
Prerequisite(s): ANTH 1120, 1150, or 1180; or permission of the instructor.

ANTH 2250 (3 CREDITS) (3:1:0)
Anthropology of Religion

This course offers students a comparative, cross-cultural investigation of religious beliefs, teachings, practices, and movements; and several theoretical approaches to explore the relationships between religion, culture and the individual.
Prerequisite(s): One of the following: ANTH 1120, SOCI 1120, SOCI 1121, or RELS 1110.

ANTH 2260 (3 CREDITS) (3:1:0)
Gender in Cross-Cultural Perspectives

This course will provide a cross-cultural survey of the nature and diversity of gender relations and their sociocultural expression. Explanations and theories of gender inequality drawn from anthropological research will be considered, as will selected areas of topical interest.
Prerequisite(s): A minimum "C" grade in one of ANTH 1120, SOCI 1120, or SOCI 1121; or permission of the instructor.

ANTH 2270 (3 CREDITS) (3:1:0)
Anthropology of Food

Food is universally important - whether for basic sustenance and personal well-being, as a basis for defining identities, symbolizing beliefs, as a political tool or as a consequence of modern agriculture and technology. This survey course will provide an anthropological perspective and analysis of a variety of selected topics from traditional foodways to contemporary issues.
Prerequisite(s): ANTH 1120, SOCI 1120, or SOCI 1121; or permission of the instructor.

APPL (Applied Planning)

APPL 1105 (0 CREDITS) (0:0:0)
Applied Planning Seminar
This non-credit seminar, compulsory for students in the Applied Urban and Rural Planning Program, employs guest speakers to discuss current issues in planning. Graded S/U.

APPL 1110 (3 CREDITS) (3:1:0)
Introduction to Planning
This course is intended as an introduction and overview of the basics of urban planning. Students will gain a preliminary understanding of the elements and practice of planning. They will be able to relate these to current planning issues in the Vancouver Region.
Prerequisite(s): One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit, with a minimum ‘C-’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.

APPL 1130 (3 CREDITS) (3:1:0)
Introduction to Planning Methods
This course provides an introduction to planning methods in the context of urban planning issues in Canada. The course explores essential methods for data collection, including land use surveys, data interpretation, analysis and presentation. The course will review important Canadian and BC data sources, focusing on population, housing, employment and commercial and industrial data. Students will apply those methods in practical case studies and assignments. Through team assignments, students will develop skills in working in teams, and graphical and oral presentation.
Prerequisite(s): One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 with an ‘A’; a university-level English or Communications course for which Langara awards transfer credit, with a minimum ‘C-’; or an ‘S’ in one of ENGL 1107, 1108 or 1110.

APPL 1140 (3 CREDITS) (3:1:0)
Advanced Planning Methods
This course follows on from Introduction to Planning Methods, introducing students to important research approaches used in the preparation of planning and policy studies for urban planning at the local and regional levels. Advanced methods explored in the course will include, population projections, housing needs analysis, retail demand and supply analysis studies, and use requirements, and traffic impact and transportation studies.
Prerequisite(s): APPL 1130 and 1210; or permission of the program co-ordinator.

APPL 1205 (0 CREDITS) (0:0:0)
Applied Planning Seminar II
This non-credit seminar, compulsory for students in the Applied Urban and Rural Planning Program, employs guest speakers to discuss current issues in planning. Graded S/U.
APPL 1210 (3 CREDITS) (3:1:0)  
**Urban Planning**  
Using case studies, this course focuses on urban planning functions, including neighbourhood design, subdivision, zoning, and planning policy development.  
Prerequisite(s): APPL 1110 or 1130; or permission of the program co-ordinator.

APPL 2305 (0 CREDITS) (0:0:0)  
**Applied Planning Seminar III**  
This non-credit seminar, compulsory for students in the Applied Urban and Rural Planning Program, employs guest speakers to discuss current issues in planning. Graded S/U.

APPL 2310 (3 CREDITS) (3:1:0)  
**Environmental Planning**  
Environmental planning requires an appreciation of how the natural and physical environment can be protected and the constraints they impose on urban and rural development. Students will receive an introduction to the main issues to be addressed by planners, and indications of the implications for regional policy and site analysis. The course combines consideration of the major topics, with a series of case studies on environmental planning.  
Prerequisite(s): Any two of APPL 1110, 1130, 1140, 1210; or BIOL 1118 or 1115; or permission of the program co-ordinator.

APPL 2320 (3 CREDITS) (2:0:3)  
**Introduction to Geographical Information Systems**  
This is an introductory course in Geographic Information Systems (GIS), including data formats, topology, data acquisition, data quality management, inventory operations, basic analysis and display, including theme mapping and land suitability analysis. In weekly computer lab sessions, students will learn the commonly used GIS software, ArcView GIS.

APPL 2330 (3 CREDITS) (2:0:2)  
**Land Development**  
In this course on Land Development, students are introduced to subdivision planning and regulation, and methods of computer-aided design for the preparation of subdivision and neighbourhood plans.  
Prerequisite(s): APPL 1110, 1210, 1130 and 2310. APPL 2310 may be taken concurrently.

APPL 2405 (0 CREDITS) (0:0:0)  
**Applied Planning Seminar IV**  
This non-credit seminar, compulsory for students in the Applied Urban and Rural Planning Program, employs guest speakers to discuss current issues in planning. Graded S/U.

APPL 2410 (3 CREDITS) (3:1:0)  
**Rural and Small Town Planning**  
Using case studies, this course focuses on planning functions in rural settings and small towns. Special attention is given to identifying physical hazards to development, land suitability analysis, managing urban development in rural areas, community economic development, and planning for First Nations.  
Prerequisite(s): APPL 1210 and 2310; or permission of the program co-ordinator.

APPL 2420 (3 CREDITS) (3:0:2)  
**Planning Applications of Geographical Information Systems**  
Following on from Introduction to Geographical Information Systems, this course introduces students to more advanced GIS elements, including preparation and management of geodatabases, working with projected coordinate systems, creation of data layers, digitizing, and advanced analysis techniques. Working on practical planning assignments using ArcView GIS software, students will practice a range of applied spatial analysis techniques, including suitability analysis, buffer analysis, and data querying by location and attributes, and cartographic presentation.  
Prerequisite(s): APPL 2320

APPL 2430 (3 CREDITS) (3:1:0)  
**Planning Process and Law**  
This course represents an introduction to the legal tools used to regulate the use of land. The course uses a case study approach to look at the constitutional framework, powers and limitations, public control over private property and the various acts that control land use and development. Included will be an in-depth look at planning legislation as it applies to British Columbia.  
Prerequisite(s): APPL 1110 with a minimum "C+" grade is recommended.

APPL 2440 (3 CREDITS) (2:0:2)  
**Community Land Use Planning**  
In this course, students prepare a community land use plan for a small neighbourhood. In doing so, students will be drawing on the wide range of skills they have developed during the Program, preparing a detailed area plan for a local municipal setting.  
Prerequisite(s): APPL 1110, 1130, 1140, 1210, 2310, 2320, 2410, 2420 and 2430. APPL 2410 and 2430 may be taken concurrently.

APPL 2460 (3 CREDITS) (0:1:7)  
**Applied Planning Research**  
APPL 2460 is a client-based research project and is offered only when an appropriate client is available. The course provides students with an excellent opportunity to apply the planning skills acquired in previous courses.  
Prerequisite(s): A minimum "A" grade in both APPL 1130 and 1210; or permission of the program co-ordinator.

AHIS (Art History)  

AHIS 1110 (6 CREDITS) (9:0:0)  
**European Art in Context**  
An External Studies Program designed to allow students to study European painting, sculpture and architecture in context throughout various locations. Students will be encouraged to evaluate artworks where site or location of the piece becomes important to establish the historical impact on the creative process itself. Specific artists and styles of art will be examined on location in both private and public museums, galleries and cultural centres where significant impact on art in history has occurred. Students will be required to complete regular assignments and specified assessments in the field to successfully complete the course. This course requires at least eight weeks in the field and two to three weeks of on-campus instruction, lectures and orientation.  
Prerequisite(s): Admission to the European External Studies Program and consent of the instructor.
AHIS 1112 (3 CREDITS) (3:1:0)
**Visual Culture I**
This course examines themes and ideas in visual culture. We explore a broad selection of art and architecture to familiarize students with analysis of visual form, artistic styles and techniques. Consideration will be given to art and religion, public art, patronage, the role of the artist in society, and selected topics on culture and the visual arts.

AHIS 1113 (3 CREDITS) (3:1:0)
**Nineteenth Century Art History**
This course is a chronological survey of the visual art and architecture of Europe and North America in the nineteenth century. The course familiarizes students with academic, salon, and avant-garde art with an emphasis on the dominance of French art. Issues of gender, class and race are addressed in relation to the historical context and development of stylistic categories such as Neo-Classicism, Romanticism, Realism, Impressionism and Art Nouveau.

AHIS 1114 (3 CREDITS) (3:1:0)
**History of Western Art I**
This course is a chronological survey of western painting, sculpture and architecture from Prehistory to the Renaissance. Art works will be studied in the context of the political, economic and social developments of each period.

AHIS 1115 (3 CREDITS) (3:1:0)
**History of Asian Arts I**
This course is an introductory, chronological survey of the ceramics, sculpture, architecture and painting of India, China, Korea, Japan, Indonesia, Central Asia, Tibet and Southeast Asia. The art will be studied in relation to the political, social and cultural contexts from pre-historic times to the origins and spread of Buddhist and Hindu art styles and secular imagery.

AHIS 1117 (3 CREDITS) (3:1:0)
**Indigenous Art of the Americas**
This is an introductory survey of the indigenous arts of South, Central and North America including ceramics, architecture, sculpture, painting and textiles from prehistoric to historic contexts. Emphasis will be placed upon the arts of Mexico, Guatemala, Peru and the Pacific Northwest. The art works will be studied in relation to social, cultural and political issues as appropriate.

AHIS 1118 (3 CREDITS) (3:1:0)
**Art of Renaissance Italy**
This course is a study of the art and architecture of Renaissance Italy from the late thirteenth through to the sixteenth century.

AHIS 1119 (3 CREDITS) (4:0:0)
**Art of Canada**
An introduction to the development of Canadian art from the eighteenth century to the present. This survey course explores the artists and issues in Canadian art. Art works will be examined in relation to colonialism, nationalism, the development of regional/multi-cultural identity and artistic expression.

AHIS 1195 (3 CREDITS) (3:1:0)
**Special Topics I**
These numbers are reserved for Art History courses that may be offered from time to time by: a) Art History faculty who may wish to present a course in their specialty; or b) visiting Art History lecturers

Note: Announcements regarding AHIS 1195 offerings will be made in the Registration Guide and Course Schedule.

AHIS 1210 (3 CREDITS) (4:0:0)
**Monumental Artworks in Context**
This course examines various artworks and critically evaluates primary relationships to areas of concern such as location, artistic impact, stylization, mythology, historic ideology, and finally the importance of the artistic achievements themselves. Specific monuments will be established by the instructor based on the location of the External Studies Program. Students will be encouraged to look at specific artworks critically and evaluate the historical contributions made by each monument of work chosen. Artworks will be discussed as historically significant and therefore, each student will be asked to assess the importance of these works as they contribute to our understanding of art in history. Students will be required to complete regular assignments and specified assessments in the field to successfully complete the course. This course requires at least forty-eight hours of instruction, inclusive of on-campus lectures, orientation and fieldwork. *This course may be run concurrently with AHIS 1110 (6 credits), or individually as a special topics - Art History External Studies course in a specified location.

Prerequisite(s): Admission to the European External Studies Program and consent of the instructor.

AHIS 1212 (3 CREDITS) (3:1:0)
**Visual Culture II**
This course examines themes and ideas in visual culture. Using visual analysis, the course examines elements of style, artistic techniques and the emotional and intellectual content of art and architecture. Some themes we consider may include: art and politics; art and nature; art and eroticism; and selected topics on culture and the visual arts.

AHIS 1214 (3 CREDITS) (3:1:0)
**History of Western Art II**
This course familiarizes students with the chronological approach to the history of art from the Renaissance through Baroque, Rococo and 19th Century to the modern and postmodern periods. Art works will be examined in relation to relevant political, economic and social factors of each historical period.

AHIS 1215 (3 CREDITS) (3:1:0)
**History of Asian Arts II**
This course is a chronological survey of the ceramics, sculpture, architecture and painting of China, Korea and Japan. Art works will be studied within the historical context of each period and related political, social and cultural factors will be considered. Both secular and Buddhist art will be examined in relation to influences, theory and appropriate issues as relevant.
AHIS 1216 (3 CREDITS) (3:0:0)
Women, Art and Society
This course will explore feminist issues in western art from both historical and thematic perspectives. Critical consideration will be given to the representation of women in art, women's absence from art history, issues of gender identity, social class, race, and the changing role of women in contemporary art.

AHIS 1295 (3 CREDITS) (3:1:0)
Special Topics II
These numbers are reserved for Art History courses that may be offered from time to time by: a) Art History faculty who may wish to present a course in their speciality; or b) visiting Art History lecturers.
Note: Announcements regarding AHIS 1295 offerings will be made in the Registration Guide and Course Schedule.

AHIS 1301 (3 CREDITS) (4:0:0)
Modern Art I
This course is a chronological survey of modern art and modernism and its development in the first half of the twentieth century. The major art movements, artworks and theories will be considered within their historical context.

AHIS 1302 (3 CREDITS) (4:0:0)
Modern Art II
This course is a chronological survey of modernism in its later stages and international contemporary art to the present. The important issues, theories and variety of forms visual art has taken in recent decades will be considered.

ASIA (Asian Studies)

Asian Studies courses are open to all students.

ASIA 1100 (3 CREDITS) (3:1:0)
Introduction to Traditional Asia
Formerly: PACR 1100
A study of the origins of Asian cultures, focusing on the great civilizations of India and China, how these centers interacted together, and why the resulting “Asian” culture spread to Korea, Japan, Central Asia, Tibet, and Southeast Asia.

ASIA 1101 (3 CREDITS) (3:1:0)
Introduction to Modern Asia
Formerly: PACR 1101
A survey of selected aspects of the emergence of modern Asia. An introduction to the basic conceptual tools needed to understand how, despite the political, economic, social and cultural changes of recent centuries, the various peoples of Asia have maintained distinctive cultural identities.
Note: ASIA 1100 highly recommended.

ASIA 1105 (0 CREDITS) (0:2:0)
Asian Studies Seminar I
Formerly: PACR 1105
Non-credit, non-fee course consisting of a series of lectures and community-based experiences focusing on Asian studies and issues. Required for the Arts and Science (Asian Studies) Diploma and the Associate of Arts with a concentration in Asian Studies.

ASIA 1106 (0 CREDITS) (0:2:0)
Asian Studies Seminar II
Formerly: PACR 1106
Non-credit, non-fee course consisting of a series of lectures and community-based experiences focusing on Asian studies and issues. Required for the Arts and Science (Asian Studies) Diploma and the Associate of Arts with a concentration in Asian Studies.

ASIA 1125 (3 CREDITS) (3:1:0)
Introduction to East Asia (China)
Formerly: PACR 1125
Geographical, cultural and historical background of China. Ideological, social and political aspects of China's development placed in historical context.

ASIA 1130 (3 CREDITS) (3:1:0)
Introduction to Southeast Asia
Formerly: PACR 1130
Geographical, cultural and historical background of Southeast Asia. Ideological, social and political aspects of the major countries of the region placed in historical context.

ASIA 1135 (3 CREDITS) (3:1:0)
Introduction to East Asia (Japan)
Formerly: PACR 1135
Geographical, cultural and historical background of Japan. Ideological, social and political aspects of Japan’s development placed in historical context.

ASIA 1140 (3 CREDITS) (3:1:0)
Cross-Cultural Perspectives I
Formerly: PACR 1140
Comparative analysis of selected cultures and societies. Topics include language and communication, cultural diversity, family and kinship, myth and religion, power and authority, business and social practices, social and economic inequality, technological impact, and conflict and control.

ASIA 1145 (3 CREDITS) (3:0:1)
Introduction to Thai Language and Culture I
Formerly: PACR 1145
ASIA 1145 is an introduction to the basic conversational patterns and vocabulary of Standard Thai, using the international phonetic system to show clearly the sounds of Thai. Students learn to speak Thai in basic interaction situations.
ASIA 1170 (3 CREDITS) (3:1:0)
Imperialism in China (19th Century)
Formerly: PACR 1170
This course provides an interpretive account of the development of imperialism in China in the nineteenth century. The course will concentrate on the political, economic and social impacts of imperialism on China and China's response to the western challenge.

ASIA 1195 (3 CREDITS) (3:1:0)
Special Topics I
Formerly: PACR 1195
This number is reserved for Asian Studies courses that may be offered from time to time by: a) College Asian Studies Program Faculty who may wish to present a course in their specialty; or b) Visiting lecturers from Asian countries.

ASIA 1215 (3 CREDITS) (3:1:0)
Japanese Society and Culture
Formerly: PACR 1215
A survey of modern Japanese life with special attention given to social organization and cultural patterns and behavior. Topics include family, education, gender and ethnic relations, class and other inequalities, and the influence of globalization.

ASIA 1225 (3 CREDITS) (3:1:0)
Contemporary China
Formerly: PACR 1225
China's drive for modernization is explored with reference to the role of the Communist Party, the government and the individual. A survey of domestic policy and international relations.

ASIA 1230 (3 CREDITS) (3:1:0)
Contemporary Southeast Asia
Formerly: PACR 1230
The changing nature of social, political and economic relations among the A.S.E.A.N. and neighbouring countries is explored, including differing visions of “modernization” and differing responses to global change.

ASIA 1235 (3 CREDITS) (3:1:0)
Contemporary Japan
Formerly: PACR 1235
Japan's place in the world is explored with reference to the role of the government, society and the individual. A survey of domestic policy and international relations.

ASIA 1240 (3 CREDITS) (3:1:0)
Cross-Cultural Perspectives II
Formerly: PACR 1240
Comparative analysis of selected cultures and societies. Topics include language and communication, cultural diversity, family and kinship, myth and religion, power and authority, business and social practices, social and economic inequality, technological impact, and conflict and control.

ASIA 1245 (3 CREDITS) (3:0:1)
Introduction to Thai Language and Culture II
Formerly: PACR 1245
ASIA 1245 continues the grammar and vocabulary of ASIA 1145 and introduces the Thai script in a careful step-by-step manner. Students learn to write all the words they learned in ASIA 1145, and can use a Thai script dictionary.

Prerequisite(s): ASIA 1145.

ASIA 1270 (3 CREDITS) (3:1:0)
Modern China and the West (20th Century)
Formerly: PACR 1270
This course provides a historical survey of China's political, economic and cultural relations with the West (including the Soviet Union) in the twentieth century. The focus of the course will be put on interpreting how these relations have contributed to the making of modern China.

ASIA 1295 (3 CREDITS) (3:1:0)
Special Topics II
Formerly: PACR 1295
This number is reserved for Asian Studies courses that may be offered from time to time by: a) College Asian Studies Program Faculty who may wish to present a course in their specialty; or b) Visiting lecturers from Asian countries.

Note: Announcements regarding ASIA 1295 offerings will be made in the Registration Guide and Course Schedule.

ASIA 1295 (3 CREDITS) (3:1:0)
Special Topics II
Formerly: PACR 1295
This number is reserved for Asian Studies courses that may be offered from time to time by: a) College Asian Studies Program Faculty who may wish to present a course in their specialty; or b) Visiting lecturers from Asian countries.

Note: Announcements regarding ASIA 1295 offerings will be made in the Registration Guide and Course Schedule.

ASIA 2200 (3 CREDITS) (3:1:0)
Cultural Foundations of East Asia
Formerly: PACR 2200
A survey of selected beliefs, values and assumptions that have shaped the civilizations of East Asia over the centuries. Identification of commonalities and differences among the peoples of East Asia in both traditional and contemporary environments.

Prerequisite(s): ASIA 1100 and one of ASIA 1101, 1140, 1240, 1225, 1230, 1235; or ASIA 1101 and one of ASIA 1100, 1140, 1240, 1225, 1230, 1235.

ASIA 2208 (3 CREDITS) (3:1:0)
Cultural Foundations of South Asia
Formerly: PACR 2208
This course is a survey of the cultural, social, and historical fundamentals of South Asian civilization. The intent of this survey is to study links from past to present. Classes will examine the main features of South Asian civilization developed in the period ca. 2000 BCE to 1700 CE, and apply them to modern and contemporary South Asia.

Prerequisite(s): ASIA 1100 and one of ASIA 1101, 1140, 1240, 1225, 1230, 1235; or ASIA 1101 and one of ASIA 1100, 1140, 1240, 1225, 1230, 1235.

ASIA 2209 (3 CREDITS) (3:1:0)
Cultural Foundations of Southeast Asia
Formerly: PACR 2209
A comparative survey of the different cultures found in the communities of Southeast Asia. Focus will be upon language and literature, arts, religion, society and polity, ideologies and belief systems in the past and in modern times.

Prerequisite(s): ASIA 1100 and one of ASIA 1101, 1140, 1240, 1225, 1230, 1235; or ASIA 1101 and one of ASIA 1100, 1140, 1240, 1225, 1230, 1235.
COURSES

ASIA 2221 (6 CREDITS) (2:4:6)
Societal and Cultural Studies I
Formerly: PACR 2221
Supervised projects and studies conducted on an overseas immersion basis in selected countries or areas of the Asia Pacific region. Orientation sessions and evaluation are held at Langara both prior to and upon return from overseas.

Note: See Field Studies.

ASIA 2222 (6 CREDITS) (2:4:6)
Societal and Cultural Studies II
Formerly: PACR 2222
Supervised projects and studies conducted on an overseas immersion basis in selected countries or areas of the Asia Pacific region. Orientation sessions and evaluation are held at Langara both prior to and upon return from overseas.

Note: See Field Studies.

ASTR (Astronomy)

ASTR 1101 (4 CREDITS) (4:0:2)
Introduction to the Solar System
Lectures and labs will introduce the night sky and the solar system including the motions of celestial bodies on the celestial sphere and the use of different coordinate systems; orbits of planets and moons; the concept of comparative planetology; recent discoveries in the solar system; and optics and telescopes. The course will include the use of fundamental equations of physics.

Prerequisite(s): Physics 11 and Principles of Math 12
Note: Students will receive credit for only one of ASTR 1101, ASTR 3310 and PHYS 1205.

ASTR 1102 (4 CREDITS) (4:0:2)
Introduction to Stars and Galaxies
Lectures and labs will introduce modern stellar and extragalactic astronomy including our place in the universe; the birth, life and death of stars; Einstein's theory of relativity and black holes; starquakes; cosmology; and the search for extraterrestrial life. The course will include the use of fundamental equations of physics. This is a conceptual and descriptive course based on labs and projects. The course will not include the use of advanced mathematics.

Prerequisite(s): Physics 11 and Principles of Math 12
Note: Students will receive credit for only one of ASTR 1102 and 3311.

ASTR 3310 (4 CREDITS) (0:0:2)
Exploring the Universe I: The Night Sky and Solar System
Lectures and lab will introduce the night sky and the solar system including the motions of celestial bodies on the celestial sphere and the use of different coordinate systems; orbits of planets and moons; the concept of comparative planetology; recent discoveries in the solar system; and optics and telescopes. This is a conceptual and descriptive course based on labs and projects. The course will not include the use of advanced mathematics.

Note: Not intended for students transferring to UBC's Faculties of Science or Applied Science.
Prerequisite(s): 30 credits of post-secondary studies. This course is not intended for first-year students.
Note: Students will receive credit for only one of ASTR 1102 and 3311.

BIOL (Biology)

Prerequisites
Prerequisites for courses in Biology are valid for only three years. Students wanting to register in a course for which the prerequisite was taken more than three years ago will require departmental permission.

Repeating a course
A Biology course may be taken only twice, regardless of the grade earned in the first enrolment. The department chair, or delegate, will decide on exceptions to this rule, usually on the basis of documented evidence of upgraded prerequisites.

Laboratory Requirements
For any Biology course that contains a laboratory, students must pass the laboratory portion of the course in order to obtain credit for the course. Students repeating a Biology course with a laboratory component will be required to participate in both the lecture and the laboratory of the course, whether or not they have previously passed the laboratory or lecture component.

Note: Not all 2300 and 2400 level courses are offered every semester. Most 2400 level courses do not have a 2300 level prerequisite. Check the prerequisite information included in each course description. The following courses are restricted to students participating in specific Field Studies Programs:
BIOL 1185, 1395, 2285, 2286, 2319, 2322 and 2326.

BIOL 1115 (4 CREDITS) (4:0:2)
General Biology I
An introduction to cell structures, physical and chemical properties of living matter, photosynthesis, cellular respiration, cell division and heredity, molecular genetics and evolution.

Prerequisite(s): LPI Level 4 with minimum Essay 24 and Usage 5; or LET Level 3; or Engl Lit or Engl 12 with minimum grade of “C+”; or one of the following: ENGL 1127, 1128, or CMNS 1118 with a minimum grade of “C”; or one of the following: ENGL 1107, 1108, or 1110 with minimum grade of “S”.

www.langara.bc.ca
BIOL 1116 (4 CREDITS) (4:0:2)
Concepts in Biology I - Human Biology
The focus of this course is on human biology with an emphasis on matters of social importance in today's world. Major topics are human systems, metabolism and microbiology.

Note: BIOL 1116 and BIOL 1216 are designed for non-Science majors.

BIOL 1118 (4 CREDITS) (4:0:3)
Introduction to Environmental Ecology
(Formerly: Environmental Studies I - Introduction to Ecology)
This course in ecology is intended primarily for students of the Environmental Studies Program pursuing an arts degree or diploma. Aspects of community ecology, human influences, land use conflicts, pollution, and sustainable options are emphasized. Local fieldwork is required as part of the lab portion of the course.

Note: BIOL 1118 and BIOL 1218 are designed for non-Science majors.

BIOL 1185 (3 CREDITS) (4:0:2)
Human Ecology
Human ecology is the study of relationships between people and the environment. This course will review how human relationships to the natural resources present in the area have changed over the period of human occupation. It will focus on the different relationships that a hunting/gathering culture and an industrial based society have to their environment and use of food resources. The latter part of the course will examine contemporary land use practices and issues from a human ecological perspective. Offered as part of Fraser River Studies and Mekong River Studies.

Note: BIOL 1185 is designed for non-Science majors. This course is restricted to students participating in Fraser River Studies or Mekong River Studies.

BIOL 1190 (3 CREDITS) (4:0:2)
Health Science I - Human Anatomy and Physiology I
An introduction to human structures and functions emphasizing basic physiology principles plus cell and tissue structure. Laboratory exercises will demonstrate underlying physiological processes. Note: Priority registration is given to the Nursing students who are planning to enrol in BIOL 1191: Health Science II in the second term (some remaining seats may be available to students outside the program).

Prerequisite(s): A minimum C+ grade in Biology 11 or 12, or a minimum C grade in one of the following: BIOL 1115, 1116, 1118, 1216, or 1218; and one of the following: LET level 3; LPI with a minimum 24 on the essay with 5 in English usage; BC English 12 with a minimum C+ grade; BC English Literature 12 with a minimum C+ grade; a minimum C grade in one of ENGL 1127, 1128 or CMNS 1118; or a minimum “S” grade in one of ENGL 1107, 1108 or 1110. Admission to the Langara Nursing Program or the Licensed Practical Nurse Transition Program is an alternative to the aforementioned prerequisites.

Note: Students applying to the Nursing Program must meet all the admission requirements of the program, including the English requirement.

BIOL 1191 (3 CREDITS) (4:0:2)
Health Science II: Human Anatomy and Physiology II
A systems approach to the anatomy and the human body's normal function and maintenance, applying the material studied in BIOL 1190: Health Science I. Laboratory work will include gross and microscopic human anatomy plus physiological assessment of body function.

Prerequisite(s): BIOL 1190 with a minimum "C" grade or permission of the Biology Department.

BIOL 1215 (4 CREDITS) (4:0:2)
General Biology II
This course is an overview of living organisms (microorganisms, plants, invertebrates and vertebrates), an introduction to ecology and a survey of organ systems.

Prerequisite(s): BIOL 1115 with minimum "C" grade or equivalent.

BIOL 1216 (4 CREDITS) (4:0:2)
Concepts in Biology II - Human Biology
The focus of this course is on human biology with an emphasis on contemporary aspects of nutrition, ecology, populations, pollution, genetics and evolution.

Prerequisite(s): None. BIOL 1116 is recommended but not required.

Note: BIOL 1116 and BIOL 1216 are designed for non-Science majors.

BIOL 1218 (4 CREDITS) (4:0:3)
Biodiversity and Conservation Biology
(Formerly: Environmental Studies II - Introduction to Ecology)
Primarily for students in the Environmental Studies Program. Major topics include population dynamics, aquatic communities, wildlife, parks and recreational land use. Local fieldwork is required.

Note: BIOL 1118/Biol 1218 are designed for non-Science majors.

BIOL 2105 (0 CREDITS) (0:0:8)
Biology Field School
Students taking BIOL 2380, BIOL 2440 or BIOL 2450 must also register in BIOL 2105. The field school is located out-of-town (usually BAMFIELD MARINE STATION) and is 3 to 4 days long (includes a Saturday and Sunday). This course has a separate fee to cover the additional costs of running an off-campus course.

Corequisite(s): BIOL 2380, 2440, or 2450.

BIOL 2285 (3 CREDITS) (3:0:3)
Ecology of the Fraser River
Ecology of terrestrial and aquatic communities of British Columbia, with particular reference to the Fraser River. Course topics include those of an introductory ecology course, with application to the Fraser River drainage basin. The laboratory component of this course requires participation in the Fraser River Studies rafting trip down the Fraser River, from Prince George to Vancouver. This is an intensive, field-oriented course, offered in June and July, as part of the Fraser River Studies.

Prerequisite(s): Minimum “C” grade in both BIOL 1115 and BIOL 1215.

Note: This course is restricted to students participating in Fraser River Studies.
BIOL 2286 (3 CREDITS) (3:2:3)
Ecology of the Mekong River
Introductory Ecology, taught mostly in Thailand. An introductory, science transfer, ecology course. The course will emphasize terrestrial and fresh water ecosystems, using examples from the Mekong River Basin.
Prerequisite(s): BIOL 1115 and BIOL 1215 or equivalent with a “C.” grade or higher.
Note: This course is restricted to students participating in Mekong River Studies.

BIOL 2290 (3 CREDITS) (4:2:0)
Health Science III: Pathophysiology I
A discussion of the cellular aspect of disease processes and therapies, including overviews of pharmacology and a survey of infectious diseases. This course is aimed primarily at students in clinical sciences.
Prerequisite(s): A minimum “C” grade in both BIOL 1190 and BIOL 1191; and an “S” in NURS 1100 or concurrent registration in NURS 1103; or permission of the Biology Department.

BIOL 2291 (3 CREDITS) (4:2:0)
Health Science IV: Pathophysiology II
The continuation of and completion of Health Science III.
Prerequisite(s): BIOL 2290 with a “C” or higher, or permission of the Biology Department.

BIOL 2315 (3 CREDITS) (4:0:2)
Biochemistry
A study of the chemistry of living systems, including a discussion of experimental techniques employed in cellular research. The laboratories introduce the student to DNA information technology.
Prerequisite(s): BIOL 1215 with a minimum “C” grade and CHEM 1220. Successful completion of current registration in CHEM 2316 and 2416 is recommended.
Note: Please note that at the Universities, credit for BIOL 2315 will be withheld until you have completed CHEM 2416 (or equivalent) successfully.

BIOL 2320 (3 CREDITS) (4:0:2)
Introduction to Genetics
An in-depth study of gene structure and function; mutations; Mitosis and Meiosis; Mendelian genetics; modified Mendelian ratios; sex-linkage; linked genes and chromosome mapping; variations in chromosome number; and population genetics. There is an emphasis on problem solving.
Prerequisite(s): BIOL 1215 (or an approved equivalent) with a minimum “C” grade.

BIOL 2340 (3 CREDITS) (4:0:3)
Vascular Botany
An introduction to the biology of plants. Topics include an evolutionary survey of vascular plants (e.g. ferns, conifers, and flowering plants), anatomy, physiology and ecology.
Prerequisite(s): BIOL 1215 with a minimum “C” grade.

BIOL 2350 (3 CREDITS) (4:0:3)
Comparative Vertebrate Anatomy
A comparative study of the vertebrates. Emphasis will be on the evolution, development, structure, and function of organ systems and the dissection of representative forms.
Prerequisite(s): BIOL 1215 (or equivalent) with a minimum “C+” grade or any second year biology course with a minimum “C+” grade.

BIOL 2360 (3 CREDITS) (4:0:2)
Vertebrate Physiology I
A lecture and laboratory course dealing with membrane events, nerve-muscle physiology, the nervous system, and blood. This course is designed for students proceeding to advanced work in the biological sciences.
Prerequisite(s): BIOL 1215 or BIOL 1191 with a “C” grade or higher.

BIOL 2370 (3 CREDITS) (4:0:2)
Microbiology I
A course dealing with general microbiology, designed for those continuing in biological sciences. Topics include microscopy, bacterial physiology, morphology, genetics, and biochemistry.
Prerequisite(s): BIOL 1215 or equivalent with a minimum “C+” grade; or permission of the instructor.

BIOL 2380 (3 CREDITS) (4:0:3)
Introduction to Ecology
An introduction to terrestrial and aquatic ecology. Course topics include physiological ecology, behavioral ecology, community structure and dynamics, and ecosystem ecology. Field trips during laboratory hours will be required.
Prerequisite(s): First year Biology or permission of instructor or BIOL 1215 with a “C” grade or higher.
Corequisite(s): BIOL 2105 when offered.

BIOL 2415 (3 CREDITS) (4:0:2)
Cell Biology
A study of the function of cells and cell components, including a discussion of experimental techniques.
Prerequisite(s): BIOL 1215 with a minimum “C+” grade, or permission from the instructor.

BIOL 2430 (3 CREDITS) (4:0:3)
Molecular Genetics
A study of gene structure, expression and regulation including recombinant DNA, extranuclear genes and developmental genetics.
Prerequisite(s): BIOL 1215 with a minimum “C” grade.

BIOL 2440 (3 CREDITS) (4:0:3)
Nonvascular Botany
An introductory survey of the bacteria, algae, fungi, and nonvascular plants (e.g. mosses), with an emphasis on diversity and evolution.
Prerequisite(s): BIOL 1215 with a minimum “C” grade.
Corequisite(s): BIOL 2105 when offered.

BIOL 2450 (3 CREDITS) (4:0:3)
Invertebrate Biology
An introductory survey of the invertebrates, including systems, evolution, and ecological relationships.
Prerequisite(s): BIOL 1215 with a minimum “C” grade.
Corequisite(s): BIOL 2105 when offered.

BIOL 2460 (3 CREDITS) (4:0:2)
Vertebrate Physiology II
A lecture and laboratory course dealing with respiration, digestion, metabolism, the endocrine glands, reproduction, and kidney function for students proceeding to more advanced work in the biological sciences.
Prerequisite(s): BIOL 2360 with minimum “C” grade.
BIOL 2470 (3 CREDITS) (4:0:2)
Microbiology II
Topics include medical microbiology, virology, immunology, and industrial microbiology.
Prerequisite(s): BIOL 2370 with minimum “C” grade.

BIOL 2480 (3 CREDITS) (4:0:3)
Population Ecology
An introduction to plant and animal population ecology, with emphasis on communities present in North America. Topics include population dynamics, interaction, conservation ecology, and modelling. Field trips during laboratory hours will be required.
Prerequisite(s): BIOL 1215 with a minimum “C” grade. BIOL 2380 is not required as a prerequisite.

BIOL 2580 (3 CREDITS) (4:0:3)
Introduction to Wetlands and Wetland Restoration
Topics include wetland biogeochemical processes, wetland functions and values, wetlands and society, history and theory of wetland restoration in the Pacific N.W., and the steps involved in a wetland restoration project. Field trips during laboratory hours will be required.
Prerequisite(s): Minimum “C” grade in either BIOL 2380 or BIOL 2480 (or equivalent course with department approval).

BCAP (Business Computer Applications)

BCAP 1200 (3 CREDITS) (3:1:0)
Business Computer Applications I
A comprehensive introductory to an intermediate level course which provides hands-on computer experience in Windows, Word (word-processing), Excel (spreadsheet), Access (database), PowerPoint (presentation graphics), Internet and Email. Computer concepts are also discussed.
Note: Students will only receive credit for either CPSC 1000 or BCAP 1200 and not both courses.

BCAP 1415 (3 CREDITS) (1:0:3)
Keyboarding and Word Processing Skills I
An introduction to computer keyboarding and word processing skills for beginners. The student will develop speed and accuracy in keyboarding and a working knowledge of the fundamental operation of a word processing software package.

BCAP 1420 (3 CREDITS) (1:0:3)
Keyboarding and Word Processing Skills II
This course is designed for the student who can already type at a minimum of 30 words net a minute and who wants to improve keyboarding speed and accuracy and enhance word processing skills. Graded S/U.
Prerequisite(s): 30 words net a minute or permission of the instructor.

BCAP 2311 (3 CREDITS) (4:0:0)
Network Fundamentals
An introduction to the most common computer networking systems and the role of networks in the information management field. Topics include uses and types of networks; topologies and protocols; LANS and WANS; hardware and software requirements; software installation, management and support issues.
Prerequisite(s): A minimum “C+” grade in one of CPSC 1000, CPSC 1010, BCAP 1200, or LIBR 1111.
Note: This course is offered every second year.

BCAP 3100 (3 CREDITS) (3:0:1)
Business Computer Applications II
This course covers advanced concepts and applications of MS Windows, Word, Excel, PowerPoint, and Access. It also covers search functions of the Internet and email, as well as it explores concepts and the design of web pages.
Prerequisite(s): BCAP 1200 with a minimum B- grade, or permission of the Department
Note: Students will receive credit for only one of BCAP 2200 and BCAP 3100.

BCAP 3200 (3 CREDITS) (3:0:1)
Business Information Systems
This course presents an introduction to computer management information systems and its application in business. Issues involving system analysis, design, and software applications in a business environment will be included. The course will include hands-on experience using a variety of business computer applications.
Prerequisite(s): While there are no formal prerequisites for this course, students should have some knowledge of basic computer technology and applications. BCAP 1200 is highly recommended.
Note: Students will receive credit for only one of BCAP 1237, BCAP 3200, CSIS 2500 and CISY 2415.

BUSM (Business Management)

BUSM 1100 (3 CREDITS) (3:1:0)
Introduction to Business in Canada
This course introduces students to Canada’s economy, different economic systems, business ethics and social responsibility, legal fundamentals and management. The course examines organizational and human resource management concepts and practices, marketing, accounting, finance, and operations management.

BUSM 1110 (3 CREDITS) (4:0:0)
Personal Career Marketing
A series of seminar-type lectures, workshops and presentations by guest speakers designed to prepare students for their career, either as salaried employees or as self-employed entrepreneurs. Topics include the contemporary business world; types and forms of business ownership; corporate and personal tax implications; raising capital for the self-employed; providing pensions and benefits for the self-employed; setting up a home based business; building your personal career plan; preparing your resume; preparing for the employment interview, and effective time management.

BUSM 1115 (3 CREDITS) (3:1:0)
Entrepreneurship
A practical course which introduces the relevant aspects of setting up a small business. These include basic accounting concepts, forms of legal ownership, basic market research, determination of marketing and personnel policies, budgeting, financing, purchasing, promotion, and pricing. Also explored are the personal characteristics of the successful entrepreneur.
BUSM 1200 (3 CREDITS) (4:0:0)
Management Principles
(Formerly: BUSM 1250)
This course explores the roles of managers at various organizational levels and examines how they help organizations achieve their goals. Course topics are organized around the four major functions of management: planning, organizing, leading, and controlling. There will be a special emphasis on diversity and the management of multicultural workforces in a global context. Concepts relating to productivity improvement, quality management, and business ethics will be focused on throughout the course. Students will have practical and hands-on assignments involving decision-making, problem solving and case analysis to improve their analytical and teamwork skills.

Note: Students will receive credit for only one of BUSM 1250 or BUSM 1200.

BUSM 1285 (3 CREDITS) (3:1:0)
Business Law
The course introduces the basic legal principles of contracts, torts, agency, employment, negotiable instruments, debt collection, business ownership, and consumer protection in Canada. Actual case decisions are used to demonstrate and explain judicial reasoning.

BUSM 1500 (3 CREDITS) (3:1:0)
Business Presentation Skills
This course will develop the communication skills to prepare students to act effectively in a range of practical business situations. It will include skill development in managing meetings, public speaking and interpersonal communications in a business setting. Students will be required to develop presentations using PowerPoint.

Prerequisite(s): None.

BUSM 2115 (3 CREDITS) (3:1:0)
Human Resources Management
A course in human and industrial relations with emphasis on the various processes and techniques of acquiring and maintaining an efficient workforce. It will examine the more technical aspects of personnel management, including legal issues, compensation, employer/employee rights in sufficient depth to give a reasonable understanding of their purpose and nature. The course will be taught using a series of seminar type lectures, readings, case histories and guest lectures.

BUSM 2200 (3 CREDITS) (4:0:0)
Organizational Behaviour
(Formerly: BUSM 1321)
Students in this course examine how individual and group behaviour affects organizational goal attainment and success. Topics will include individual attributes such as attitude, personality and perception, and organizational culture and management skills such as leadership, empowerment, participation, communication, and motivation. There will be a strong international focus with an emphasis on diversity, managerial ethics, and development of Total Quality Management. Students will have practical and hands-on assignments for decision-making, problem solving and case analysis to improve their analytical skills.

Note: Students will receive credit for only one of BUSM 1321 and BUSM 2200.

BUSM 2300 (3 CREDITS) (3:2:0)
Professional Employability Skills
(Formerly: BUSM 1310)
BUSM 2300 is a combined lecture/seminar course that will provide students with knowledge of what it takes to get a job in today’s constantly changing workplace. This course will give students a chance to learn as well as practice each of the steps towards attaining a job, including self-assessment; resume and cover letter writing; networking and interviewing skills; as well as job search tactics. By completing this course, each student will have the resources to make a positive, lasting impression on prospective employers. This course complements other curriculum already offered in career programs with the Co-operative Education option and is designed to further develop specific competencies related to employment in the student’s field of study. The final project is to produce a professional career portfolio. Note: This course is a prerequisite for participation in Co-operative Education.

Prerequisite(s): One of the following: LET with a minimum level 3; LPI with a minimum 25 (or minimum 24 on essay with 5 in English usage); BC English 12 or BC English Literature 12 with an “A”; a university-transferable English or Communications course with a minimum “C-”, or an “S” in one of ENGL 1107, 1108 or 1110.

Note: Student will receive credit for only one of BUSM 1310 and BUSM 2300.

BUSM 2450 (3 CREDITS) (2:2:0)
Business Planning
A course which emphasizes the “how to” techniques in the development of business plans. In this course, students select an existing or potential business venture and conduct the research, planning and writing of a plan.

Prerequisite(s): Completion of a minimum of 30 credits including FMGT 1116 or 2293 or departmental permission.

Note: As this course is a capstone course for the Business Management and International Business Management programs, students should take this course in their last semester of study after having completed most of their diploma courses.

BUSM 3000 (3 CREDITS) (0:0:22)
Business Management Practicum
This practicum provides the opportunity for students to gain experience and become familiar with the policies, procedures and operations of a business organization. A minimum of 300 hours working and/or volunteering is required. With departmental approval, students who are employed full-time or part-time may use this to meet the requirements of the practicum. While completing the practicum, students will be working under the direction of a manager or supervisor or delegate who will assess the student’s level of competence with respect to the learning outcomes of the course. Graded S/U.

Prerequisite(s): Admission to the DCP of the BBA, or with permission of the Department.
BUSM 3200 (3 CREDITS) (4:0:0)
Operations Management
The course looks at the decisions firms need to make in order to run efficient, competitive, lean and profitable operations. In general, this course presents the fundamental issues in operations and supply chain management. The first part of the course focuses on a company’s internal operations and processes. The second part of the course focuses on global supply chain management, and the sourcing of parts, components, and materials on a global basis.
Prerequisite(s): Completion of 54 credits or departmental permission. Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended. An introductory course in Statistics is also recommended.

BUSM 3220 (3 CREDITS) (3:1:0)
Negotiating Skills
This course introduces students to a variety of negotiation processes and techniques used to achieve multiple business objectives. Students will apply their negotiation skills in various business circumstances, e.g., labour negotiations, sales negotiations, negotiating across cultures, through continuous in-class skills development exercises. Upon successful completion of the course, students will be able to negotiate and appraise situations that call for bargaining; comprehend the process and the various bargaining techniques; assess alternatives; and formulate negotiation plans. Students will demonstrate their ability to use negotiation techniques to carry out successful negotiation.
Prerequisite(s): Completion of 54 credits or departmental permission. Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended.

BUSM 4100 (3 CREDITS) (3:1:0)
Project Management
Project management is now used in virtually all industries to streamline operations and to improve productivity. Effective project management ensures that a project is completed on time, within budget, and with high quality. This course introduces concepts, skills, and tools that allow students to coordinate and lead projects towards successful completion using a variety of techniques to manage the budget, schedule, and quality of projects that managers are responsible for.
Prerequisite(s): Completion of 54 credits or departmental permission. Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended.

BUSM 4120 (3 CREDITS) (4:0:0)
Organizations and Change
This course examines the underlying concepts, principles, and assumptions of organizational development. Included is an investigation of macro factors such as organizational structure, coordination and control, power, authority, organizational politics and corporate culture, and their impact on effectiveness. It develops a framework around understanding natural versus planned change, models for managing change, the development of specific skills to manage change, the human side of change, and the transition process. Understanding the dynamics of organizational change is a critical skill for contemporary managers.
Prerequisite(s): Completion of 54 credits or departmental permission. Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended.

BUSM 4200 (3 CREDITS) (4:0:0)
Strategic Management
Crafting, implementing and executing a company’s strategy is the heart and soul of business. The focus of strategic management is on managing the entire organization from an executive level. In this course, students will learn to think, analyze and plan at a strategic level, and to think like an executive. This capstone course is taken in the last semester of the Degree Program.
Prerequisite(s): Completion of 54 credits or departmental permission. Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended.

BUSM 4300 (3 CREDITS) (1:6:0)
Applied Business Project
This capstone course provides the opportunity to apply the concepts, skills and techniques gained in previous course work to non-profit or volunteer organizations. The project can range from the preparation of a detailed ‘consulting’ plan, a business plan, or the development of specific deliverables for the client organization. Students will work closely with the client and a faculty advisor and will present their report to the client and faculty.
Prerequisite(s): Successful completion of at least 105 credits courses in the BBA Program or with the permission of the Department.

CNST (Canadian Studies)

CNST 1105 (0 CREDITS) (2:0:0)
Lecture Series
This is a non-credit, non-fee course consisting of a series of lectures on a theme related to one of the course offerings. A minimum of three lectures will be given during the semester. Requirement for the diploma in Arts and Science (Canadian Studies).

CNST 1110 (3 CREDITS) (4:0:0)
American Power in Canada
Provides an understanding of contemporary American cultural, economic and political power in Canada and the varied popular and institutional responses. Topics may include: the political-economy of Canada - US relations; the free trade agreements and globalization; and American impact on Canadian arts, film and media.

CNST 1120 (3 CREDITS) (3:1:0)
Canadian First Nations’ Concerns
A survey of contemporary First Nations’ (Indian, Inuit and Metis) issues. Emphasis placed upon various social, political, economic, anthropological and artistic concerns in terms of the Canadian multicultural perspective.

CNST 1130 (3 CREDITS) (3:1:0)
Work in Canadian Society
An interdisciplinary study of the concept of work in Canadian society. The problems Canadians encounter in the field of work will be considered from such viewpoints as sociology, history, literature and philosophy.

CNST 1140 (3 CREDITS) (3:1:0)
Racism and Ethnic Relations in Canada
This course deals with racial and ethnic relations in Canada. It will emphasize social, political and economic analyses of the family, school, workplace, law and media, with special focus on British Columbia.
CNST 1150 (3 CREDITS) (4:0:0)
Quebec Nationalism
Provides an opportunity to understand the origins, development and contemporary nature of Quebec nationalism. The course will examine the social, cultural, political, economic and linguistic manifestations of Quebec nationalism and assess the tensions between Quebec and the rest of Canada. The possibility of meeting Quebecois aspirations within Canada and related special status arrangements will be discussed.

CHEM (Chemistry)

Prerequisites
Prerequisites for courses in chemistry are valid for only three years. If you wish to register in a course for which the prerequisite was taken more than three years ago, you will be required to write a diagnostic test or to upgrade the prerequisite.

Students who have completed a chemistry course through an adult education program or by correspondence must obtain permission of the Chemistry Department to have the course approved as a prerequisite for Langara College chemistry courses.

Repeating a course
A chemistry course may be taken only twice, regardless of the grade earned in the first enrolment. The department chair, or delegate, will decide on exceptions to this rule, only on the basis of documented evidence of upgraded prerequisites.

Laboratory Requirements
The chemistry labs are an integral part of each course. It is Chemistry Department policy that there are no make-up labs. Failure to satisfactorily complete the laboratory requirements may result in a failing grade for the course.

Attendance at the first lab in all chemistry courses is compulsory.

Diagnostic Tests
The Chemistry Diagnostic Placement Test is an assessment of the student's knowledge of the chemical principles and their applications. The test is designed to place the student into the most appropriate chemistry course. To enrol in any chemistry course with chemistry prerequisite, the Diagnostic Test is required for any student who has NOT taken a chemistry course in BC OR for any student whose prerequisite course was taken more than three years ago.

CHEM 1114 (4 CREDITS) (3:0:2)
An Introduction to Chemistry
A one-semester introduction to chemistry intended for students who have had no secondary school chemistry and who wish to proceed to more advanced chemistry courses. Open only to students who have completed secondary school or equivalent or have been admitted under Dean's Admission.

Note: If your Mathematics background is poor, we highly recommend that you take a mathematics course before taking CHEM 1114.

CHEM 1117 (4 CREDITS) (4:0:2)
Environmental Chemistry for Arts Majors I
This course emphasizes the practical applications of chemistry in nature, living systems, and society. The role of science in shaping our view of ourselves and our surroundings will also be examined. An opportunity to do science will be provided by means of participatory lecture demonstrations, laboratory experiments, and take-home experiments.

Note: This course satisfies the lab-science credit requirement for arts majors.

CHEM 1118 (4 CREDITS) (4:0:3)
Intermediate Chemistry
A continuation of the CHEM 1114 course with an increased emphasis on laboratory work. CHEM 1118 topics include: solutions, gases, an introduction to thermochromy, electrochemistry, chemical equilibrium, acid-base chemistry and nuclear chemistry.

Prerequisite(s): CHEM 1114 with “C+”, BCSecS Chem 11 with “A” or “B”, BSSecS Chem 11 with “C” and BCSecS Chem 12 with “C”, or successful score on Chemistry Diagnostic Test. In addition, one of MATH 1150 or BCSecS Math 12 with “C-” or MDT 70.

CHEM 1120 (4 CREDITS) (3:0:3)
General Chemistry I
CHEM 1120 constitutes a first-year course in general college chemistry. CHEM 1120 covers atoms and electrons, bonding, absorption of energy by molecules, gases, liquids, solids, crystals, and organic chemistry.

Prerequisite(s): CHEM 1118 with “C-” or BCSecS Chem 12 with “A” or “B” or successful score on Chemistry Diagnostic Test. In addition, one of MATH 1152 or BCSecS Math 12 with “C-” or MDT 75.

CHEM 1121 (4 CREDITS) (3:0:2)
Environmental Chemistry for Arts Majors II
This course is a continuation of CHEM 1117. Following the same basic format, it will treat toxicology, environmental chemistry, nuclear energy, drug chemistry, food chemistry, the chemical industry and the disposal of hazardous waste.

Prerequisite(s): CHEM 1117

Note: This course satisfies the lab-science credit requirement for arts majors.

CHEM 1122 (4 CREDITS) (4:0:3)
General Chemistry II
CHEM 1122 constitutes a first-year course in general college chemistry. CHEM 1122 topics include: solutions, acids and bases, buffers, electron transfer, electrode potentials, energetics, thermo-dynamics, and chemical kinetics.

Prerequisite(s): CHEM 1120 with C- and MATH 1152 or BCSecS MATH 12 with C or MDT 75. A proficiency test administered by the department may be required for students wishing to transfer into CHEM 1220. (MATH 1153 is recommended as a co-requisite).

CHEM 2222 (4 CREDITS) (4:0:4)
Analytical Chemistry
Introduction to qualitative and quantitative chemical analytical techniques and statistical analysis of data.

Prerequisite(s): CHEM 1220 or equivalent.
CHEM 2224 (4 CREDITS) (3:0:3)
Inorganic Chemistry
A one semester lecture course in inorganic chemistry. Topics include a review of basic concepts of bonding and bonding theories. The chemistry of the main group elements is studied. The course also introduces the chemistry of transition elements with an emphasis on bonding in coordination compounds, isomerism and reactions of coordinate complexes.
Prerequisite(s): CHEM 1220 or equivalent.

CHEM 2227 (4 CREDITS) (3:0:4)
Aquatic Chemistry
A one-semester course which investigates the details of water from molecular aspects through to macroscopic properties. Topics discussed include: the behaviour of water, the composition and chemistry of natural waters, water analysis and analytical tools, health and safety issues, the quality of water and the environment. The course will emphasize the laboratory and field techniques of water analysis. This course is recommended for students with an interest in environmental chemical.
Prerequisite(s): CHEM 1220 or equivalent.

CHEM 2250 (4 CREDITS) (3:0:2)
Physical Chemistry
This second-year level Chemistry course builds on a first-year knowledge of Chemical Kinetics, Spectroscopy and Thermodynamics. This course is required for second-year Biology and is useful in a variety of fields such as Agriculture, Medicine and Earth Sciences.
Prerequisite(s): CHEM 1220 and one of the following: MATH 1171, 1174, 1253, or the combination of MATH 1173 and 1183. MATH 1271 or the combination of MATH 1273 and 1283 is recommended.

CHEM 2316 (4 CREDITS) (4:0:3)
Organic Chemistry I
A second-year level course in general organic chemistry. Topics include: simple aliphatic and aromatic compounds including hydrocarbons, alkyl halides, organometallic compounds; and an introduction to reaction mechanisms, to stereochemistry and to the use of spectroscopy in organic chemistry.
Prerequisite(s): CHEM 1220 or equivalent.

CHEM 2416 (4 CREDITS) (4:0:3)
Organic Chemistry II
A second-year level course in general organic chemistry. Topics include: aromatic compounds, alcohols and ethers, carbonyl compounds, carboxylic acids, amines, and amino acids. Bio-organic systems may also be covered.
Prerequisite(s): CHEM 2316 or equivalent.

CHIN (Chinese)

Students with a “C” or higher grade in a Chinese course cannot repeat the same course without department permission.

Before registering in a Chinese (CHIN) course, please read the prerequisite information carefully. Overqualified students will not be given credit for the courses.

CHIN 1103 (3 CREDITS) (3:0:1)
Preparatory Beginner's College Chinese
Chinese 1103 is a preparatory course for CHIN 1115 - Beginner's College Chinese I. It is designed for students who have no background in oriental languages and Asian culture and who would find CHIN 1115 too challenging to take as their first Chinese Language course. In this course, students will learn how to speak everyday Mandarin through a set of practical conversations. They will study the phonetic system, some basic sentence patterns, and 100-150 Chinese characters. They will also be introduced to Chinese culture through films and other activities.

CHIN 1115 (3 CREDITS) (3:0:1)
Beginner's College Chinese I
An introduction to spoken Mandarin and modern written Chinese with emphasis on the audio-lingual approach. After the oral-aural foundation has been laid, emphasis gradually shifts toward developing the student’s ability to read written texts and to formulate basic sentences. New vocabulary items are introduced in both phonetic transcript and in characters.
Prerequisite(s): None; however, students who fluently speak one Chinese dialect (e.g., Cantonese) and write more than 200 Chinese characters are not allowed to enroll in CHIN 1115. Students who completed grade one in elementary school in China, Taiwan, Hong Kong and Singapore or BC Mandarin 11B/11 should consult an instructor before registering.

CHIN 1117 (3 CREDITS) (3:0:1)
Beginner’s College Chinese III
Formerly: Intermediate Chinese I
As a continuation of CHIN 1115 and CHIN 1215, this course offers further oral and written practice in Chinese including a thorough review of the language's structure and grammar, plus additional vocabulary. The emphasis will be placed on reading, conversation, composition and translation. At the end of CHIN 1217, the student is expected to be able to use all the basic sentence patterns in modern Chinese and know about 1,200 to 1,300 Chinese words.
Prerequisite(s): CHIN 1215 or equivalent (e.g., BC Mandarin 11). Students who fluently speak one Chinese dialect (e.g., Cantonese) and write more than 750 Chinese characters are not allowed to enroll in CHIN 1117. Students who completed grade four in elementary school in China, Taiwan, Hong Kong and Singapore or BC Mandarin 12 should consult an instructor before registering.
CHIN 1125 (3 CREDITS) (3:0:1)
Mandarin Conversation for Chinese Dialect Speakers I

Designed for students with basic reading and writing skills in Chinese language but who speak only a dialect such as Cantonese. Through a set of practical situations, this course heavily emphasizes the Mandarin phonetic system, listening comprehension, and oral expressions.

Prerequisite(s): No prerequisite. However, students need to have basic reading and writing skills in the Chinese language to start this course. Students who already speak fluent Mandarin with good pronunciation will not be permitted to take this course.

CHIN 1215 (3 CREDITS) (3:0:1)
Beginner’s College Chinese II

An introduction to spoken Mandarin and modern written Chinese with emphasis on the audio-lingual approach. After the oral-aural foundation has been laid, emphasis gradually shifts toward developing the student's ability to read written texts and to formulate basic sentences. New vocabulary items are introduced in both phonetic transcript and in characters. At the end of Chinese 1215, the student is expected to be able to understand and speak basic Mandarin and to read and write about 500-600 Chinese words.

Prerequisite(s): CHIN 1115 or equivalent (e.g., BC Mandarin 11B). Students who fluently speak one Chinese dialect (e.g., Cantonese) and write more than 500 Chinese characters are not allowed to enroll in CHIN 1215. Students who completed grade two in elementary school in China, Taiwan, Hong Kong and Singapore or BC Mandarin 11 should consult an instructor before registering.

CHIN 1217 (3 CREDITS) (3:0:1)
Beginner’s College Chinese IV

Formerly: Intermediate Chinese II

As a continuation of CHIN 1115 and CHIN 1215, this course offers further oral and written practice in Chinese including a thorough review of the language's structure and grammar, plus additional vocabulary. The emphasis will be placed on reading, conversation, composition and translation. At the end of CHIN 1217, the student is expected to be able to use all the basic sentence patterns in modern Chinese and know about 1,200 to 1,300 Chinese words.

Prerequisite(s): CHIN 1117 or equivalent. Students who fluently speak one Chinese dialect (e.g., Cantonese) and write more than 1000 Chinese characters are not allowed to enroll in CHIN 1217. Students who completed grade five in elementary school in China, Taiwan, Hong Kong and Singapore or BC Mandarin 12 should consult an instructor before registering.

CHIN 1225 (3 CREDITS) (3:0:1)
Mandarin Conversation for Chinese Dialect Speakers II

This course is designed for students to further develop Mandarin speaking skills, particularly aural comprehension and oral fluency.

Prerequisite(s): CHIN 1125 or CHIN 1217.

CHIN 2211 (3 CREDITS) (4:0:0)
Intermediate Chinese Reading and Writing I

Chinese 2211 is a continuation of Chinese 1217. It is designed with a holistic approach to further develop students’ reading, writing and speaking skills at an intermediate level. In Chinese 2211, students will learn around 600 commonly used Chinese characters and phrases, and develop further understanding of Chinese grammar. Students will acquire skills to enhance their Chinese literacy level as well as to nurture their appreciation of the Chinese language and literature through reading prose and short stories. Students will also gain insights into socio-culture knowledge embedded in the reading materials. Chinese films will be introduced at the same time to help develop a historical perspective of China in the twentieth century.

Prerequisite(s): Students should have at least the level of CHIN 1217 and be able to use all the basic sentence patterns of Modern Chinese and know about 1200-1300 Chinese words.

CHIN 2213 (3 CREDITS) (4:0:0)
Intermediate Chinese Reading and Writing II

Chinese 2213 is a continuation of Chinese 2211. It is designed with a holistic approach to further develop students’ reading, writing and speaking skills at an intermediate level. In Chinese 2213, students will learn another 600 commonly used Chinese characters and phrases and be able to apply the grammatical concepts learned in the course in their own writing. Students will learn the format and rules of specific genres of practical writing in Chinese, such as resume, cover letter, etc. While still acquiring skills to enhance their Chinese literacy level, students will learn to nurture their appreciation of the Chinese language and literature through reading prose and short stories. Students will also gain insights into socio-culture knowledge embedded in the reading materials. Chinese films will be introduced at the same time to help develop a perspective of China in the present day.

Prerequisite(s): Students must be able to use all the basic sentence patterns of Modern Chinese. Students who have not completed CHIN 2211 should consult with an instructor of Chinese before registering in this course.

CHIN 3331 (3 CREDITS) (4:0:0)
Introduction to Classical Chinese I

Chinese 3331 is part one of an introduction to classical Chinese. It is designed for students who are fluent in Mandarin Chinese or one of the Chinese dialects and who can read and write Chinese comfortably at an intermediate level, e.g., completion of elementary school or higher in China or Taiwan. After a brief introduction to the history timeline of China, students will start examining a selection of early works of literature and philosophy ranging from ca. 1000 BC to 100 BC. Basic grammar of ancient Chinese writing will be explained; a group of commonly used words will be compared with their counterparts in modern Chinese. At the end of this course, students will have gained a general idea of the early development of Chinese poetry and other literary forms, as well as a deeper understanding of Confucianism and Taoism. They will be expected to understand and use some of the ancient vocabulary, as well as to appreciate the beauty and the wisdom of a number of Classical Chinese works.

Prerequisite(s): Before registering in this course, a student should have completed a second-year college Chinese course or equivalent, e.g., completion of 6 years of elementary school or more in China or Taiwan, and know about 2000 Chinese characters.
CHIN 3333 (3 CREDITS) (4:0:0)
Introduction to Classical Chinese
Chinese 3333 is part two of an introduction to classical Chinese. It is designed for students who are fluent in Mandarin Chinese or one of the Chinese dialects and who can read and write Chinese comfortably at intermediate level, e.g., completion of elementary school or higher in China or Taiwan. In this course, students will first study a selection of ancient poetic and prose works from the Han, Tang and Song dynasties (ca. 20BC - 1200 AD). They will then be introduced to the dramas and novels of later centuries (ca. 1300 - 1800 AD). More grammatical analysis and comparisons will be done between the ancient and the modern languages. At the end of this course, students will have gained a general idea of the whole development of Chinese history and literature. They will be expected to understand and appreciate a number of ancient works, as well as to be able to use their knowledge to create some simple works of their own in classical style.

Prerequisite(s): Students who have not completed CHIN 3331 should consult an instructor of Chinese before registering in this course. Students should have already completed at least a second-year college Chinese course or equivalent, e.g., completion of 6 years of elementary school or more in China or Taiwan, and know about 2000 Chinese characters.

CLST (Classical Studies)

CLST 1102 (3 CREDITS) (4:0:0)
Women in Antiquity
An overview of women in Greece and Rome, based primarily on literary texts. The images of women in these texts will be studied, and compared to reality as we know it from other sources. For related courses, see HIS 2210, HIST 2211, CLST 1110 and CLST 1120.

CLST 1105 (0 CREDITS) (3:0:0)
Lecture Series
This is a non-credit, non-fee course consisting of a series of lectures on themes from Greek and Roman civilization. Requirement for the diploma in Arts and Science (Classical Studies).

CLST 1110 (3 CREDITS) (3:1:0)
Introduction to Greek Civilization
An introduction to the golden age of Athens, with an emphasis on history and society, literature, philosophy, art and archaeology.

Note: For related courses see: CLST 1102, 1120 and HIST 2210

CLST 1120 (3 CREDITS) (3:1:0)
Introduction to Roman Civilization
An introduction to the events of the golden age of Rome, at the end of the Republic and the beginning of the Empire, with an emphasis on the history and society, literature, philosophy, art and archaeology.

Note: For related courses, see CLST 1102, CLST 1110 and HIST 2211.

CLST 2230 (3 CREDITS) (3:0:1)
Alexander & the Hellenistic World
New Course
An overview of the history and culture of the Hellenistic world, from the conquests of Alexander the Great to the death of Cleopatra VII of Egypt. Topics will include the empire of Alexander and the successor states, the cultural achievements of the Hellenistic world, and the interaction between Greek and non-Greek in this expanded world.

Prerequisite(s): At least one course in one of the following disciplines: Classical studies, history, art history, philosophy, or permission of the instructor or Classical Studies coordinator.

CLST 2276 (3 CREDITS) (3:1:0)
Greek and Roman Art and Archaeology
A study of Greek painting, sculpture and architecture from the Minoan to the Hellenistic period, and an examination of Roman art from the Etruscan age to the Roman Imperial period. Emphasis is placed on the Greek Classical period and the Roman Empire. Archaeological evidence will be studied in the context of the political, economic and social developments of the periods. Course content will include the history, principles, aims and techniques of Classical Archaeology, and the relationship of the archaeological evidence to the literary and other sources.

Prerequisite(s): At least one course in Art History, Classical Studies, Anthropology, or History; or permission of instructor or Classical Studies coordinator.

COOP (Co-operative Education)

COOP 2301 (3 CREDITS) (0:0:22.5)
Co-operative Work Placement I
Work experience and report. Practical application of theoretical knowledge gained in academic studies to enhance skills and to provide professional and personal development. Co-op work placements consist of full-time work in a student's area of study. Evaluation will consist of employer evaluation, work term report, and presentation.

Co-operative education courses cannot be used to meet elective requirements.

Prerequisite(s): Minimum “C” grade in BUSM 2300; minimum 2.6 GPA; acceptance to the co-op option; and confirmed co-op work placement.

Note: Restricted to students meeting the admission requirements of Co-operative Education. Students will receive credit for only one of COOP 2313 (discontinued) or COOP 2301.

COOP 2314 (3 CREDITS) (0:0:22.5)
Co-operative Work Placement Extension Performance I
Extended work placement offered by employer. Allows for more in-depth experience, learning, and development of comfort level in workplace.

Graded S/U.

Prerequisite(s): COOP 2301

Note: Students will receive credits for only one of COOP 2313 and COOP 2314
**COOP 2501 (3 CREDITS) (0:0:22.5)**

**Co-operative Work Placement II**

Work experience and report. Practical application of theoretical knowledge gained in academic studies to enhance skills and to provide professional and personal development. Co-op work placements consist of full-time work in a student’s area of study. Evaluation will consist of employer evaluation, work term report, and presentation.

Co-operative education courses cannot be used to meet elective requirements.

Prerequisite(s): COOP 2301

Note: Restricted to students meeting the admission requirements of Co-operative Education. Students will receive credit for only one of COOP 2511 (discontinued) or COOP 2501.

**COOP 2514 (3 CREDITS) (0:0:22.5)**

**Co-operative Work Placement Extension Performance II**

Extended work placement offered by employer. Allows for more in-depth experience, learning, and development of comfort level in workplace. Graded S/U.

Prerequisite(s): COOP 2501

Note: Students will receive credit for only one of COOP 2513 and COOP 2514.

**COOP 3301 (3 CREDITS) (0:0:22.5)**

**Co-op Work Placement III**

Work experience and report. Practical application of theoretical knowledge gained in academic studies to enhance skills and to provide professional and personal development. Co-op work placements consist of full-time work in a student’s area of study. Evaluation will consist of employer evaluation, work term report, and presentation. Co-operative education courses cannot be used to meet elective requirements. Co-operative education courses cannot be used to meet elective requirements.

Prerequisite(s): COOP 2501.

Note: Restricted to students meeting the admission requirements of Co-operative Education. Students will only receive credit for only one of COOP 3311 (discontinued) or COOP 3301.

**COOP 4301 (3 CREDITS) (0:0:22.5)**

**Co-operative Work Placement III**

Work experience and report. Practical application of theoretical knowledge gained in academic studies to enhance skills and to provide professional and personal development. Co-op work placements consist of full-time work in a student’s area of study. Evaluation will consist of employer evaluation, work term report, and presentation.

Co-operative education courses cannot be used to meet elective requirements.

Prerequisite(s): COOP 3301

Note: Restricted to students meeting the admission requirements of Co-operative Education. Students will receive credit for only one of COOP 4311 (discontinued) or COOP 4301.

---

**CMNS (Communications)**

**Diagnostic Tests**

**LANGARA ENGLISH TEST AND LANGUAGE PROFICIENCY INDEX**

If you plan to enrol in a first-semester Communications course, you must take the Langara English Test (LET) or the Language Proficiency Index (LPI) Test prior to the semester in which you wish to register. Minimum scores required are Level 3 for the LET or 5/10 on English usage and 24 on the essay for the LPI.

Note: The following courses are designed for students in Langara’s Career Programs.

**CMNS 0013 (3 CREDITS) (4:0:0)**

**Community, College & Career Communications**

This course provides an introduction to and practice in the English used in classroom, practicum, and interview settings in human services career programs. Using curriculum materials and assignments from participating programs, students will become familiar with oral, reading, and writing requirements.

Prerequisite(s): Langara English Test Level 2.

Note: Antirequisites: Students who have successfully completed CMNS 1115 or 1118 require the instructor’s permission to take this course.

**CMNS 0021 (3 CREDITS) (4:0:0)**

**Career English Language Training - Human Services**

This course provides an introduction to and practice in the English used in classroom, practicum, and interview settings in human services career programs. Using curriculum materials and assignments from participating programs, students will become familiar with oral, reading, and writing requirements.

Prerequisite(s): Langara English Test Level 2.

Note: Antirequisites: Students who have successfully completed ENGL 1127 or ENGL 1128 require the instructor’s permission to take this course.

**CMNS 1115 (3 CREDITS) (4:0:0)**

**Interpersonal Communications**

Interpersonal communications theory put into practice in exercises, group and individual projects that cover small group dynamics, interviews, and oral presentations.

Prerequisite(s): LET (level 3) or LPI (minimum 24 on essay with 5 in English usage) or English 12 with “A” or English Literature 12 with “A” or English 1107 or 1108 or 1110 with “S”.

**CMNS 1116 (3 CREDITS) (4:0:0)**

**Understanding and Writing Sentences**

(Formerly: Review of Spelling and Punctuation)

This course examines the component parts of sentences and offers instruction and practice in writing clear, effective, and varied sentences. Topics covered include using the dictionary, spelling and vocabulary, the parts of speech, phrases and clauses, punctuation, and mechanics.

Prerequisite(s): LET with level 3 or LPI minimum 24 on essay with 5 in English usage; or English 12 with “A” or English Literature 12 with “A” or English 1107 or 1108 or 1110 with “S”. or an “S” in one of ENGL 1107 or 1108 or 1110.
CMNS 1117 (3 CREDITS) (4:0:0)
Speaking and Listening Skills
Effective speaking and listening skills developed in a workshop environment, with practice in both persuasive and informative speaking. Skills are applied in a variety of law-related situations: interviews, speeches, and debates.
Prerequisite(s): LET (level 3) or LPI (level 4) or ENGL 1110 with “S” and English 12 or equivalent. Restricted to students in the Criminal Justice Program.

CMNS 1118 (3 CREDITS) (4:0:0)
Written Communications
Training in writing skills, with emphasis on business writing in a career context. Writing projects include: memos, letters, reports, resumes, and employment correspondence.
Prerequisite(s): CMNS 1116 with a minimum grade of “C-”.

CMNS 1126 (3 CREDITS) (4:0:0)
Advanced Spelling, Punctuation and Proofreading
This course offers advanced study in the areas of spelling, punctuation, sentence composition, and proofreading, with extensive practice designed to reinforce understanding and to develop a high level of skill in the practical application of the theory.
Prerequisite(s): CMNS 1116 with a minimum grade of “C-”.

CMNS 2228 (3 CREDITS) (3:0:1)
Advanced Written Communications
Students in CMNS 2228 will learn advanced written communication skills, including both business and technical writing. Students will learn and practice advanced editing skills and writing for the Web.
Prerequisite(s): One of CMNS 1118, ENGL 1127, or ENGL 1140, or permission of the English Department.

CPSC (Computer Science)

Prerequisites
Prerequisites for courses in Computer Science are valid for only three years. Students wanting to register in a course for which the prerequisite was taken more than three years ago will require departmental permission. Students may be required to write a diagnostic test or to “upgrade” the prerequisite. A course may only be used as a prerequisite if the Computer Science grade is at least “C”.

Repeating a course
A Computer Science course may be taken only twice, regardless of the grade earned in the first enrolment. The Department Chair, or delegate, will decide on exceptions to this rule, usually on the basis of documented evidence of upgraded prerequisites.
Students with a substantial background in computer programming may be exempted from CPSC 1050 and/or CPSC 1150. See a faculty advisor for further information.

Attendance
Student will receive a failing mark if they miss 20% of the course components including lectures, seminars, and labs, unless there is a verifiable evidence of an acceptable excuse.

Grading
1. In order to get a C or higher grade in a Computer Science course, a student must achieve at least 50% average in the exam components of the course.
2. In courses which involve programming, students are required to hand in an attempt at solving every assignment in order to pass a course. In addition, students are required to obtain a satisfactory programming mark.

CPSC 1000 (3 CREDITS) (2:0:4)
Essential Computer Application
This course is intended for students who have no previous (or limited) experience with computers. It will provide an introduction to concepts in computer science as well as some of the ethical issues surrounding the increasing use of computers. The Windows operating system, file management, electronic mail, Internet browsing, and the use of graphic images are integrated into the classroom and laboratory.
Note: Students will only receive credit for either CPSC 1000 or BCAP 1200 and not both courses.

CPSC 1010 (3 CREDITS) (4:0:2)
Computing and Problem-Solving
Develops a deep understanding of several computer applications (e.g. spreadsheets and databases): what they are, what they can do and how to use them effectively. Teaches general computer science concepts, design principles, and problem solving techniques using these applications. Lab activities focus on simple and complex spreadsheet solutions, database design principles, both within spreadsheets and databases, building to moderately complex database solutions.
Prerequisite(s): One of the following: Math 12 with “C-” grade; Math 11 with “B” grade; MATD with “70” score; MATH 1150 with “C-” grade; or one of: MATH 1152, 1153, 1170, 1171, 1173/1183, 1174 with “C-”; or taken concurrently. Keyboarding and prior experience using a computer, such as the Internet and word processing, are essential.

CPSC 1030 (3 CREDITS) (4:0:2)
Web Development I
(formerly: Essential Web Applications)
Students will examine the structure of the Internet and the World Wide Web and how they work; design and implement professional interactive websites using styles in CSS. Topics include design principles, image manipulation, and simple CGI scripting. Explore innovative trends that use the Internet as a computing platform.
Prerequisite(s): None. (Basic computer literacy is recommended.)

CPSC 1040 (3 CREDITS) (4:0:2)
Introduction to Programming
Introduction to programming with a modern programming language (e.g., Visual Basic .NET) in a windowing (e.g., Microsoft Windows) environment. Program development skills including: analyzing a problem to make it amenable to programming; writing structured, modularized programs; program documentation; interacting with the computer operating system; event driven programming interface for GUI applications.
Prerequisite(s): None. Basic computer literacy is recommended.
CPSC 1050 (3 CREDITS) (4:0:2)
INTRODUCTION TO COMPUTER SCIENCE
Offers a broad overview of the computer science discipline. Provides students with an appreciation for and an understanding of the many different aspects of the discipline. Topics include: information and data representation; computer hardware and architecture; algorithmic problem solving; an introduction to programming (e.g., XHTML, JavaScript); operating systems; networks; applications; artificial intelligence and robotics; social implications; ethics; and history. Intended for both students expecting to continue in computer science as well as for those taking it for general interest.

Prerequisite(s): One of the following: MDT with 80; Computer Science 12 with a grade of “A”; Mathematics 12 with a minimum grade of “C”; one of MATH 1150, 1152, 1153, 1170, 1171, 1173/1183, 1174; or permission of the department. MATH 1150, 1152, 1153, 1170, 1171, 1173/1183, or 1174 may be taken concurrently.

CPSC 1090 (3 CREDITS) (4:0:2)
ENGINEERING GRAPHICS
(Formerly: Manual and Computer-Aided Engineering Graphics)
Orthographic projection, technical sketching, development of the ability to visualize in three dimensions. Standards and conventions of engineering drawing, graphical representation of engineering data. Introduction to computer-aided drawing (CAD). Vector graphics. Engineering geometry in solving 3-D space problems.

Prerequisite(s): MATH 1171 and PHYS 1219; or permission of department. (Basic computer literacy is recommended.)

CPSC 1150 (3 CREDITS) (4:0:2)
PROGRAM DESIGN
(Formerly: Program Design I)
Provides a general understanding of computing environment and stored information; teaches algorithm development and fundamentals of programming using a suitable high-level language (e.g., C++); introduces abstraction concepts and focuses on program design and implementation using the procedural programming paradigm.

Prerequisite(s): One of the following: MDT 85; Computer Science 12 with an “A”; Mathematics 12 with a minimum grade of “B”; one of MATH 1150, 1152, 1153, 1170, 1171, 1173/1183, 1174; a minimum grade of “C” in one of CPSC 1040 or 1050; or permission of department. MATH 1150, 1152, 1153, 1170, 1171, 1173/1183 or 1174 may be taken concurrently.

CPSC 1155 (3 CREDITS) (4:0:2)
PROGRAM DESIGN FOR ENGINEERS
(Formerly: Principles of Software Development for Engineers)
This course concentrates on the key elements of good programming and C++ using a multitude of interesting and appropriate engineering and scientific examples. It covers the features of C++ needed for writing engineering programs including procedural abstraction using functions. The course also presents fundamentals of numerical methods that represent commonly used techniques for solving engineering and scientific problems.

Prerequisite(s): One of the following: MDT 85; Computer Science 12 with an “A”; Mathematics 12 with a minimum grade of “B”; one of MATH 1150, 1152, 1153, 1170, 1171, 1173/1183, 1174; a minimum grade of “C” in one of CPSC 1040 or 1050; or permission of department. MATH 1150, 1152, 1153, 1170, 1171, 1173/1183 or 1174 may be taken concurrently.

CPSC 1160 (3 CREDITS) (4:0:2)
ALGORITHMS AND DATA STRUCTURES I
(Formerly: Program Design II)
Covers low-level operations, recursion, systematic software development, abstract data types, creation of libraries of reusable routines, sorting and searching algorithms, efficiency, algorithm analysis, pointers, arrays, dynamic memory management, linked lists, stacks, queues, introduction to hashing, binary trees and tree traversals, and advanced data manipulation. Object-oriented programming will be introduced.

Prerequisite(s): One of the following: MATH 1150, 1152, 1153, 1170, 1171, 1173/1183, 1174; or permission of department.

CPSC 1180 (3 CREDITS) (4:0:2)
PARADIGMS OF COMPUTER SCIENCE
An introduction to functional programming, the distinctive features of a functional programming language, functional programming paradigms, and appropriate applications. This course is particularly recommended for students transferring to Computer Science at UBC.

Prerequisite(s): CPSC 1150 with minimum “C” grade.

CPSC 1181 (3 CREDITS) (4:0:2)
OBJECT-ORIENTED COMPUTING
Introduces the fundamental concepts of programming from an object-oriented (OO) perspective: abstraction; objects; classes and class hierarchies; methods; parameter passing; encapsulation and information hiding; inheritance; polymorphism. OO design with modeling tools (e.g., class diagrams). Application of simple container/collection classes; event-driven programming; exception handling; GUI; multi-threading; and networking. Emphasizes good software engineering principles using a language that supports the OO paradigm (e.g., Java).

Prerequisite(s): A minimum grade of “C” in one of CPSC 1150 or CPSC 1155; or permission of department.

CPSC 1191 (3 CREDITS) (3:0:1)
DISCRETE STRUCTURES I
Introduces the foundations of discrete mathematics as they apply to computer science. Topics include proof techniques, logic, propositions, sets, functions, relations, counting, number theory, combinations and permutations.

Prerequisite(s): A minimum ‘B’ grade in Principles of Mathematics 11 or equivalent; or permission of the department.
CPSC 1220 (3 CREDITS) (4:0:2)
DATABASE I
(Formerly: Database Application Development)
A comprehensive introduction to theory and practice of designing and building databases and applications using database management systems. The relational model, relational algebra, SQL (the standard language for creating, querying, and modifying relational databases), UML or E/R approach to database design, as well as relational design principles based on functional dependencies and normal forms. Other topics include indexes, views, transactions, integrity constraints, and triggers. Students will design and implement a relational database for an enterprise as a major project using programming tools widely used in industry (e.g., Oracle).
Prerequisite(s): A minimum grade of “C” in one of CPSC 1040, CPSC 1150, or CPSC 1155.

CPSC 1280 (3 CREDITS) (4:0:2)
UNIX TOOLS AND SCRIPTING
(Formerly: Introduction to Operating Systems and Scripting)
Introduction to concepts and practices in operating systems, software engineering tools, system and network administration. Scripting languages, utilities, tools and techniques. Topics include: command line interface; filters; pipelines; file organization; reusable utilities; software configuration management; simplifying programming tasks; System/Network configuration, administration; and security issues.
Prerequisite(s): A minimum grade of “C” in one of CPSC 1150 or CPSC 1155; or permission of department.

CPSC 1320 (2 CREDITS) (2:0:1)
TECHNICAL COMMUNICATIONS
Introduction to the basics of communication for technologists. Effective written and verbal communication including format and response to RFPs (Request for Proposals); privacy, ethical and legal issues related to disclosure of information; essentials of user documentation; documentation plan; producing on-line or web based help; user training; and teamwork.
Prerequisite(s): A minimum “C” grade in BUSM 1310 (may be taken concurrently); or permission of department, an English or Communication course taken before or concurrently is recommended.

CPSC 1401 (3 CREDITS) (4:0:2)
INTRODUCTION TO COMPUTER ELECTRONICS
Includes a thorough, comprehensive, and practical coverage of basic electrical and electronic concepts and circuits with special emphasis on troubleshooting and applications in computer systems. Students are expected to have knowledge of elementary calculus and basic physics.
Prerequisite(s): Physics 12 or PHYS 1118 with minimum “C” grade; or permission of the department.

CPSC 1480 (3 CREDITS) (4:0:2)
NETWORKING
A hands-on introduction to designing, installing and supporting computer networks including network standards, protocols, topologies, networking hardware and network operating systems. Enterprise-wide deployment of computing resources using client/server architecture. Administration of networking operating system facilities. Upon successful completion, students should have the foundation to challenge the CompTIA Network+ certification test.
Prerequisite(s): None. (CSIS 1410 is recommended.)

CPSC 2030 (3 CREDITS) (4:0:2)
WEB DEVELOPMENT II
Intermediate website design and development covering information architecture, accessibility and usability. Includes advanced CSS, basic programming (client-side and server-side scripting), the Document Object Model (DOM), handling form data and designing for mobile devices. Students will design and implement a moderately complex website as a class project.
Prerequisite(s): A minimum ‘C’ grade in CPSC 1030; or permission of the department.

CPSC 2130 (3 CREDITS) (4:0:2)
MULTimedia AND Animation
Presents the core multimedia technologies and standards including text, audio, video, graphics, 2D and 3D modeling and animation. Standard algorithms, tools and techniques for manipulating multimedia objects. Use of multimedia scripting languages and authoring environments. Students will design and implement a multimedia project.
Prerequisite(s): A minimum ‘C’ grade in one of CPSC 1040, 1150 or 1155; or permission of the department. CPSC 1030 is recommended.

CPSC 2150 (3 CREDITS) (4:0:2)
ALGORITHMS AND Data Structures II
(Formerly: Data Structures and Algorithms)
Linear and non-linear structures and their implementation using the object-oriented programming paradigm. Topics include algorithm analysis, algorithmic paradigms (divide and conquer, greedy heuristic, backtracking and dynamic programming), data representation, matrices, lists, stacks, queues, mappings, dictionaries, binary trees, balanced trees, B-trees, tree traversals, meta-languages, expression trees, prefix, infix and postfix expressions and conversions, priority queues and heaps, search trees, hashing, Huffman codes, graphs, and graph algorithms.
Prerequisite(s): A minimum grade of “C” in CPSC 1160; or permission of department. CPSC 1181 is recommended.

CPSC 2180 (3 CREDITS) (4:0:2)
CompUTING Architecture
Fundamental concepts of computing and computer architecture. Topics include: solvability of problems using a computer, universal computers, virtual machines, number representation in a computer, memory organization and addressing schemes, internal representation of data, assembly language, interfaces, and operating systems issues.
Prerequisite(s): A minimum grade of “C” in one of CPSC 1160 or CPSC 1181; or permission of department.

CPSC 2190 (3 CREDITS) (4:0:2)
THEoretical Foundations of Computer Science
Covers sets and propositions; relations and functions; permutations, combinations and counting; induction proofs; graphs, trees and networks; Boolean algebra and mathematical models; application of theoretical concepts to program development.
Prerequisite(s): A minimum grade of “C” in one of CPSC 1150 or CPSC 1155; or permission of department. MATH 1153, 1171, 1173/1183 or 1174 is recommended.
Courses

CPSC 2191 (3 CREDITS) (3:0:1)
Discrete Structures II
A continuation of CPSC 1191 to provide the foundations of discrete mathematics as they apply to computer science. Topics include discrete probability, recurrence relations, graphs, trees, matrices, computational complexity, language recognition, computability theory including finite state automata and Turing machines, Pumping lemma.

Prerequisite(s): A minimum ‘C’ grade in CPSC 1191; or permission of the department.

Note: Students will receive credit for only one of CPSC 2190 and CPSC 2191.

CPSC 2211 (3 CREDITS) (4:0:2)
Human-Computer Interaction
Introduces students to the art and science of Human-Computer Interaction (HCI). Fundamental theory and practice of the design, implementation and evaluation of HCI with the focus on effective user interface design for typical applications software. It emphasizes user-centered approach throughout development, presenting current design approaches and tools.

Prerequisite(s): A minimum “C” grade for CPSC 1160 and 1181; or permission of the department. (CPSC 2150 recommended.)

CPSC 2220 (3 CREDITS) (4:0:2)
Database II
(Formerly: Database Systems)
Review of the relational model and study transaction management and concurrency control. Introduces object-oriented and object-relational data models and XML. Extensive coverage of web application development along with Data Integration, Data Warehousing, OLAP, and Data Mining technologies. Discussion of issues that arise in databases for Wireless Systems, GIS, and Genome. Students will implement a multi-tier client/server relational database with a web interface using an industry standard DBMS (e.g., Oracle with JDBC interface).

Prerequisite(s): A minimum grade of “C” in CPSC 1220 and 2150; or permission of the department. CPSC 2150 may be taken concurrently.

Note: File structures foundation is covered in CPSC 1160.

CPSC 2261 (3 CREDITS) (4:0:2)
Web Technology I
Offers an intermediate to advanced, practical treatment of the architecture of Web-based information systems. Topics include protocols; the role of clients, servers, gateways, and proxies; document markup languages; client and server side programming/scripting; database integration; server administration and security; and applications (such as e-commerce).

Prerequisite(s): A minimum grade of “C” in one of CPSC 1150 or CPSC 1155, and a minimum grade of “C” in one of CPSC 1030 or CPSC 1280; or permission of the department.

CPSC 2280 (3 CREDITS) (4:0:2)
Operating Systems
Covers the theory and application interface of operating systems including a basic introduction to distributed systems; process scheduling and management; memory management; file systems; I/O services; driver architecture; operating system management and security. Labs focus on the application interface to these system services including multi-threaded and client/server applications using the UNIX operating system. Case studies to explore other modern operating systems such as Windows, Windows 98, Windows NT, OS/2, and Mach.

Prerequisite(s): CPSC 1280 and 2150 with minimum grade “C”; or permission of the department.

CPSC 229S (2 CREDITS) (2:0:2)
Special Topics
Special topics in Applied Computing which are of current interest or are not covered in the regular curriculum. Offered from time to time depending on student interest and Department’s recommendation.

Prerequisite(s): Registration in the ACST or in the PCST Program or permission of the Department Chair.

CPSC 2301 (3 CREDITS) (4:0:2)
Software Engineering
(Formerly: Software Engineering and Project Management)
The design and implementation of medium and large-scale software systems using group programming techniques. A best practices approach to understanding people, product, process and technology issues in an enterprise. Software Engineering principles, techniques, methodologies, standards, quality assurance including verification and validation, design and development tools. Students will undertake a comprehensive team software development project with emphasis on issues such as system functionality, flexibility, maintainability, risk management, time and resource constraints, and documentation.

Prerequisite(s): Minimum “C” grade in one of CPSC 1160 or 1181, and a minimum “C” grade in CPSC 1220 and 1280; or permission of department.

Note: Students will receive credit for only one of CPSC 2301 and CSIS 2302.

CPSC 2320 (1 CREDIT) (2:0:1)
Formal Topics in Computer Science
Introduction to aspects of computer science theory that have practical applications. Logic: propositional and predicate calculus. Proof: induction; application to program specification. Languages: regular expressions and context-free grammars. Credit will not be granted for both CPSC 2320 and CPSC 2190; students wishing university transfer credit should take CPSC 2190 instead.

Prerequisite(s): CPSC 2150 with minimum “C” grade.

CPSC 2390 (3 CREDITS) (4:0:2)
Capstone Project
The design, implementation and testing of a large multi-module software system using a team approach. Students will undertake a comprehensive team software development project, producing a substantial software product using current methodologies and practices.

Prerequisite(s): Permission of department.
Courses

**CPSC 2401 (3 CREDITS) (4:0:2)**
**Digital Systems Design**
Develops an understanding of computer electronics from the bottom up; starting with binary numbers and codes, moving through switch, gate, and register levels and concluding with an introduction to system architecture. Topics will include binary arithmetic and codes, combinational design, PLDs, two-level minimization, the K-Map method, multiplexers, decoders, adders, subtractors, sequential circuit concepts and design; delays and latches; triggering methods, flip-flops, and clocking issues. Register-level design and Architecture-level design; Basic computer organization, and microprocessor-based systems. Students will develop a major lab project for this course.

Prerequisite(s): CPSC 1401 and a minimum grade of “C” in one of CPSC 1150 or CPSC 1155; or permission of department.

**CPSC 2451 (3 CREDITS) (4:0:2)**
**Hardware Architecture**
Covers the computer hardware architecture and its implementation with case studies of current machines. Includes uni- and multi-processors; processor architectures and enhancements; memory hierarchies; processor and system buses; I/O sub-systems, and peripherals. Labs focus on exercising the low-level hardware/software interface of a number of machine architectures, estimating the impact of enhancements on system performance and case studies of new architectures.

Prerequisite(s): A minimum “C” grade in CPSC 2180 and CPSC 401; or permission of the department.

**CPSC 2480 (3 CREDITS) (4:0:2)**
**Data Communications and Networks**
Fundamental concepts of Data Communications and Networking including data link control and multiplexing; data communications equipment and software; communications protocols; networking with particular emphasis on the OSI international model; alternative to networks as well as issues of network software integration in modern operating systems. A series of lab assignments and experiments to illustrate data communications techniques and fundamentals of design, configuration and implementation of LAN will be given.

Prerequisite(s): A minimum “C” grade in CPSC 2180 and CPSC 2401; or permission of the department.

**CPSC 2490 (3 CREDITS) (4:0:2)**
**TCP/IP & Enterprise Networks**

Prerequisite(s): CPSC 1280 with minimum “C” grade; or permission of the department.

**CPSC 2720 (3 CREDITS) (4:0:2)**
**Distributed & Concurrent Computing**

Prerequisite(s): CPSC 1220 and 2150 with minimum “C” grade; or permission of the department.

**CPSC 2730 (3 CREDITS) (4:0:2)**
**Web Technology II**
Topics include Extensible Markup Language (XML), XML tools and style sheets (XSL); enterprise-wide Web deployment solutions focusing on functionality, performance optimizations, platform independence and security; survey of current enterprise tools.

Prerequisite(s): CPSC 2261 with a minimum “C” grade; or permission of the department.

**CPSC 2810 (3 CREDITS) (4:0:2)**
**Computer and Information Security**
An introduction to the policies, mechanisms, and implementations of computer security. Provides an understanding of threats, including script kiddies; covert channels; and malicious logic such as viruses, worms, time bombs, and trap doors. Students will learn how attacks work, how to defend against attacks, and how to design and administer secure systems and networks.

Prerequisite(s): A minimum “C” grade in one of: CPSC 1280 or 1480; or permission of the department.

**CSIS (Computing Science & Information Systems)**

**CSIS 1300 (3 CREDITS) (4:0:0)**
**Systems Analysis & Design**
An introduction to the basic skills and techniques of systems analysis. Emphasis is placed on the role of the systems analyst in an organization and the involvement of people in the overall process. In addition, the following topics are covered: project life cycle, structured and object-oriented methodology, charting techniques, forms design, coding methods, observation and interview techniques. Students will also complete the design of a small business application.

Note: Students will only receive credit for either CSIS 1300 or CISY 1115 and not both courses.
CSIS 1310 (3 CREDITS) (4:0:0)

Business Systems

Provides an understanding of applications commonly encountered in business. Emphasis is placed on the system design considerations, files, programs, procedures and controls required to computerize systems such as order entry, billing, accounts receivable, purchasing, accounts payable, payroll, general ledger, inventory management, forecasting and control. Students complete a project to analyze information systems problems and develop recommendations for solutions.

Prerequisite(s): CSIS 1300 or permission of the department.
Note: Students will only receive credit for either CSIS 1310 or CISY 1215, and not both courses.

CSIS 1410 (3 CREDITS) (4:0:2)

Fundamentals of Microcomputers

Installing and maintaining hardware and software on Intel-based computers including computer organization and architecture, hardware and system software installation, maintenance and troubleshooting. Upon successful completion, students should have the foundation to challenge the CompTIA A+ certification test.

Prerequisite(s): None. (Basic computer literacy is recommended.)
Note: Students will only receive credit for either CSIS 1410 or CISY 1117 and not both courses.

CSIS 2302 (3 CREDITS) (4:0:2)

Project Management

The application of knowledge, skills, tools and techniques to project activities to meet project requirements in an enterprise. A best practices approach to understanding project life cycles, project processes, integration, scope, people issues, and procurement management. Software Engineering principles, methodologies, standards, quality assurance including verification and validation, design and development tools. Students will undertake a comprehensive team software development project with emphasis on issues such as system functionality, flexibility, maintainability, risk management, time and resource constraints, and documentation.

Prerequisite(s): A minimum C grade in CSIS 1310 and CPSC 1220; or permission of department.
Note: Students will receive credit for only one of CPSC 2301 and CSIS 2302.

CSIS 2500 (3 CREDITS) (4:0:0)

Management Information Systems

Explores the many ways technology assists organizations to function and to understand the effects of information systems on organization structure, management and employees. Emphasis will be placed on the use of the Internet in a Network Enterprise.

Prerequisite(s): 15 credits or permission of the department. (CSIS 1300 and one of CPSC 1000 or BCAP 1200 are recommended.)
Note: Students will receive credit for only one of BCAP 1237, BCAP 3200, CSIS 2500 and CISY 2415.

CJUS (Criminal Justice)

The following courses are offered by the Criminal Justice Department.

From time to time, seats may be available to Arts and Science students not in the Program. See also (Crim) Criminology.

CJUS 1117 (1 CREDIT) (0:0:2)

Introduction to Control Tactics

This course will introduce students to use of force theory and tactical communication. Students will also be introduced to and expected to achieve basic competency in specific skill tactics for control, taking into account varying student abilities. The course combines theory with development of basic verbal and physical skills related to use of force. The course will cover the requirements of the second component of the Basic Security Training standards (B.S.T. 2) of the Ministry of the Attorney General. Graded S/U.

Prerequisite(s): CJUS 1217 with a minimum C grade (may be taken concurrently with CJUS 1117) or proof of completion of Basic Security Training 1 (B.S.T.1).

CJUS 1217 (3 CREDITS) (3:1:2)

Security

This course provides a basic level of instruction for private security accordance with the first component of the Basic Security Training Standards (B.S.T. 1) of the Ministry of the Attorney General for British Columbia Licensing. In addition, the course will focus on the role of private security in the protection of commercial and industrial operations against profit loss. The instructor and guest lecturers will cover loss through theft, fraud, robbery, burglary, vandalism, fire, carelessness, etc.

CRIM (Criminology)

The following courses are offered by the Criminal Justice Department.

From time to time, seats may be available to Arts and Science students not in the Program.

Prerequisites

Prerequisites for CRIM 1215, 1216, 2315, 2316, 2415, 2416:
1. A score of Level 4 in Langara English Test (LET) or an essay score of 30 or higher on the Language Proficiency Index (LPI) test or a minimum “C” grade in one of ENGL 1127, 1128, 1129 or 1130

2. A minimum “C” grade in one of the following courses:
   - CRIM 1115, (or CRIM 1125 for CRIM 1215)
   - ECON 1119, 1220, 1221
   - HIST 1116, 1126
   - PHIL 1100, 1101
   - POLI 1110, 1119
   - PSYC 1115, 1215
   - SOCI 1120, 1121

Students who do not meet the above prerequisite requirements, but have post-secondary, university-transferable credits or experience may apply to the Chair of the Criminal Justice Department for permission to take any of the criminology courses listed above.
CRIM 1115 (3 CREDITS) (3:1:0)
Introduction to the Criminal Justice System
This course is designed to introduce the student to the various components of the Canadian Criminal Justice System (C.J.S.), the roles of its principle participants, the interaction between the components, and some of the issues which both facilitate and complicate the administration of justice in Canada. The course will also focus on special topics that include: Youth, Natives and Women in the C.J.S.; the Charter and the C.J.S.; and the changing role of the corrections and the Criminal Justice System. Finally, there will be an in-depth examination of the Donald Marshall Jr. case and the subsequent Royal Commission inquiry into the Marshall case.
Note: Restricted to students enrolled in the Criminal Justice Program.

CRIM 1116 (3 CREDITS) (3:1:0)
Introduction to Canadain Law and Legal Institutions
General introduction to jurisprudence, sources and divisions of law, the development of the Canadian Constitution, major legal institutions, doctrines of Precedent and Stare Decisis, the rules and principles of statutory interpretation, and significant areas of substantive law.

CRIM 1125 (3 CREDITS) (3:1:0)
Introduction to Criminology
An introduction to criminology as an academic discipline and as a profession. The course will examine different terms and concepts commonly used in criminology; explore the relationship between criminology and other academic disciplines; provide an overview of the history and evolution of criminological thought; and develop a critical appraisal of theoretical explanations, research methods, and the philosophical and political foundations of modern criminological policy.

CRIM 1215 (3 CREDITS) (3:1:0)
Introduction to Policing
This course will examine many issues affecting policing in Canada. Time will be spent tracing the historical underpinnings of the Canadian policing experience and reviewing how these events dictated and confused the mandate of the police officer. Contemporary issues to be explored will include: the selection, training and promoting of officers; the types of police work, specifically the patrol and detective functions; Community policing; police powers; discretion; police misconduct; the police sub-culture; and the police organization.
Prerequisite(s): See information at the beginning of the CRIM course listing.

CRIM 1216 (3 CREDITS) (3:1:0)
Criminal Law
Prerequisite(s): See information at the beginning of the CRIM course listing.

CRIM 1220 (4 CREDITS) (4:0:0)
Research Methods in Criminology
This course provides students with an overview of research methods typically used in criminology and other social science disciplines. The course will cover both qualitative and quantitative research methods. Topics included in this course are the practice of social science research; ethics of research; data gathering strategies; how to analyze data and present results in a written report. This course does not involve the statistical analyses; a background in mathematics is not required.

CRIM 2315 (3 CREDITS) (3:1:4)
Introduction to Corrections
The purpose of this course is to familiarize the student with various theoretical and practical issues facing the Corrections arm of the Canadian Criminal Justice System. Included in the course will be an exploration of the historical underpinning of Canadian Corrections as well as its role and present structure. This course will examine sentencing options available to the judiciary and their impact on the operations of Corrections. In addition, this course will explore relevant issues relating to life as an inmate or a correctional officer within the present system.
Prerequisite(s): See information at the beginning of the CRIM course listing.

CRIM 2316 (3 CREDITS) (3:1:2)
Criminal Law and Court Procedure
Critical examination of selected topics in criminal procedure and evidence, including cross-national comparisons where appropriate. Detailed examination of the impact of the Charter of Rights on criminal procedure and admissibility of evidence. Review of various procedures contained in Young Offenders Act and selected regulatory legislation.
Prerequisite(s): See information at the beginning of the CRIM course listing.

CRIM 2415 (3 CREDITS) (4:0:0)
Multiculturalism and the Criminal Justice System
The purpose of this course is to familiarize the student with multicultural issues that relate to the administration of justice in Canada. The central issues to be explored are values, belief systems, culture, prejudice, discrimination, stereotyping, employment equity and immigration. Once these issues are understood, an examination will begin into those areas where culture conflicts with the philosophical and legal intent of the criminal justice system.
Prerequisite(s): See information at the beginning of the CRIM course listing.

CRIM 2416 (3 CREDITS) (4:0:0)
Law, Youth and Young Offenders
In this course, students will analyze the definitions and control mechanisms for youthful misconduct in Canadian society from an historical and in a contemporary context. Included will be examination of state responses to criminal behavior of young persons, especially the Young Offenders Act (YOA) and related legislation and case law. Concepts such as ‘juvenile delinquency’ and the ‘young offender’ will be considered.
Prerequisite(s): See information at the beginning of the CRIM course listing.
CRIM 2417 (3 CREDITS) (4:0:0)
Ethics and Professional Issues in Justice and Law
(Former Title: Professional Ethics and Issues in Criminal Justice)
Students will examine various ethical and other issues which affect professionals in the fields of Justice and Law. Students will review relationships with clients, the public, the Government, employers and other professionals. Professional codes of conduct and government and legal regulation will be referred to. Topics will include confidentiality, conflicts of interest and duty, ethics in research and in decision-making, and use and abuse of power, as well as others of interest to students in the course.

Note: Recommended that program students be in 4th term to register for this course.

DDSN (Display+Design)

The following studio courses are restricted to students in the Display + Design Program. Students must achieve a minimum grade of “C” in ALL three studio courses in Display + Design to enrol in the next term of the program. Students are not allowed to drop any studios in this program. It should also be noted that study beyond that included in the program curriculum is required to enter the specific areas of graphic and interior design.

DDSN 1111 (2 CREDITS) (2:1:0)
Visual Communications I
An introductory course on the basic concepts and processes of graphic design as it applies to the print medium. Creative strategy, design process, fundamental elements and principles, typography, conceptual thinking and vocabulary are explored.
Prerequisite(s): Acceptance into the Display+Design Program.
Corequisite(s): DDSN 1112.

DDSN 1112 (1 CREDIT) (0:1:1)
Visual Communications I: Studio Skills
An introductory course on the basic skills necessary to visually articulate a concept. Working with equipment purchased in the tool kit, students will explore the use of a variety of mediums to create visual solutions.
Prerequisite(s): Acceptance into the Display+Design Program.
Corequisite(s): DDSN 1111.

DDSN 1121 (2 CREDITS) (2:1:0)
3D Design I: Retail
This course will give the student an awareness of what Visual Presentation is, its function in the business world and its place in the community. Students will acquire 3D design theory, concentrating on the universal principles of design as they apply to display composition. The semester will include the fundamentals of display design theory, vocabulary, process and conceptual thinking and the development of a creative style.
Prerequisite(s): Acceptance into the Display+Design Program.
Corequisite(s): DDSN 1122.

DDSN 1122 (1 CREDIT) (0:1:1)
3D Design I: Studio Skills
This course will introduce students to materials, tools and techniques utilized in visual presentation field. This is a project based course that will enable students to explore and develop skills required to complete design assignments discussed 3D Design I Retail.
Prerequisite(s): Acceptance into the Display + Design Program.
Corequisite(s): DDSN 1121.

DDSN 1131 (2 CREDITS) (2:1:0)
Interiors I
This course will introduce the students to the basic elements and principles of design as they pertain to interior design. Students will explore the foundation and components of style starting from Ancient Egypt, chronologically through the Gothic Period. An introduction to the principles of functional space planning will also be explored.
Prerequisite(s): Acceptance into the Display+Design Program.
Corequisite(s): DDSN 1132

DDSN 1132 (1 CREDIT) (0:1:1)
Interiors I: Studio Skills
This course introduces the students to basic drafting. It covers plan view, elevation view, section and 3-D paraline view including isometrics and plan oblique.
Prerequisite(s): Acceptance into the Display+Design Program.
Corequisite(s): DDSN 1131.

DDSN 1141 (1 CREDIT) (0:0:2)
Studio Synthesis I
This studio course is project based. Students will combine and apply skills and theory studied in the program’s 3 studio disciplines (Visual Communication, Interior and 3 Dimensional Design) to realize visual solutions to a specific end of term project. The ability to work effectively in a team environment is stressed.
Prerequisite(s): Acceptance into the Display + Design Program.
Corequisite(s): DDSN 1111.

DDSN 1211 (2 CREDITS) (2:1:0)
Visual Communications II
This course is designed to build on skills introduced in Visual Communications I. Further development of visual skills, process, illustration, finished art, and an in-depth look at typography will be the focus. Classifications of type, theory of alignment, contrast, and organization of type will assist students as they explore layout, grid systems, and package design.
Prerequisite(s): A minimum grade of “C” in DDSN 1111, 1112, 1121, 1122, 1131, 1132, and 1141.
Corequisite(s): DDSN 1212

DDSN 1212 (1 CREDIT) (0:1:1)
Visual Communications II: Studio Skills
This course introduces students to Photoshop QuarkXpress (InDesign), scanning and printing in a Mac environment. Working with projects created in Visual Communications II, students will learn how to scale and proportion their artwork, scan images and assemble an Ad using the computer as a tool. This course will act as a preparatory level for Visual Communications III.
Prerequisite(s): A minimum grade of “C” in DDSN 1111, 1112, 1121, 1122, 1131, 1132, and 1141.
Corequisite(s): DDSN 1211.

DDSN 1221 (2 CREDITS) (2:1:0)
3D Design II: Retail
This course furthers development of visual presentation skills, with emphasis on enhancing the level of professionalism attained in the previous semester. In this course, students concentrate on theme sourcing and development, applying elements of graphics and interior design to all display situations.
Prerequisite(s): A minimum grade of “C” in DDSN 1111, 1112, 1121, 1122, 1131, 1132, and 1141.
Corequisite(s): DDSN 1222
DDSN 1222 (1 CREDIT) (0:1:1)
3D Design: Studio Skills
In this course, students will be introduced to new materials, tools and techniques utilized in the visual presentation field. This is a project based course that will enable students to explore and develop the skills and technical knowledge required to complete design assignments discussed in 3D Design II: Retail.
Prerequisite(s): A minimum grade of “C” in Ddsn 1111, 1112, 1121, 1122, 1131, 1132, and 1141.
Corequisite(s): Ddsn 1221

DDSN 1231 (2 CREDITS) (2:1:0)
Interiors II
In this course, students will continue to build an interior design knowledge base, focusing on the areas of background materials and finishes. Colour theory and its applications to interior design are also covered. Students will also examine historical periods that constitute the basis of “Traditional Style” in decorating, specifically the Renaissance through the Empire periods.
Prerequisite(s): A minimum grade of “C” in Ddsn 1111, 1112, 1121, 1122, 1131, 1132, and 1141.
Corequisite(s): Ddsn 1232

DDSN 1232 (1 CREDIT) (0:1:1)
Interiors II: Studio Skills
In this course, students will continue their introduction to essential design communication skills, such as perspective drawing, rendering and design, and the assembly of sample boards.
Prerequisite(s): A minimum grade of “C” in Ddsn 1111, 1112, 1121, 1122, 1131, 1132, and 1141.
Corequisite(s): Ddsn 1231

DDSN 1241 (1 CREDIT) (0:0:2)
Studio Synthesis II
This is a project-driven course which will continue to develop the students’ abilities to work in teams to combine 3D and 2D skills to solve design assignments. This course provides students with an opportunity to draw parallels between the design requirements in all three studio disciplines and apply them.
Prerequisite(s): A minimum grade of “C” in Ddsn 1111, 1112, 1121, 1122, 1131, 1132, and 1141.
Corequisite(s): Ddsn 1211

DDSN 2111 (2 CREDITS) (2:1:2)
Visual Communications III: Introduction to Technology
This course continues to introduce students to Photoshop and QuarkXpress (In Design) scanning and printing in the Mac Lab, using OSX. Using the basic tools of the applications, the students are lead through a series of exercises.
Prerequisite(s): A minimum grade of “C” in Ddsn 1211, 1212, 1221, 1222, 1231, 1232 and 1241.
Corequisite(s): Ddsn 2112

DDSN 2112 (1 CREDIT) (0:1:1)
Visual Communications III: Studio Skills
This course runs in conjunction with Visual Communication III. The projects accomplished in the Mac Lab begin in this studio skills format. The design process and presentation involved with the projection of finished work is further explored in this course.
Prerequisite(s): A minimum grade of “C” in Ddsn 1211, 1212, 1221, 1222, 1231, 1232 and 1241.
Corequisite(s): Ddsn 2111

DDSN 2121 (2 CREDITS) (2:1:0)
3D Design III: Exhibit
This course is designed to expose students to the broader scope of 3D presentation applications which will include the fundamentals of exhibit and museum design and construction. The focus of this term will emphasize variety of scale and application. Students will be challenged to further develop their existing skills and achieve a high level of professionalism.
Prerequisite(s): A minimum grade of “C” in Ddsn 1211, 1212, 1221, 1222, 1231, 1232 and 1241.
Corequisite(s): Ddsn 2121

DDSN 2122 (1 CREDIT) (0:1:1)
3D Design III: Studio Skills
This course will further the students knowledge of new materials, tools and construction techniques utilized in the exhibit design industry. This is a project based course that will enable students to complete assignments discussed in 3D Design III Exhibit.
Prerequisite(s): A minimum grade of “C” in Ddsn 1211, 1212, 1221, 1222, 1231, 1232 and 1241.
Corequisite(s): Ddsn 2121

DDSN 2131 (2 CREDITS) (2:1:0)
Interiors III
Course focuses on retail design, encompassing the space planning of retail venues of up to 2000 sq. ft. (200 sq. meters), as well as selecting the colour scheme, appropriate finishes, and effective lighting design for those venue. The course culminates in a formal presentation incorporating, floor plans, interior and exterior elevations, 3D renderings, and sample boards. This work may be handled individually, or in small groups, depending on the project.
Prerequisite(s): A minimum grade of “C” in Ddsn 1211, 1212, 1221, 1222, 1231, 1232 and 1241.
Corequisite(s): Ddsn 2132

DDSN 2132 (1 CREDIT) (0:1:1)
Interiors III: Studio Skills
The course introduces students to basic architectural model making. The students designs and construct and scale model of a small retail or exhibit kiosk.
Prerequisite(s): A minimum grade of “C” in Ddsn 1211, 1212, 1221, 1222, 1231, 1232 and 1241.
Corequisite(s): Ddsn 2131
**DDSN 2211 (2 CREDITS) (2:1:2)**  
**Visual Communication IV**  
This course builds on skills acquired to date in all Visual Communication classes. The projects are designed to address all design issues and processes in studio and lab arenas. Projects are designed for further exploration of print graphics, promotional and informational, leading to final portfolio production.

- Prerequisite(s): A minimum grade of “C” in DDSN 2111, 2112, 2121, 2122, 2131, 2132, 2327 and 2348.
- Corequisite(s): DDSN 2212

**DDSN 2212 (1 CREDIT) (0:1:1)**  
**Visual Communications IV: Studio Skills**  
Second level of typography skill building: classifications of letter forms, rules of grammar, typesetting issues, readability and legibility, form, colour, texture, contrast, and creative use of typography.

- Prerequisite(s): A minimum grade of “C” in DDSN 2111, 2112, 2121, 2122, 2131, 2132, 2327 and 2348.
- Corequisite(s): DDSN 2211

**DDSN 2221 (2 CREDITS) (2:1:2)**  
**3D Design IV: Special Events**  
This course is designed to enhance the professional caliber of skills and techniques explored in the three previous terms of 3D design. The focus will be on materials and techniques applicable to the special event industry. Opportunities to design and create off-campus projects and a Grad Show will be major elements of this term.

- Prerequisite(s): A minimum grade of “C” in DDSN 2111, 2112, 2121, 2122, 2131, 2132, 2327 and 2348.
- Corequisite(s): DDSN 2222

**DDSN 2222 (1 CREDIT) (0:1:1)**  
**3D Design IV: Studio Skills**  
In this course, students will further their knowledge of new materials, tools and construction techniques utilized by the special event decor industry. This is a project-based course that will enable students to explore and develop the skills and technological knowledge required to complete design assignments discussed in 3D Design IV: Special Events.

- Prerequisite(s): A minimum grade of “C” in DDSN 2111, 2112, 2121, 2122, 2131, 2132, 2327 and 2348.
- Corequisite(s): DDSN 2221

**DDSN 2231 (2 CREDITS) (2:1:2)**  
**Interiors IV - VectorWorks**  
Students are introduced to basic digital drafting working on the MAC platform, using VectorWorks. The course will deal with both 2D and 3D digital drafting and introduces basic rendering as available through the RenderWorks software that comes bundled with VectorWorks.

- Prerequisite(s): A minimum grade of “C” in DDSN 2111, 2112, 2121, 2122, 2131, 2132, 2327 and 2348.
- Corequisite(s): DDSN 2232

**DDSN 2232 (1 CREDIT) (0:1:1)**  
**Interiors IV: Studio Skills**  
This course covers 19th and 20th Century design history and culminates in a research and design project that is produced in a digital format.

- Prerequisite(s): A minimum grade of “C” in DDSN 2111, 2112, 2121, 2122, 2131, 2132, 2327 and 2348.
- Corequisite(s): DDSN 2231

**DDSN 2241 (1 CREDIT) (0:1:1)**  
**Special Projects**  
This course is a collaborative special event course that deals with both 2D and 3D design off-campus with real clients. Currently, the special events projects include the BC Home Show and ISES (International Special Event Society’s Buffet Blowout). The final special event project of the term is the student’s Graduation Show.

- Prerequisite(s): A minimum grade of “C” in DDSN 2111, 2112, 2121, 2122, 2131, 2132, 2327 and 2348.
- Corequisite(s): DDSN 2211

**DDSN 2327 (2 CREDITS) (0:2:4)**  
**Display + Design Field Study (Research)**  
In this course, students in the second year of Display + Design will increase their knowledge of the design industry. This module consists of an intense series of lectures given by professionals in the design industry, workshops related to employment opportunities and strategies, and a job specific research assignment in the student’s area of interest.

- Prerequisite(s): A minimum grade of “C” in DDSN 1211, 1212, 1221, 1222, 1231, 1232 and 1241.

**DDSN 2348 (1 CREDIT) (4:0:0)**  
**Special Event Technologies (Computer)**  
This course will provide students with an introduction to three distinct design/technological disciplines: Adobe Illustrator, Lighting Design + Technology, and Floral Design. This course will also enhance student’s readiness for employment in the exhibit and special events industries.

- Prerequisite(s): A minimum grade of “C” in DDSN 1211, 1212, 1221, 1222, 1231, 1232 and 1241.
- Corequisite(s): DDSN 2318, 2328 and 2338.

**DDSN 2427 (1 CREDIT) (0:2:4)**  
**D+D Field Study (Practicum)**  
In this course, students in second year Display+Design will further their knowledge of the design industry by participating in a two-week field placement. The students will be expected to create a daily journal recording their experiences, and take any necessary photographs of 3-dimensional work created. This journal will be graded at the end of the spring term.

- This course is supervised by D+D faculty.

**DDSN 2448 (2 CREDITS) (3:1:0)**  
**Special Event Technologies**  
This course is a continuation of DDSN 2348 and provides an introduction to Lighting Design + Technology and Floral Design. This course will also enhance the student’s readiness for employment in the exhibit and special event industry.

- Prerequisite(s): A minimum grade of “C” in DDSN 2111, 2112, 2121, 2122, 2131, 2132 and 2348.
- Corequisite(s): DDSN 2418 and 2428 and 2438.
The following Early Childhood Education courses are restricted to students in the Early Childhood Education Programs.

**ECED 1101 (1 CREDIT) (1:0:.5)**
**LANGUAGE ARTS FOR YOUNG CHILDREN I**
The purpose of this section of the E.C.E. Program is to help students gain knowledge and insight into the development of language of the young child and to provide students with opportunities to practice skills in the motivation and guidance of young children through suitable experiences in the communication field.

**ECED 1104 (1 CREDIT) (1:0:.5)**
**EXPLORING THE ENVIRONMENT WITH YOUNG CHILDREN I**
This section of the E.C.E. Program is designed to provide students with the knowledge and skills necessary to guide young children's understanding of the environment and their relationship with it. Workshop sessions will focus on appropriate science, social studies, and mathematical experiences for young children.

**ECED 1108 (2 CREDITS) (2:0:1)**
**CREATIVE EXPERIENCES FOR YOUNG CHILDREN I**
The purpose of this course is to introduce students to the importance of art, music and movement experiences in the lives of children from birth to six years. This course will provide students with the theory and practice opportunities to enable them to understand, appreciate, design, implement, and assess quality experiences for young children in the creative arts.

**ECED 1115 (3 CREDITS) (3:1:0)**
**FOUNDATIONS OF EARLY CHILDHOOD EDUCATION**
This course is an introduction to the basic principles involved in the development of early childhood education. The historical, philosophical and cultural roots of contemporary programs will be surveyed. Emphasis is on current issues and future trends in society and education that directly impact contemporary early childhood programs in Canada today.

**ECED 1116 (3 CREDITS) (3:0:0)**
**KNOWING THE INDIVIDUAL CHILD**
An introduction to the general principles of growth and development in the early childhood years with particular emphasis on methods of observing, recording, and documenting behaviour.

**ECED 1118 (3 CREDITS) (3:0:0)**
**INTRODUCTION TO PROGRAM PLANNING**
This course is an introduction to the planning and development of play-based programs for children from birth to six years of age. Emphasis is placed on the basic principles on which decisions are made regarding developmentally appropriate practice in contemporary early childhood programs.

**ECED 1119 (2 CREDITS) (0:0:6)**
**PRACTICUM I**
An overview of the various types of early childhood centres in the community, their goals and objectives, and varieties of instruction and administration. Focus is on developing rapport with children and staff, planning, implementing, and assessing developmentally appropriate activities. Graded S/U.
Corequisite(s): ECED 1101, 1104, 1108, 1115, 1116 and 1118.

**ECED 1201 (1 CREDIT) (1:0:.5)**
**LANGUAGE ARTS FOR YOUNG CHILDREN II**
The purpose of this section of the E.C.E. Program is to help students gain knowledge and insight into the development of language of the young child and to provide students with opportunities to practice skills in the motivation and guidance of young children through suitable experiences in the communication field. This course is a continuation of ECED 1101.
Prerequisite(s): Successful completion of Term 1 courses.

**ECED 1204 (1 CREDIT) (1:0:.5)**
**EXPLORING THE ENVIRONMENT WITH YOUNG CHILDREN II**
This section of the E.C.E. Program is designed to provide students with the knowledge and skills necessary to guide young children's understanding of the environment and their relationship with it. Workshop sessions will focus on appropriate science, social studies, and mathematical experiences for young children. This course is a continuation of ECED 1104.
Prerequisite(s): Successful completion of Term 1 courses.

**ECED 1208 (2 CREDITS) (2:0:1)**
**CREATIVE EXPERIENCES FOR YOUNG CHILDREN II**
The purpose of this course is to introduce students to the importance of art, music and movement experiences in the lives of children from birth to six years. This course will provide students with the theory and practice opportunities to enable them to understand, appreciate, design, implement, and assess quality experiences for young children in the creative arts. This course is a continuation of ECED 1108.
Prerequisite(s): Successful completion of Term 1 courses.

**ECED 1214 (3 CREDITS) (3:0:0)**
**PROGRAM PLANNING FOR INFANTS AND TODDLERS**
This course is designed to provide students with the theory and practical experiences needed to plan, implement and assess early childhood programs for infants and toddlers. Emphasis will be placed on caregiving strategies that meet the needs, interests and abilities of infants and toddlers in a childcare setting. Students will be provided with opportunities to familiarize themselves with materials, equipment resources and planned activities needed to provide quality care and to promote children's physical and psychosocial growth within an infant-toddler setting.
Prerequisite(s): Successful completion of Term 1 courses.

**ECED 1217 (3 CREDITS) (3:0:0)**
**HUMAN RELATIONS IN EARLY CHILDHOOD PROGRAMS**
A study of the techniques and skills required by the early childhood educator to communicate effectively with children, parents, colleagues, and community resource workers.
Prerequisite(s): Successful completion of Term 1 courses.

**ECED 1218 (3 CREDITS) (3:0:0)**
**PROGRAM PLANNING AND IMPLEMENTATION**
Practical aspects of planning, implementing, and evaluating curricula in early childhood education programs. Theoretical perspectives and practical aspects of guiding young children in Early Childhood Education programs are discussed and practised in this course. Emphasis is on teaching strategies, including guidance techniques, as well as the guiding of children through developmentally appropriate activities and learning encounters.
Prerequisite(s): Successful completion of Term 1 courses.
ECED 1219 (3 CREDITS) (0:0:9)
Practicum II
Practical experience for developing the skills necessary for curriculum planning in selected early childhood education centres. Graded S/U.
Prerequisite(s): Successful completion of Term 1 courses.
Corequisite(s): ECED 1201, 1204, 1208, 1214, 1217, and 1218

ECED 1301 (1 CREDIT) (1:0:.5)
Language Arts for Young Children III
The purpose of this section of the Early Childhood Program is to help students gain knowledge and insight into the development of language of the young child and to provide students with opportunities to practise skills in the motivation and guidance of young children through suitable experiences in the communication field. This course is a continuation of ECED 1201.
Prerequisite(s): Successful completion of Term 2 courses.

ECED 1308 (3 CREDITS) (2:0:2)
Creative Environments for Young Children
Integrating activities helps young children coordinate their learning experiences and is an effective method of reinforcing concepts. This course is a continuation of ECED 1204 and 1208. Its purpose is to provide students with the knowledge and skills necessary to integrate curricular areas that help young children expand their creative potential and curiosity to explore their world. It is designed to promote young children's social, emotional, intellectual, physical and language development, within a framework that balances naturalistic, formal and informal learning.
Prerequisite(s): Successful completion of Term 2 courses.

ECED 1315 (3 CREDITS) (3:1:0)
Developing and Supervising Early Childhood Centres
Emphasis in this course is on the role of the supervisor in the organization, administration, and continuing development of early childhood education programs, community relationships and professional development.
Prerequisite(s): Successful completion of Term 2 courses.

ECED 1318 (3 CREDITS) (3:0:0)
Evaluating and Individualizing Programs
Practical aspects of planning, implementing and evaluating curricula in early childhood education programs are discussed and practised in this course. Emphasis is placed on the examination of a variety of program styles that provide integrated learning experiences geared to the developmental level of the individual child, including those children with uniquely different needs: “Putting it all together”.
Prerequisite(s): Successful completion of Term 2 courses.

ECED 1319 (4 CREDITS) (0:0:16)
Practicum III
Advanced supervised fieldwork experience with particular emphasis on planning and implementing integrated programs. Graded S/U.
Prerequisite(s): Successful completion of Term 2 courses.
Corequisite(s): ECED 1301, 1308, 1318, and 1325

ECED 1325 (3 CREDITS) (4:0:0)
Health, Nutrition and Safety
This course provides the student with the basic principles and practices of health safety and nutrition related to the care of children from birth to six years in early childhood settings. Topics to be covered include: common childhood illnesses and communicable diseases, preventative health measures, safety and supervision practices, nutritional needs of young children, and meal planning. Community resources available to support the health needs of young children will be explored.
Prerequisite(s): Successful completion of Term 2 courses.

ECED 1329 (3 CREDITS) (0:0:14)
Infant and Toddler Practicum
This is an advanced practicum in which students will plan and implement a program for the care of infants and toddlers. Students will have an opportunity to demonstrate their knowledge gained in their first three semesters of Early Childhood Education. Graded S/U.
Prerequisite(s): ENGL 1127, CMNS 1115, PSYC 2318, 2324, 2328, ECED 1319, and all other ECE courses in the Basic ECE Program, or permission of the department.

ECED 2410 (1 CREDIT) (3:0:0)
Introduction to Supported Child Care
This course will introduce students to the philosophy and practice of inclusive Child Care. Topics will include: family centered practice, environment adaptations, speech, language and behaviour interventions.

ECED 2415 (3 CREDITS) (3:0:0)
Introduction to Early Childhood Special Education
This course is designed to orient students to the field of education for children with special care and learning needs. A survey of the historical and philosophical perspectives that influence contemporary inclusive programs. Topics will include: early intervention, inclusion, legislation, and government policies and procedures.
Prerequisite(s): See admission requirements.

ECED 2417 (3 CREDITS) (3:0:0)
Human Relations
This course is designed to present the techniques and skills required for the early childhood educator to work effectively with children with special needs and their families. Emphasis will be placed on team and interdisciplinary approaches to childcare and guidance, administration and funding concerns. There will be an overview of the community resources available to lend support to the child with special needs and his/her family and the early childhood educator.
Prerequisite(s): ECED 2415 or PSYC 2318 or permission of the department.

ECED 2418 (3 CREDITS) (3:0:0)
Special Education Program Planning
This course covers early childhood program planning, use of materials and equipment, the role of the supervisor, techniques of classroom management, learning phenomena in children, and methods of meeting the needs of individual children with special needs. It is designed to acquaint the student with early childhood education curriculum planning and implementation including nutrition and feeding, behavioural objectives, lesson plans, resource units, and long term planning for children with special needs, with emphasis on the child in an inclusive setting.
Prerequisite(s): ECED 2415 and PSYC 2318 and ECED 2417 (may be taken concurrently) or permission of Department Chair.
ECED 2419 (3 CREDITS) (0:0:14)
ECONOMY: SPECIAL EDUCATION PRACTICUM
This is an advanced practicum in which students will plan and implement a program in an integrated early childhood setting. Students will have opportunities to demonstrate advanced professional knowledge and practice in working with children, staff, families and other professionals. 
Prerequisite(s): ECED 2415, 2417, 2418 and PSYC 2318

ECON (Economics)

Registration requirements for ECON 1110, 1119, 1120, 1220, 1221:
One of the following: LPI Level 4 with minimum 24 on essay with Usage Level 5; LET Level 3; minimum “C+” in BC English 12 or BC English Literature 12; minimum “C” in ENGL 1127, ENGL 1128, or CMNS 1118; or “S” in one of ENGL 1107, 1108 or 1100. Students wishing to register in both ECON 1220 and 1221 in the same semester require an overall GPA of 3.0 and permission of the department chair.

The Economics Department strongly recommends that students who have not taken Economics courses at the college level enter directly into eCon 1110, 1119 or 1120. The rate of successful completion of ECON 1220 and 1221 is significantly lower for those students who do not have some Economics background. The department also recommends that students who enrol in ECON 1220 or 1221 should have Mathematics 11 or equivalent.

ECON 1110 (3 CREDITS) (3:1:0)
U R B A N A N D R U R A L E C O N O M I C I S S U E S
This course uses economic principles to describe and analyze economic issues confronting urban and rural areas, such as poverty, housing, transportation, municipal government, urban sprawl and quality of life. 
Prerequisite(s): See registration requirements above.

ECON 1119 (3 CREDITS) (3:1:0)
This course uses economic principles to describe and analyze contemporary domestic and international issues confronting the Canadian economy. 
Prerequisite(s): See registration requirements above.

ECON 1120 (3 CREDITS) (3:1:0)
This course will provide an introduction to the economic development of Latin America, from the pre-colonial to the modern period, focusing on the central theme of development from various perspectives by examining contemporary issues juxtaposed with case studies. 
Prerequisite(s): See registration requirements above.

ECON 1195 (3 CREDITS) (4:0:0)
S P E C I A L T O P I C S I
This number is reserved for Economic courses that may be offered from time to time by: a) College Economic Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting Economic Lecturers. 
Prerequisite(s): Will be announced in the Registration Guide and Course Schedule.

Note: Announcements regarding ECON 1195 offerings will be made in the Registration Guide and Course Schedule.

ECON 1220 (3 CREDITS) (3:1:0)
P R I N C I P L E S O F M I C R O E C O N O M I C S
Introductory concepts; the market system; price determination; demand and utility; competitive supply; cost analysis; market structures; equilibrium of the firm; pricing of factor inputs; land rents; wages; interest and capital. 
Prerequisite(s): See registration requirements above.

Students wanting to take ECON 1220 and 1221 in the same semester require an overall GPA of 3.0 or higher, or a “B” or higher grade in English 12 and either Principles of Mathematics 11 or Accounting 11, or equivalent. A department override is required.
Note: Students may take ECON 1220 and 1221 in either order.

ECON 1221 (3 CREDITS) (3:1:0)
P R I N C I P L E S O F M A C R O E C O N O M I C S
Introductory macroeconomic concepts; circular flow of income and product; national income; equilibrium level of domestic income; fiscal policy; money and banking; international trade; inflation and unemployment. 
Prerequisite(s): See registration requirements above.

Students wanting to take ECON 1220 and 1221 in the same semester require an overall GPA of 3.0 or higher, or a “B” or higher grade in English 12 and either Principles of Mathematics 11 or Accounting 11, or equivalent. A department override is required.
Note: Students may take ECON 1220 and 1221 in either order.

ECON 1295 (3 CREDITS) (4:0:0)
S P E C I A L T O P I C S II
This number is reserved for economic courses that may be offered from time to time by: a) Economics faculty who may wish to present a course in their specialty; or b) visiting Economics lecturers. 
Prerequisite(s): Will be announced in the Registration Guide and Course Schedule.

Note: Announcements regarding ECON 1295 offerings will be made in the Registration Guide and Course Schedule.

ECON 2210 (3 CREDITS) (3:1:0)
M O N E Y A N D B A N K I N G
This course examines the economics of the Canadian financial system. By taking this course, you will develop a greater understanding of the structure and operation of the banking system, interest rate determination, risk and term structures of interest rates, financial markets and intermediation, regulation of the financial system, and monetary policy. 
Prerequisite(s): ECON 1220 and 1221 with a minimum “C” grade.

ECON 2221 (3 CREDITS) (4:0:0)
S T R A T E G I C T H I N K I N G
This course examines the basics of game theory with applications to a variety of disciplines. The focus is on thinking logically, critically, and strategically. 
Prerequisite(s): ECON 1220 and 1221.

ECON 2251 (3 CREDITS) (4:0:0)
I N T E R M E D I A T E M I C R O E C O N O M I C A N A L Y S I S
Consumer behaviour, production, exchange, equilibrium of the firm under different market structures, factor markets, economic welfare. Intended primarily for Bachelor of Commerce students. 
Prerequisite(s): Both ECON 1220 and 1221 with a minimum “C” grade; and one of MATH 1153, 1171, 1173, 1174, or 1274 with a minimum “C” grade.
Note: ECON 2251 and 2296 are similar courses. Credit will be given for only one course.
EDAS 1100 (3 CREDITS) (4:0:0)
**Behavioral theory**
In this foundation course, students will investigate theories about how and why children and adolescents behave as they do. Individual differences in behavior between and among age groups will also be examined. Implications for students with disabilities in the school setting will be discussed.

EDAS 1110 (3 CREDITS) (4:0:0)
**The Process of Learning**
In this foundation course, students will investigate theories of learning as they apply to all students. Implications for students with disabilities will be examined. Students will have the opportunity to discuss observations about their own and others' learning strengths and styles.

EDAS 1111 (3 CREDITS) (0:0:8)
**Practicum I**
This three-week, fifteen-day practical course will provide students with 105 hours of practical experience. The focus of this first practicum is to assist students with the integration of knowledge learned in the first six weeks of first-term courses. In addition, it will provide practical experiences that can be utilized during the five-week completion of first term courses. Students may be placed in either an elementary or secondary school setting. Team meetings will be regularly scheduled for students. Supervising teachers and Langara supervisors will support student reflection and discuss planning for further application of learning. Graded S/U.

EDAS 1120 (3 CREDITS) (0:0:4)
**The Education Assistant Role in the Education System**
In this course, students will develop an understanding of roles and responsibilities of people at all levels of the school system (Ministry, district and school), and how the role of the education assistant fits within the context of the school and district. Students will also be required to demonstrate an understanding of what it means to act in a professional manner, and to be aware of how their system of values and beliefs affect practice.

Note: Minimum “C-” grade is required for certificate completion.

EDAS 1130 (3 CREDITS) (4:0:0)
**Supporting Personal Care**
At the end of this module, students will have the knowledge base necessary to understand the range of personal care supports they might be required to perform in the classroom setting. They will understand their role as a team member when placing and supporting the health and physical care needs of the student.

Note: Minimum “C-” grade is required for certificate completion.

EDAS 1140 (3 CREDITS) (0:0:4)
**Child and Adolescent Development in the School Context**
In this course, students will explore the physical, social, emotional cognitive and moral development of children and adolescents. Developmental theory and its implications for understanding the individual needs of school-age children will be examined. In addition, the needs of all children, in particular, children and adolescents with disabilities, within the inclusive setting will be examined within a practical framework.

Note: Minimum “C-” grade is required for certificate completion.

EDAS 1200 (3 CREDITS) (0:0:4)
**Supporting Positive Behavior**
This course will focus on positive behavioural support that enhances student participation and interaction with others. Knowledge about a variety of approaches, proactive program designs and support strategies will be central to blending theory from Term 1 to practice in Term 2.

Prerequisite(s): EDAS 1100
EDAS 1210 (3 CREDITS) (0:0:4)
Supporting Learning
At the end of this course, Education Assistants will be able to support student learning by applying learning theory from Term 1 to practical situations. They will be knowledgeable about a variety of instructional strategies and will be prepared to offer observations and ideas to the team to support students in meeting their individualized goals, whether they are academic or life skills.
Prerequisite(s): EDAS 1110

EDAS 1211 (3 CREDITS) (0:0:35)
Practicum II
This practical course will encompass a three block practicum six weeks into the second term. Students may be placed in either an elementary or secondary school setting. This experience will provide students with a continuation of their work in Practicum I where they will be given the opportunity to refine their skills and become more involved in teamwork and curriculum building. Seminar times with the students, supervising teachers and Langara supervisors will be scheduled to support reflection, planning and evaluation. Graded S/U.
Prerequisite(s): EDAS 1111

EDAS 1220 (3 CREDITS) (4:0:0)
Supporting Teamwork
Formerly Supporting Teamwork and Student Inclusion
This practical course is designed to foster effective team skills particularly relevant to the cooperative and collaborative nature of the work of Education Assistants. Students will have the opportunity to practice and improve upon the skills necessary for effective team planning.
Prerequisite(s): EDAS 1120
Note: Minimum “C-“ grade is required for certificate completion.

EDAS 1230 (3 CREDITS) (0:0:4)
Supporting Student Communication
At the end of this course, students will understand their role in supporting the communication needs of students. They will understand how augmented and alternative modes of communication are developed.

EDAS 1311 (4 CREDITS) (0:0:35)
Practicum III
This four-week, twenty-day practicum provides students with 140 hours of practical experience in an elementary or secondary school setting. This experience will provide students with a continuation of their work in Practicums I and II where they will be given the opportunity to refine their skills and become more involved in teamwork and curriculum building. Team meetings with the students, supervising teachers and Langara supervisors will be scheduled to support reflection, planning and evaluation.
Prerequisite(s): EDAS 1211

ENGL (English)

Langara English Test and Language Proficiency Index
Students planning to enrol in a first-semester English course must take the Langara English Test (LET) or Language Proficiency Index Test (LPI) prior to the semester in which they want to register. Students who have BC English 12 or BC English Literature 12 or equivalent with an “A” are not required to write the LET or LPI.

Repeating a course
Students may take a first-semester English course a maximum of two times. (For the purpose of this rule, ENGL 1127 and ENGL 1128 are regarded as the same course.) The Chair of the Humanities Division or the Department Chair of English may waive this rule in exceptional cases, particularly if the student can provide evidence of upgrading.

First Year English Courses
Note:
1. Students will not receive credit for both ENGL 1127 and ENGL 1128. If both courses are taken, the most recent grade will be calculated in the GPA.
2. Students will not receive credit for both ENGL 1129 and ENGL 1130. If both courses are taken, the most recent grade will be calculated in the GPA.
3. ENGL 1125 and ENGL 1135 and ENGL 1181 and ENGL 1191 may be taken for unassigned credit in first or second year and may be taken in any order.

ENGL 1107 (3 CREDITS) (4:0:0)
Language and Composition I
This is a course designed for students of English as a Second Language at the post-secondary level who require additional training in the fundamental skills of reading and writing. It covers both oral and written communication but emphasizes reading and composition. If you have a below-standard score on the LPI or the LET, you may earn entry to ENGL 1127 by achieving a passing mark in ENGL 1107. This course does not carry transfer credit, nor may it be used towards a Langara College credential. Graded S/SR/U. (SR and U grades will not meet Ministry requirements for Student Loan eligibility.)
Prerequisite(s): LET Level 2 or LPI minimum 24 on essay with less than 5 in English Usage.
Note: Students whose LPI or LET score qualifies them for ENGL 1127 require the instructor’s permission to register in this course.

ENGL 1108 (3 CREDITS) (4:0:0)
Language and Composition II
This course is designed for English as a Second Language (and serves as a follow-up course for ENGL 1107) who received a “SR” grade rather than an “S” in ENGL 1107. The course covers writing, grammar and reading at a more advanced level than ENGL 1107, and students with a “Satisfactory” grade in ENGL 1108 may go directly to ENGL 1127. This course does not carry transfer credit, and cannot be used toward a certificate, diploma or associate degree. This is a course designed for students of English as a Second Language at the post-secondary level who require additional training in the fundamental skills of reading and writing. It covers both oral and written communication but emphasizes reading and composition. If you have a below-standard score on the LPI or the LET, you may earn entry to ENGL 1127 by achieving a passing mark in ENGL 1107. This course does not carry transfer credit, nor may it be used towards a Langara College credential. Graded S/SR/U. (SR and U grades will not meet Ministry requirements for Student Loan eligibility.)
Prerequisite(s): LET Level 2 or LPI minimum 24 on essay with less than 5 in English Usage.
Note: Students whose LPI or LET score qualifies them for ENGL 1127 require the instructor’s permission to register in this course.

www.langara.bc.ca
ENGL 1110 (3 CREDITS) (4:0:0)
Writing and Grammar Skills
This course teaches intermediate grammar and essay writing to speakers of English as a first language who scored a level 3 on the Language Proficiency Index, or a LETN 02, or who have been recommended by the English Department. Emphasis is on teaching the essay writing skills required for ENGL 1127. A pass in the course meets the prerequisite requirements for ENGL 1127. This course does not carry transfer credit and cannot be used toward a certificate, diploma or associate degree. Graded S/SR/U. (SR and U grades will not meet Ministry requirements for Student Loan eligibility.)
Prerequisite(s): Speaker of English as a first language and a Language Proficiency Index essay score of 22, or a Langara English Test score of LETN 02, or by permission of the English Department.

ENGL 1121 (3 CREDITS) (4:0:1)
Reading and Writing Skills
Instruction and practice in intermediate reading and writing skills. Emphasis is on reading college-level non-fiction texts and writing accurate summaries. Some analysis is expected. Students will also be expected to spend an hour per week in the Writing Centre.
Prerequisite(s): One of: LET level 3 or LPI minimum 25 on essay (or minimum 24 on essay with 5 in English usage); an “S” in one of ENGL 1107, ENGL 1108, or ENGL 1110; or an “A” in one of English 12 or English Literature 12.
Note: This course does not carry transfer credit.

ENGL 1125 (3 CREDITS) (3:4:0)
Introduction to Linguistics: Contemporary
This course introduces students to various descriptions of language, with special attention to recent models. It covers the nature and acquisition of language and how to analyze its sounds, words, and sentences.
Prerequisite(s): One of: LET level 4 (or level 3 with strong recommendation of concurrent registration in ENGL 1121); LPI minimum 25 on essay (or minimum 24 on essay with 5 in English usage); an “S” in one of ENGL 1107, ENGL 1108, or ENGL 1110; or an “A” in one of English 12 or English Literature 12.

ENGL 1126 (3 CREDITS) (3:1:0)
Introduction to Essay Writing
New Course
English 1126 focuses on strategies for actively reading, analyzing, and composing various kinds of essays, including narrative, descriptive, expository and persuasive texts. Students will develop strategies for summarizing, planning, drafting, documenting (using MLA style) and revising university-level essays, including essay exams and the research paper. The course requires that students employ a recursive writing process.
Prerequisite(s): One of: LET level 4 (or level 3 with strong recommendation of concurrent registration in ENGL 1121); LPI minimum 25 on essay (or minimum 24 on essay with 5 in English usage); an “S” in one of ENGL 1107, ENGL 1108, or ENGL 1110; or an “A” in one of English 12 or English Literature 12.

ENGL 1127 (3 CREDITS) (3:1:0)
Essay Writing and Short Prose Selections
This course emphasizes the principles of composition through the study and writing of various kinds of essays, including the research essay. As a secondary aim, it encourages an appreciation of modern literature through a study of the short story.
Prerequisite(s): One of: LET level 4 (or level 3 with strong recommendation of concurrent registration in ENGL 1121); LPI minimum 25 on essay (or minimum 24 on essay with 5 in English usage); an “S” in one of ENGL 1107, ENGL 1108, or ENGL 1110; or an “A” in one of English 12 or English Literature 12.
Note: This course will also be offered by Guided Independent Study and as a Web course. See the Registration Guide for details.

ENGL 1128 (3 CREDITS) (3:1:0)
Short Prose Selections and Composition
While this course includes a study of the principles of composition through the study of various kinds of essays, including the research essay, it emphasizes an appreciation of modern prose writing through the study of both short stories and essays. Most writing assignments are related to the literature studied. Because this course is designed for students with superior writing skills, more intensive reading will be required.
Prerequisite(s): One of: LET level 5; LPI minimum 30 on essay; or an “A” in one of English 12 or English Literature 12.

ENGL 1129 (3 CREDITS) (3:1:0)
Modern Novel, Poetry, and Drama
This course introduces students to the modern novel, to a selection of poems, mainly from the twentieth century, and to a sampling of modern drama. Writing assignments are related to the literary works studied.
Prerequisite(s): ENGL 1127 or 1128
Note: This course will also be offered by Guided Independent Study and as a Web course. See the Registration Guide for details.

ENGL 1130 (3 CREDITS) (3:1:0)
Modern Novel, Poetry, and Film
This course introduces students to the modern novel, to a selection of poems, mainly from the twentieth century, and to the dramatic elements and narrative techniques of modern film. Writing assignments are related to the works studied. A feature film series accompanies the course, in addition to class hours.
Prerequisite(s): ENGL 1127 or 1128.
Note: This course will sometimes be offered as a Web course. See the Registration Guide for details.
EnGl 1135 (3 Credits) (3:1:0)  
Introduction to Linguistics: Historical  
This course introduces students to the history and development of the English language from its origins in the Indo-European family through Anglo-Saxon and Middle English to its present day form. It studies the changes that have taken place in sounds, spelling, and ordering, as well as the ways in which English has enriched its vocabulary.  
Prerequisite(s): One of: LET level 4 (or level 3 with a strong recommendation of concurrent registration in ENGL 1121); LPI minimum 25 on essay (or minimum 24 on essay with 5 in English usage); an “S” in one of ENGL 1107, ENGL 1108, or ENGL 1110; or an “A” in one of English 12 or English Literature 12.

EnGl 1140 (3 Credits) (2:0:2)  
Writing Across the Curriculum  
In this course, students will learn basic writing strategies and how to apply them in disciplines such as the Humanities, Social Sciences, Sciences, and Business. Through readings from these fields, students will also hone their analytical skills and discover a variety of forms of rhetoric and style. As well, they will learn to use the MLA and APA systems of documentation. Assignments will encompass both analysis and specific writing strategies.  
Prerequisite(s): ENGL 1127 or ENGL 1128 or CMNS 1118 or equivalent.

EnGl 1181 (3 Credits) (3:1:0)  
History of Drama and Theatre I  
This course is a study of drama and theatre history of the Primitive, Greek, Roman, Medieval, and Renaissance periods. Students will be given a combination of written and oral assignments.  
Prerequisite(s): One of: LET level 4 (or level 3 with strong recommendation of concurrent registration in ENGL 1121); LPI minimum 25 on essay (or minimum 23 on essay with 5 in English usage); an “S” in one of ENGL 1107, 1108, or 1110; or an “A” in one of English 12 or English Literature 12.

EnGl 1191 (3 Credits) (3:1:0)  
History of Drama and Theatre II  
This course is a study of drama and theatre history of the Restoration and the Eighteenth, Nineteenth, and Twentieth Centuries. Students will be given a combination of written and oral assignments. (This course is usually preceded by ENGL 1181, but it can be taken either before or along with ENGL 1181.)  
Prerequisite(s): One of: LET level 4 (or level 3 with strong recommendation of concurrent registration in ENGL 1121); LPI minimum 25 on essay, (or minimum 24 on essay with 5 in English usage); an “S” in one of ENGL 1107, 1108, or 1110; or an “A” in one of English 12 or English Literature 12.

EnGl 1195 (3 Credits) (3:1:0)  
Special Topics I  
This number is reserved for English courses that may be offered from time to time by: a) English Department faculty who may wish to present a course in their specialty; or b) visiting lecturers in English.  
Prerequisite(s): announced in the Registration Guide and Course Schedule.  
Note: Announcements regarding ENGL 1195 offerings will be in the Registration Guide and Course Schedule.

EnGl 1295 (3 Credits) (3:1:0)  
Special Topics II  
This number is reserved for English courses that may be offered from time to time by: a) English Department faculty who may wish to present a course in their specialty; or b) visiting lecturers in English.  
Prerequisite(s): announced in the Registration Guide and Course Schedule.  
Note: Announcements regarding ENGL 1295 offerings will be in the Registration Guide and Course Schedule.

EnGl 2223 (3 Credits) (3:1:0)  
Survey of English Literature I  
This course introduces students to the tradition of early English literature, focusing on Chaucer, Shakespeare, and Milton. Term papers are required.  
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

EnGl 2224 (3 Credits) (3:1:0)  
Survey of English Literature II  
This course explores a range of English literature by focusing on major authors and literary forms from the Restoration to the late nineteenth century. Term papers are required. (ENGL 2224 is usually preceded by ENGL 2223, but it can be taken either before or along with ENGL 2223.)  
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

EnGl 2225 (3 Credits) (3:1:0)  
Canadian Literature  
This course provides an introduction to Canadian literature, focusing on a selection of representative fiction, poetry, and drama, and noting some of its characteristic patterns and trends. Term papers are required.  
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

EnGl 2227 (3 Credits) (3:1:0)  
Intermediate Composition  
This course teaches the strategies of reading and writing non-fiction prose. Students will learn and practice various rhetorical techniques - including description, narration, cause and effect, definition, comparison, classification, and argument - that will help them effectively convey their ideas to a specific audience. While this course focuses on academic writing, skills acquired will transfer beyond the classroom to the workplace and other settings.  
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

EnGl 2230 (3 Credits) (4:0:0)  
Survey of Narrative Film  
This course will examine major historical movements in narrative cinema, with particular emphasis on genres and stylistic shifts in acting, scripting, and production design. Film showings will be accompanied by introductory lectures and following discussions. A research project is required in addition to examinations.  
Prerequisite(s): ENGL 1126, 1127, or 1128; and ENGL 1130; or approval of the instructor.  
ENGL 2230, 2330, and 2430 may be taken in any sequence.

EnGl 2231 (3 Credits) (3:1:0)  
World Literature in English  
Students in this course will study 20th and 21st Century Literature written in English outside the traditional British/North American contexts. Course themes and content, as determined by the English Department, may vary each semester. Check the Registration Guide for details.  
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.
ENGL 2233 (3 CREDITS) (3:1:0)
Prose Fiction
Students in this course will study prose fiction in a variety of forms with the goal of improving their strategies for reading and writing about 20th and 21st Century prose. Course themes and content, as determined by the English Department, may vary each semester. Check the Registration Guide for details.
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

ENGL 2234 (3 CREDITS) (3:1:0)
Literature from a Feminist Perspective
This course concentrates on literature written by women and about women but welcomes students of both sexes. Depending upon the instructor, the focus of the course may be fiction, poetry, drama or criticism, taking into consideration feminist viewpoints. Term papers are required.
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

ENGL 2235 (3 CREDITS) (3:1:0)
American Literature
This introductory course explores a selection of major writers and themes and gradually builds a view of the distinctive features of American literature. Writing assignments are related to the works studied.
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

ENGL 2236 (3 CREDITS) (3:1:0)
Creative Writing: Prose Fiction
This study of the short story emphasizes individual student writing, but the course also includes some analysis and discussion of recent and current directions in prose fiction. You will be expected to complete one or two average-length short stories and participate in writing workshops.
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

ENGL 2237 (3 CREDITS) (3:1:0)
Exploring Literature
This course examines one genre, theme, or national literature. Contents vary with instructor and semester. Check the Registration Guide and Course Schedule each semester for details. Term papers and extensive reading are required.
Prerequisite(s): ENGL 1129 or 1130 or equivalent

ENGL 2238 (3 CREDITS) (3:1:0)
Studies in Drama
Students in this course will study a variety of plays with the goal of improving their strategies for reading and writing about dramatic texts. Term papers and extensive reading will be required. Course themes and content may vary as determined by the English Department, each semester. Check the Registration Guide for details.
Prerequisite(s): ENGL 1129 or equivalent

ENGL 2239 (3 CREDITS) (3:1:0)
Studies in Poetry
The course examines a broad range of poems, mostly from the twentieth century. It focuses on questions of form, style, theme, and craft in order to develop an appreciation of the richness and variety of poetic expression. Term papers, oral presentations, and active involvement in discussions are required.
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

ENGL 2246 (3 CREDITS) (4:0:0)
Creative Writing: Stageplay
Students will read and study some professionally written one-act plays, but the central focus of the course will be on developing a one or two-act play for the stage, revised on the basis of dramatic reading workshops. Preliminary assignments will include a short prose narrative, some character sketches, and exercises in the languages of dialogue, action, and setting.
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

ENGL 2256 (3 CREDITS) (4:0:0)
Creative Writing: Screenwriting
Students will study the elements of screenwriting and develop a synopsis and character back stories before writing the first thirty pages of an original screenplay. Through dialogue workshops with trained actors and a director, students will revise and polish scenes. Selected scenes will be performed and videographed in a studio.
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

ENGL 2266 (3 CREDITS) (4:0:0)
Creative Writing: Poetry
Students will study examples of contemporary poetry and poetic theory, but our central focus will be the writing of poems. In a supportive workshop environment, writers will read their work and receive feedback. Each writer will produce a portfolio of their eight best poems, revised and presented according to standard publishing guidelines.
Prerequisite(s): ENGL 1129 or 1130 or equivalent.

ENGL 2276 (3 CREDITS) (4:0:0)
Creative Writing: Non-Fiction
Students will study the forms and techniques of the personal essay. While students will analyze samples from a variety of professional writers, the focus of the course will be on the development of the students' own writing abilities. Students will keep a creative journal and will produce two 6-10 page personal essays. They will be encouraged to submit work for publication and to participate in public readings.
Prerequisite(s): ENGL 1126, 1127 or 1128; and ENGL 1129 or 1130.

ENGL 2227 (3 CREDITS) (3:1:0)
Intermediate Composition II
Building on what students have learned in English 2227 (or equivalent), English 2327 students will continue their studies of rhetoric, “the art of persuasion.” Through close analysis of various kinds of prose models, students will improve their critical reading and writing skills. They will learn various strategies for discovering and developing various kinds of arguments, including dialectic, inductive, deductive, narrative, oral, and visual arguments.
Prerequisite(s): ENGL 2227 or equivalent.

ENGL 2230 (3 CREDITS) (4:0:0)
Studies in Canadian Cinema
This course examines the historical development, accomplishments, limitations, and possible future directions of Canadian cinema. Film viewings will range from early silent works to contemporary French and English-language productions.
Prerequisite(s): ENGL 1126, 1127, or 1128; and ENGL 1130; or approval of the instructor.
ENGL 2230, 2330, and 2430 may be taken in any sequence.
ENVS 2430 (3 CREDITS) (3:1:0)
**Film Through Theory**
This course examines the language of film criticism, history, and discourse, while studying the forms of narrative, cinematography, and direction within a theoretical context. Specifically designed for those students with a serious interest in cinema, the course will concentrate on the important cinematic and theoretical texts that govern current critical views of film, including formalist, psychoanalytical, semiotic, feminist, and post-Marxist. Short films and film clips will be shown in class; students will be asked to view longer films on their own outside of class.
Prerequisite(s): ENGL 1126, 1127, or 1128; and ENGL 1130; or approval of the instructor.
ENGL 2230, 2330, and 2430 may be taken in any sequence.

ENVS 1105 (0 CREDITS) (0:2:0)
**Environmental Studies Program Seminar**
A non-credit, no-fee course consisting of a series of seminars, films, and speakers focusing on the environment. This course is intended to provide an introduction to environmental issues and the environmental studies program. Required for the Arts and Science (Environmental Studies) diploma.

ENVS 2390 (3 CREDITS) (0:4:0)
**Environmental Issues**
(Formerly: Environmental Issues Seminar)
A course in which current issues of environmental significance are presented and discussed. A wide range of perspectives will be presented utilizing a variety of sources. Students will be required to develop oral and written communication skills, analyze complex environmental situations, and participate in group projects. Required for the Arts and Science (Environmental Studies) diploma.
Prerequisite(s): Any two of the following: BIOL 1115, BIOL 1215, BIOL 1118, BIOL 1218, CHEM 1117, CHEM 1217, or GEOG 1155; or permission of the Environmental Studies Co-ordinator.

ENVS 2391 (3 CREDITS) (2:3:0)
**Appropriate Technology for International Aid**
This course is designed to evaluate and give credit for the knowledge accrued by student participation in international aid projects in the area of appropriate technology. As such, it is not anticipated that it will necessarily be a perfect fit into an academic term, and will be offered only by request.
Prerequisite(s): BIOL 1118 and 1218; or BIOL 1115 and 1215; and ENVS 2390 and 2470 or permission of the coordinator.

ENVS 2410 (3 CREDITS) (4:0:0)
**Environmental Law**
An introduction to environmental law with special reference to British Columbia. Topics include how laws are formulated and revised, review of key current international, federal and provincial environmental legislation and how it operates in reality, compliance and enforcement, due diligence, and the legal responsibilities of individuals, companies and governments in environmental protection. Required for the Arts and Science (Environmental Studies) diploma.
Prerequisite(s): ENGL 1126, 1127, or 1128; or permission of the co-ordinator.

ENVS 2470 (3 CREDITS) (2:0:3)
**Field School**
A practical field methods course, including lectures (Spring Semester) and a mandatory, off-campus, field component shortly after the final examination period (end of semester). Team taught, the course will feature techniques used for terrain analysis, mapping, inventory of ecosystems, water quality testing, and report writing. Required for the Arts and Science (Environmental Studies) diploma.
Prerequisite(s): Any two of the following: BIOL 1115, BIOL 1215, CHEM 1117, CHEM 1217, CHEM 1120, GEOG 1155, either GEOG 1190 or GEOI 1110; or permission of the Environmental Studies Co-ordinator.

FMST (Family Studies)

FMST 1105 (0 CREDITS) (2:0:0)
**Lecture Series**
This is a non-credit, no-fee course consisting of a series of lectures on family-related themes addressed from a wide range of disciplines and/or professional concerns. For students NOT conducting a supervised project on a topic related to marriage and/or family issues, this course is a requirement for the diploma in Arts and Science (Family Studies) and for the Associate of Arts Degree, Area of Concentration: Family Studies.

FMST 1115 (3 CREDITS) (4:0:0)
**Perspectives on Family Studies**
This course introduces students to the definitions, concepts, experiences, dynamics and theories of family through an interdisciplinary approach. It examines the distinctive features of families as a social group, their internal dynamics and theories of family through an interdisciplinary approach.

FMST 1110 (0 CREDITS) (2:0:0)
**Field Studies Program Seminar**
This is a non-credit, no-fee course consisting of a series of lectures on family-related themes addressed from a wide range of disciplines and/or professional concerns. For students NOT conducting a supervised project on a topic related to marriage and/or family issues, this course is a requirement for the diploma in Arts and Science (Family Studies) and for the Associate of Arts Degree, Area of Concentration: Family Studies.

FSCA (Field Studies - Canadian)

FSCA 1100 (0 CREDITS) (0:0:0)
**Haida Gwaii Field School**
This new field studies program delivers university-transfer credits in Aboriginal Studies 1115, Biology 1118, English 1127 and Geography 1190 in a unique format and context. Students will spend classroom time at Langara College learning about Haida Gwaii and the people who live there. This will be followed by a two-week field trip to Haida Gwaii. During the field trip, students will tour the Haida Gwaii islands along with the program instructors by land and by sea, and will explore ancient Haida village sites, visit with the local population, and investigate the distinctive natural and cultural riches of the area. Graded S/U.

Students must satisfy the general admission requirements of the College. In addition, a short essay outlining each student’s interest in participating in the program will be required.

FSCA 1110 (0 CREDITS) (0:0:0)
**Fraser River Field School**
Field Studies on the Fraser River. Graded S/U.
FSIE (Field Studies - International)

FSIE 1110 (0 CREDITS) (0:0:0)
CHINA FIELD SCHOOL
The China Field School is a program conducted in China in association with Beijing Language and Culture University. Three courses are being offered including Mandarin at the beginners and intermediate level and a Pacific Rim Studies course on Contemporary China. Graded S/U.

FSIE 1111 (0 CREDITS) (0:0:0)
EUROPEAN FIELD SCHOOL
The focus of the program is to help you develop a deep sense of History and the Arts as well as insight into European and Western Culture by travelling, studying and living in some of the greatest cities in the world. Graded S/U.

FSIE 1112 (0 CREDITS) (0:0:0)
LATIN AMERICAN STUDIES
A one semester, interdisciplinary, university transfer field school that includes several weeks of travel and study in a Latin American country. Destination/country of study and specific course offerings vary with each field school. This field school normally includes at least three courses (9 credits) drawn from a range of disciplines. Graded S/U.

FSIE 1113 (0 CREDITS) (0:0:0)
STUDY IN THAILAND
“Studies in Thailand” is a program having an extensive field trip in Thailand. The specific courses within the program may vary, but all the courses within the program have university-transfer credit. Studies in Thailand offers an introduction to the past, present, and future of Thailand, from its origins to its current resource issues. Graded S/U.

FSIE 1114 (0 CREDITS) (0:0:0)
RELIGIOUS STUDIES FIELD SCHOOL
The Religious Studies Field School is a program conducted in various locations, both domestic and overseas. Regular university-transferable courses addressing topics in religion are taught in a combination of intensive on-campus study and a more extensive field study. Graded S/U.

FSIE 1115 (0 CREDITS) (0:0:0)
STUDY IN GREECE
“Studies in Greece” is conducted in various locations in Greece. Students enrol in HIST 1190 (Greece from Homer to Socialism) and/or other such courses as may from time to time be offered as part of this program. The program is about 4-1/2 weeks long. It consists of one week of classes in Vancouver followed by a short stay in London to visit the British Museum, and then 3 full weeks in Greece. The itinerary in Greece always includes time in Athens, Delphi, and Mycenae and environs, but the precise itinerary for the other sites to be visited varies from year to year. Not offered every year. Graded S/U.

Note: For more information contact Gwyneth Lewis 604-323-5481 or glewis@langara.bc.ca.

FSIE 1116 (0 CREDITS) (0:0:0)
STUDY IN LONDON
This program will offer students the opportunity to study and live in one of the most exciting cities in the world! Classes will be held in Art Galleries, Churches and Museums so that students will have the opportunity to study primary material first hand. Students will attend live performances of theatrical productions and visit numerous sites and monuments of historical and literary significance. Graded S/U.

FSIE 1118 (0 CREDITS) (0:0:0)
TUSCANY FIELD SCHOOL
This program provides an overseas opportunity for students to visit art projects in Florence and various small Tuscan towns. Students will evaluate first hand masterpieces that reflect the excellent cultural values so much a part of Western tradition. Graded S/U.

FSIE 1119 (0 CREDITS) (0:0:0)
STUDY IN ITALY
This course will offer students the opportunity to study and live in one of the most exciting countries in the world! Classes will be held in art galleries, churches and museums so that students will have the opportunity to study primary material first hand. Students will visit numerous sites and monuments of historical and artistic significance. Graded S/U.

FLMA (Film Arts)

The following film arts courses, except FLMA 1100, are restricted to students enrolled in the Film Arts Program.

FLMA 1100 (3 CREDITS) (3:1:0)
INTRODUCTION TO FILM PRODUCTION
New Course
From Crews to Creative (Writing/Acting/Directing): This introductory course covers every aspect of a film production on the technical/crew side and offers a critical approach to the art of screen writing, film acting, and film directing. Students who have an interest in pursuing a career in film complete this course with a clear understanding of the wide variety of skills it takes to fill dozens of positions required technically, administratively, and creatively in the film industry.

FLMA 1110 (3 CREDITS) (2:2:0)
TECHNIQUES OF FILM ACTING
Using scripts from a variety of film and television styles, students will be introduced to working with the camera. Students will study script analysis and choice-making. Basic techniques such as “hitting their mark”, finding and working in key light, camera awareness, and movement on camera will be covered.

FLMA 1120 (3 CREDITS) (2:2:0)
VOICE 1
Preparatory and advanced work on dialects, including study of the International Phonetic Alphabet: Speech work with particular reference to working on microphone; Additional Dialogue Recording (ADR); voice-over techniques; and WALLA (background sounds).

FLMA 1130 (3 CREDITS) (2:2:0)
FEATURE FILM LAB
New Course
Through a combination of lectures and workshops, students will complete a treatment for a feature film and a minimum first draft of the first act. Emphasis will be on structure, plot and character development. Students may complete a screenplay that they began in an introductory course or begin with an original concept. Minimum output 60 pages.
FLMA 1140 (3 CREDITS) (2:2:0)  
**The Short Film**  
Students will study the characteristics of a good short film, script treatments, screenplay format, scene construction, structure, character development, plot and dialogue. They will develop outlines for three short films and complete two drafts and a polish for at least one of them. Minimum output 40 pages.

FLMA 1150 (3 CREDITS) (2:0:3)  
**Editing Techniques, Styles and Digital Camera**  
Through lectures and labs, students will learn Final Cut Pro post-production picture editing theory and techniques, including logging, offline assembly, structure, and locking picture. Students will learn the operation of digital cameras, including options and aspect ratios for full-application assembly, structure, and locking picture. Students will complete the required course assignments.

FLMA 1160 (3 CREDITS) (2:2:0)  
**Visualization**  

FLMA 1170 (3 CREDITS) (4:0:0)  
**Principles of Production**  
From development through pre-production, production, and distribution, this course will cover every aspect of filmmaking from the Producer’s perspective. As an adjunct to this course, students will complete The Performers’ Orientation Course (ACTORS), and the British Columbia Film Industry Orientation Course (WRITERS AND DIRECTORS), WHMIS (Workers Compensation Board — Set Safety). This seminar is hosted by British Columbia Institute of Film Professionals, one weekend of Sat. and Sun. 9 a.m to 5 p.m. for a total of 14 hrs. Time TBA

FLMA 1180 (3 CREDITS) (1:4:0)  
**Collaboration: The Actor**  
This course will concentrate on narrative/dramatic elements of cinematic storytelling for the actor. Actors will practice their rehearsing and acting skills in collaboration with the writers and directors, adjusting their performances to the needs of the scripts and the directors’ visions. In a collaborative atmosphere, actors will have input into the creative process through feedback to the writers and directors. All three streams of students will work together to produce short films and film scenarios. FLMA 1180, 1181, and 1182 are taught concurrently, and students work collaboratively to complete the required course assignments.

FLMA 1181 (3 CREDITS) (1:4:0)  
**Collaboration: the Writer**  
This course will concentrate on narrative/dramatic elements of cinematic storytelling for the writer. Writers will practice their pitching, writing, and rewriting skills in collaboration with the actors and directors. Writers will create original concepts and be teamed up with the directors and actors to produce their short films and film scenarios. FLMA 1180, 1181, 1182 are taught concurrently, and students work collaboratively to complete the required course assignments.

FLMA 1182 (3 CREDITS) (1:4:0)  
**Collaboration: The Director**  
This course will concentrate on narrative/dramatic elements of cinematic storytelling for the director. Directors will practice pitching projects and receiving pitches from writers. Directors will work closely with actors in the rehearsal process to practice effective communication of objectives and obstacles. Directors will work closely with writers to define acts and character arcs. FLMA 1180, 1181, and 1182 are taught concurrently, and students work collaboratively to complete the required course assignments.

FLMA 1210 (3 CREDITS) (2:0:2)  
**Advanced Techniques and the Signature Tape**  
On-camera blocking, rehearsals and final taping will be practiced, including heightened and more sophisticated camera awareness. Physical and emotional continuity will be added, including work on the arc of a character within scenes, from scene to scene, and working out of sequence. A demo signature (or ‘hit’) tape of each student will be prepared as the final component of this course.  
Prerequisite(s): FLMA 1110

FLMA 1220 (2 CREDITS) (1:0:2)  
**Voice II**  
Techniques for narration, commercial slots and animation.  
Prerequisite(s): FLMA 1120 with minimum “C-” grade.

FLMA 1222 (1 CREDIT) (0:0:3)  
**Audition Lab**  
The on-camera interview and audition process, learning how to prepare and audition quickly and effectively, how to handle cold readings and callbacks. Through filmed mock auditions and directorial adjustment, students will acquire a specific and effective approach to auditioning for film and television.  
Prerequisite(s): FLMA 1110

FLMA 1230 (3 CREDITS) (2:0:2)  
**Series Television Lab: Pilots and Bibles; Story Editing**  
This course will start with the pitch: and learning about what makes a good idea for a series. Students will develop a one-hour pilot script along with character biographies, character arcs and brief outlines for a further twelve episodes to complete their series bible. Students may choose to complete a spec script for an existing series. Minimum output 60 pages.

FLMA 1240 (3 CREDITS) (2:2:0)  
**Adaptations, Animation & Children’s Television**  
Using examples of literary works, plays and their adaptations as films, students will learn the principal differences between the forms, learn to abstract the visual from the literary and adapt a short story or play for filming. The course will include a study on writing for children’s television and/or animation, and students may choose to write a spec script for an existing children’s/animation series. Minimum output 40 pages.

FLMA 1250 (3 CREDITS) (2:0:2)  
**Case Studies**  
From script to screen: lectures and seminars on produced films with emphasis on scene construction. Beginning with the films original screenplay, students will apply their knowledge to visualize the films by way of design materials, storyboards and short lists prior to viewing films. They will follow up with an analysis of what the director of the actual film did and why.
Courses and tax information for the entrepreneur. resume, interview skills, personal marketing skills, financial management, and film-related internships. This course will also cover preparation of a join, festival planning, writers’ groups, grant writing for film and television, career action plan, including how to get an agent, which associations to rehearsing, with an emphasis on working with actors. further studies in
FLMA 1270 (3 CREDITS) (4:0:0)
Career Development for the Film Craftsperson
Focusing on the film industry in North America, students will develop a career action plan, including how to get an agent, which associations to join, festival planning, writers’ groups, grant writing for film and television, and film-related internships. This course will also cover preparation of a resume, interview skills, personal marketing skills, financial management, and tax information for the entrepreneur.

FLMA 1280 (6 CREDITS) (2:8:0)
Production Practicum for the Actor, Writer and Director
Building on the skills learned and developed in FLMA 1170 and FLMA 1180, this intensive class will involve all three streams of students producing, writing, directing, acting and editing short presentation quality narrative dramatic videos. FLMA 1280, 1281, 1282 are taught concurrently and students work collaboratively to complete the required course assignments.
Prerequisite(s): FLMA 1170 and 1180

FLMA 1281 (6 CREDITS) (2:8:0)
Production Practicum: The Writer
Building on the skills learned and developed in FLMA 1170 and FLMA 1181, this intensive class will involve all three streams of students producing, writing, directing, acting and editing short presentation-quality narrative dramatic videos. FLMA 1280, 1281, 1282 are taught concurrently and students work collaboratively to complete the required course assignments.
Prerequisite(s): FLMA 1170 and 1181

FLMA 1282 (6 CREDITS) (2:8:0)
Production Practicum: The Director
Building on the skills learned and developed in FLMA 1170 and FLMA 1182, this intensive class will involve all three streams of students producing, writing, directing, acting and editing short presentation quality narrative dramatic videos. FLMA 1280, 1281, 1282 are taught concurrently and students work collaboratively to complete the required course assignments.
Prerequisite(s): FLMA 1170 and 1182

FMGT (Financial Management)

FMGT 1115 (3 CREDITS) (4:0:0)
Financial Accounting I
An examination of the basic techniques, principles and concepts involved in the construction and interpretation of financial reports prepared for external users. Course material includes accounting for proprietorships, partnerships and corporations, plus consolidated financial statements, the Statement of Cash Flows and financial statement analysis.

FMGT 1116 (3 CREDITS) (4:0:0)
Accounting for Managers
This course provides an overview of basic financial and management accounting principles and techniques, including the managerial use of financial statements and other financial information for decision-making purposes. Students will initially be introduced to the principles and techniques used in financial accounting. The second half of the course will explore common managerial accounting techniques, such as budgeting, variance analysis and capital budgeting.

FMGT 1215 (3 CREDITS) (4:0:0)
Financial Accounting II
An examination of the basic techniques, principles and concepts involved in the construction and interpretation of financial reports prepared for external users. Course material includes accounting for proprietorships, partnerships and corporations, plus consolidated financial statements, the Statement of Cash Flows and financial statement analysis.
Prerequisite(s): FMGT 1115 or FMGT 2293.

FMGT 1321 (3 CREDITS) (4:0:0)
Intermediate Accounting I
A comprehensive study of the more complex financial accounting techniques, principles, and practices. A detailed examination of the methods and concepts involved in the determination of financial position and the measurement of net income.
Prerequisite(s): FMGT 1215, 2293 or 1285.

FMGT 2293 (3 CREDITS) (4:0:0)
Financial Accounting Overview
This course provides an overview of financial accounting and the construction and interpretation of financial reports prepared for external users. Major consideration is given to accounting techniques for corporate financial statements. Emphasis is placed on accounting principles and policies and the underlying rationale for these principles.
Prerequisite(s): One of FMGT 1215, 2293 or 1285.

FMGT 2294 (3 CREDITS) (4:0:0)
Managerial Accounting Overview
This course provides an introduction to the design and use of accounting information for management planning and control as well as the development of cost information for financial reports. Issues of particular importance include cost accumulation, cost behaviour, identification of relevant costs for decision-making, and the use of budgets and standards in evaluating performance.
Prerequisite(s): One of FMGT 1115, 1116, 1215, or 2293; and one of LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English Usage); BC English 12 or equivalent with an ‘A’; BC English Literature 12 or equivalent with an ‘A’; a university-transferable English or communications courses with a minimum ‘C’ grade; or an “S” in one of ENGL 1107, 1108 or 1110.
**FMGT 2308 (3 CREDITS) (0:0:4)**

**Accounting Computer Applications**

This laboratory course uses computer software programs with simulated accounting procedures. The emphasis will be on accounting programs, such as Accpac for Windows and Simply Accounting. This course is restricted to students enrolled in the Financial Management Programs.

Prerequisite(s): BCAP 1200; and one of FMGT 1115, 1116, 1215, 2293, or 1285.

---

**FMGT 2325 (3 CREDITS) (3:1:0)**

**Taxation**

This course provides business students with an overview of Federal Income Tax as it affects individual taxpayers and an overview of the corporate income tax structure. The course provides a practical guide for individuals to prepare their own income tax returns. The course will also briefly introduce the subject of the Goods and Services Tax.

Prerequisite(s): One of FMGT 1115, 1116, 1215, 2293, or 1285.

---

**FMGT 2350 (3 CREDITS) (3:0:1)**

**Entrepreneurial Financial Management**

(Formerly: BUSM 2316)

This is a practical course designed to provide the small businessperson with the basics of finance, budgeting, financial analysis, costing and pricing, sales and revenue forecasting, and other financial skills essential for small business planning and development.

Prerequisite(s): One of FMGT 1115, 1116, or 2289.

Note: Students will receive credit for only one of BUSM 2316 and FMGT 2350.

---

**FMGT 2371 (3 CREDITS) (4:0:0)**

**Financial Management I**

A study of internal company financing with reference to investments and banking institutions. Major topics are: financial ratio analysis, cash, inventory and receivables management (including consumer credit), fixed asset investment, cash flow forecasting, sources of credit, cost of capital, and appraisal of investment opportunities. Some emphasis on ownership versus leasing and implications of income tax.

Prerequisite(s): One of FMGT 1115, 1116, or 2293.

---

**FMGT 2421 (3 CREDITS) (4:0:0)**

**Intermediate Accounting II**

A comprehensive study of the more complex financial accounting techniques, principles, and practices. A detailed examination of the methods and concepts involved in the determination of financial position and the measurement of net income.

Prerequisite(s): FMGT 1321.

---

**FMGT 2423 (3 CREDITS) (4:0:0)**

**Management Accounting II**

This course introduces the use of accounting information for management planning, decision making and performance evaluation. Course topics include accounting for manufacturing and service operations, the identification of relevant costs for decision-making, inventory planning, and the use of budgets and standards in planning and performance evaluation.

Prerequisite(s): FMGT 1323 or FMGT 2294.

---

**FMGT 2474 (3 CREDITS) (4:0:0)**

**Financial Management II**

A study of internal company financing with reference to investments and banking institutions. Major topics are: financial ratio analysis, cash, inventory and receivables management (including consumer credit), fixed asset investment, cash flow forecasting, sources of credit, cost of capital, and appraisal of investment opportunities. Some emphasis on ownership versus leasing and implications of income tax.

Prerequisite(s): FMGT 2371.

---

**FMGT 2475 (3 CREDITS) (4:0:0)**

**Securities Analysis**

This course examines the central elements of the securities industry: financial products, markets and intermediaries. Topics include the analysis of financial statements and financial securities. This course also examines different types of investment products, how they are sold, and what role they play in a well-planned portfolio. The course also provides an introduction to personal financial planning and will prepare the student to write the Canadian Securities Course Examination.

Prerequisite(s): One of FMGT 1215, 2293, or 1285; and ECON 1221 or with permission of the instructor. ECON 1221 may be taken concurrently.

---

**FMGT 3121 (3 CREDITS) (4:0:0)**

**Advanced Financial Accounting**

This course provides an in-depth study of six major areas of advanced financial accounting: standard setting in Canada and internationally, financial instruments, income tax allocation, long-term corporate investments, consolidation, foreign currency transactions and consolidation of foreign subsidiaries, and not-for-profit and public sector accounting.

Prerequisite(s): FMGT 1321 and 2421.

---

**FMGT 3223 (3 CREDITS) (4:0:0)**

**Advanced Management Accounting**

This course examines advanced topic areas in strategic management accounting. A key component is the design of accounting systems for facilitating and influencing management decisions, with emphasis on performance evaluation in organizations. Topics include strategic planning and analysis, constraints, goal congruence, management control systems, transfer pricing, and performance measurement.

Prerequisite(s): FMGT 2294 or 2423.

---

**FMGT 3263 (3 CREDITS) (4:0:0)**

**Internal Control and Auditing**

This course introduces the concepts and procedures of external auditing with the focus on the external or attest audit. This course addresses the purpose, scope and concepts of external auditing. Topics covered include audit objectives, audit planning, internal control, audit sampling, computer auditing and audit procedures.

Prerequisite(s): FMGT 1321 and 2421.

---

**FMGT 4221 (3 CREDITS) (4:0:0)**

**Accounting Theory**

This course describes and explores various theories that underlie financial accounting and reporting. The relevance of those theories is explained and illustrated with the goal of understanding the practice of financial accounting and reporting.

Prerequisite(s): FMGT 1321 and 2421.
Courses

FINA (Fine Arts)

Note: The following studio courses are restricted to students in the Fine Arts Program unless otherwise noted in the Registration Guide and Course Schedule.

FINA 1110 (3 CREDITS) (1:0:3)
Introduction to Ceramics I
This course is an introduction to the study of ceramics that requires no previous experience with clay. Students will complete a series of projects that explore both traditional and contemporary hand building techniques. The major emphasis is on building clay structures and investigating surface treatment/decoration appropriate to low temperature clay and how it relates to the practical experience of glazing and kiln firing. Studio practice will be augmented by lectures, audio-visual presentations, technical demonstrations, and critiques of student work.

Prerequisite(s): One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an “A”; BC English Literature 12 with an “A”; a university-level English or Communications course for which Langara awards transfer credit, with a minimum “C-”; or an “S” in one of ENGL 1107, 1108 or 1110.

FINA 1120 (3 CREDITS) (1:0:3)
Introduction to Drawing I
This course is an introduction to basic observation and drawing techniques with an emphasis on the uses of line. Students will develop confidence with a variety of drawing materials through the exploration of still-life situations, figure drawing with models, and perception of the world around them. Studio sessions will include critiques of student assignments and audiovisual presentations about artists and drawing.

Prerequisite(s): One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an “A”; BC English Literature 12 with an “A”; a university-level English or Communications course for which Langara awards transfer credit, with a minimum “C-”; or an “S” in one of ENGL 1107, 1108 or 1110.

FINA 1130 (3 CREDITS) (1:0:3)
Introduction to Painting I
Introduction to Painting I is a comprehensive acrylic painting course. The basics of painting are approached in a structured way through various assignments dealing with the exploration of colour theory, values, form, contrast, painting techniques, brushwork, and composition. Colour mixing and basic design elements/principles are also introduced within a range of aesthetic and conceptual problems.

Prerequisite(s): One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an “A”; BC English Literature 12 with an “A”; a university-level English or Communications course for which Langara awards transfer credit, with a minimum “C-”; or an “S” in one of ENGL 1107, 1108 or 1110.

FINA 1140 (3 CREDITS) (1:0:3)
Introduction to Design I
This course acquaints students with the basic principles of design, stressing an awareness of colour, line, shape, form, pattern, texture, and space for 2-D. Instruction and workshops involving various materials and techniques provide students with opportunities to recognize and use each of the design elements.

Prerequisite(s): One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an “A”; BC English Literature 12 with an “A”; a university-level English or Communications course for which Langara awards transfer credit, with a minimum “C-”; or an “S” in one of ENGL 1107, 1108 or 1110.

FINA 1160 (3 CREDITS) (1:0:3)
Introduction to Sculpture I
This course will introduce students to the materials, formal elements, organizational design principles, language, concepts, and processes of sculpture. Technical demonstrations in the areas of modeling, casting, and constructing with a wide variety of materials will encourage students to articulate their ideas in 3-D. The use of audiovisual materials and lectures will introduce students to historical and contemporary sculptural practice.

Prerequisite(s): One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an “A”; BC English Literature 12 with an “A”; a university-level English or Communications course for which Langara awards transfer credit, with a minimum “C-”; or an “S” in one of ENGL 1107, 1108 or 1110.

FINA 1170 (3 CREDITS) (1:0:3)
Introduction to Serigraphy
This course will introduce students to the basic materials and techniques used in creating serigraphic prints, also known as silkscreen prints. By means of demonstrations throughout the term, the instructor will show students four techniques to create imagery; students will complete editions of prints using the demonstrated methods. Through the use of audio-visual materials, the students will also be introduced to the history and traditions of printmaking, with an emphasis on serigraphy.

Prerequisite(s): One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an “A”; BC English Literature 12 with an “A”; a university-level English or Communications course for which Langara awards transfer credit, with a minimum “C-”; or an “S” in one of ENGL 1107, 1108 or 1110.
FINA 1210 (3 CREDITS) (1:0:3)
Introduction to Ceramics II
This course focuses on learning the fundamentals of the potter’s wheel. Students will explore a variety of pottery forms, learn basic throwing techniques, and expand into high temperature ceramic processes. Students will develop their studio practice through the firing of kilns, making of glazes, and basic understanding of glaze chemistry.
Prerequisite(s): One of the following: LET with a minimum level 3; LPI with a minimum 25 (or 24 on the essay with 5 in English usage); BC English 12 or equivalent with an “A”; BC English Literature 12 with an “A”; a university-level English or Communications course for which Langara awards transfer credit, with a minimum “C-”; or an “S” in one of ENGL 1107, 1108, or 1110.

FINA 1220 (3 CREDITS) (1:0:3)
Introduction to Drawing II
Students will continue to develop drawing skills and processes, with an emphasis on the uses of tonal values. The range of drawing materials will be expanded, using more complex situations involving still-life, models, and the urban/natural environment. Studio work and assignments will be complemented with critiques, lectures, and audiovisual information.
Prerequisite(s): FINA 1120 with a minimum “C” grade.

FINA 1230 (3 CREDITS) (1:0:3)
Introduction to Painting II
Introduction to Painting II is a continuation of FINA 1130. Studio instruction extends the student’s knowledge of colour theory and palette selection. Throughout the term, various acrylic mediums are introduced to show how to produce a range of effects and surfaces. The application of design elements and principles in painting are emphasized to create visual balance within each composition.
Prerequisite(s): A minimum “C” grade in FINA 1120, 1130 and 1140.

FINA 1240 (3 CREDITS) (1:0:3)
Introduction to Design II
This course acquaints students with the basic principles of design, stressing an awareness of line, shape, mass, space, pattern, and texture for 3-D. Instruction and workshops involving various drafting techniques and simple materials provide students with opportunities to recognize and use each of the design elements.
Prerequisite(s): FINA 1140 with “C” grade or higher.

FINA 1260 (3 CREDITS) (1:0:3)
Introduction to Sculpture II
With the guidance of the instructor, students will continue to explore fundamental methods, concepts, and materials of sculpture. Projects including self-portrait, assemblage, and stone carving will provide the focus for the semester. Audiovisual materials and lectures will further introduce students to historical and contemporary sculptural practice.
Prerequisite(s): A minimum “C” grade in FINA 1120, 1140 and 1160.

FINA 1270 (3 CREDITS) (1:0:3)
Advanced Serigraphy
Students will continue their personal technical and aesthetic development in serigraphy using methods learned in FINA 1170. They will also be introduced to the most advanced stencil-making techniques used in both fine art serigraphy and commercial silk-screening: indirect and direct photo emulsion stencils. Studio practice will be supplemented with lectures and demonstrations concerning serigraphic technology, as well as critiques of student work.
Prerequisite(s): A minimum “C” grade in FINA 1120, 1140 and 1170.

FINA 2110 (3 CREDITS) (1:1:2)
Advanced Ceramics I
This course deals with complex handbuilding and throwing techniques as well as independent kiln firing, all of which build on existing skills from FINA 1110 and 1210. Students will begin to develop individual approaches to form and content. Assignments are designed to encourage students to explore multiple parts, simple moulds, lidded forms, attachments, and more elaborate glazing methods. In addition to studio practice, there will be audiovisual presentations, technical demonstrations, and critique of student work.
Prerequisite(s): FINA 1210 with a minimum “C” grade.

FINA 2120 (3 CREDITS) (1:1:2)
Advanced Drawing I
This course will involve an exploration of a wide range of traditional and non-traditional drawing materials. Students will work from challenging studio set-ups, regularly involving the model. There is an emphasis on the student understanding traditional drawing practices while addressing the role of drawing in the 21st century and incorporating this history as they develop their own individual forms of expression.
Prerequisite(s): FINA 1220 with a minimum “C” grade.

FINA 2130 (3 CREDITS) (1:1:2)
Advanced Painting I
Advanced Painting I is an extension of FINA 1230 with a greater emphasis on expanding the student’s painting skills, painting knowledge, colour exploration, and critical thinking, and the study of various art theories in relationship to painting. Students will be encouraged to explore personal expression and expand a pictorial language within the parameters of colour, line, shape, form, and composition. Contemporary issues are discussed in terms of their relevance in painting today. Students are encouraged to use visual language to demonstrate their individual ideas.
Prerequisite(s): FINA 1230 with a minimum “C” grade.

FINA 2140 (3 CREDITS) (1:1:2)
Advanced Design I
This advanced design course emphasizes the re-synthesis of design elements using the design principles in 2-D design studies. Students will learn to use the design process in their project development and will explore and develop design themes taken from their personal observations, their imagination, and their explorations using a variety of media. Further, students will apply their theoretical design understandings to the creation of a 2-D applied design project.
Prerequisite(s): FINA 1240 with a minimum “C” grade. Students wanting to take FINA 2140 and 2141 in the same semester require departmental approval.

FINA 2141 (3 CREDITS) (1:1:2)
Digital Design I
This studio-based course introduces students to various digital visual arts fundamentals. Working in a Mac environment, students will create a variety of new media projects including installation, video, performance, digital storytelling and hybrid works. Through reading, writing, presentations, group and individual critiques, students will develop a critical vocabulary and analytical skills.
Prerequisite(s): A minimum “C” grade in both FINA 1240 and 1220. Students wanting to take FINA 2140 and 2141 in the same semester require department approval.
FINA 2150 (3 CREDITS) (3:1:0)
Introduction to Aesthetics and Cultural Theory
Beginning with the ancient Greeks and moving through cultural history to the 20th century, this course explores a range of issues touching on questions about the nature of art. It examines the efforts of philosophers and theorists to define and understand the functioning of art in particular historical and social contexts.

FINA 2160 (3 CREDITS) (1:1:2)
Advanced Sculpture I
This course is an advanced applied study of the principles of sculptural theory and practice. Focus is on enhanced 3-D form studies, material and technical understanding, manual skills, and critical thinking. Personal expression is encouraged through instructor-supervised studio practice. Various techniques such as casting and welding are explored throughout the semester.

Prerequisite(s): FINA 1260 with a minimum “C” grade.

FINA 2171 (3 CREDITS) (1:0:3)
An Introduction to Intaglio/Relief
Students will be introduced to basic intaglio printmaking methods: the dry point, hard ground etching and soft ground etching. They will also be introduced to a modern intaglio/relief hybrid printmaking method, the collagraph, and will make prints using all four methods. The instructor will also demonstrate methods for producing tonal prints such as the aquatint and mezzotint, which students may incorporate into their work if they wish. Studio activities will be supplemented by slide presentations regarding the history and traditions of printmaking, particularly intaglio and relief.

Prerequisite(s): Consent of the department

FINA 2210 (3 CREDITS) (1:1:2)
Advanced Ceramics II
This course emphasizes creative expression with clay to enhance your artistic growth and development. Further development of wheel work and hand building skills.

Prerequisite(s): FINA 2110 with a minimum “C” grade.

FINA 2220 (3 CREDITS) (1:1:2)
Advanced Drawing II
This course will further develop the student’s ability to make decisions about perceived visual problems and to translate them using the most effective drawing language. Students will work from complicated visual situations, often incorporating the model. Independent research is encouraged, and the relationship of drawing to other human activities is explored. This course is supported with audiovisual presentations.

Prerequisite(s): FINA 2120 with a minimum “C” grade.

FINA 2230 (3 CREDITS) (1:1:2)
Advanced Painting II
The objective of Advanced Painting II is for each student to build a body of work from self-directed research and independent study under the guidance of the instructor. Individual and group critiques are an integral part of this course.

Prerequisite(s): FINA 2130 with a minimum “C” grade.

FINA 2240 (3 CREDITS) (1:1:2)
Advanced Design II
The major emphasis of FINA 2240 will be the study and investigation of line, plane, and form as definers of space. A variety of 3-D studies will be undertaken with the emphasis on spatial composition. Students will learn to use the design process in the development of their 3-D projects, and they will apply their theoretical design understandings to the creation of a 3-D applied design project.

Prerequisite(s): FINA 2140 with a minimum “C” grade. Students wanting to take FINA 2240 and 2241 in the same semester require department approval.

FINA 2241 (3 CREDITS) (1:1:2)
Digital Design II
A continuation of FINA 2141, this advanced MacLab-based studio course will focus on the student researching and creating independent time-based, interactive and/or digital still image projects. In consultation with the instructor, single self-directed project, or series of projects, will be realized. This process will include weekly meetings with the instructor, creating regular support and feedback opportunities. Students will also receive instruction in professional practices including writing of CVs, artist statements, proposals, and preparation of exhibition proposals.

Prerequisite(s): FINA 2141 with a minimum “C” grade. Students wanting to take FINA 2240 and 2241 in the same semester require department approval.

FINA 2250 (3 CREDITS) (3:1:0)
Contemporary Cultural Theory and the Arts
This course explores the various perspectives of critical and cultural theory that have developed over the past fifty years, particularly in terms of their effects on, and influences from, visual arts and other media.

FINA 2260 (3 CREDITS) (1:1:2)
Advanced Sculpture II
This course builds on the knowledge gained in FINA 2160. The student is expected to work independently. Personal expression is encouraged through supervised studio practice. Lectures, class discussion, and critiques support enhanced critical awareness. Increased technical skill is encouraged through technical demonstrations and experimentation. A student-initiated project completes the semester.

Prerequisite(s): FINA 2160 with a minimum “C” grade.

FINA 2271 (3 CREDITS) (1:0:3)
Advanced Intaglio/Relief
This course will allow students to continue developing techniques learned in FINA 2171 and will also introduce them to more advanced techniques used in coloured intaglio/relief printing including multi-plate coloured printing. A significant amount of course time will be spent on individual student research of printmaking techniques and artists.

Prerequisite(s): FINA 2171 with a minimum “C” grade.
FSRV (Food Services)

Most Foodservices courses are available to Arts and Sciences students, unless a restriction is noted. Courses restricted to Nutrition and Food Service Management Program students are identified in the course descriptions. A minimum “C-” grade is required in most prerequisite courses; several courses require a minimum “C” grade.

FSRV 1113 (3 CREDITS) (4:0:0)  
Food Service Systems  
(Formerly: Food Service Systems I)  
In this online introductory course, students study the organization of the institutional food service and the standards required for operation. Areas of study include organizational structure, sanitation and food safety, WHMIS, HACCP, staff training, work simplification, purchasing, receiving and inventory control. Some fieldwork involved.  
Note: Students with work experience in food service in a health care setting, and the knowledge and understanding of the topics in FSRV 1113, may be eligible for the Flexible Assessment option. Contact the Department Chair.

FSRV 1213 (3 CREDITS) (4:0:0)  
Production and Service Systems  
In this online course, students will study the various systems in place for the efficient operation of an institutional food service. Areas of study include meal production, styles of meal service, catering, special events planning, warewashing. Course involves some fieldwork.  
Note: Students who have achieved a minimum grade of ‘C-’ in FSRV 1113 and have work experience in food service in a health care setting may be eligible for the Flexible Assessment Option. Contact the Department Chair for information.

FSRV 1219 (2 CREDITS) (0:1:4)  
Orientation to Food Service Operations  
This practicum provides the opportunity for the student to become familiar with the policies and procedures of a food service operation. Each student is involved for a minimum of 250 hours in the operation. Graded S/U.  
Note: Restricted to program students.  
Program students with 250 or more hours experience working in a food service operation within the past three years may be eligible for the flexible assessment option. Contact the Department Chair for further information.

FSRV 2112 (3 CREDITS) (4:0:0)  
Nutrition I  
(Formerly: FSRV 1112)  
In this online course, students will discuss the role of nutrition for health, fitness and athletic performance. Topics covered include the basic principles of human nutrition and exercise; carbohydrate, fat and protein metabolism at rest and during exercise; energy balance and body composition; fluid and electrolyte balance; vitamin and mineral needs and issues for athletes; evaluation of sports foods, supplements and ergogenic aids, nutrition during training, competition and recovery; nutrition for special populations - women, children, youth and seniors; and nutrition and fitness assessment.  
Note: Restricted to program students.  
Note: Students will only receive credit for one of FSRV 1112 or FSRV 2112.

FSRV 2212 (3 CREDITS) (3:1:0)  
Sports Nutrition  
In this course, students will discuss the role of nutrition for health, fitness and athletic performance. Topics covered include the basic principles of human nutrition and exercise; carbohydrate, fat and protein metabolism at rest and during exercise; energy balance and body composition; fluid and electrolyte balance; vitamin and mineral needs and issues for athletes; evaluation of sports foods, supplements and ergogenic aids, nutrition during training, competition and recovery; nutrition for special populations - women, children, youth and seniors; and nutrition and fitness assessment.  
Note: Restricted to program students.

FSRV 2322 (3 CREDITS) (4:0:0)  
Advanced Nutrition I  
(Formerly: FSRV 1212)  
This is an online course. A combined lecture/workshop lab course that studies the role of nutrition in the prevention and treatment of disease. Development of diet writing skills, using the Manual of Clinical Dietetics is included. Specific areas of study are the role of nutritional care in stress and wasting disorders, disorders of the gastro-intestinal tract, and adverse food reactions. Emphasis is given to the role of the supervisory/technical staff in the implementation of nutritional care plans.  
Prerequisite(s): A minimum “C” grade in both FSRV 2112 and FSRV 2212; a minimum “C” grade in one of BIOL 1115, BIOL 1116, BIOL 1190 or BIOL 1216; CMNS 1115 or BUSM 1500; and one of CMNS 1118, ENGL 1127 or ENGL 1140.  
Note: Restricted to program students.

FSRV 2329 (2 CREDITS) (0:1:3)  
Food Service Supervision Practicum  
This practicum provides the opportunity for the student to assume the responsibilities of a supervisor and to apply the policies and procedures to food service operations in the field, while under the supervision of a practicing Food Service Supervisor. The student will also have the opportunity to plan a catering or similar special event. Each student will complete a minimum of 15 days, full time, in a food service facility supervising staff, production and service of meals to clients. The student must have successfully completed FoodSafe II, or recognized equivalent, prior to entering the placement site. Graded S/U.  
Prerequisite(s): An “S” grade in FSRV 1219; a minimum “C” grade in FSRV 2423; CMNS 1115 or BUSM 1500; one of CMNS 1118, ENGL 1127, or ENGL 1140; and the minimum program requirement for work experience.  
Note: Restricted to program students.
Advanced Nutrition II
(Formerly: Clinical Nutrition II)
In this online course, students continue the study of the role of nutrition in the prevention and treatment of disease. Development of diet writing skills using the Manual of Clinical Dietetics are included. Specific areas of study are the role of nutritional care in disorders of energy metabolism, liver, kidneys, and the cardio-vascular system. Emphasis is given to the role of supervisory/technical staff in the implementation of nutritional care plans.
Prerequisite(s): FSRV 2322 with a minimum “C” grade. Students may register into FSRV 2322 and 2422 concurrently. Although registration into FSRV 2322 will permit students to register into FSRV 2422, students will be dropped from FSRV 2422 if they drop from or do not successfully complete FSRV 2322 before the start of FSRV 2422.
Note: Restricted to program students.

Food Service Supervision
This is an online course. This combination lecture/seminar course focuses on the personal development of the students’ interpersonal skills in the role of the supervisor. Emphasis is given to supervisory problems encountered in directing workers in commercial and institutional food services. Students will be required to attend during an on-site seminar during the last 3 weeks in April for skill assessment as a course requirement.
Prerequisite(s): CMNS 1115 or BUSM 1500; and one of CMNS 1118, ENGL 1127 or ENGL 1140.

Food Service Management
This practicum provides the opportunity for the student to assume the managerial functions of menu planning, purchasing, recipe development and stock control and apply appropriate policies and procedures to food service operations in the field. The student will further develop the interpersonal skills of teamwork and dealing with clients. Each student will assume the responsibility of planning a menu around a Nutrition Month theme in a facility. Graded S/U.
Prerequisite(s): FSRV 1219; one of CMNS 1115 or BUSM 1500; one of CMNS 1118, ENGL 1127, or ENGL 1140; and the minimum program requirement for work experience.
Note: Restricted to program students.

Food Service Supervision - Final Practicum
(Formerly: Food Service Supervisory/Clinical Fieldwork)
This practicum consists of two segments. In the final term, the student will spend a minimum of 2 weeks, full time (10 days) in a food service facility to apply both supervisory and clinical skills in a working environment, in a staff relief type position.
Upon completion of this assignment, students will be required to submit a journal of their experience in the practicum to complete the requirements for graduation. Graded S/U.
Prerequisite(s): A minimum “C” grade in FSRV 2422, 2423, and 4323; a minimum “C-” grade in FSRV 4424; and satisfactory completion of all other program courses.
Students may be enrolled in their final term concurrently with this practicum.
Note: Restricted to program students.

Food Production - Standards of Quality I
(Formerly: FSRV 1114)
In this online course, students study the preparation of quality food products. Areas of study include examination of structural ingredients of food products, the principles and procedures involved in the production of recipes, and use of established standards of quality to evaluate food products.
Note: Students with Cooks Trades papers and the knowledge and understanding of topics in FSRV 3114 may be eligible for the Flexible Assessment option. Contact the Department Chair.

Food Production - Standards of Quality II and Recipe Development
(Formerly: FSRV 1214)
In this online course, students will continue the study of the production of quality food products. The principles of menu planning and the development, standardization and nutritional analysis of recipes are included.
Note: Students with Cook Trades papers and a minimum grade of “C” in FSRV 3114 may be eligible for the Flexible Assessment option. Contact the Department Chair for further information.

Financial Management of Foodservice Operations
(Formerly: FSRV 2323)
In this online course, students examine the responsibilities involved in management of food service operations. Topics include cost control (food, beverages, labour), financial planning, and marketing.
Prerequisite(s): Students registered in the Nutrition Management Diploma Program must have a minimum grade of “C-” in both FSRV 1113 and 1213. Completion of CMNS 1115 and 1118 (or equivalent) is recommended for arts and science students.
Note: Students will receive credit for only one of FSRV 4323 and FSRV 2323.

Quality Food Production
In this online course, students apply the principles of quality food preparation to the production of food in large quantities. The organization of the production kitchen, planning and scheduling of production, principles and procedures for quantity food production and HACCP are studied. If not already completed, students will be required to successfully complete the “Serving It Right” certificate as part of this course.
Prerequisite(s): Students registered in the Nutrition Management diploma program must have a minimum grade of “C-” in both FSRV 3114 and 3214. Completion of CMNS 1115 and 1118 (or equivalent) is recommended for Arts and Science students.
Note: Students will receive credit for only one of FSRV 4324 and FSRV 2324.
FSRV 4424 (3 CREDITS) (4:0:0)

Facility Design
(Formerly: FSRV 2424)
This is an online course. This course focuses on the equipment used in quantity food production and the design of the institutional food service. The course includes a group project that provides teams of students with the opportunity to apply their knowledge of food service and production systems to the design of an institutional food service facility. Students will be required to attend during an on-site seminar during the last 2 weeks in April for skill assessment, as a course requirement.
Prerequisite(s): One of: CMNS 1118, ENGL 1127 or ENGL 1140.
Students registered in the Nutrition and Food Service Management Diploma Program must achieve a “C-” in this course for graduation.
Completion of CMNS 1115 and 1118 (or equivalent) is recommended for Arts and Science students.
Note: Students will receive credit for only one of FSRV 4424 and FSRV 2424.

FREN (French)

A student who has attended secondary school using French as a first language may not register in any French courses without permission of the Modern Languages Department. Students with a “C” or higher grade in a French course cannot repeat the same course without departmental permission.
(NOT ALL FRENCH COURSES ARE OFFERED EVERY SEMESTER.)

FREN 1115 (3 CREDITS) (3:0:1)

Beginner's French I
Fundamentals of speaking, reading, and writing French; classroom work supplemented by practice in the Language Laboratory. Introductory course for students with no previous knowledge of French.
Note: This course will also be offered by Guided Independent Study.
See the Registration Guide and Course Schedule for details.

FREN 1117 (3 CREDITS) (3:0:1)
Intermediate French I
First-year College French for those who have completed FREN 1215 or Grade 11 French in secondary school, or equivalent. Intermediate grammar, short literary selections and contemporary passages for reading and oral practice are studied. These lessons are supplemented by oral work in the Language Laboratory.
Prerequisite(s): French 11 with a minimum “C” or FREN 1215 with a minimum “C-”.
Note: This course will also be offered by Guided Independent Study.
See the Registration Guide and Course Schedule for details.

FREN 1118 (3 CREDITS) (3:0:1)
French Language, Literature and Conversation I
Designed for students who want a less specialized course than FREN 1119/1219. This course offers a cultural overview, a review of grammar, a study of literary texts, and limited practice in conversation. Classroom work is supplemented by work in the Language Laboratory and by computer materials.
Prerequisite(s): French 12 with a minimum “C” grade or FREN 1217.

FREN 1119 (3 CREDITS) (4:0:0)

French Language and Literature I
Courses consisting of literature, grammar, and written composition for students who have completed either French 12, FREN 1217 with at least a “B” grade or FREN 1218. These courses are to be taken by all students' intending to proceed to second year French programs at university and by those wishing to further their knowledge of the French language.
Prerequisite(s): French 12, with “B” or higher or FREN 1217 with “B” or higher, or FREN 1218 with “B” or higher. Students with a “C” grade in French 12 or FREN 1217 should enrol in FREN 1118.
FREN 1119/1219 students who need to reinforce their grammar can enrol concurrently in FREN 1118/1218.

FREN 1125 (3 CREDITS) (3:0:1)

Conversational French I
A conversational approach to French culture with a view to improving speaking and listening skills. Limited to 20 students. Students of FREN 1125/1225 can register concurrently in FREN 1118/1218 or FREN 1119/1219.
Prerequisite(s): French 12 or FREN 1217

FREN 1205 (3 CREDITS) (3:0:1)

French Conversational Skills
A conversational approach to French to enable students to communicate in everyday authentic situations. Students in FREN 1205 may register concurrently in FREN 1215, 1117 or 1217.
Prerequisite(s): FREN 1215 or FREN 1117; or permission of the department.
Note: Antirequisites: FREN 1118, 1218, 1119, 1219 or French 12.

FREN 1215 (3 CREDITS) (3:0:1)

Beginner's French II
Fundamentals of speaking, reading, and writing French; classroom work supplemented by practice in the Language Laboratory. Introductory course for students with no previous knowledge of French.
Prerequisite(s): FREN 1115
Note: These courses will also be offered by Guided Independent Study.
See the Registration Guide for details.

FREN 1217 (3 CREDITS) (3:0:1)

Intermediate French II
First-year College French for those who have completed FREN 1215 or Grade 11 French in secondary school, or equivalent with at least a “C-”. Intermediate grammar, short literary selections and contemporary passages for reading and oral practice are studied. These lessons are supplemented by oral work in the Language Laboratory.
Prerequisite(s): FREN 1117. Students who obtained a “C-” in FREN 1117 more than a year ago are encouraged to take FREN 1215 concurrently.
Note: This course will also be offered by Guided Independent Study.
See the Registration Guide and Course Schedule for details.

FREN 1218 (3 CREDITS) (3:0:1)

French Language Literature and Conversation II
Designed for students who want a less specialized course than FREN 1119/1219. This course offers a cultural overview, a review of grammar, a study of literary texts, and limited practice in conversation. Classroom work is supplemented by work in the Language Laboratory and by computer materials.
Prerequisite(s): FREN 1118 or permission of department.
Courses

**FREN 1219 (3 CREDITS) (4:0:0)**
**French Language and Literature II**
Courses consisting of literature, grammar, and written composition for students who have completed either French 12, FREN 1217 with at least a “B” grade or FREN 1218. These courses are to be taken by all students’ intending to proceed to second year French programs at university and by those wishing to further their knowledge of the French language.
Prerequisite(s): FREN 1119 or permission of department.

**FREN 1225 (3 CREDITS) (3:0:1)**
**Conversational French II**
A conversational approach to French culture with a view to improving speaking and listening skills. Limited to 20 students. Students of FREN 1125/1225 can register concurrently in FREN 1118/1218 or FREN 1119/1219.
Prerequisite(s): FREN 1125 or permission of department.

**GEOG (Geography)**

Geography includes both Arts and Science courses. All geography courses carry university transfer credit, and several geography courses can be taken as electives for other academic or career programs. GEOG 1180 and GEOG 1190 are laboratory science courses. Both GEOG 1180 and 1190 are recommended for students planning to complete a B.A. or B.Sc. in Geography.

**GEOG 1100 (3 CREDITS) (3:1:0)**
**Introduction to Geography**
Introduction to Geography is designed to give students a basic understanding of how geographers approach the world, and of how geography can be applied to their lives. Students will be introduced to a study of the physical earth (physical geography) and to ways of studying the activities of people (human geography). Topics explored in the course include landforms and weather, the environment, populations, cities, cultures and economies. This course serves as an excellent starting point for students wishing to major in geography as well as for students wishing to expand their knowledge of the world.

**GEOG 1105 (3 CREDITS) (2:1:2)**
**Field Techniques**
This course is offered from time to time usually in conjunction with another geography course. This course provides practical experience in data collection and interpretation, field observation, mapping, and land use analysis.
Note: Students in the regular Geography program should take GEOG 2210 - Introduction to Geographic Techniques.

**GEOG 1120 (3 CREDITS) (3:1:0)**
**Regional Geography of Canada**
The Regional Geography of Canada explores the similarities and differences among the regions of our country. Students will gain an understanding of the landscape, the environment and the economy as we survey Canada from Long Beach to Labrador and from Baffin Island to Burlington. Students will examine a range of social issues that provide insight into the nature of Canada.
Note: GEOG 1120 satisfies the Canadian content requirement for certification by the B.C. College of Teachers.

**GEOG 1130 (3 CREDITS) (3:1:0)**
**Urban Geography**
A survey of the evolution of the city from the Greco-Roman period to the present. The course topics include the internal structure of the city; industrial, commercial and residential land use; transportation and the planning of the urban environment. An application of the concepts to Vancouver and the surrounding area forms the basis of practical and interactive planning focus groups.

**GEOG 1150 (3 CREDITS) (3:1:0)**
**British Columbia: Resources and Regional Development**
A regional survey of the economic development of British Columbia viewed from a geographic perspective. Throughout the course students actively engage in discussions of contemporary issues and how these affect British Columbia’s regional economies. Topics considered include the basic resource industries, aboriginal, environmental and urban issues.
Note: GEOG 1150 satisfies the Canadian content requirement for certification by the B.C. College of Teachers.

**GEOG 1155 (3 CREDITS) (3:1:0)**
**Environmental Geography**
Environmental geography explores the relationships between people and the world they inhabit. Students will be introduced to the key concepts and theories of environmental studies: physical and biological processes, population, biogeography, resource management and environmental ethics. Case studies of human impacts on the environment (both local and global) such as resource depletion, species extinction and loss of biodiversity, pollution of air, land and water, waste management and natural hazard concerns are an integral part of the course.

**GEOG 1160 (3 CREDITS) (3:1:0)**
**The Pacific Rim**
The Pacific Rim is a term used to refer to those countries or administrative units along or near the Asian side of the Pacific Ocean. The region extends from Japan in the north to New Zealand in the south. This culturally diverse region has experienced extraordinary growth and change over the past fifty years. The forces of globalization together with improved transportation and communications have resulted in increased interdependence within the region. Diversity and interconnection are central themes of this course as we use a geographic perspective to examine the economic, social and political changes occurring in the Pacific Rim and their impact on environment and society.

**GEOG 1170 (3 CREDITS) (4:0:0)**
**Introduction to Human Geography**
This course will introduce students to the discipline of human geography. Students will be exposed to the major research traditions in human geography including: population, cultural, political, economic, urban and regional geography, amongst other topics. Throughout the course Vancouver resources and examples will be used to illustrate many of the themes.
GEOG 1180 (3 CREDITS) (3:0:2)
Physical Geography: Meteorology, Climatology and Biogeography
This course is an introduction to the studies of the atmosphere (meteorology), climate (climatology) and vegetation distribution (biogeography). Topics covered include, atmospheric processes, local and global weather, air pollution, world climates, plant-climate interactions, urban climates, past climates and future climates. This is a laboratory science course. The lab work provides students with an opportunity to apply theoretical knowledge to a series of applied and practical problems. Students will also learn how to make weather observations.

Note: GEOG 1180 and 1190 may be used to fulfill the science requirement for an Arts Degree. The two courses may be taken in the same semester, or in separate semesters. GEOG 1180 and 1190 can be taken in any order.

GEOG 1190 (3 CREDITS) (3:0:2)
Physical Geography: Geomorphology
An introduction to the dynamic forces and processes responsible for shaping the surface of the earth and the development of landforms (geomorphology). Topics covered include the internal structure of the earth; plate tectonics; volcanism; earthquakes; mountain building; the effects of water, ice and wind on the surface of the earth and the development and distribution of soils. This is a laboratory science course. Weekly labs teach skills in the use of topographic maps, air photo interpretation and terrain analysis. There will be a field trip to a local area of interest.

Note: GEOG 1180 and 1190 may be used to fulfill the science requirement for an Arts Degree. The two courses may be taken in the same semester, or in separate semesters. GEOG 1180 and 1190 can be taken in any order.

GEOG 1195 (3 CREDITS) (4:0:0)
Special Topics I
This number is reserved for Geography courses that may be offered from time to time by: a) College Geography Faculty who may wish to present a course in their specialty which may be of limited interest, or b) Visiting Geography Lecturers.

Prerequisite(s): will be announced in the Registration Guide and Course Schedule.

Note: Announcements regarding course offerings will be made in the Registration Guide and Course Schedule.

GEOG 2155 (3 CREDITS) (3:0:1)
Resource and Environmental Management
This course will examine environmental resources and the ways in which they are valued and utilized. Some of the themes considered will be environmental impact assessment, conflict over resources, incorporation of local knowledge, co-management, the implications of gender, and roles of governmental and non-governmental decision-makers, and the general public.

Prerequisite(s): Any one of GEOG 1100, 1120, 1130, 1150, 1155, 1160, 1170, 2250, 2270 or ENVS 2390 or with the permission of the instructor.

GEOG 2210 (3 CREDITS) (3:0:2)
Introduction to Geographic Techniques
This course is designed to introduce students to the essential geographic techniques involved in the collection, analysis and presentation of spatial data. Topics covered include the nature of geographic/spatial data; introductions to geodesy, cartography, surveying, geographic information systems (GIS) and qualitative analysis; and the planning and execution of a research project involving geographic data. Students will be introduced to the use of computer cartography and GIS applications. The course has a lecture/lab format. The lab component includes both field work and work in a computer lab. A basic familiarity with the MS Windows operating system is recommended (but not required) for students enrolling in this course.

Prerequisite(s): Any one GEOG 1100, 1180, 1190 or permission of the instructor.

Note: GEOG 2210 is recommended to students pursuing advanced studies in Geography and students from other disciplines who anticipate the need of skills in the collection and analysis of spatial data.

GEOG 2230 (3 CREDITS) (3:1:0)
Urban Canada
Explores the unique character of Canadian cities. Topics include transportation, housing, population growth and suburban development.

Prerequisite(s): Any one of the GEOG 1100, 1120, 1130, 1150, 1155, 1160, 1170, 2210, 2240, 2270, or another Social Science alternative with the permission of instructor or department.

GEOG 2250 (3 CREDITS) (3:1:0)
Economic Geography
This course provides a description and analysis of trade, urban and regional development, resource use, demography and service centres. Emphasis is on current Canadian problems within a North American and global context. Overall, the course gives students a broad theoretical base which serves as a foundation for more advanced studies in economic geography and other disciplines.

Prerequisite(s): Any one of GEOG 1100, 1120, 1130, 1150, 1155, 1160, 1170, 2210, 2270 or another Social Science alternative with the permission of the instructor.

GEOG 2270 (3 CREDITS) (3:1:0)
Cultural Geography
Cultural Geography is concerned with making sense of people and the places they occupy through the analysis and understanding of cultural processes, cultural landscapes, and cultural identities.

Prerequisite(s): One of GEOG 1100, 1120, 1130, 1150, 1155, 1160, 1170, 2210 or 2250; LAMS 1100 or 1101; or other Social Science alternative with the permission of the instructor.

GEOG 2290 (3 CREDITS) (3:0:2)
Advanced Geomorphology
Advanced studies of the processes that affect development of natural landforms and landscapes. GEOG 2290 is a laboratory science course with both lecture and laboratory sections. Topics covered include fluvial, coastal, desert glacial and periglacial processes, natural weathering phenomena and soil profile development. Topics of local interest include mass movement, earthquake activity, volcanism and natural hazards associated with the Greater Vancouver - Fraser River Valley region. Weekly labs will introduce methods of analysis with case studies as means to teach applications in environmental assessment and interpretation. Field trips will focus on local landscape development.

Prerequisite(s): GEOG 1190 or GEOL 1110 or with the permission of the instructor.
GEOG 2295 (3 CREDITS) (4:0:0)
Special Topics II
This number is reserved for Geography courses that may be offered from time to time by: a) College Geography Faculty who may wish to present a course in their specialty which may be of limited interest, or b) Visiting Geography Lecturers.
Prerequisite(s): will be announced in the Registration Guide and Course Schedule.
Note: Announcements regarding course offerings will be made in the Registration Guide and Course Schedule.

GEOL (Geology)

Geology courses are taught within the Geography Department. All geology courses carry university transfer credit. GEOL 1110 and GEOL 2205 are laboratory science courses. In some instances GEOL 1110 may be substituted for GEOG 1190. For further information consult the Geography Department.

GEOL 1110 (3 CREDITS) (3:0:2)
Introduction to Geology
This course provides an introduction to physical geology. Topics include the origin and structure of the earth, the nature of rocks and minerals, plate tectonics, deformation of the earth's crust, seismic activity, geomorphic processes and the development of landforms. This is a laboratory science course with science credit. Labs will emphasize rock and mineral identification techniques.
Note: GEOL 1110 may be taken as an alternative to GEOG 1190 as a requirement for the Arts and Science (Environmental Studies) Diploma.

GEOL 1115 (3 CREDITS) (2:2:0)
Introduction to Geology I
A Geology course for non-science majors which provides an introduction to physical and historical geology. It includes consideration of the origin and structure of the earth, rocks and minerals, deformation of the earth's crust, erosion and landforms. History of the earth and development of life.

GEOL 2205 (3 CREDITS) (3:0:2)
Historical Geology
This course aims to provide students with an understanding of the earth's ancient or paleo-environments and how this history has been recorded in the rocks of the earth. Other topics include: the development of the geologic time scale; techniques used to date rocks and events in this history of the Earth; fossil classification and the use of indicator fossils in biostratigraphy. This is a laboratory science course with science credit.
Prerequisite(s): GEOL 1110

GEOL 2207 (3 CREDITS) (3:0:2)
Natural Hazards
An introduction to catastrophic natural events including earthquakes, volcanoes, mass movement, severe weather, fire, and river and coastal flooding. Also presented are climate change, sea-level fluctuation and ground water pollution, which represent other seemingly less dramatic, but no less important, hazardous conditions. Emphasis is placed on how these events impact on the earth's natural environment and how they influence and are influenced by human activity including efforts at predictions, preventions, and mitigation of large and small scale events.
Prerequisite(s): GEOG 1180 and one of GEOG 1190 or GEOL 1110.

GEOL 2215 (3 CREDITS) (2:2:0)
Introduction to Geology II Non-lab
A Geology course for non-science majors which provides an introduction to physical and historical geology. It includes consideration of the origin and structure of the earth, rocks and minerals, deformation of the earth's crust, erosion and landforms. History of the earth and development of life.
Prerequisite(s): GEOL 1115

GREK (Greek)

GREK 1115 (3 CREDITS) (3:1:0)
Introductory Greek I
An introduction to Ancient Greek. The elements of the language. Simple readings. This course will prove especially useful to students of Classical Studies, Comparative Literature, History, Religious Studies, and Romance Languages.
Prerequisite(s): Permission of Instructor.

GREK 1215 (3 CREDITS) (3:1:0)
Introductory Greek II
A continuation of GREK 1115 with readings in prose. This course will prove especially useful to students of Classical Studies, Comparative Literature, History, Religious Studies, and Romance Languages.
Prerequisite(s): GREK 1115
Note: GREK 1115/1215 will be a regular Guided Independent Study offering in the History/Latin Department. See the Registration Guide and Course Schedule for details.

HIST (History)

Note: Students interested in History may also be interested in PACR 1170 - Imperialism in China (19th Century) and PACR 2270 - Modern China and the West (20th Century)

HIST 1113 (3 CREDITS) (3:1:0)
History of the Early Medieval World
A study of the most significant aspects of early Medieval History from the decline of Rome to about the year 1000 A.D. Special attention will be given to the development of characteristc institutions and ideas in this period. The course will focus upon the disintegration of the classical world and the genesis of a new form of civilization in Europe. Special attention will be given to the new order created in Western Europe at the time of Charlemagne and his immediate successors.

HIST 1114 (3 CREDITS) (3:1:0)
Renaissance and Reformation
(Formerly: Western Thought and Institutions I)
The development of the political thought, religion, science, economics, and culture of the Western World from the Italian Renaissance to the mid-eighteenth century. An introductory course recommended as the basis for studies in Modern History. In all fields, Western Europe was characterized by a greater secularization and this forms one of the major themes of this course.
HIST 1115 (3 CREDITS) (3:1:0)
MODERN HISTORY 1900 - 1939
Beginning with a survey of the European powers at the turn of the century, the course traces the causes of World War I, the nature of the war and the prolonged attempts to settle it. The Russian Revolution and the modernization of the Soviet Union under Stalin, the rise of Fascism in Italy and Nazism in Germany, the impact of the Great Depression are principal themes. The course ends examining the causes of the Second World War.

HIST 1116 (3 CREDITS) (3:1:0)
EARLY CANADA
The analysis of early French and English colonies on the eastern coast through the period of colonial rivalry; the relationship between Europeans and First Nations; the British conquest; the conflict of cultures; social, economic, and political developments to 1867. HIST 1116 can be taken before or after HIST 1126 (Modern Canada) or concurrently.

HIST 1119 (3 CREDITS) (3:1:0)
AMERICAN HISTORY (FROM EARLY COLONIES TO THE CIVIL WAR)
A study of the struggle of the first British colonies for economic existence, for political independence, for continental expansion, and for political unity.

HIST 1123 (3 CREDITS) (4:0:0)
HISTORY OF THE LATE MEDIEVAL WORLD
A study of the most pertinent aspects of the late Medieval World from about the year 1000 A.D. until the Italian Renaissance. Special attention will be given to the development of institutions and ideas in this period, particularly the twelfth century revival of learning and its aftermath.

HIST 1124 (3 CREDITS) (3:1:0)
EUROPE IN A REVOLUTIONARY AGE
(Formerly: Western Thought and Institutions II)
This course is a continuation of HIST 1114, extending from the mid-eighteenth century to 1900. Special attention is given to the Enlightenment, the Industrial Revolution, the American and French Revolutions, and the major social and intellectual developments of nineteenth century Europe. These are the forces that have shaped the modern world and this is an introductory course which is recommended as a basis for studies in Modern History.

HIST 1126 (3 CREDITS) (3:1:0)
MODERN CANADA
The social, political, and economic growth of Canada since Confederation. This course will consider such topics as 19th century economic policy, the relationship between First Nations and the emerging Canadian state, the place of Quebec in Canada, women's historical experience, the impact of industrialization, and Canada's relationship to both Britain and the United States. History 1126 can be taken before or after History 1116 (Early Canada) or concurrently.

HIST 1129 (3 CREDITS) (3:1:0)
AMERICAN HISTORY (RECONSTRUCTION TO THE PRESENT)
The coming of age of a great power. This course explores the history of American people as they recover from the trauma of the civil war and incorporate new lands, resources and floods of immigrants to become the world's most powerful economy. In two world wars, the U.S. takes on global responsibility which is confirmed during the Cold War and after. Emphasis will be placed on social and cultural as well as political themes.

HIST 1130 (3 CREDITS) (3:1:0)
MODERN HISTORY (1939 TO PRESENT)
A study of the conflicts leading to World War II; the events and global aspects of the war; the “Cold War” tension; the impact of growing Communism and the emergence of the People's Republic of China; the collapse of colonialism and resultant rise of the new nationalism in Asia and Africa.

HIST 1155 (3 CREDITS) (4:0:0)
THE HISTORY OF THE FAMILY IN WESTERN SOCIETY
An introduction to the changing role of the family in Western society from the pre-industrial past to the 20th century. The course will focus on changes in the way the Western family served its members at various stages of their lives from childhood to old age as the family adapted to changes in the state and marketplace.

HIST 1161 (3 CREDITS) (4:0:0)
SELECTED ISSUES IN CANADIAN HISTORY
Selected Issues in Canadian History.

HIST 1190 (3 CREDITS) (20:0:0)
GREECE: HISTORY AND MONUMENTS
A study of the history, people, and monuments of Greece, covering a range of historical eras, including Mycenaean, Classical, Roman, Byzantine and Crusader, Turkish, and early independence. This is an intensive 25 day course, 21 days of which will be field studies in London and Greece.
Prerequisite(s): Enrolment limited to students of the Study in Greece program.

HIST 1195 (3 CREDITS) (3:1:0)
SPECIAL TOPICS I
This course is reserved for History courses that may be offered from time to time by: a) College History Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting History Lecturers.
Note: Announcements regarding HIST 1195 offerings will be made in the Registration Guide and Course Schedule.

HIST 2207 (3 CREDITS) (2:2:0)
EARLY BRITISH COLUMBIA
This course focuses on the British Columbia historical experience from the time of contact between First Nations and European people until B.C. joined Confederation in 1871. Themes of particular interest include First Nations-European relations, colonial settlement, the structure of B.C.'s society and economy, American influences and Confederation. In addition, this course provides an introduction to research methods in local history.

HIST 2210 (3 CREDITS) (4:0:0)
ANCIENT GREECE
Greece in the Bronze Age; the evolution of government and society; the rise and fall of the Athenian Empire; Macedon and Alexander the Great; how the Greeks remembered their past. This course is taught at a second year level, but there is no prerequisite.
Note: For related courses, see CLST 1110, HIST 2211.
HIST 2211 (3 CREDITS) (4:0:0)
Ancient Rome
Early Rome and its foundation. The republic, with emphasis upon the evolution of government and pressure of war. The fall of the republican government and the triumph of Augustus. The developed Empire and the Pax Romana. Decline and fall. This course is taught at a second year level, but there is no prerequisite.

Note: For related courses, see CLST 1120, HIST 2210.

HIST 2215 (3 CREDITS) (3:1:0)
History of Urban Growth in Canada
This course examines how and why Canadian cities and towns took the shape they did. Central to this understanding is an investigation of early urban forms in Canada and their antecedent and contemporary forms in Europe and the U.S. The course will explore the diverse social, political, economic, intellectual, religious, technological, topographical, and aesthetic elements which combined to shape Canadian cities and towns and influenced the path of urban growth.

Note: Priority registration given to students enrolled in the Applied Urban and Rural Planning program.

HIST 2217 (3 CREDITS) (3:1:0)
Modern British Columbia
A topical survey of British Columbia history since Confederation in 1871 with special attention to the structure of B.C.’s economy, the ethnic make-up of the province, First Nations’ issues, industrial relations, urbanization, environmental questions and provincial politics. In addition, this course provides an introduction to historical research methods.

HIST 2225 (3 CREDITS) (3:1:0)
The Peoples of Quebec: A Social History to the late 19th Century
This course explores the histories and interactions of the peoples who inhabited Quebec from the sixteenth through the nineteenth centuries. Themes to be investigated include the Aboriginal experience of colonization; relations between centre and periphery in an imperial era; the struggle for place and identity by distinct cultural groups; the meanings of nationalism; state formation and its significance for local communities; and the social and political consequences of industrialization.

HIST 2231 (3 CREDITS) (3:1:0)
France in a Revolutionary Age: 1760-1848
This course begins with a study of the most pertinent aspects of French history during the last years of the Old Regime. Special attention will be given to the social, economic and intellectual origins of the Revolutions of 1789, 1830, and 1848. The impact of the French example on the rest of Western Europe will form one of the major themes of this course.

Prerequisite(s): Any History course.

HIST 2233 (3 CREDITS) (3:1:0)
Nineteenth Century Russia
A history of Russia from 1812 to 1917, from Napoleon’s invasion of Russia in 1812 to Czar Nicholas II abdication in 1917 - with particular emphasis upon social and intellectual trends and upon the rise of revolutionary movements.

Prerequisite(s): Any History course.

HIST 2234 (3 CREDITS) (3:1:0)
This course offers a comprehensive interpretation of the Russian historical experience from 1917 to 1991. It attempts to strike a reasonable balance between the Stalin years, which have been the focus of much attention, and the post-Stalinist period. While recognizing the profound influence Stalin exerted on Soviet history, the course also explores the various efforts at de-Stalinization, which occurred after his death, through the Gorbachev era. Moving beyond the standard emphasis on ideological matters, the course seeks to explore the social issues and decision-making processes during the Soviet period.

Prerequisite(s): HIST 1115 or permission of the instructor. HIST 1115 and HIST 2234 may be taken concurrently.

HIST 2236 (3 CREDITS) (4:0:0)
The Franks: From Barbarian Tribe to Imperial Mission - the Destiny of the Merovingians and the Carolingians
The Franks first appear in historical sources during the third century A.D. as a group of undistinguished barbarians living in the lowlands north and east of the Rhine frontier of the Roman Empire. From this undistinguished beginning, they created the most powerful of all the barbarian kingdoms and became the effective heirs of the Roman Empire. In 800, a Frank was crowned in Rome as the first emperor of Germanic origins. Utilizing contemporary documents and archaeological evidence, this course traces the history of the Franks from barbarism to their military and civil dominance of Western Europe.

Prerequisite(s): Any History course; HIST 1113 preferred.

HIST 2237 (3 CREDITS) (4:0:0)
Popes, Emperors and Kings: Aspects of the History of Medieval Political Theory
The concept of the separation of church and state - indeed, the idea of the modern state itself - grew out of a struggle between the kings, emperors and popes of medieval Europe. The polemics and the developments in law derived from the crucial medieval debate have left their imprint on the course of Western history. This course will discuss such vital issues as the nature of authority, justice, and property; the problem of legitimacy, allegiance, the right of resistance to the powers that be; the character and function of law. These concepts form the very foundation of western societies and the medieval debate is relevant to an understanding of contemporary institution and ideas.

Prerequisite(s): Any History course.

HIST 2239 (3 CREDITS) (3:1:0)
Britain in the Nineteenth Century
Victorian Britain was the first urban industrial nation. This course will examine the way that Victorian society met the challenge of industrialization, focusing on the social, cultural and political changes that took place in Britain during the 19th century. Emphasis will be placed on specific themes such as the changing class relationships, the impact of industrialization on family life, patterns of work and leisure, and urban growth.
HIST 2241 (3 CREDITS) (3:1:0)
The History of the Cold War I: 1946 - 1960
Against the backdrop of World War II, this course looks at the events and circumstances which led to the division of the world into two mutually hostile camps, the communist and the capitalist, each under the aegis of the USSR and the U.S. respectively. This polarization of world politics carried with it the danger that any conflict between the two superpowers might ignite a worldwide conflict. This course examines the Chinese Civil War, 1945-1949; the Berlin Blockade, the Korean War and the launching of Sputnik (1958).
Prerequisite(s): Any History course or permission of the instructor.

HIST 2242 (3 CREDITS) (3:1:0)
The History of the Cold War II: 1960-1991
This course is a continuation of HIST 2241. It examines the U.S.-USSR clash in the Cuban Missile Crisis (1962), the American quagmire in Vietnam, and the Star Wars concept. It follows concurrent attempts at breaking the disabling cold war attitudes and policies, attempts which proved successful only under Mikhail Gorbachev. In 1991, the Cold War was officially proclaimed dead.
Prerequisite(s): HIST 2241 or permission of the instructor. HIST 2241 and HIST 2242 may be taken concurrently.

HIST 2243 (3 CREDITS) (4:0:0)
Vietnam: From Colonial War to Cold War, 1945 - 1975
This course looks at the various decisions made by the great powers which turned a deaf ear to the postwar Vietnamese desire for independence and instead ushered in a period of unrelenting turmoil and suffering. France's attempt to re-establish her colonial overlordship in Vietnam ended in failure in 1954, with the United States subsequently stepping in to prevent South Vietnam from falling victim to Communism. As an important “domino”, South Vietnam became a recipient of U.S. military and economic aid, to ensure her survival as part of the free world. In the end, however, the costs of such policies became unbearable, at home as well as abroad and like France before her, the United States too had to pull out of Vietnam.
Prerequisite(s): HIST 1130 or permission of the instructor. HIST 1130 and HIST 2243 may be taken concurrently.

HIST 2245 (3 CREDITS) (3:1:0)
Prosperity and Protest: The West Since 1945
This course charts the rise and transformation of social and political protest in Western Europe and North America since 1945. It pays particular attention to the ways in which consumer society, the welfare state, and new forms of popular culture were important in shaping student protest, youth counter culture, feminism, environmentalism and other movements and equally so in determining the growth of a populist conservative reaction in the 1980's and 1990's.
Prerequisite(s): Any History course.

HIST 2249 (3 CREDITS) (3:1:0)
Britain in the Twentieth Century
A study of the dramatic changes in British society and Britain's place in the world from the beginning to the end of the twentieth century, exploring such themes as Britain's central role in WWI and WWII, the loss of Empire the rise of the Welfare state, and her post-war position as mediator between the United States and Europe.

HIST 2255 (3 CREDITS) (4:0:0)
History of the Modern Middle East
This course surveys and attempts to make sense of the recent history of a region that has been torn by internal strife and has become the focus of intense international conflict. Focusing on the history of the Middle East in the twentieth century this course will examine, amongst other topics: the development of state and society in the aftermath of World War I, the emergence of the state of Israel and an enduring Arab-Israeli conflict, the role of external powers in the history of this region, and the rise of Arab nationalism and the politics of Islam. The course will culminate with a discussion of the "events of 9/11" and the beginning of a new “Gulf War” in 2003.

HIST 2260 (3 CREDITS) (3:1:0)
Environmental History
An introduction to the main currents of research and writing in the field of environmental history. Students will examine the intellectual and cultural history of ideas of nature, wilderness, environment and the human relation to it, as well as the principal ways - political, economic, social and cultural - in which humans have related to the environment.

HIST 2269 (3 CREDITS) (4:0:0)
Canadian-American Relations
A study of integration and conflict, from our historical beginnings to our twentieth century industrialization. The course will examine the influence the United States has had on the development of Canadian Society in the areas of economics, culture, defence and foreign policy.
Prerequisite(s): Any History course.
Note: This course will be offered in the Spring Semester.

HIST 2295 (3 CREDITS) (3:1:0)
Special Topics II
This number is reserved for History courses that may be offered from time to time by: a) College History faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting History Lecturers.
Note: Announcements regarding HIST 2295 offerings will be made in the Registration Guide and Course Schedule.

HKIN (Human Kinetics)

HKIN 1100 (3 CREDITS) (3:0:1)
Biodynamics of Physical Activity
An introductory examination of the mechanical, anatomical and physiological bases of human performance.

HKIN 1103 (3 CREDITS) (2:0:2)
Active Health
This course will examine the role of physical activity in the maintenance of a healthy life, and will investigate the application of basic physical fitness and exercise methods, exercise techniques and fitness appraisal.
Courses

HKIN 1115 (3 CREDITS) (2:0:2)
Performance Analysis: Educational and Artistic Gymnastics
This course emphasizes (sport-specific) practical ability, fitness skills and theory while working towards completion of Level 1 Technical in the National Coaches Certification Program for sport. The student will apply theoretical knowledge gained from the various Human Kinetics courses to sport activity.

Note: Students will receive credit for only one of HKIN 1115 and HKIN 1117.

HKIN 1116 (3 CREDITS) (2:0:2)
Performance Analysis: Aquatics and Triathlon
An introduction to Aquatics and the sport of Triathlon through performance, analysis of movement, and development of appropriate teaching strategies and training programs.

Note: This course is equivalent to HMPF 2345. Credit will be granted for only one of HKIN 1116 and HMPF 2345.

HKIN 1117 (1.5 CREDITS) (2:0:0)
Performance Analysis: Gymnastics
The study and practice of effective performance in developmental gymnastics. In both theoretical and practical environments, students will learn to correctly apply appropriate methods of analysis, error detection and correction when analyzing performance, and safety in gymnastic environments.

Corequisite(s): HKIN 1118
Note: Students will receive credit for only one of HKIN 1115 and HKIN 1117.

HKIN 1118 (1.5 CREDITS) (2:0:0)
Performance Analysis: Dance
The analysis of performance and instructional strategies in dance.

Corequisite(s): HKIN 1117

HKIN 1151 (3 CREDITS) (2:1:1)
Biomechanics I
This course will examine the application of elementary principles of physics and mathematics to a quantitative analysis of movement. Analysis will also focus on the development of forces within muscles and their effect on initiating and controlling human movement.

HKIN 1161 (3 CREDITS) (3:1:0)
Leisure & Sport in Society
Introduction to the political, economic and social basis of leisure and sport: concepts, myths, theories and problems.

HKIN 1190 (3 CREDITS) (2:0:2)
Anatomy & Physiology I
Human anatomical systems and their integration. A major emphasis is placed on the skeletal and muscular systems.

Prerequisite(s): HKIN 1100 or permission of the department.

HKIN 1191 (3 CREDITS) (2:0:2)
Anatomy & Physiology II
Human anatomical systems & their integration. A major emphasis is placed on the nervous, endocrine, respiratory, circulatory, digestive & urinary systems & their functioning in physical activity.

Prerequisite(s): HKIN 1190 "C-" can be taken concurrently.

HKIN 2215 (3 CREDITS) (2:2:0)
Performance Analysis: Basketball and Team Handball
An introduction to the sports of Basketball and Team Handball through participation and analysis by the class. Emphasis will be placed on the learning and understanding of the basic skills. Further consideration will be given to the fundamental strategy systems of play exhibited at all levels of play. These courses emphasize (sport-specific) technical, tactical strategy and theory while working towards the completion of Level 1 Technical in the National Coaches Certification Program for sport. The student will be applying theoretical knowledge gained from various Human Kinetics courses to specific sport activity.

HKIN 2216 (3 CREDITS) (2:0:2)
Performance Analysis: Volleyball and Softball
An introduction to the sports of Volleyball and Softball through participation and analysis by the students. Emphasis will be placed on the learning and understanding of the basic skills, officiating and the development of successful teaching techniques. Further consideration will be given to the fundamental strategy and systems of play exhibited at all levels. These courses emphasize (sport-specific) technical, tactical strategy, and theory while working towards the completion of Level 1 Technical in the National Coaches Certification Program for sport. The student will be applying theoretical knowledge gained from various Human Kinetics courses to specific sport activity.

HKIN 2230 (3 CREDITS) (3:0:1)
Human Motor Behaviour I
An introduction to the study of motor skill acquisition, the variables which influence learning and performance of motor skills. The processes underlying human movement & learning motor skills & factors influencing motor control.

HKIN 2231 (3 CREDITS) (3:0:1)
Sport and Exercise Psychology
This course is designed to familiarize the student with psychological variables affecting learning & performance of a skillful act. Emphasis is on the analysis & execution of psychological variables & application of theoretical knowledge.

HKIN 2252 (3 CREDITS) (4:0:0)
Contemporary Health Issues
The course will identify and describe contemporary lifestyles, associated behaviours, and major health concerns. The responsibility of the consumer and techniques and strategies used to make positive lifestyle changes will be studied and discussed.

HKIN 2261 (3 CREDITS) (4:0:0)
Health Policy and Society
This course will investigate the development, organization and administration of leisure and sport delivery systems in Canada and British Columbia, with a focus on active health for our population.

Note: Students will receive credit for only one of HKIN 2261 and HMPF 1131.
HkIN 2275 (3 CREDITS) (2:0:2)
Exercise Physiology
The acute and chronic effects of exercise on body systems: basic concepts of cardiovascular, respiratory and muscular responses to physical activity.

Prerequisite(s): HkIN 1190 and HkIN 1191. HkIN 1191 may be taken concurrently.

HkIN 2284 (3 CREDITS) (3:1:0)
Growth and Development
An exploration of the course of normal physical growth and motor development with emphasis on the first two decades of life, on the methods used to study physical growth and motor development, and on some developmental differences in the motor abilities of children.

Prerequisite(s):

HkIN 2361 (3 CREDITS) (3:0:1)
Sports Medicine
Etiology of common exercise and sport injuries with an emphasis on prevention, assessment, management and rehabilitation. Consideration of current issues and developments in Sports Medicine. Practical lab experiences include wrapping and taping.

Prerequisite(s): HkIN 1190 (HkIN 1190 and HkIN 2361 may be taken concurrently.)

Note: May be taken concurrently.

INST (Institute)

INST 1101 (0 CREDITS) (0:0:0)
Langara Environment Institute
The Langara Environment Institute is an intensive, multi-disciplinary program conducted at Langara College taking the environment as its theme. The Institute consists of three regular university-transferable courses that approach the study of the environment from different perspectives. Specific course offerings vary with each Institute.

Corequisite(s): Students must be enrolled in the three courses making up the Langara Environment Institute. Information regarding which courses make up each institute will be announced in the Registration Guide and Course Schedule.

INST 1105 (0 CREDITS) (0:6:0)
Langara Environment Institute Seminar
New course
The Langara Environment Institute Seminar will consist of six weekly meetings of all institute students and instructors. These sessions will function as the meeting place for a collaborative research and writing project central to the work of the Institute. An Institute normally includes at least three courses (9 credits) from three disciplines offered over a seven-week period in May/June. The three courses of the Institute will focus on the environment in general terms from the perspective of the three disciplines. The Langara Environment Institute Seminar will be delivered in the context of interdisciplinary workshops, which will be focused, in-depth sessions that explore a single principle theme, place, or event of significance to the overall Institute theme. Graded S/U.

Corequisite(s): At least one of the three courses offered in the Langara Environment Institute.

INTB (International Business)

INTB 1200 (3 CREDITS) (3:1:0)
Introduction to International Business
This is a survey course of the international business environment. It looks at what International Business is and means; what globalization means; and why International Business is important to the Canadian economy.
It provides students with a focus on the nature of the international business environment, its financial, cultural, social, political and legal forces, and the manner in which this environment has changed and continues to change. It also provides students with an introduction to alternative methods of conducting business internationally. The reasons for and types of government and private sources of assistance to international business will be explored. The increasing importance of international organizations such as the World Bank, the International Development Association, the World Trade Organization, UNCTAD, and the International Monetary Fund is stressed. These organizations provide information and funds to help companies which are planning to enter the global economy. Another aim of this course is to provide a basic understanding of trade flows and the main trade agreements. The major trade groups and regions to be examined include the European Union, APEC & ASEAN, NAFTA and MERCOSUR.

INTB 2300 (3 CREDITS) (4:0:0)
International Marketing
(Formerly: INTB 2322)
The purpose of this course is to introduce the student to the field of international marketing. The course examines the nature and the characteristics of international marketing and focuses on the various micro-environmental aspects of the international marketing elements of product, price, distribution, and promotional policies for foreign markets from a conceptual and applications perspective.

Prerequisite(s): MARK 1115 and INTB 1200, or with the permission of the Department.

Note: Students will receive credit for only one of INTB 2300 and INTB 2322.
INTB 2400 (3 CREDITS) (4:0:0)
**International Law**
(Formerly: INTB 2350)
Every aspect of completing international business transactions and carrying on business from Canada with non-Canadian entities has been somewhat considered, governed and dealt with pursuant to common law principles, precedents, statute law, treaties and International Conventions. This course is designed as both an overview of Public International Law as well as Private International Law. Students are expected to possess a basic understanding of sources of law, contract, tort and corporate law from BUSM 1285. The course will approach International Law from the perspective of a Canadian business person who intends to do business with parties from foreign jurisdictions. The emphasis of INTB 2400 is placed on conflicts of laws, trade intervention, and controlling unfair trade practices.

Prerequisite(s): BUSM 1285, or with permission of the Department.
Note: Students will receive credit for only one of INTB 2350 and INTB 2400.

INTB 2435 (3 CREDITS) (3:1:0)
**International Distribution**
Topics will include alternative methods of managing distribution channels, selecting and managing agents and distributors, establishing joint ventures and alliances, and addressing channel issues such as power, control, and the relationship to the elements in the marketing mix. Particular focus will be given to managing relationships with the agent/distributor and motivating them for improved performance. In the logistics segment, topics will include the requirements for the physical movement of products. The role of freight forwarders and customs brokers will be examined. Alternative transportation methods will also be reviewed focusing on the need for intermodality and speed. This course will focus on two major components: the selection and management of channels to market and the logistics of moving products.

Prerequisite(s): MARK 1115 with a minimum “C-” grade or permission of the Department.

INTB 3100 (3 CREDITS) (4:0:0)
**Management Issues in International Business**
This course introduces the principles and practices of international business management. The course looks at what international management is and at what the implications are for small, medium, and large-sized international enterprises. Its focus is on the microenvironment and how Canadian businesses plan for, organize, and manage international operations. Topics include globalization; the global political, legal and technological environment; social and ethical responsibilities of firms; managing across cultures; organizational cultures and diversity; cross-cultural communication and negotiation; international strategic management formulation and implementation; cross-cultural management; entry strategies and organizational structures; the management of political risk, government relations, and alliances; international management decision making and control; motivation and leadership across cultures; and international human resource management and labour relations.

Prerequisite(s): Completion of 54 credits or departmental permission. Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended.

INTB 4220 (3 CREDITS) (4:0:0)
**International Financial Management**
(Formerly: INTB 2330)
This course provides an introduction to the nature and characteristics of the international financial environment, including the core principles of international economics, foreign exchange, risk management, and international financial markets. The course examines how international banking and other financial institutions facilitate trade and commerce inside and outside national boundaries; provides strategies for financing international operations, and shows students how to appraise risk on both a global and national basis.

Prerequisite(s): Completion of 54 credits or departmental permission.
As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended. MATH 119 or 1118 and ECON 1220 or 1221 are also recommended. Note: Students will receive credit for only one of INTB 2330 and INTB 4220.

JAPN (Japanese)
Students with a “C” or higher grade in a Japanese course cannot repeat the same course without departmental permission.

(NOT ALL JAPANESE COURSES ARE OFFERED EVERY SEMESTER.)

**JAPN 1115 (3 CREDITS) (3:0:1)**
**Beginner’s Japanese I**
An introduction to foundational Japanese. Emphasis is placed on grammar, syntax, and writing, as well as aural/oral practice. Initially students will learn to read and write the hiragana syllabary followed by the katakana syllabary. Upon successful completion of the course, students will be able to understand and formulate basic sentences in speech and writing.

Note: This course is not designed for native speakers of Japanese.
Students with a background in Japanese are required to write a placement test before registering in JAPN 1115.

**JAPN 1117 (3 CREDITS) (3:0:1)**
**Intermediate Japanese I**
A continuation of the foundational Japanese learned in JAPN 1215. Students will learn to read and write an additional 100 kanji (Chinese characters) bringing the total to 200 kanji. With continued emphasis on foundational Japanese, students will be able to engage in basic conversations and write short essays in standard essay style, upon successful completion of the course.

Prerequisite(s): JAPN 1215

**JAPN 1205 (3 CREDITS) (3:0:1)**
**Japanese Conversation**
This course is offered as a complement to the foundation courses in Japanese, focusing on oral practice (pronunciation, stress and intonation), and interactive conversations based on practical situations from everyday life in Japan with emphasis on polite forms of speech. The socio-cultural aspects of given situations are covered in demonstrations, role-playing, and audio-visuals. This course is intended for students who wish to review, practice or maintain their foundational knowledge of Japanese or for those who have a one or more semester gap before registering in second year Japanese courses.

Prerequisite(s): JAPN 1115 with a minimum of a “C” grade.
Corequisite(s): JAPN 1215 or JAPN 1117 or JAPN 1217.
JAPN 1215 (3 CREDITS) (3:0:1)
Beginner’s Japanese II
A continuation of the foundational Japanese learned in JAPN 1115. Students will learn approximately 100 kanji (Chinese characters). Upon successful completion of the course, students will be able to formulate, orally or in writing, simple conversations or narratives based on ordinary daily situation.
Prerequisite(s): JAPN 1115
Note: Due to the complicated nature of the grammar and writing system, beginning students should be aware that learning Japanese may require more study hours and a longer time frame than would be normal to master a European language.

JAPN 1217 (3 CREDITS) (3:0:1)
Intermediate Japanese II
A continuation of the foundational Japanese learned in JAPN 1117. An additional 100 kanji (Chinese characters) will be learned bringing the total to 300 kanji. Upon successful completion of the course, students will be able to engage in in-class debates and write short essays about personal goals, opinions, or social/cultural observations.
Prerequisite(s): JAPN 1117

JAPN 2227 (3 CREDITS) (3:0:1)
Classical Japanese Literature in Translation I
This a survey course featuring works, from the earliest times to the mid-eighteenth century, in English translation. Japanese poetry, poetic diaries, the development of the novel, and the traditional theatres of Noh, Kabuki and Bunraku will be studied against the appropriate historical, cultural and sociological background. Emphasis will be placed on The Tale of Genji, which has influenced literature and the arts in Japan up to the present time.
Prerequisite(s): ENGL 1127 or ENGL 1128 with a minimum of a “C+” grade and ENGL 1129 or ENGL 1130.

JAPN 2237 (3 CREDITS) (3:0:1)
Classical Japanese Literature in Translation II
JAPN 2237 is the continuation of JAPN 2227. This is a survey course featuring works, from the earliest times to the mid-eighteenth century, in English translation. Japanese poetry, poetic diaries, the development of the novel, and the traditional theatres of Noh, Kabuki and Bunraku will be studied against the appropriate historical, cultural and sociological background. Emphasis will be placed on The Tale of Genji, which has influenced literature and the arts in Japan up to the present time.
Prerequisite(s): JAPN 2227 with a minimum grade of ‘C-’.

JOUR (Journalism)
ll Journalism courses except JOUR 1100 are restricted to students enrolled in the Journalism Program.

JOUR 1100 (3 CREDITS) (3:1:0)
Introduction to the News Media
This course introduces students to the role and function of the news media in a modern society, its important effects on people’s lives, and its current challenges. It explores the role of the news media in enabling citizens to make informed decisions in a democratic society, and how well the media is fulfilling that role. It also examines basic journalism values such as accuracy, impartiality, and ethics. This course would be useful to students considering becoming journalists, planning studies related to mass media, or to those pursuing a career in business, law, public service, entertainment or other professions in the public eye. This course does not teach journalism skills.
Note: This course is open to non-journalism program students.

JOUR 1120 (3 CREDITS) (2:0:2)
Journalism Research
A practical introduction to how to find information on people, government and corporations. Topics include library research, on-line databases, freedom of information laws and interviewing techniques.

JOUR 1128 (3 CREDITS) (2:1:1)
Fundamentals of Reporting
Writing basic news stories and features; interviewing news sources; researching and reporting a variety of general-assignment news stories.

JOUR 1140 (3 CREDITS) (2:0:2)
Copy Editing
Students will be introduced to basic copy editing skills, focusing on newspaper style. Major topics include role of the copy editor, news values, language skills, copy editing techniques, Canadian Press style, and headline and caption writing. Many of the editing assignments will be done in lab under deadline pressure.

JOUR 1168 (2 CREDITS) (2:0:1)
Photo Journalism
Operating 35mm cameras; lighting and darkroom procedures; light meters and lenses; composition and picture content; spot news and feature pictures; making screened half-tones.

JOUR 1177 (3 CREDITS) (2:1:2)
Newspaper Design and Layout
This course is an introduction to typography, newspaper design and QuarkXPress computer software. Students will learn to design newspaper pages that attract the reader's interest and convey information quickly and clearly. Applying these principles, students will create pages using the software QuarkXPress.

JOUR 1178 (5 CREDITS) (0:1:11)
Newspaper Production I
Production of the program's weekly newspaper, The Voice, circulated at Langara College and the surrounding community. Emphasis is on reporting.
JOUR 1188 (2 CREDITS) (2:0:0)
Media and Society I
An examination of the importance of journalism in western society and the Anglo-American tradition of press freedom, with special attention to landmark events in Canada, Britain and the United States.

JOUR 1195 (0 CREDITS) (0:0:0)
Special Topics I
This number is reserved for Journalism courses that may be offered from time to time by: a) College Journalism Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting Journalism or Business Communications lecturers.
Prerequisite(s): Must be enrolled in the Journalism Program, unless otherwise indicated in the Registration Guide and Course Schedule.
Note: Announcements regarding JOUR 1195 offerings will be made in the Registration Guide and Course Schedule.

JOUR 1242 (2 CREDITS) (2:0:0)
Specialty Writing
Writing for the specialty pages of the newspaper with an emphasis on critical writing, including editorial and personal opinion writing, entertainment reviews, and sports reporting. Students will apply techniques used by specialized journalists to sharpen writing and reporting skills.

JOUR 1298 (2 CREDITS) (2:0:1)
Broadcasting I
An introduction to broadcast journalism, with emphasis on the skills needed for radio. Topics include writing for the spoken word, on-air voice delivery, the selection of interview clips, and the line-up of newscasts. Students produce, voice, and edit their stories on audiotape.

JOUR 2228 (2 CREDITS) (2:0:0)
Journalism Law
An examination of the legal system as it pertains to journalism. An introduction to covering the courts and to the laws that affect the working journalist, including libel, contempt of court, freedom of information and privacy.

JOUR 2278 (6 CREDITS) (0:2:14)
Newspaper Production II
Production of the program’s weekly newspaper, The Voice, circulated at Langara College and the surrounding community. Emphasis is on editing and production, including news judgment, copy and photo editing, page design, and computer pagination.

JOUR 2295 (0 CREDITS) (0:0:0)
Special Topics II
This number is reserved for Journalism courses that may be offered from time to time by: a) College Journalism Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting Journalism or Business Communications lecturers.
Prerequisite(s): Must be enrolled in the Journalism Program, unless otherwise indicated in the Registration Guide and Course Schedule.
Note: Announcements regarding JOUR 2295 offerings will be made in the Registration Guide and Course Schedule.

JOUR 2328 (1 CREDIT) (1:1:0)
Journalism Ethics
An examination of the role and responsibility of the news media, including credibility, conflict of interest, taste, press councils and accountability.

JOUR 2358 (3 CREDITS) (1:3:1)
Daily Paper Writing
A laboratory for writing to daily paper standards under deadline pressure.

JOUR 2378 (3 CREDITS) (2:2:0)
Advanced Reporting
Covering public affairs including the police, city hall, labour and education beats. Emphasis is on reporting for newspapers.

JOUR 2398 (3 CREDITS) (2:2:0)
Broadcasting II
Designed to teach the basic skills of television reporting. Topics include telling a story with pictures, on-air performance, voice overs, writing to pictures, and the selection of interview clips. Students produce, shoot, and edit their stories on videotape.

JOUR 2418 (3 CREDITS) (1:4:0)
Corporate Communications
Promotional and marketing writing, including audio-visual script-writing, the media kit and employee publications. For students interested in the world of public relations and corporate communications.
Note: (Option, offered if numbers warrant)

JOUR 2430 (3 CREDITS) (2:0:2)
Magazine Production
Working as a team, students will edit and produce the annual Langara Journalism Review, focusing on contemporary issues in journalism. Students will learn about editorial planning, budgeting, advertising, circulation, production and printing. This course also looks at the magazine industry in Canada.

JOUR 2458 (3 CREDITS) (2:2:0)
Magazine Feature Writing
Writing for magazines: generating and selling ideas; freelancing; understanding the industry. In-depth and profile writing.

JOUR 2459 (6 CREDITS) (0:0:16)
Fieldwork/Print
Internship in the print media for five consecutive weeks in the fourth term. Graded S/U.
Note: (Option for JOUR 2469)

JOUR 2467 (3 CREDITS) (0:1:5)
Special Print Project
Working under faculty supervision, students will successfully complete a substantial piece of public affairs journalism suitable for publication in a newspaper or magazine. Project requires faculty approval.
Note: (Option for JOUR 2468)

JOUR 2468 (3 CREDITS) (0:1:5)
Special Broadcast Project
Working under faculty supervision, students will successfully complete a substantial piece of public affairs journalism suitable for radio or television. Project requires faculty approval.
Prerequisite(s): JOUR 2398
Note: (Option for JOUR 2467)
JOUR 2469 (6 CREDITS) (0:0:16)
Fieldwork/Broadcast
Internship in the broadcast media for five consecutive weeks in the fourth term. Graded S/U.
Note: (Option for JOUR 2459)

JOUR 2488 (2 CREDITS) (2:0:0)
Media and Society II
An examination of contemporary media models and issues, ranging from community media to world media systems; critical issues facing today's journalist; future roles and trends in communication systems.

LATN (Latin)

LATN 1101 (3 CREDITS) (3:1:0)
Latin and Greek Roots
An introduction to the meanings and uses of Greek and Latin root words in the English language. Students of all disciplines will find this a practical means of enhancing their comprehension and extending their application of English. They will master the meaning and spelling of technical vocabulary in a wide range of academic subjects while they learn to appreciate and enjoy language and its subtleties.

LATN 1115 (3 CREDITS) (3:1:0)
Beginner's Latin I
An introduction to the nature and structure of the Latin language; reading of simple texts. This course will be especially interesting to students in Classical Studies, Medieval History, Comparative Literature, the Romance languages, Religious Studies, and Philosophy. It will also be useful to students in the Sciences.

LATN 1117 (3 CREDITS) (3:1:0)
Beginner's Latin II
An introduction to the nature and structure of the Latin language; reading of simple texts. This course will be especially interesting to students in Classical Studies, Medieval History, Comparative Literature, the Romance languages, Religious Studies, and Philosophy. It will also be useful to students in the Sciences.
Prerequisite(s): LATN 1115, or instructor's permission.

LATN 2225 (3 CREDITS) (4:0:0)
Intermediate Latin I
This course is a continuation of LATN 1117. Students will continue to learn Latin grammar, and at the same time will begin to read Latin prose and poetry.
Prerequisite(s): LATN 1117 or instructor's permission

LATN 2227 (3 CREDITS) (4:0:0)
Intermediate Latin II
This course is a continuation of LATN 2225. Greater emphasis will be put on reading Latin prose and poetry: Cicero and Catullus and others.
Prerequisite(s): LATN 2225, or instructor's permission.

LAMS (Latin American Studies)

LAMS 1100 (3 CREDITS) (3:1:0)
Introduction to Latin America
This course considers the environmental and institutional foundations as well as the developmental processes of Latin America using an interdisciplinary approach.

LAMS 1101 (3 CREDITS) (3:1:0)
Introduction to Latin American Culture
This course considers the developmental processes and cultural dynamics of contemporary Latin America from an interdisciplinary perspective.

LAMS 1105 (0 CREDITS) (3:0:0)
Lecture Series
This is a non-credit, non-fee course. It is a one-semester series of lectures on Latin American Studies. A minimum of four lectures and a maximum of 12 will be offered during the semester.
Note: Requirement for the Diploma in Latin American Studies.

LAMS 2203 (3 CREDITS) (4:0:0)
Latin America: History
A broad survey of Latin American history beginning with the European roots and continuing with the conquest, the institutions of the Hispanic empire in America, independence, revolution, and the contemporary era.
Prerequisite(s): At least one Latin American Studies program course or permission of the instructor.

LAMS 2204 (3 CREDITS) (4:0:0)
Latin America: Literature
Hispanic civilization and culture through literature, beginning with seventeenth century peninsular Spanish literature and continuing on to twentieth century Hispanic American writing. Texts will illustrate characteristic themes, problems and institutions of the Spanish-speaking world.
Prerequisite(s): At least one Latin American Studies program course or permission of the instructor.

LAMS 2206 (3 CREDITS) (3:1:0)
Latin America in a Globalized World
This course will explore how globalization and policies of financial, trade and investment liberalization are affecting Latin America and will examine the role played by international institutions and multilateral organizations in shaping the political economy of the region. Case studies will be used to examine changes within rural and urban sectors, changing labour and migration patterns and to illustrate how Latin Americans are responding to these changes at the local, community and national levels.
Prerequisite(s): Any one of aHis 1117, ANTH 1160, ANTH 2230, ANTH 2270, ECON 2255, GEOG 1170, GEOG 2270, LAMS 1100, LAMS 1101, LAMS 2203, LAMS 2204, LAMS 2221, POLI 1100, POLI 1140, POLI 1145, POLI 1160, POLI 1250, POLI 2240, SPAN 1115, SPAN 1118, SPAN 1205, SPAN 1215, SPAN 1218, SPAN 2119, or SPAN 2219; or permission of the instructor.
LAMS 2221 (6 CREDITS) (4:0:0)
Latin America: Regional Field Studies
A one-semester interdisciplinary course that includes a field component and provides students with an opportunity for in-depth study of one particular region country in Latin America. This course combines conventional, lecture-based instruction with experiential learning. Students will be immersed in Latin American culture and society during several weeks of study and travel within a particular country. Field experiences complement lectures, seminars and readings. Evaluation is based on exams, assignments and projects. Students will be expected to undertake field-oriented assignments while in Latin America and learn basic field research techniques. This course is team taught by instructors from social sciences and humanities. Regional focus and country of study varies from year to year.
Prerequisite(s): At least one Latin American Studies program course or permission of the instructor. First year college level Spanish or equivalent strongly recommended.

LIBR (Library)
Library (LIBR) courses are restricted to students enrolled in the Library and Information Technology Program. The courses may be made available to other students on a space-available basis, with permission of the Department Chair.

LIBR 1111 (3 CREDITS) (3:1:0)
Information Retrieval Tools & Techniques
An introduction to how information is organized and retrieved with particular reference to library and information resources and databases. Students gain hands-on experience and skill in standard software programs used for communication and information retrieval.

LIBR 1118 (3 CREDITS) (3:0:1)
Techniques I
Cataloguing procedures, including choice of main and added entry headings, descriptive cataloguing, and derivative cataloguing.

LIBR 1120 (3 CREDITS) (4:0:0)
Philosophy and Functions
History of books and libraries, as well as current trends and issues in the library world.

LIBR 1195 (3 CREDITS) (3:1:0)
Special Topics I
This number is reserved for Library & Information Technology courses that may be offered from time to time by: a) Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting Lecturers.
Note: Announcements regarding LIBR 1195 offerings will be made in the Registration Guide and Course Schedule.

LIBR 1219 (3 CREDITS) (0:0:11)
Field Work I
Building resources for networking and employment through visits to libraries and related industries; researching the work place, including role of the library technician; career/job search preparation. Two weeks of practicum follow the final examination period in April. A one-day class colloquium follows the practicum.
Prerequisite(s): At least two Library Techniques courses, which may be taken concurrently: LIBR 1118, 1228, 2328, and 2418. (LIBR 1118 and 2418 must have been taken within the last 3 years, or with department approval.)

LIBR 1228 (3 CREDITS) (4:0:0)
Techniques II - Acquisitions & Technical Services
Technical services, including MARC, selection aids and collection development, acquisitions, bibliographic searching, processing, circulation, serials control, government publications.
Note: Credit will be given for only one of LIBR 1228 and LIBR 1218 (discontinued course).

LIBR 1295 (3 CREDITS) (4:0:0)
Special Topics II
This number is reserved for Library & Information Technology courses that may be offered from time to time by: a) Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting Lecturers.
Note: Announcements regarding LIBR 1295 offerings will be made in the Registration Guide and Course Schedule.

LIBR 1395 (3 CREDITS) (4:0:0)
Special Topics: Creating and Managing Digital Collections
The key elements of managing digital collections are explored through discussion, hands-on practice, and project based activities. Topics covered include project development, selection and electronic processing of materials, copyright, description (cataloguing and metadata), electronic access and preservation.
Prerequisite(s): LIBR 1111 taken within the last 3 years, or with department approval.

LIBR 2195 (3 CREDITS) (3:0:1)
Special Topics: Specialized Library Resources
An in-depth exploration of resources and services for libraries in the Business, Technology, Legal and Medical sectors.
Prerequisite(s): One of LIBR 1118, 1111, 1120, 2416, or 2328

LIBR 2295 (3 CREDITS) (4:0:0)
Special Topics: An Introduction to Records Management
This course offers a general overview of records management and an introduction to its theory and practice.

LIBR 2315 (3 CREDITS) (4:0:0)
Media Materials
Introduction to the handling, organization, and cataloguing of non-book materials including audio and videotape, pictures, cartographic materials, computer files etc., basic selection, operation, and maintenance of audio-visual hardware.
Prerequisite(s): Both LIBR 1118 and LIBR 2418 taken within the last 3 years, or with department approval. LIBR 2418 may be taken concurrently.
LIBR 2328 (4 CREDITS) (4:0:3)
Techniques III
Theory and practice of subject analysis, learning to apply Library of Congress, Sears, and other specialized subject headings and to apply Library of Congress and Dewey Decimal classification numbers to library materials.

Note: This course is for students in the Library & Information Technology program.

LIBR 2395 (3 CREDITS) (4:0:0)
Special Topics: Young Adult Services
Basic training and familiarity with the literature, programs and services for young adults in public libraries.

LIBR 2410 (3 CREDITS) (3:1:0)
Children’s Services
History, evaluation and acquisition of children’s literature; library services for children; programming including puppeteering and storytelling.

LIBR 2411 (3 CREDITS) (3:0:1)
Electronic Information Handling
Information storage organization and retrieval; and provision of library services, including bibliographic database development, www site creation, search strategy and use of online databases; current issues in electronic information service.

Prerequisite(s): LIBR 1111 taken within the last 3 years, or with department approval.

LIBR 2416 (3 CREDITS) (4:0:0)
Readers’ Services
Reference service, including basic tools in both print and electronic form, such as encyclopedias, dictionaries, almanacs, indexes, etc.; interlibrary loan; dealing with reference queries and the public.

LIBR 2418 (3 CREDITS) (4:0:0)
Techniques IV - MARC Coding & Derived Cataloguing
Creation and manipulation of MARC (machine readable cataloguing) records for online catalogues. Identification, capture, import, and modification of catalogue records from bibliographic sources online and on CD-Rom.

Prerequisite(s): LIBR 1118 taken within the last 3 years, or with departmental permission.

LIBR 2419 (3 CREDITS) (0:0:10)
Field Work II
Four weeks following the fourth term examinations gaining practical experience working in a library. A one-day class colloquium follows the practicum period. Evaluation is done by both the program co-ordinator and the library supervisor. Graded S/U.

Prerequisite(s): LIBR 1219, 2328, 2315 and 2416 (LIBR 2328, 2315 and 2416 may be taken concurrently).

LIBR 2495 (3 CREDITS) (2:2:0)
Special Topics: Supervisory Skills
This course provides students with an understanding of what it means to be a supervisor and prepares them to take on supervisory roles. Problem solving, decision making, coaching, performance assessment, labour relations and interpersonal skills and knowledge will be developed through the examination of work environments in a library situation.

MARK (Marketing)

MARK 1115 (3 CREDITS) (3:1:0)
Introduction to Marketing
This course examines the basic elements of marketing including target markets, product, price, distribution and promotion in domestic and international markets with brief comparisons between the public and private sectors.

MARK 1200 (3 CREDITS) (4:0:0)
Selling Skills I
(formerly: MARK 1218)
This course exposes students to the principles of professional selling. The focus is on relationship and needs-based selling in a business-to-business environment. It prepares students for a range of life skills such as interviewing for jobs or “selling” ideas within their organizations. The course also focuses on understanding customer and sales representative behaviour in a selling environment as well as learning about prospecting, different forms of presentations, objection handling, and various closing techniques. Students will apply their skills by selling advertising for the Pacific Rim magazine.

Prerequisite(s): MARK 1115, or permission of the Department.
Note: Students will receive credit for only one of MARK 1218 and MARK 1200.

MARK 1250 (3 CREDITS) (3:1:0)
Integrated Marketing Communications
(formerly: BUsM 2000)
This course builds on the essential marketing concepts by focusing on the promotional elements in marketing strategy known as Integrated Marketing Communications. Topics include effective integration of advertising, direct/internet marketing, sales promotion, public relations, event marketing and personal selling. Students will be comfortable evaluating the strengths and weaknesses of each element of the promotion mix and be able to recommend the appropriate mix for a given situation. In addition, students will cover the role of IMC, the IMC strategic planning process, budgeting, creative development, media strategy, execution and evaluation. The material will be taught using lectures, case studies, guest speakers and assignments.

Prerequisite(s): MARK 1115, or with the permission of the Department.

MARK 2000 (3 CREDITS) (4:0:0)
E-Commerce and Distribution
(formerly: BUsM 2000)
This course introduces business students to the role of the Internet in marketing and distribution. It identifies and explains the challenges and critical success factors in the effective use of the Web as a distribution and marketing tool. Topics include an analysis of the structural changes occurring in Canadian distributions; the role and functions of channel institutions; issues in distribution channel management; the integration of distribution and the Web in marketing mix; the strategic positioning of a business; Web presence; and the logistics involved in managing an Internet marketing based business.

Prerequisite(s): MARK 1115
Note: Students will receive credit for only one of BUsM 2000 and MARK 2000.
### MARK 2100 (3 CREDITS) (3:1:0)
**Marketing Research**  
(Formerly: MARK 2327)  
This course examines contemporary research methods employed in business. Emphasis is placed on understanding the process of business research and how it relates to hypothesis development, problem investigation, and management questions. The major tools and techniques in primary and secondary research are examined with special emphasis on the Internet as an effective research tool.  
Note: Students will receive credit for only one of MARK 2327 and MARK 2100.

### MARK 2200 (3 CREDITS) (3:0:1)
**Marketing Communications Design**  
This introductory computer course builds on the design skills acquired in MARK 2400 Advertising and Design and introduces the student at a basic level to the Adobe Creative Suite, which includes Adobe Photoshop, Illustrator, and the new InDesign page layout program. The emphasis is on acquiring entry-level abilities in the Macintosh environment in order to combine text, graphics, and photos. The course is project based and students will create a brochure and a newsletter for their portfolio. The material will be taught in the lab with lectures and focus on practical assignments.  
Prerequisite(s): MARK 1115, or with the permission of the Department.

### MARK 2400 (3 CREDITS) (4:0:0)
**Advertising**  
(Formerly: MARK 2323)  
This course introduces advertising theory and practice and its role within Marketing Communications. Topics include the role of advertising, advertising plans/strategies and a detailed analysis of media such as newspapers, magazines, radio, television, and out of home.  
Prerequisite(s): MARK 1115 or PUBL 1115 or departmental permission.  
Note: Students will receive credit for only one of MARK 2323 and MARK 2400.

### MARK 2430 (3 CREDITS) (3:1:0)
**Marketing Planning**  
This course provides the students with the opportunity to apply marketing principles to develop a formal marketing plan for a product/service. In teams, the students participate in a marketing simulation using computer-based management systems to make marketing strategy decisions. Students integrate marketing strategy decisions with other aspects of business strategy including societal considerations and business ethics.  
Prerequisite(s): Completion of a minimum of 30 credits including FMGT 1116 or 2293; MARK 1115; or departmental permission.  
Note: As this course is a capstone course for the Marketing Management program, students should take this course in their last semester of study after having completed most of their diploma courses.

### MARK 3100 (3 CREDITS) (3:1:0)
**Special Events Planning and Marketing**  
(Formerly: MARK 2350)  
This course will introduce students to the exciting industry of Event Marketing and Sponsorship including social functions, domestic and international trade shows, conferences, and major conventions. The course will examine the strategic reasons why organizations participate in event marketing and sponsorship activity in both the domestic and international marketing environment. In addition, students will be exposed to the tactics used in the pitching, designing, planning, marketing, managing, budgeting, execution and evaluation of events. Students will gain experience practicing the skills that are required in event management and execution including business development, proposal writing, event design, budgeting, venue selection, catering, determining audio visual requirements, security, risk management, and more. The course is taught using a series of seminar type lectures, group work and individual assignments and a major project.  
Prerequisite(s): Completion of 54 credits or departmental permission.  
Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended. MARK 1115 is also recommended.  
Students will receive credit for only one of MARK 3100 and MARK 2350.

### MARK 3200 (3 CREDITS) (4:0:0)
**Consumer Behaviour**  
This course intends to provide students with a strategic overview of Consumer Behaviour Theory and to demonstrate how this theory can be used to set marketing strategy and achieve overall corporate goals. The course will introduce students to both the internal and external influences on a consumer’s decision to buy a product or service. The course looks at consumers as individuals and as part of society. Students will gain first-hand experience uncovering “consumer insights” in order to develop marketing strategies. This course will be taught using lectures, case studies, guest speakers and group and individual assignments.  
Prerequisite(s): Completion of 54 credits or departmental permission.  
Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended. MARK 1115 is also recommended.

### MARK 3210 (3 CREDITS) (3:0:1)
**Web Design and E-Commerce**  
To succeed in today’s economy, companies must incorporate the Internet into their marketing strategies. This course examines the role of the Web today and how to optimize the use of e-marketing. The course provides students with the fundamental principles and techniques for designing and developing effective websites for promotional, distribution, and interactive communication. Students will learn the basics of information design and usability, and will learn the fundamentals of website development using Macromedia Dreamweaver MX2004. All students will have their own domains by the end of the course.  
Prerequisite(s): Completion of 54 credits or departmental permission.  
Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended. MARK 1115 is also recommended.
MARK 3250 (3 CREDITS) (2:2:0)
Public Relations
(Formerly: MARK 2450)
This course provides students with an understanding of the role public relations plays within a variety of organizations. This course is aimed at preparing students to identify key stakeholder groups for a company and design programs for these groups. Students will practice using the public relations “tools of the trade”. The material will be taught using lectures, case studies, guest speakers and group/individual assignments.
Prerequisite(s): Completion of 54 credits or departmental permission.
Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended.
MARK 1115 is also recommended.
Students will receive credit for only one of MARK 3250 and MARK 2450.

MARK 3400 (3 CREDITS) (4:0:0)
Retail Marketing
This course covers the principles and practice of strategic retail marketing and orients students to the dynamic and competitive nature of the industry. Topics include contemporary issues in retail including in-store and non-store retailing, e-tailing, managing the retail operations, supplier relationships, pricing, merchandising, retail advertising, sales promotion, sales techniques, inventory management and control, and store design and location.
Prerequisite(s): Completion of 54 credits or departmental permission.
Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended.
MARK 1115 is also recommended.

MARK 4100 (3 CREDITS) (4:0:0)
Business to Business Marketing
The course focuses on the elements that make up effective distribution channels from the raw material supplier to the final consumer. Channel management topics include the role of buyers, competitive bidding, pricing, terms of sale, channel structure, designing the marketing channel, channel relationships and responsibilities, selecting the channel members, and physical distribution and transportation. The course also examines why effective inter-organizational relationships and partnerships are needed to efficiently manage the flow of materials and information between members of the distribution channel. This course further develops students’ skills in the Marketing Function as they learn how to apply the elements of the Marketing Mix to Business-to-Business selling through case studies, lectures, discussions, role-playing and research. This course provides students with the practical foundation they will need to become successful business marketers.
Prerequisite(s): Completion of 54 credits or departmental permission.
Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended.
MARK 1115 is also recommended.

MARK 4220 (3 CREDITS) (4:0:0)
Customer Relationship Marketing and Database Marketing
This course provides students with a strategic overview of Customer Relationship Marketing and Database Marketing and how they can be used to achieve an organization’s overall goals. Students will apply Customer Relationship Marketing strategies and understand the value of one-to-one marketing and how to calculate customer lifetime value. Students will have a working knowledge of database marketing applications such as setting a contact strategy, approaches to segmentation, uses of predictive modelling, examples of personalization and ways to cross-sell/up-sell. The material will be taught using lectures, case studies, guest speakers and assignments.
Prerequisite(s): Completion of 54 credits or departmental permission.
Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended.
MARK 1115 is also recommended.
Students will receive credit for only one of MARK 4220 and MARK 2440.

MARK 4250 (3 CREDITS) (4:0:0)
Selling Skills II
This course examines the roles and responsibilities of a sales manager and the management of the sales force. Students will be introduced to the concept of personnel management as it applies to the management of the sales force. The course develops sales skills in goal setting, prioritizing and managing time and teaches techniques and strategies for successful sales negotiations: active-listening skills, questioning skills, “thinking on your feet”, negotiating skills and presentation skills applicable in the domestic market and in different cultural situations. The course content is covered through case studies, lectures, discussions, role-playing and research.
Prerequisite(s): MARK 1200 and completion of 54 credits or departmental permission.
Note: As this course deals with advanced business topics, some first- and second-year coursework in business is highly recommended.
MARK 1115 is also recommended.
Students will receive credit for only one of MARK 4250 and MARK 2418.
MATH (Mathematics)

For more detailed information about the Department of Mathematics and Statistics, including course outlines and advice on course selection, please visit our website at www.langara.bc.ca/departments/mathstats/index.html

Statistics Courses

For statistics courses please see the STAT (STATISTICS) section in this calendar.

Duplicate Courses

In some cases, different courses cover substantially the same material but are targeted to different audiences. Credit cannot be given for more than one such course or sequence. In particular, college credit will be given for only one in each of the following sets of courses (or course sequences).

- MATH 1153/1253, or MATH 1171, or MATH 1173 or MATH 1174
- MATH 1271 or MATH 1273 or MATH 1274

Standard Sequence

The standard sequence for students who need first-year Calculus for Science and who attended secondary school in British Columbia depends on the grade they achieved in Principles of Mathematics 12.

Those with a recent:

- “C” or “C-” normally take MATH 1152, then 1170, 1174 and 1274.
- “C+” normally take MATH 1170, 1171 and 1271 or 1170, 1173/1183 and 1273/1283.
- “B” normally take MATH 1153, 1253 and 1271 or 1173/1183 and 1273/1283.
- “A” normally take MATH 1171 and 1271 or 1173/1183 and 1273/1283.

NOTE: Students with a “B” or lower in Principles of Mathematics 12 are advised to go through the Mathematics Diagnostic Test Process since this process might suggest direct entry into MATH 1171 or MATH 1173 without having to take MATH 1152 or MATH 1170.

The standard course sequence for students who need first-year Calculus for Business/Commerce and who attended secondary school in British Columbia depends on their grade in Principles of Mathematics 12. Those with a recent:

- “C” or “C” normally take MATH 1152 then 1170, 1174 and 1274.
- “C+” normally take MATH 1170 then MATH 1174 and 1274.
- “B” or “A” normally take MATH 1174 and 1274.

NOTE: Students with a “C+” or lower in Principles of Mathematics 12 are advised to go through the Mathematics Diagnostic Process since this process might suggest direct entry into MATH 1174 without having to take MATH 1152 or MATH 1170.

NOTE: In the above, “recent” generally means the Principles of Mathematics 12 course was completed within the last three years.

Prerequisites

Prerequisites for courses in Mathematics are valid for only three years. Students wanting to register in a course for which the prerequisite was taken more than three years ago will require departmental permission. Students may be required to go through a diagnostic process (see below) or to “upgrade” the prerequisite.

NOTE: MATH 1115, 1119 and 1120 have no formal prerequisite; however, experience has shown that success in these courses is unlikely without recent, successful completion of the BC Mathematics 10 course, or its equivalent. (Some of these courses, particularly MATH 1120 demand a better background than Mathematics 10 due to the requirements of the Career programs of which they are a part.)

Repeating a course

A Mathematics course may be taken only twice, regardless of the grade earned in the first enrolment. The department chair, or delegate, will decide on exceptions to this rule, usually on the basis of documented evidence of upgraded prerequisites.

Diagnostic Tests

The Mathematics Diagnostic Tests (MDT) are part of an assessment process designed to identify the mathematics or statistics course that is most appropriate in view of a student’s background, current abilities, and future needs. The tests consist of a collection of multiple-choice questions involving basic mathematical skills, algebra, geometry, trigonometry, reading, and problem solving. These questions are designed to assess readiness for each of MATH 1101, 1150, 1152, 1153, 1170, 1171, 1173, 1174 and 1190 and some Statistics courses (see also the STAT section of this Calendar). Immediately after writing the test, each student meets with a departmental advisor to consider the student’s most recent transcripts, the current test results, and a short background survey. Students should go through this process if they wish to register in one of the above courses but do not have the background described below. Students can take part in this process only once in any given twelve-month period and the results are valid for three years. For more information, including some sample questions and review materials, visit our website at www.langara.bc.ca/academic-services/math-diagnostic-test/index.html. Students do not have to write the test if they have:

- recently completed a prerequisite Langara College Mathematics course with the grade required by the course they want to register in.
- a recent “A” grade in Principles of Mathematics 12 and want MATH 1171.
- a recent “B” grade in Principles of Mathematics 12 and want MATH 1153 or 1173 or 1174.
- a recent “C+” grade in Principles of Mathematics 12 and a recent “C-“ grade in BC Provincial Calculus 12 and want MATH 1153 or 1171 or 1173 or 1174.
- a recent “C+” grade in Principles of Mathematics 12 and want MATH 1170.
- a recent “C“ grade in Principles of Mathematics 12 and want MATH 1152.
- a recent “C” grade in Principles of Mathematics 11 and want MATH 1150 or 1118 or 1190 or STAT 1124.

“Recent” means within the previous three years.

Students who are currently enrolled in, or have completed, a Langara College Mathematics course are not normally permitted to take the MDT. A schedule of when the tests can be written for the upcoming semester and information about registering for the test is available at the website mentioned above. See the STAT (Statistics) section in this Calendar for information on the Statistics Diagnostic Test.

MATH 1100 (3 CREDITS) (4:1:0)

Mathematics Skill Development

A course in the fundamentals of arithmetic (including signed numbers) for those likely to experience difficulty in elementary algebra, business mathematics or statistics. Students are guided and supported through individual work and attend regular classes on selected topics. This course does not correspond to the high school curriculum in any way, but on completing the course students will be competent in arithmetic skills up to and including the Grade 9 level. Graded S/U.
Prerequisite(s): This course is not available to students with a “C-” grade or better in B.C. Principles of Mathematics 12 or equivalent. An “S” grade in this course enables students to progress to MATH 1101. An “S” grade in this course and passing the MATH 1100 business package enables students to progress either to MATH 1115 or MATH 1118. An “S” grade in this course and passing the additional statistics package enables students to progress to STAT 1124.

Note: May not be used as credit towards a Langara College credential.

MATH 1101 (3 CREDITS) (4:1:0)
Basic Algebra
An introduction to algebra, covering the algebraic topics contained in high school courses up to and including the Grade 10 level. Content includes linear equations in one variable, word problems, integer exponents, polynomials, rational expressions, square roots, equations and graphs of lines. Graded S/U.

Prerequisite(s): Prerequisite: “S” grade in MATH 1100 or permission of the department (based on the Mathematics Diagnostic Test). This course is not available to students with a “C-” grade or better in B.C. Principles of Mathematics 12 or equivalent. Transfer: An “S” grade in MATH 1101 enables a student to take MATH 1150 or STAT 1124 (in the case of STAT 1124, the STAT 1124 diagnostic test must also be successfully completed) or MATH 1118.

Note: May not be used as credit towards a Langara College credential.

MATH 1110 (3 CREDITS) (1:0:3)
Introduction to Computer Business Mathematics
The main purpose of this course is to introduce students to business mathematics, especially the mathematics of finance, in such a way that they learn to use the electronic spreadsheet effectively. While its major aim is to familiarize students with important financial and other business mathematics concepts, this course makes careful use of computer science principles in teaching the design of spreadsheets.

Prerequisite(s): Principles of Mathematics 11 is recommended.

MATH 1115 (3 CREDITS) (3:0:1)
Introduction to Business Mathematics
This course provides an introduction to business mathematics. It includes a review of arithmetic and basic algebra. Topics include percent, proportion, simple and compound interest, loans, mortgages, annuities, insurance and premiums, economics, studies, inventories and introductory statistics.

Prerequisite(s): Recent successful completion of BC Math 10 is strongly recommended.

MATH 1118 (3 CREDITS) (4:0:0)
Mathematics of Finance
An introduction to the mathematics of finance and investment including simple interest and discount, compound interest, simple and general annuities, amortization and sinking funds, depreciation and valuation of investments. Computer applications.

Prerequisite(s): Principles of Mathematics 11 with a “C” grade or higher, or Applied Mathematics 12 with a “C” grade or higher, or MATH 1101 with “S” or MATH 060 or successful completion of the Computer Information Systems Math Entrance Test or permission of the department.

MATH 1119 (3 CREDITS) (4:0:0)
Mathematics of Business Affairs
Basic mathematics of everyday business affairs including simple and compound interest, promissory notes, installment buying, trade discounts, loans, mortgages, insurance, investments.

Prerequisite(s): Recent successful completion of BC Math 10 is strongly recommended.

MATH 1120 (3 CREDITS) (4:0:0)
Mathematics for Professional Photography

Prerequisite(s): Recent successful completion of BC Math 10 is strongly recommended.

MATH 1121 (3 CREDITS) (4:0:0)
Mathematics and Statistics for Real Estate Studies
A course designed to provide students in the Real Estate Studies program with a review of basic mathematics, an introduction to business mathematics, annuities, graphs, and descriptive statistics. Course restricted to students in the Real Estate Studies program. This equates to the AIC course Appraisal 2200.

MATH 1150 (3 CREDITS) (4:1:0)
Basic and Intermediate Algebra
A one-term course in algebra, covering most topics introduced in high school courses up to and including Principles of Mathematics 11. Content includes real number concepts, algebraic operations, linear equations and inequalities, polynomial and rational expressions, exponents, roots and radicals, quadratic equations, equations in two variables and their graphs. This course is not tied to the high school curriculum, but is designed to be a fast-paced review of many topics encountered at high school. The material is covered in greater depth, with an emphasis on speed and proficiency of algebraic manipulation, problem-solving and practical applications. The objective is to up-grade existing knowledge to the level required for college algebra.

Prerequisite(s): “C” grade or higher in Principles of Mathematics 11, or App. Mathematics 12 with “C” or Principles of Mathematics 12 with “C-“, or MATH 1101, or permission of the department (based on the Mathematics Diagnostic Test). Applications of Mathematics 11 usually does not provide sufficient preparation for MATH 1150. Students with a “C-“ or better in Principles of Mathematics 11 can enrol in MATH 1150 directly, but those with Applications of Mathematics 11 must take the Mathematics Diagnostic Test.

Note: Successful completion of MATH 1150 should prepare a student for entry into MATH 1152.
MATH 1152 (3 CREDITS) (4:1:0)
Precalculus Algebra
A one-term pre-calculus course in algebra and analytic geometry necessary for studying the calculus of basic algebraic functions. It covers many but not all of the topics introduced at high school, with an emphasis on Grade 12 algebra. In particular, MATH 1152 provides a thorough review of intermediate algebra, functions and graphing, as well as an introduction to the exponential and logarithmic functions and basic triangle and trigonometry. This course is not tied to the high school curriculum, but is designed to be a fast-paced review of many topics encountered at high school. The material is covered in greater depth, with an emphasis on speed and proficiency of algebraic manipulation, problem-solving and practical applications. The objective is to up-grade existing knowledge to the level required for calculus.
Prerequisite(s): “C+” grade or higher in Principles of Mathematics 12 or permission of the department based on the MDT Process; or completion of MATH 1150 with “C-” or higher. Students with an “A” or “B” in Principles of Mathematics 11 may take MATH 1152 provided they score sufficiently highly in the MDT. Students with an “A” or “B” in Principles of Mathematics 12 may by-pass MATH 1152 and enrol directly into the calculus courses.
Note: Successful MATH 1152 students typically proceed into MATH 1153 or 1170, but cannot normally proceed into MATH 1171 or MATH 1173/1183. The MATH 1170 curriculum comprises material covered to the level required for calculus.
Prerequisite(s): “C+” grade or higher in Principles of Mathematics 12, or permission of the department (based on the MDT Process), or completion of MATH 1152 with a “C-” grade or higher.

MATH 1153 (3 CREDITS) (4:0:0)
Introduction to Calculus I (Part I)
A course in the fundamentals of differential and integral calculus with their applications, but reviewing many of the basic algebraic and geometric concepts of precalculus mathematics. Topics include algebraic skills, limits, derivatives, curve sketching, optimization, related rates, approximation, antiderivatives and linear motion.
Prerequisite(s): “B” grade or higher in Principles of Mathematics 12, or permission of Department based on the MDT Process or completion of MATH 1152 with a “C+” grade or higher, or MATH 1170 with a “C-” grade or higher, or Principles of Mathematics 12 with “C+” and Calculus 12 with “C-“

MATH 1159 (0 CREDITS) (0:1:0)
Precalculus Tutorial Support
Enrolment in this course entitles the student to participate in weekly small group tutorial sessions for assistance with the material of MATH 1152 or 1170.
Prerequisite(s): Concurrent enrolment in either MATH 1152 or 1170.

MATH 1162 (3 CREDITS) (4:0:0)
Finite Mathematics I
A presentation of mathematical models in a social, business or biological context and a consideration of specific applied problems in these areas. Some background material of historical, cultural and philosophical interest will be included. Covers basic symbolic logic, set theory, counting methods, probability and statistics. Especially appropriate (usually together with MATH 1262) for students requiring only one year of college mathematics, and will serve as basic science requirement for liberal arts students.
Prerequisite(s): “B” grade or higher in Principles of Mathematics 11, or Applied Mathematics 12, or MATH 1150 with a “B-” grade or higher or Principles of Mathematics 12 with a “C” grade or higher.
Applications of Mathematics 11 do not provide sufficient preparation for this course.

MATH 1170 (3 CREDITS) (4:0:0)
Precalculus Mathematics
A one-term pre-calculus course for stronger students which is intended to lead into the “full-speed” calculus sequence starting with MATH 1171 or MATH 1173/1183. The MATH 1170 curriculum comprises material covered in high school with emphasis on the transcendental functions found in most Grade 12 curricula and is intended as a reinforcement of these basic topics. It includes a review of algebraic functions and their graphs and a solid coverage of exponential and logarithmic functions as well as trigonometry and trigonometric functions, including inverse trigonometric functions. This course is not tied to the high school curriculum, but is designed to be a fast-paced review of many topics encountered at high school. The material is covered in greater depth, with an emphasis on speed and proficiency of algebraic manipulations, problem-solving and practical applications. The objective is to up-grade existing knowledge to the level required for calculus.
Prerequisite(s): “C+” grade or higher in Principles of Mathematics 12, or permission of the department (based on the MDT Process), or completion of MATH 1152 with a “C-” grade or higher.

MATH 1171 (3 CREDITS) (4:0:0)
Calculus I
This course deals primarily with differentiation. The major topics include limits (intuitive approach), development and definition of derivatives, differentiation techniques (algebraic, trigonometric, inverse trigonometric, exponential, and logarithmic functions), curve sketching, applications of derivatives (optimization, related rates, linear motion, differential approximations), antiderivatives, growth and decay.
Prerequisite(s): Principles of Mathematics 12 with an “A” grade; or permission of department based on the MDT process (MDT 95); or completion of MATH 1170 with a minimum “B-” grade; or Principles of Mathematics 12 with a minimum “C+” grade and Calculus 12 with a minimum “C-“ grade.

MATH 1173 (3 CREDITS) (4:0:0)
Calculus I with Computer Explorations
This is a course in differential calculus, the study of how quantities change. Topics include limits, the definition and interpretations of the derivative, rules and techniques for computing derivatives, using the derivative to study problems involving rates of change, approximation, graphs, and optimization. Traditional classroom instruction will be augmented with laboratory work in MATH 1183. See the description of MATH 1183 for more detail about these activities.
Prerequisite(s): Principles of Mathematics 12 with a minimum “B” grade; or permission of the department based on the MDT Process; or the completion of MATH 1170 with a minimum “C+” grade; or Principles of Mathematics 12 with a minimum “C+” grade and Calculus 12 with a minimum “C-” grade.
Corequisite(s): MATH 1183

MATH 1174 (3 CREDITS) (4:0:0)
Calculus I - Economic and Business Applications
This course deals primarily with differentiation. Topics include: limits (intuitive approach); development and definition of derivatives; rules for differentiation (algebraic, trigonometric, exponential, and logarithmic functions); selected applications of derivatives (concentrating on business examples); introduction to antiderivatives.
Prerequisite(s): A minimum “B” grade in Principles of Mathematics 12 or permission of the department based on the MDT Process; or completion of MATH 1170 with a minimum “C” grade; or Principles of Mathematics 12 with “C+” grade and Calculus 12 with “C-” grade.
MATH 1179 (0 CREDITS) (0:1:0)
Calculus I Tutorial Support
Enrolment in this course entitles the student to participate in weekly small group tutorial sessions for assistance with the material of MATH 1153, 1253, 1171, 1173 and 1174.
Prerequisite(s): Concurrent enrolment in one of MATH 1153, 1253, 1171, 1173 or 1174.

MATH 1183 (1 CREDIT) (0:0:2)
Computer Explorations for Calculus I
This is the laboratory component of MATH 1173. These laboratory activities will usually involve the use of a Computer Algebra System, will include instruction about the computers and the software being used, and will involve activities designed to promote better understanding of ideas being studied in MATH 1173.
Corequisite(s): MATH 1173

MATH 1190 (3 CREDITS) (4:0:0)
Fundamental Concepts and Practices of Mathematics
This course is designed for prospective and current elementary school teachers. It is intended to develop an understanding of fundamental mathematical concepts such as numeration systems, arithmetic operations, elementary geometry, elementary probability, and elementary statistical measures and displays. It is also intended to develop a facility with fundamental mathematical practices such as problem solving, using representations such as graphs and algebraic symbols, identifying patterns, abstracting from context, and projecting mathematical ideas onto particular situations.
Prerequisite(s): “C” or higher in Principles of Mathematics 11 OR Applications of Mathematics 12, OR “C-” in Principles of Mathematics 12, OR “S” in MATH 1101, OR permission of the department based on performance on the Mathematics Diagnostic Test (MDT 58).

MATH 1210 (3 CREDITS) (2:0:2)
Business Analysis By Computer
A course using the electronic spreadsheet to solve financial problems, suitable for students in business administration or headed for commerce.
Prerequisite(s): “C” grade or higher in MATH 1118, “A-” grade in MATH 1119, or equivalent and “C” grade or higher in BCAP 1200 or CPSC 1010 or equivalent or permission of the department. Some prior experience with electronic spreadsheets is essential.

MATH 1231 (3 CREDITS) (4:0:0)
Concepts of Computer Mathematics
The course background will consist of an introduction to study of numeration systems, Set Theory, Logic, Boolean Algebra, Switching Networks, Linear and non-Linear functions, Systems of Linear operations, Matrix Algebra, applications into Linear Programming. An introductory programming language will be taught to provide the necessary practical applications.
Prerequisite(s): Registration in the Computer Information Systems Program, or any one of MATH 1153, 1162, 1171, 1173 or 1174.

MATH 1250 (3 CREDITS) (4:0:0)
Geometry
Topics will include: areas, similar figures, the circle, the ellipse, and the parabola. This course is not intended for students who have had geometry in high school.
Prerequisite(s): Principles of Mathematics 11 with a “C” grade or higher, or MATH 1150 (may be taken concurrently).

MATH 1253 (3 CREDITS) (4:0:0)
Introduction to Calculus I (Part II)
Study of the calculus concepts introduced in MATH 1153 as they pertain to transcendental functions.
Prerequisite(s): MATH 1153 with a “C-” grade or higher.

MATH 1262 (3 CREDITS) (4:0:0)
Finite Mathematics II
A sequel to MATH 1162, covering matrix methods, applications to linear programming and Markov chains, Mathematics of Finance and selected optional topics. The approach will be similar to that of MATH 1162.
Prerequisite(s): MATH 1162 with a “C-” grade or higher.

MATH 1271 (3 CREDITS) (4:0:0)
Calculus II
This course deals primarily with integration and series. The major topics include the concept of integration, techniques of integration, applications of integration, and infinite series.
Prerequisite(s): MATH 1253 or MATH 1171 or MATH 1173 with a “C-” grade or higher.

MATH 1273 (3 CREDITS) (4:0:0)
Calculus II with Computer Explorations
This is a course in integral calculus, the study of how quantities accumulate. Topics include the definition of the definite integral, interpretations and properties of the integral, techniques for computing integrals, techniques for approximating integrals, applications of integrals, and the study of infinite series. Traditional classroom instruction will be augmented with laboratory work in MATH 1283. See the description of MATH 1283 for more detail about these activities.
Prerequisite(s): MATH 1253 or MATH 1171 or MATH 1173 with a “C-” grade or higher, or permission of the department.
Corequisite(s): MATH 1283

MATH 1274 (3 CREDITS) (4:0:0)
Calculus II with Economic and Business Applications
The indefinite integral and techniques of integration. The definite integral and applications to business, differential equations and probability distributions. Introduction to multiple variable calculus.
Prerequisite(s): MATH 1171, 1173, 1174 or 1253 with “C-” grade or higher.

MATH 1279 (0 CREDITS) (0:1:0)
Calculus II Tutorial Support
Enrolment in this course entitles the student to participate in weekly small group tutorial sessions for assistance with the material of MATH 1271, 1273 and 1274.
Prerequisite(s): Concurrent enrolment in one of MATH 1271, 1273 and 1274.

MATH 1283 (1 CREDIT) (0:0:2)
Computer Explorations for Calculus II
This is the laboratory component of MATH 1273. These laboratory activities will usually involve the use of a Computer Algebra System, will include instruction about the computers and the software being used and will involve activities designed to promote better understanding of the ideas being studied in MATH 1273.
Corequisite(s): MATH 1273
MATH 2310 (3 CREDITS) (4:0:0)  
**Quantitative Methods in Business**  
Applications of basic mathematics, calculus, and linear algebra to business administration. Includes linear programming, sensitivity analysis, transportation problems, decision analysis, simulation, and network applications. Required of all students in the first year UBC Commerce program.  
Prerequisite(s): MATH 1171, 1173, 1174, or 1153 with a “C-” grade or higher. (May be taken concurrently with permission of the department.)

MATH 2311 (3 CREDITS) (4:0:0)  
**Business Applications of Calculus**  
Introduction to differential and integral calculus and their applications in business.  
Prerequisite(s): MATH 1262, 1171, 1173, or 1253 with a “C-” grade or higher. (May be taken concurrently with permission of the Department.)

MATH 2361 (3 CREDITS) (4:0:0)  
**Algebra I**  
Integers, integral domains, fields, vector spaces, polynomial domains, matrices, Euclidean spaces.  
Prerequisite(s): MATH 1271 or 1273 with a “C-” grade or higher.

MATH 2362 (3 CREDITS) (4:0:0)  
**Linear Algebra**  
An introductory course on vectors, matrices, linear equations and their applications. Systems of linear equations, matrix notation, Gaussian elimination. Operations on matrices, determinants, Vectors in n-dimensional space, dot and cross products, lines and planes. Linear combinations of vectors, independence, subspaces, the concepts of basis and dimension. Orthonormal bases for subspaces, the Gram-Schmidt algorithm, orthogonal matrices. Application to the theory of least squares and the pseudo-inverse. Linear and affine transformations, change of basis, application to computer graphics. Eigenvalues and eigenvectors, diagonalizable matrices, application to stochastic matrices, symmetric matrices, quadratic forms, conic sections.  
Prerequisite(s): MATH 1271, 1273, or 1274 with a “C-” grade or higher or permission of the department.

MATH 2365 (4 CREDITS) (4:0:2)  
**Mathematical Modelling**  
In this course, students will be exposed to a survey of mathematical techniques used to model real world problems. Topics include finite difference equations, applications of calculus and optimization, discrete-time dynamical systems, differential equations, and Monte Carlo simulations. Examples will be drawn from several areas including biology, economics, medicine, physics, and chemistry. The students will make use of Computer Algebra Systems such as MATLAB, MAPLE, and DERIVE, or high level programming languages to implement models and to run simulations.  
Prerequisite(s): MATH 1271 or 1273; and MATH 2362 (MATH 2362 may be taken concurrently).

MATH 2371 (3 CREDITS) (4:0:0)  
**Calculus III**  
Theory and applications related to the following topics: vector-valued functions, partial differentiation, extremal problems, double integrals, triple integrals, and additional topics concerning functions of several variables.  
Prerequisite(s): MATH 1271 or 1273 with a “C-” grade or higher.

MATH 2373 (3 CREDITS) (4:0:0)  
**Real Analysis**  
An introduction to the theoretical foundations of calculus. Topics include the nature of mathematical proof, properties of real numbers, limits, sequences, series, continuity and differentiation.  
Prerequisite(s): MATH 1271 or 1273 or 1274 with a “C-” or higher, or permission of the department.

MATH 2382 (1 CREDIT) (0:0:2)  
**Linear Algebra Laboratory**  
Computer lab activities to complement topics from linear algebra studies in MATH 2362. The labs are designed to promote better understanding of the ideas studied in MATH 2362, as well as to study applications of Linear Algebra Theory. Applications include Polynomial Fitting, Cryptography, Computer Graphics, Least Squares Method, Polynomial Approximation.  
Prerequisite(s): MATH 2362 which may be taken concurrently.

MATH 2462 (3 CREDITS) (4:0:0)  
**Linear Algebra with Application**  
The least squares method; diagonalizable matrix, powers and exponentials, stochastic matrices and Markov chains, orthogonal matrices, symmetric matrices and quadratic forms, the spectral theorem, maxima and minima of functions of several variables, complex matrices. Application to statistics, economics, physics, engineering, etc.  
Prerequisite(s): MATH 2362 and MATH 2371 with a “C-” grade or higher (MATH 2371 may be taken concurrently).

MATH 2471 (3 CREDITS) (4:0:0)  
**Calculus IV**  
Topics include: curves and surfaces, vector fields, line and surface integrals, Divergence Theorem, Theorems of Green and Stokes, application of the aforementioned topics, and additional topics concerning functions of several variables.  
Prerequisite(s): MATH 2371 with a “C-” grade or higher.

MATH 2475 (3 CREDITS) (4:0:0)  
**Differential Equations**  
First order equations, special techniques and applications; second order linear equations - linear independence and completeness, homogeneous and inhomogeneous equations, with applications; Laplace transform techniques; first order systems including matrix methods; phase plane and stability analysis of non-linear systems; numerical methods.  
Prerequisite(s): MATH 2362 and 2371 with a “C-” grade or higher. (With instructor’s permission, one of these may be taken concurrently.)

MATH 2485 (4 CREDITS) (4:0:2)  
**Numerical Analysis**  
In this course, students are exposed to current techniques used in scientific computing. Topics include: solving linear and nonlinear equations, interpolation, integration, and numerical solutions of ordinary differential equations. Extensive use is made of Computer Algebra Systems (CAS), such as MATLAB, MAPLE, and DERIVE.  
Prerequisite(s): MATH 1271 or 1273; and MATH 2362. (Exposure to a high-level programming language or a programming course such as CPSC 1150 is recommended.)
NURS (Nursing)

The following Nursing courses are restricted to students enrolled in the Nursing Program.

NURS 1100 (3 CREDITS) (0:0:7)
Nursing Practice I
This course provides an introduction to nursing practice with opportunities to learn basic nursing and assessment skills. Participants have opportunities to experience nurses’ work in a variety of settings. In addition, participants are introduced to the concept of family in relationship to nursing and health promotion. Graded S/U.
Corequisite(s): NURS 1109; NURS 1121; NURS 1130

NURS 1103 (3 CREDITS) (4:0:0)
Licensed Practical Nurse Bridging Course
This course provides an overview of concepts from Health I and II. Professional Growth I, Self and Others I and II, Healing I, and Nursing Practice I, II, III. This course emphasizes the role transition from a licensed practical nurse or a registered psychiatric nurse to a baccalaureate nurse. After successful completion of the Nursing Transition Program, students may enter Registration Term IV of Bachelor of Science in Nursing Program.
Prerequisite(s): Acceptance into the Nursing Transition Program and a minimum grade of “C” in the following: BIOL 1190 and 1191; ENGL 1127 or 1128 and ENGL 1129, 1130 or 1140
Corequisite(s): BIOL 2290

NURS 1109 (3 CREDITS) (4:0:0)
Health I: Health Styles
The major emphasis of this course is on the personal meaning of health, related health assessment, and health maintenance. Participants examine significant theoretical and conceptual frameworks of health in relation to self. By reflecting on personal experiences, participants not only have opportunity to identify personal resources, and challenges that impact health, but also to recognize the complexity of the change process as related to health-promoting behaviour.
Corequisite(s): NURS 1100, NURS 1121, NURS 1130

NURS 1111 (3 CREDITS) (4:0:0)
Health II: Facilitating Health and Healing in Families
This course focuses on family theory and families’ experiences with chronic health challenges. Participants engage with individuals and a family to understand the family’s personal meaning of health, healing, and health promotion in relation to chronic health challenges.
Prerequisite(s): NURS 1109, 1121, 1130, 1100, BIOL 1190, ENGL 1127 or ENGL 1128 all with a minimum grade of “C”.
Corequisite(s): NURS 1131 and NURS 1141

NURS 1121 (3 CREDITS) (4:0:0)
Professional Growth I: Nurses’ Work
This course provides an introduction to the profession of nursing. The philosophical foundations and the foundational concepts of the program are explored. The history of nursing, including a gendered analysis of the profession, is examined. The role of the nurse in the health care system is emphasized, as is the relationship between theory, practice, and research. Participants are introduced to the processes of critical thinking, critical reflection, and critical writing.
Corequisite(s): NURS 1100, NURS 1109, NURS 1130

NURS 1130 (3 CREDITS) (4:0:0)
Self and Others I: Self Awareness
This course focuses on the learner’s personal discovery of self and self in relation to others. Through interaction and reflection, emphasis is placed on understanding how personal beliefs, values, experiences, and perceptions have shaped self over time, and relate to and impact on our caring experiences with self and others (individual, family and groups).
Corequisite(s): NURS 1100, NURS 1109, NURS 1121.

NURS 1131 (3 CREDITS) (4:0:0)
Self and Others II: Creating Health-Promoting Relationships
The major emphasis of this course is relational practice with individuals, families and groups from a diverse background of age, culture and experience. This is an experiential course designed to deepen the participant’s understanding of caring and how the connection between caring and relationship provides the context for health and healing. Participants explore theories and processes of caring relational identity development of self as nurse, and relational practice as enacted across a range of settings and contexts.
Prerequisite(s): NURS 1100, 1109, 1121, and 1130, BIOL 1190, ENGL 1127 or ENGL 1128 all with a minimum grade of “C”.
Corequisite(s): NURS 1111 and NURS 1141

NURS 1141 (7 CREDITS) (4:0:12)
Nursing Practice II
This nursing practice experience provides opportunities for participants to develop caring relationships with individuals and families experiencing chronic health challenges. Through praxis, participants reflect upon the complexities of caring for families with chronic health challenges and develop sensitivity toward the experience of health as viewed through the individual/family’s perspective. Participants work with families and individuals in the home and community, in agencies, and in care facilities.
Graded S/U.
Prerequisite(s): NURS 1100, 1109, 1121, and 1130; BIOL 1190; ENGL 1127 or ENGL 1128 all with a minimum grade of “C”. NURS 1102 or NURS 1111 and 1131 and 1141, and BIOL 1191 and ENGL 1129 or 1130 or 1140 all with a minimum grade of “C”.
Corequisite(s): NURS 1111 and NURS 1131.
Note: Reminder: CPR Basic Rescuer level C course is required. Must have a current R.N.A.B.C. student membership.

NURS 1195 (3 CREDITS) (4:0:0)
Special Topics I
This number is reserved for Nursing courses that may be offered from time to time by: a) College Nursing Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting Nursing Lecturers.
Note: Announcements regarding NURS 1195 offerings and prerequisites will be announced in the Registration Guide and Course Schedule.

NURS 2121 (3 CREDITS) (4:0:0)
Professional Growth II: The Nursing Profession
This course builds on the philosophy and concepts examined in Professional Growth I, as well as examining and exploring the professional practice of nursing. Emphasis is placed on standards for practice, and the role of nurse as educator and advocate.
Prerequisite(s): NURS 2250 and BIOL 2290 and NURS 2140 (formerly 2240) all with a minimum grade of “C”.
Corequisite(s): NURS 2141 and NURS 2251.
NURS 2140 (8 CREDITS) (4:0:15)
Nursing Practice III
This nursing practice experience provides opportunities to develop caring relationships with people experiencing episodic health challenges. Experiences include the provision of care with individuals and families in a variety of settings, as well as in the transition from hospital to home. Graded S/U.
Prerequisite(s): A minimum “C” grade in the following: NURS 1102 or all of NURS 1111, 1131, and 1141; BIOL 1191; and one of ENGL 1129 or 1130. Note: In the 2005/06 printed Langara Calendar, the prerequisite information incorrectly listed NURS 1170 instead of “NURS 1102 or all of NURS 1111, 1131, and 1141.”
Corequisite(s): NURS 2250
Note: Reminder: CPR Basic Rescuer Level C course is a requirement for NURS 2140. Must have a current R.N.A.B.C. student membership.

NURS 2141 (8 CREDITS) (4:0:15)
Nursing Practice IV
This nursing practice experience provides opportunities for participants to develop caring relationships with individuals and families experiencing complex episodic health challenges. There are opportunities for participants to refine and use their clinical decision-making skills and to explore and utilize the expertise of a variety of health team members. Graded S/U.
Prerequisite(s): NURS 2140 (formerly NURS 2240), 2250 and BIOL 2290 all with a minimum grade of “C”.
Corequisite(s): NURS 2121 and NURS 2251
Note: Reminder: CPR Basic Rescuer Level C course is a requirement for NURS 2141. Must have a current R.N.A.B.C. student membership.

NURS 2250 (4 CREDITS) (3:0:3)
Healing I: Episodic Health Challenges
The focus of this course is on people’s experience with healing with particular reference to episodic health challenges. Participants will integrate theory and concepts of health as they relate to healing. Participants will develop a repertoire of cognitive, psychomotor, interpersonal, and organizational skills to promote healing.
Prerequisite(s): A minimum “C” grade in the following: NURS 1102 or all of NURS 1111, 1131, and 1141; BIOL 1191; and one of ENGL 1129 or 1130.
Corequisite(s): NURS 2140

NURS 2251 (4 CREDITS) (3:0:3)
Healing II: Complex Episodic Health Challenges
Participants in this workshop will develop an understanding of people’s experience with healing, specifically related to a variety of complex health challenges. Participants will further develop their repertoire of cognitive, psychomotor, interpersonal, and organizational skills to promote healing. Pattern recognition, critical decision-making, and increased self-directedness will be emphasized.
Prerequisite(s): NURS 2140 and 2250 and BIOL 2290 all with a minimum grade of “C”.
Corequisite(s): NURS 2121 and NURS 2141.

NURS 2265 (9 CREDITS) (0:0:24)
Consolidated Practice Experience I
In this consolidated practice experience, opportunities are provided to develop caring relationships with individuals and families experiencing increasingly complex episodic health challenges. Participants have opportunities to consolidate learning from the first and second year of the program in health care settings. This practice experience reflects the epistemology (knowing), the ontology (being), and the praxis (the integration of skills knowledge, beliefs, values, concepts, and issues) of previous learning.
Prerequisite(s): NURS 2141 with a minimum “S” grade, NURS 2251, 2121 and BIOL 2291 with a minimum “C” grade.

NURS 2295 (3 CREDITS) (4:0:0)
Special Topics II
This number is reserved for Nursing courses that may be offered from time to time by: a) College Nursing Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting Nursing Lecturers.
Note: Announcements regarding NURS 2295 offerings and prerequisites will be made in the Registration Guide and Course Schedule.

NURS 3111 (3 CREDITS) (4:0:0)
Health III: Teaching and Learning for Prevention
(formerly NURS 3310)
The major emphasis of this course is on health teaching for prevention. Participants examine a variety of teaching/learning theories, perspectives, and strategies that underlie meaningful interactions with individuals, families and groups. They explore and critique primary, secondary and tertiary prevention programs and basic concepts of epidemiology. They examine the nurse’s role in prevention and the significance of interdisciplinary collaboration within a variety of contexts.
Prerequisite(s): NURS 2265 with an “S” grade.
Corequisite(s): NURS 3140 and NURS 3141

NURS 3140 (8 CREDITS) (4:0:15)
Nursing Practice V
(formerly NURS 3340)
This nursing practice experience provides opportunities to develop caring relationships with individuals, families, and groups with an emphasis on prevention. The integration of the practice of teaching/learning is an essential element. In addition, participants have opportunities to broaden their experience of nurses’ collaborative roles within an interdisciplinary team. Graded S/U.
Prerequisite(s): NURS 2265 with an “S” grade.
Corequisite(s): NURS 3111 and 3141
Note: Reminder CPR Basic Rescuer Level C course is a requirement for NURS 3140. Must have a current R.N.A.B.C. student membership.

NURS 3141 (3 CREDITS) (4:0:0)
Healing/Health Sciences: Advanced Health Challenges
This course provides opportunities for participant to build on their nursing knowledge and understanding of health and natural sciences in relation to complex episodic and chronic health challenges. This advanced course will focus on current topics and emerging knowledge related to a variety of health care contexts.
Prerequisite(s): NURS 2265 with an “S” grade.
Corequisite(s): NURS 3140 and NURS 3111
NURS 3216 (3 CREDITS) (4:0:0)
Health IV: Health Promotion and Community Empowerment
This course focuses on community as client from a health promotion perspective. The underlying principles of health promotion, including the social determinants of health, participation, capacity, and empowerment are emphasized. Community development as a pattern of community health promotion practice is explored.
Prerequisite(s): A minimum grade of “C” in the following: NURS 3111, 3141, and PHIL 1105; and an “S” grade in NURS 3140.
Corequisite(s): NURS 3225, 3235, 3246, and non-Nursing Elective

NURS 3225 (3 CREDITS) (4:0:0)
Professional Growth III: Nursing Inquiry
This course focuses on enhancing participants’ everyday relational practice with individuals, families, and groups.
Prerequisite(s): A minimum grade of “C” in the following: NURS 3111, 3141, and PHIL 1105; and an “S” grade in NURS 3140.
Corequisite(s): NURS 3226, 3235, 3246 and non-Nursing Elective

NURS 3235 (3 CREDITS) (4:0:0)
Self And Others III: Reflection on Caring Practice
Building upon theories and concepts from Self & Others I and II, this course focuses on enhancing participants’ everyday relational practice with individuals, families, and groups.
Prerequisite(s): A minimum grade of “C” in the following: NURS 3111, 3141, and PHIL 1105; and an “S” grade in NURS 3140.
Corequisite(s): NURS 3216, 3225, 3246 and non-Nursing Elective

NURS 3246 (8 CREDITS) (4:0:15)
Nursing Practice VI
This nursing practice experience provides opportunities to develop caring relationships with families, groups, and communities and/or populations with emphasis on health promotion and community empowerment.
Participants have opportunities to work with a community on an identified health issue. Graded S/U
Prerequisite(s): A minimum grade of “C” in the following: NURS 3111, 3141, and PHIL 1105; an “S” grade in NURS 3140; and current CPR certification.
Corequisite(s): NURS 3216, 3225, 3235 and non-Nursing Elective.

NURS 3365 (9 CREDITS) (0:0:24)
Consolidated Practice Experience II
This consolidated practice experience is designed to provide opportunities for participants to integrate learning from previous semesters, and to advance their professional nursing practice. Participants have opportunities to consolidate learning and advance their decision making for nursing practice skills in a variety of settings. Graded S/U.
Prerequisite(s): A minimum grade of “C” in NURS 3216, 3225, 3235 and non-Nursing Elective, and an “S” grade in NURS 3246.
Note: Current CPR Certificate is required.

NURS 4125 (3 CREDITS) (4:0:0)
Professional Growth IV: Research
The intent of this course is to enhance participants’ abilities to comprehend, critique, and utilize nursing research. Participants critically reflect on various research methodologies. Participants experience ways to critically examine their practice in relation to nursing research and to pose researchable questions to inform evidence-based practice.
Prerequisite(s): An “S” grade in NURS 3365.
Corequisite(s): NURS 4126, 4145 and Nursing Elective.

NURS 4126 (3 CREDITS) (4:0:0)
Professional Growth V: Nurses Influencing Change
This course explores the ways nurses can influence and create change for the promotion of societal health. Emphasis is placed on selected strategies for enhancing nursing influence on the evolving Canadian health care system.
Prerequisite(s): An “S” grade in NURS 3365.
Corequisite(s): NURS 4125, 4145 and Nursing Elective.

NURS 4145 (8 CREDITS) (4:0:15)
Nursing Practice VII
This nursing practice experience provides opportunities for participants to engage in influencing change for the promotion of societal health within the Canadian health care system. The nursing practice experience focuses on participants’ growth in their practice as professional nurses. They have opportunities to collaborate with interdisciplinary and multi-sectoral groups. Graded S/U.
Prerequisite(s): An “S” grade in NURS 3365 and current CPR certification.
Corequisite(s): NURS 4125, 4126 and Nursing Elective.

NURS 4180 (3 CREDITS) (4:0:0)
Nursing Leadership and Management
This course explores the leadership and management knowledge and skills required by the new graduate nurse within the provision of health care services. It provides the opportunity to examine innovative and diverse roles within changing health care environment as participants learn to identity and develop their own leadership and management skills.
Prerequisite(s): An “S” grade in NURS 3365.
Corequisite(s): NURS 4125, 4126, and 4145.

NURS 4181 (3 CREDITS) (4:0:0)
The Relationship Between Culture and Health
This course involves a critical examination of the relationship between culture and health, which are explored as dynamic, socially constructed processes linked to historic eco-socio-political contexts. The impact of migration, colonialism and racialization on Aboriginal and immigrant health will also be addressed. Using a postcolonial theoretical framework, and cultural safety as a lens for critical reflection, participants actively engage with approaches to understanding how cultural diversity influences nurse-client relationships, access to health care, and health care systems.
Prerequisite(s): An “S” grade in NURS 3365.
Corequisite(s): NURS 4125, 4126, and 4145.
NURS 4182 (3 CREDITS) (4:0:0)
The Lived Experience of Disability
New Course
This course explores the lived experience of individuals with a disability and the roles of both the nurse and the nursing profession in that experience. Participants will have the opportunity to define disability, explore the history of disability, learn about the challenges faced in everyday life by those with a disability, and begin to appreciate the experience of life with a disability. Rehabilitation and the journey to optimal health will be discussed.
Prerequisite(s): An “S” grade in NURS 3365.
Corequisite(s): NURS 4125, 4126, and 4145

NURS 4246 (12 CREDITS) (4:0:28)
Nursing Practice VIII
This nursing practice experience provides opportunities for participants to consolidate their learning and explore the transition to professional nursing as a BSN graduate. Participants also explore transitions in the health care system and the workplace that affect nurses. Participants develop their practice and enhance their knowledge within a specific area, for example, a particular setting of practice, a certain client population, or a specific health challenge. Graded S/U.
Prerequisite(s): an “S” grade in NURS 4145 and a minimum ‘C’ grade in the following: NURS 4125, 4126, and NURS 4180 or 4181.

PCCN (Peach & Conflict Studies)
PCCN 1105 (0 CREDITS) (0:0:0)
Lecture Series
This is a non-credit, non-fee course. It is a one semester series of guest lectures on Peace and Conflict Studies topics. A minimum of four lectures will be offered during the semester. Requirement for the Diploma in Peace and Conflict Studies.
Note: Only offered in Fall Semester.
PCCN 1201 (3 CREDITS) (3:1:0)
Peace and Conflict in the Modern World
see Political Science 1145
The history of war; causes and consequences of war; the nuclear threat; the relationship of the arms race to other global problems; arms control and disarmament; Canada’s role.
Note: POLI 1145 is one of the core courses of the Peace & Conflict Studies Program. Only offered in Fall Semester.
PCCN 1202 (3 CREDITS) (3:1:0)
Conflict and Conflict Resolution
An examination of levels of conflict from the interpersonal to the international. The roots and dynamics of conflict; the means and history of conflict resolution; mediation and peacekeeping.
Note: Only offered in Spring Semester.

PHIL (Philosophy)
Philosophy is the discipline which develops the ability to think clearly, rationally, and courageously about those fundamental questions which lie at the roots of all other disciplines; questions involving the nature of thought, mind, time, infinity, freedom, moral obligation, happiness, truth and falsity; questions asked by those who seek to understand themselves, their society and their world. We welcome students who ask questions of this order. Philosophy 1100, 1101, 1102 and 1104 may be taken in any sequence or concurrently.

Philosophy is a heavily language-mediated discipline, and those who have trouble reading and writing English can expect difficulties. Students with a Language Proficiency Index Test (LPI) score of less than 24 or a Langara English Test (LET) score of less than 3 are discouraged from taking any philosophy course, with the exception of PHIL 1102, until they have completed an English upgrading course that would allow them to achieve these scores.

PHIL 1100 (3 CREDITS) (3:1:0)
Introduction to Philosophy: (Ethics, Social and Political Philosophy)
An introduction to a variety of the classic responses to the question “How should I conduct my life?” Some of the major themes discussed are happiness, moral goodness, rights, obligation, and freedom.

PHIL 1101 (3 CREDITS) (3:1:0)
Introduction to Philosophy: Knowledge and Reality
Formerly: Introduction to Philosophy: Epistemology and Metaphysics
The primary questions dealt with are “What is the source and the limit of human knowledge?” and “What is the nature of reality?” and “What is our place in nature?” Some of the major themes discussed are knowing and believing, mind and brain, free will and determinism, truth, existence.

PHIL 1102 (3 CREDITS) (3:1:0)
Introduction to Logic
This is an introduction to elementary formal logic. Valid and invalid reasoning. Common fallacies, logical connectives “and,” “or,” “if” ... then”. Truth tables. Propositional calculus and predicate calculus.

PHIL 1103 (3 CREDITS) (3:1:0)
Introduction to Philosophy of Science

PHIL 1104 (3 CREDITS) (3:1:0)
Critical Thinking
An introduction to the principles of practical logic. The goal is to develop our logical awareness to the point where we can no longer be victimized by the rhetoric of everyday life and can present our own arguments with clarity and confidence. Students will be taught, through extensive examples, how to understand, criticize, and construct arguments.
Prerequisite(s): One of ENGL 1127 or 1128 (or equivalent) with a “C-” or higher grade; LET 5; or LPI 30.
PHIL 1105 (3 CREDITS) (3:1:0)
Biomedical Ethics
A consideration of selected moral problems arising in the health professions: experimentation on humans and animals, euthanasia, death, confidentiality, truth telling, abortion, and the allocation of scarce medical resources. The aim of the course is to put ourselves in a position to frame rational and informed opinions on these important matters. Classes will be organized to allow for ample discussion; readings will be drawn from medical, legal, and philosophical sources. No background in law, medicine, or philosophy is presupposed.

PHIL 1106 (3 CREDITS) (4:0:0)
Philosophy of Sport
This course has two related goals: 1) to use philosophical frameworks to inquire into the nature of sport and related concepts; and 2) to use sport to introduce philosophical ideas and to show how those ideas can clarify our understanding of human institutions, values, and practices. Topics include: What is sport? What is a game? What is athletic excellence? What is sportsmanship? What is fair play? What is the relationship between sport and morality?

PHIL 1125 (3 CREDITS) (4:0:0)
Ancient Philosophy
A study of Ancient Philosophy mainly focusing on Plato and Aristotle, but with attention to the Presocratics, the Roman Stoics and later developments.
Prerequisite(s): None.

PHIL 1195 (3 CREDITS) (3:0:0)
Special Topics I
This number is reserved for Philosophy courses that may be offered from time to time by: a) College Philosophy Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting Philosophy Lecturers.
Note: Announcement regarding PHIL 1195 offerings and prerequisites will be made in the Registration Guide and Course Schedule.

PHIL 1227 (3 CREDITS) (3:1:0)
Philosophy of Education
In this course students are encouraged to consider the relationship between theories of epistemology, ethics and politics, and various views of the appropriate ways of treating children in order to assist them in becoming good citizens and fully developed individuals. The course will also compare the views of various philosophers on the subject of education.

PHIL 2201 (3 CREDITS) (3:1:0)
Epistemology
A continuation of PHIL 1101 in which some topics treated there will be examined in greater depth, and new ones introduced. We will consider three main questions: (1) What is knowledge? (How does knowing differ from believing? Is there any certain knowledge?); (2) What, if anything, can we know? (Can we know that there is an external world or the sun will rise tomorrow?); (3) How do we know what we do? (By inference or direct apprehension? By our senses, or reason, or what? Does knowledge need foundations? What is the nature of scientific knowledge?)
Prerequisite(s): Any first-year Philosophy course or consent of the instructor.

PHIL 2202 (3 CREDITS) (3:1:0)
Ethics
A consideration of such questions as: When can we hold an individual morally responsible for his actions? What is freedom? What are my obligations to my community? From the courses of action open to me, what ought I to do? What is the nature of the good? The course will consider the views of philosophers such as Plato, Aristotle, Hume, Kant, Mill and Sartre.
Prerequisite(s): Any first-year Philosophy course or consent of the instructor.

PHIL 2203 (3 CREDITS) (3:1:0)
Metaphysics
A continuation of Philosophy 1101 in which some topics treated there will be examined in greater depth, and new ones introduced. We will be concerned with the nature of human beings and the universe in which we find ourselves. Topics may include the nature of mind (Is the mind the brain, or something irreducibly psychic?), personal identity (What makes us the same person in different times and places?), freedom (Are all our actions fixed by the past?), God (What is meant by the term, and does it apply to anything?), and immortality (Does everything end with our bodily death, or can we look forward to a future state?).
Prerequisite(s): Any first-year Philosophy course or consent of the instructor.

PHIL 2210 (3 CREDITS) (3:1:0)
Contemporary Moral Issues
An examination of important moral controversies in such fields as social justice, international relations, multiculturalism, environmental ethics, corporate responsibility and personal relationships. The focus is on learning to reach balanced moral decisions, supported by sound philosophical reasoning.
Prerequisite(s): Any first-year philosophy course, or consent of the instructor.

PHIL 2225 (3 CREDITS) (3:1:0)
Existentialism
We will concern ourselves with the work of the main existentialist philosophers: Kierkegaard, Nietzsche, Jaspers, Heidegger, Sartre, de Beauvoir, and Camus. In addition we will discuss the phenomenology of Husserl, which strongly influenced both Heidegger and Sartre. We will be giving special attention to questions having to do with freedom, choice and responsibility.

PHIL 2226 (3 CREDITS) (3:1:0)
Social and Political Philosophy
This course investigates the meaning of such concepts as freedom, justice, equality, power, authority and alienation, which lie at the roots of major contemporary ideologies such as liberalism, fascism, communism, socialism and anarchism.
Prerequisite(s): Any first-year Philosophy course or consent of the instructor.

PHIL 2229 (3 CREDITS) (4:0:0)
Special Topics II - Reading course on Heidegger's Being and Time
An in-depth study of Heidegger's Being and Time with special reference to authenticity.
Prerequisite(s): PHIL 2225.
PHIL 3200 (3 CREDITS) (3:1:0)
**Critical Thinking and Business Ethics**
Responsible business decisions call for the ability to (1) analyze a problem and arrive at a decision backed by the strongest reasons and (2) know the difference between ethical and unethical conduct. Students will be introduced to the elements of logic, and learn to identify and construct arguments and distinguish between good and bad ones. The course also offers a primer in ethics and students take up the questions of how ethics is distinguished from lay and prudence, what makes actions right or wrong, and why be ethical. The emphasis will be on ethical decision making in a business environment.

Prerequisite(s): 30 credits of post-secondary courses or approval of the Department Chair.

PHYS (Physics)

**Prerequisites**
Prerequisites for courses in Physics are valid for only three years. Students wanting to register in a course for which the prerequisite was taken more than three years ago will be required to write a diagnostic test or to upgrade the prerequisite.

**Repeating a course**
A Physics course may be taken only twice, regardless of the grade earned in the first enrolment. The department chair, or delegate, will decide on exceptions to this rule, usually on the basis of documented evidence of upgraded prerequisites.

**Laboratory Requirements**
The Physics labs are an integral part of each course. It is Physics Department policy that there are no make-up labs. Failure to satisfactorily complete the laboratory requirements may result in a failing grade for the course.

**Diagnostic Tests**
The Physics Diagnostic Placement Test is an assessment of the student’s knowledge of the physics principles and their applications. The test is designed to place the student into the most appropriate physics course. To enrol in any physics course with a physics prerequisite, the Diagnostic Test is required for any student who has NOT taken a physics course in BC or OR for any students whose prerequisite course was taken more than 3 years ago.

Note: Not all courses are offered every semester. Please check the Physics Department webpage for details.

PHYS 1101 (4 CREDITS) (4:0:2)
**Physics I for Life Sciences**
This is a calculus-based introductory physics course intended for students planning on a career in the life sciences including biology and the health professions. The course examines kinematics, including graphs of motion, dynamics, energy, momentum, fluids, oscillations, waves, sound, heat, thermodynamics, geometrical optics and light interference and diffraction, in lectures and laboratories. Examples are chosen, where possible, from applications of interest to students of the life sciences.

Prerequisite(s): A minimum 'C' grade in Physics 12 or PHYS 1118 or a satisfactory score on the Physics Diagnostic Test; and one of MATH 1171, 1173/1183, or 1253. The MATH course may be taken concurrently with PHYS 1101.

Note: Students will receive credit for only one of PHYS 1125 and PHYS 1101.

PHYS 1114 (4 CREDITS) (3:2:1)
**Basic Physics**
A general course for students who have had no previous physics background. The course covers mechanics, heat, sound, optics and electricity at the introductory level in the classroom and in the laboratory.

Prerequisite(s): Mathematics 11 with “C” grade or higher or MATH 1150 with “C” grade or higher, or MDT 70 or higher.

PHYS 1115 (4 CREDITS) (4:0:2)
**General Physics I**
An introduction to elementary mechanics. The course examines kinematics, dynamics, statics, energy, heat, and sound in the classroom and laboratory.

Prerequisite(s): Physics 11 with a “C” grade or higher, and MATH 1152 or Mathematics 12 with a “C” grade or higher or MDT 85 or higher.
PHYS 1118 (4 CREDITS) (4:0:2)
Interdisciplinary Physics
An introductory course for students with Physics 11 or equivalent. The course covers mechanics (Newton’s laws), energy, momentum, geometrical optics, and electricity; use of graphs and vectors in physics; laboratory exercises to familiarize the students with physical phenomena and instruments.
Prerequisite(s): Physics 11 with a “B” or higher, or Physics 12 with “C” or higher, or PHYS 1114 with “C” or higher, or satisfactory score on Physics Diagnostic Test, and Mathematics 12 with a “C” or higher, or MATH 1152 with a grade of “C” or higher, or MATH 1153 with “C-” or higher, or MATH 1170 “C-” or higher (concurrent).

PHYS 1125 (4 CREDITS) (4:0:2)
Physics I with Calculus
This is a calculus-based introduction to mechanics. The course examines kinematics (one and two dimensions), dynamics, statics, energy, rotation, waves, oscillations, fluids, gas, heat, thermodynamics in lectures and laboratories. Students planning to go into physical and applied sciences are encouraged to take this course and its second part, PHYS 1225.
Prerequisite(s): Physics 12 with a “B” or higher, or PHYS 1118 with “C” or higher or satisfactory score on the Physics Diagnostic Test, and MATH 1171 or (MATH 1173/1183) preferred or MATH 1253. MATH 1171, 1173/1183 or MATH 1253 with a “C-” or higher may be taken concurrently with PHYS 1125.
Note: Students will receive credit for only one of PHYS 1125 and PHYS 1101.

PHYS 1126 (4 CREDITS) (4:0:2)
Science in History
This course will look at how science has influenced and been influenced by society throughout history. The emphasis will be on physics, but other disciplines will be covered. The combination of lecture and lab sessions will help students understand major developments in science and how and why they arose. The course does not presuppose any previous knowledge of physics or mathematics. This course meets the Laboratory Science requirement for the Associate of Arts Degree. It may be taken as a science elective by students working towards the Associate of Science Degree.

PHYS 1205 (4 CREDITS) (4:0:2)
Introduction to Astronomy
This is an introductory course in astronomy. Topics include: history of astronomy, including models of Copernicus, Galileo and Newton; starlight and spectra; telescopes and modern astronomy; the planets; origin and evolution of the solar system; the sun; stars; star birth; life and death; our galaxy; structure of the universe; and life elsewhere in the universe. The laboratory portion of the course includes indoor labs, outdoor observing sessions, and computer simulation labs. The course does not presuppose any previous knowledge of physics or mathematics. This course meets the Laboratory Science requirement for the Associate of Arts Degree. It may be taken as a science elective by students working towards the Associate of Science Degree.
Prerequisite(s): Mathematics 11 desirable.
Note: This course does not presuppose any previous knowledge of physics or mathematics; however, Mathematics 11 is desirable. Students will receive credit for only one of ASTR 1101 and ASTR 3310.

PHYS 1215 (4 CREDITS) (4:0:2)
General Physics II
An introduction to light and electrical phenomena. The course examines the behaviour of light and of electric charges in classroom and laboratory.
Prerequisite(s): PHYS 1115 with a “C” grade or higher.

PHYS 1219 (4 CREDITS) (4:2:0)
Engineering Mechanics
This course is designed for (although not restricted to) students in the University Transfer Engineering Program. Topics include statics of particles, equilibrium of rigid bodies, rigid body statics and internal forces; kinematics: rectilinear motion; dynamics: Newton’s 2nd law, friction, impulse, momentum, work, and energy. Emphasis is placed throughout on the analysis of practical mechanics problems using freebody diagram techniques.
Prerequisite(s): PHYS 1115 with a “C+” grade or higher, or PHYS 1125 with a “C” grade or higher; and MATH 1153 or MATH 1253 or MATH 1171 or MATH 1173. MATH 1153, 1253 or MATH 1171 may be taken concurrently with PHYS 1219.

PHYS 1225 (4 CREDITS) (4:0:2)
Physics II with Calculus
This is a calculus-based introduction to electricity. The course examines electrostatics, electric field, electric current, circuits, magnetic field, electromagnetic induction, oscillations, alternating current, sound, optics, interference and diffraction, modern physics.
Prerequisite(s): PHYS 1125 with “C” grade or higher; and MATH 1271 or MATH 1273/1283 (either of which may be taken concurrently). Note: Students taking second year Physics courses are advised to take MATH 2362, 2371, 2471 and 2475.

PHYS 2309 (2 CREDITS) (1:0:3)
Intermediate Experimental Physics I
The student will perform experiments in thermal physics and mechanics. Lectures will introduce the theory of error propagation, data analysis, and parameter determination for various theoretical models through the use of weighted least-squares curve-fitting. Computer software for data analysis and weighted least-squares curve-fitting will be introduced. The student will analyze data from the experiments using the methods and software introduced in lectures.
Prerequisite(s): PHYS 1125 and PHYS 1225
Note: Students will receive credit for only one of PHYS 2309, PHYS 2327 and PHYS 2328

PHYS 2323 (3 CREDITS) (3:1:0)
Newtonian Mechanics
Classical particle physics, Newton’s laws of motion, conservation law, energy, momentum, angular momentum, potential energy, gravitation, planetary motion, non-inertial frames, motion in rotating frames, rigid body motion.
Prerequisite(s): (PHYS 1215 or 1225) and (MATH 1271 or 1273 or 1274 or 2371 (may be concurrent)) or permission of department.

PHYS 2325 (3 CREDITS) (3:1:0)
Thermodynamics and Heat
Temperature, thermodynamic co-ordinates, equations of state, 1st Law, ideal gas, kinetic theory, 2nd Law, entropy, thermodynamic probability, partition function, enthalpy. Helmholtz’s free energy, Gibb’s free energy, specific heats, phase transitions, Brillouin function. (Fall Semester.)
Prerequisite(s): (PHYS 1215 or 1225) and (MATH 1271 or 1273 or 1274 or 2371 (may be concurrent)) or permission of department.
PHYS 2327 (1 CREDIT) (0:0:3)
**Experimental Physics I**
An examination of mechanical and thermal processes with the aid of linear air tracks, cathode ray tubes, and optical pyrometer. (Fall Semester.) This course is primarily for students taking PHYS 2323 and/or PHYS 2325 who wish a complete program.
Prerequisite(s): PHYS 1215 or 1225 and MATH 1271 or 1273 or 1274 or permission of the department.

PHYS 2328 (2 CREDITS) (2:0:0)
**Data Acquisition and Analysis**
Basic measurements, direct and indirect comparison with standards, analog and digital readouts, inputs, and conversion, transducers, interfaces, computer hardware software, spreadsheets, curve fitting, estimation of parameters.
Prerequisite(s): PHYS 1215 or 1225 and MATH 1271 or 1273 or 1274 or permission of department.

PHYS 2409 (2 CREDITS) (1:0:3)
**Intermediate Experimental Physics II**
This course is a continuation of PHYS 2309. Lectures will introduce theory of alternating current circuits, digital electronics and modern physics. Students will perform laboratory experiments in these areas. Students will use computer software for data analysis and curve-fitting, as introduced in PHYS 2309. Students will select and perform one extended experimental project, and report on it in a formal lab report and a presentation.
Prerequisite(s): PHYS 2309
Corequisite(s): Students will receive credit for only one of PHYS 2409 and PHYS 2427.

PHYS 2424 (3 CREDITS) (3:1:0)
**Modern Physics**
Special relativity, Origins of quantum theory, introductory quantum mechanics, atoms and molecules, solid state, nuclear and particle physics, astrophysics and cosmology.
Prerequisite(s): (PHYS 1215 and MATH 2471, may be concurrent) or (PHYS 2328 and MATH 2471, may be concurrent), minimum “C-” grade or permission of department.

PHYS 2425 (3 CREDITS) (3:1:0)
**Electricity and A-C Circuit Theory**
Charge, current, current density, resistivity, E, B, flux, electromagnetic induction, inductive reactance, capacitative reactance, complex form of Ohm’s law, impedance, admittance, networks, filters, transmission lines.
Prerequisite(s): (PHYS 1215 and MATH 2471, may be concurrent) or (PHYS 2328 and MATH 2471, may be concurrent); minimum “C-” grade or permission of department.

PHYS 2427 (1 CREDIT) (0:0:3)
**Experimental Physics II**
An examination in the laboratory of electric fields and alternating current circuits. (Spring Semester.) This course is primarily for students taking PHYS 2424 and/or 2425 who wish a complete program.
Prerequisite(s): PHYS 1215 or 1225 or permission of department.

POLI (Political Science)

POLI 1100 (3 CREDITS) (2:2:0)
**Introduction to Government and Politics**
This course provides a comprehensive introduction to the study of government and politics. It examines the major methods, approaches and issues in Political Science, as well as the primary components of government structure and the political process.
Note: This course is a prerequisite for all subsequent Political Science courses at Simon Fraser University.

POLI 1119 (3 CREDITS) (3:1:0)
**Canadian Politics and Government**
This introductory course deals with the origins and structure of Canadian government and analyses the social and political forces which shape our current political system. Topics include Parliament, the PM and Cabinet, political parties, Quebec nationalism, and the Charter of Rights and Freedoms.

POLI 1140 (3 CREDITS) (3:1:0)
**Introduction to International Relations**
An introduction to the politics of world society, its historical development, the major forms of analysis of global political structures and foreign policies, and contemporary security problems.

POLI 1145 (3 CREDITS) (3:1:0)
**Peace and Conflict in the Modern World**
The history of war; causes and consequences of war; the nuclear threat; the relationship of the arms race to other global problems; arms control and disarmament; Canada’s role.
Note: POLI 1145 is one of the core courses of the Peace & Conflict Studies Program.

POLI 1160 (3 CREDITS) (3:1:0)
**Contemporary Ideologies**
An introduction to the major political ideologies of the 19th and 20th Centuries, including democracy, conservatism, liberalism, socialism, anarchism, communism, fascism and feminism.

POLI 1195 (3 CREDITS) (3:1:0)
**Special Topics I**
This number is reserved for Political Science courses that may be offered from time to time by: a) College Political Science Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting Political Science Lecturers
Prerequisite(s): will be announced in the Registration Guide and Course Schedule.
Note: Announcements regarding POLI 1195 offerings will be made in the Registration Guide and Course Schedule.

POLI 1250 (3 CREDITS) (3:1:0)
**Politics in the Developing Nations**
This course examines the political, social and economic forces at work in the “Third World,” sometimes called the “developing” or “majority” world (e.g., Cuba, South Africa, Indonesia). The countries covered vary with the instructor.
POLI 2209 (3 CREDITS) (2:2:0)
**Canadian Public Policy**
An examination of how laws are developed and implemented in Canada. Topics will include general policy-making theory as well as the roles of the public, parliament, cabinet, and public service in policy development.
Prerequisite(s): POLI 1100 or 1119 or 2250 (formerly 1150).

POLI 2219 (3 CREDITS) (2:2:0)
**Canadian Public Administration**
A study of the administration of government in Canada, including current social and political patterns in modern large-scale organizations, the organization of the Government of Canada and power of the bureaucracy. This course should be of particular interest to students planning to take Commerce.
Prerequisite(s): POLI 1100 or 1119 or 2250 (formerly 1150).

POLI 2229 (3 CREDITS) (2:2:0)
**Introduction to Urban Politics**
A general introduction to Canadian local politics and government, with specific focus on Vancouver and the British Columbia case. Topics will include electoral systems, party politics, local pressure groups, the role of bureaucracy, regional government and the relationship of cities to provincial and federal administrations.
Prerequisite(s): One of POLI 1100, 1119, or 2250 (formerly 1150); or APPL 1140; or APPL 1130 and 1210.

POLI 2239 (3 CREDITS) (3:1:0)
**Topics in Canadian Politics**
This course will be offered from time to time. It will feature topics of current interest in Canadian Politics.
Prerequisite(s): POLI 1119

POLI 2240 (3 CREDITS) (3:1:0)
**International Political Economy**
An introduction to the elements of international political economics including trade, monetary issues, trans-national corporations, poverty, dependency, development, and the environment. Any previous Political Science or Economics course is helpful.

POLI 2245 (3 CREDITS) (3:1:0)
**Canadian International Relations**
This general introduction to a variety of topics in Canadian international relations (defence concerns, foreign policy, and international economics) will use competing analyses to explain Canadian actions. Examples will include NATO, NORAD, US-Canada relations, peacekeeping, policy initiatives, the UN, WTO, NAFTA, and the role of Canadian civil society. Historical context and current concerns will be emphasized.
Prerequisite(s): POLI 1119 or POLI 1140 or POLI 1145.

POLI 2250 (3 CREDITS) (3:1:0)
**Comparative Politics: Western Liberal Democracies**
A comparative analysis of the government and politics of selected western liberal democracies (e.g., the U.K., France, Germany, the U.S.A.). The countries covered vary with the instructor.
Note: Students may only receive credit for one of POLI 1150 or POLI 2250.

POLI 2260 (3 CREDITS) (4:0:0)
**An Introduction to Democratic Socialism**
A survey of socialism from the French Revolution to the present. Topics include: Democracy, Capitalism, Marxism, Leninism, Anarchism, Social Democracy, Globalization, Social Ecology.
Prerequisite(s): POLI 1160 or PHIL 2226 or permission of the instructor.

POLI 2270 (3 CREDITS) (3:1:0)
**Introduction to Western Political Thought**
New Course
This course is designed as an introduction to the field of political theory through the study of the classic theorists of the western liberal political tradition.
Prerequisite(s): Any university-transferable political science or philosophy course; or permission of the instructor.

POLI 2275 (3 CREDITS) (3:1:0)
**Introduction to Western Feminist Social and Political Thought**
Feminism is not a monolithic movement with a unified theoretical base. Feminism encompasses a variety of approaches, methodologies and political objectives. This course will situate feminist thought within the broader context of mainstream political theory, describing how feminists have contested traditional descriptions of political life, power, and citizenship. An emphasis will be placed on the social and political contexts within which feminist action has occurred and does occur.

POLI 2295 (3 CREDITS) (3:1:0)
**Special Topics II**
This number is reserved for Political Science courses that may be offered from time to time by: a) College Political Science Faculty who may wish to present a course in their speciality which may be of limited interest; or b) Visiting Political Science Lecturers
Prerequisite(s): will be announced in the Registration Guide and Course Schedule.
Note: Announcements regarding POLI 2295 offerings will be made in the Registration Guide and Course Schedule.

**PHOT (Professional Photography)**

Except for PHOT 1100, the following photography courses are restricted to students enrolled in the Professional Photo-imaging Program. PHOT 1100 is open to all Langara College students.

**Prerequisites**
Prerequisites for all Photography courses: C+ grade or higher in all previous term Professional Photo-imaging Program courses, or permission of the Department.

**PHOT 1100 (3 CREDITS) (3:0:4)**
**Photographic Explorations**
New Course
This course introduces students to the basic aspects of film and digital photography with emphasis on practical knowledge through hands-on learning. Students can choose an area of interest with the term project.
Note: This course is open to all Langara College students.
PHOT 1118 (3 CREDITS) (2:0:5)
Principles of Photo-Imaging I
This course covers the fundamental principles of photography and how these are related to everyday working practices employed by photographers and laboratory technicians. Laboratory assignments are designed to show the theoretical and practical applications which are important for a working knowledge of the topic.

PHOT 1128 (3 CREDITS) (3:0:5)
Applied Photo-Imaging Techniques I
This course provides the important element of practical experience through a wide variety of hands-on assignments conducted both in the studio and on location. Some of the specialties touched upon are: advertising, architectural, commercial, copying, photo-journalism and portraiture. A thorough knowledge of the view camera is gained in the first two terms while other formats are frequently used in the third term. Print finishing and presentation which includes meeting deadlines are also emphasized in the course. The course aims to develop creative as well as technical competence.

PHOT 1180 (0 CREDITS) (0:2:0)
Photo-Imaging Explorations I
This course is a module (four per term) of specialized photo-industry topics taught by guest lecturers. Graded S/U.
Note: Students must take all PHOT 1180, 1280, 2380 and 2480.
Credit will be granted upon completion of PHOT 2480.

PHOT 1215 (3 CREDITS) (2:0:2.5)
Quality Control
Principles of sensitometry, quality control, and colour management are the three main topics that are covered in this course. A strong emphasis is placed upon the application of these three areas to the types of tasks that are carried out by a quality control technician in a professional lab. Colour management topics include calibration of printers, custom ICC profiles, colour spaces, and current trends in workflow.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 1218 (3 CREDITS) (3:0:4)
Principles of Photo-Imaging II
This course covers the fundamental principles of photography and how these are related to everyday working practices employed by photographers and laboratory technicians. Laboratory assignments are designed to show the theoretical and practical applications which are important for a working knowledge of the topic.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 1228 (5 CREDITS) (4:0:6)
Applied Photo-Imaging Techniques II
This course provides the important element of practical experience through a wide variety of hands-on assignments conducted both in the studio and on location. Some of the specialties touched upon are: advertising, architectural, commercial, copying, photo-journalism and portraiture. A thorough knowledge of the view camera is gained in the first two terms while other formats are frequently used in the third term. Print finishing and presentation which includes meeting deadlines are also emphasized in the course. The course aims to develop creative as well as technical competence.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 1248 (3 CREDITS) (4:0:2)
Introduction to Computer Imaging
An introduction to capturing existing images and creating original electronic images. Scanners and digital cameras will be used for image capture. Image enhancement using Photoshop and/or Live Picture will be covered in detail.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 1280 (0 CREDITS) (0:2:0)
Photo-Imaging Explorations II
This course is a module (four per term) of specialized photo-industry topics taught by guest lecturers. Graded S/U.
Note: Students must take all PHOT 1180, 1280, 2380 and 2480.
Credit will be granted upon completion of PHOT 2480.

PHOT 2328 (3 CREDITS) (2:0:7)
Colour Technology I
This course covers basic and advanced colour photography and colour printing with the major emphasis on the negative-positive method of producing colour prints. Also included are quality control, masking, spotting, and experience in the operation of a one-hour laboratory. Electronic imaging in relation to conventional colour is also covered.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2338 (3 CREDITS) (2:0:7)
Applied Photo-Imaging Techniques III
This course provides the important element of practical experience through a wide variety of hands-on assignments conducted both in the studio and on location. Some of the specialties touched upon are: advertising, architectural, commercial, copying, photo-journalism and portraiture. A thorough knowledge of the view camera is gained in the first two terms while other formats are frequently used in the third term. Print finishing and presentation which includes meeting deadlines are also emphasized in the course. The course aims to develop creative as well as technical competence.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2348 (3 CREDITS) (2:0:3)
Advanced Computer Imaging
This course builds on skills learned in PHOT 1248 exploring multimedia applications, on-line publishing, Quick Time VR, CD-ROM and digital video applications.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2380 (0 CREDITS) (0:2:0)
Photo-Imaging Explorations III
This course is a module (four per term) of specialized photo-industry topics taught by guest lecturers. Graded S/U.
Note: Students must take all PHOT 1180, 1280, 2380 and 2480.
Credit will be granted upon completion of PHOT 2480.
PHOT 2418 (3 CREDITS) (4:0:0)
Professional Issues
A survey of such topics as the history of professional photography; professional organizations; copyright legislation; ethics; and business practices. Presentations by guest speakers from the business and legal communities, as well as by students, will complement the instructor's material.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2428 (3 CREDITS) (2:0:7)
Colour Technology II
This course covers basic and advanced colour photography and colour printing with the major emphasis on the negative-positive method of producing colour prints. Also included are quality control, masking, spotting, and experience in the operation of a one-hour laboratory. Electronic imaging in relation to conventional colour is also covered.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2430 (4 CREDITS) (2:1:5)
Multi-Image and Videography I
This is a basic course in in-plant multi-image and videography production as applied to education and industry. Students will learn to plan and develop a concept through the planning, scripting and production stages to editing and the final presentation. Students will work both individually and in small production teams on several slide shows and videos.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2442 (3 CREDITS) (0:6:0)
Multi-Media
Additional skills in multi-imaging will be obtained by producing more complex productions. Students will act as producers and directors, exploring applications in traditional and new media. Emphasis is placed on client objectives, scripting, budgeting and editing. Students will work on the department newsletter and Pacific Rim Magazine assignments.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2446 (3 CREDITS) (0:6:0)
Photo-Imaging Services
Custom processing and custom print operations both at the College and on location at an operating “Custom” or “One-Hour” Laboratory with additional assignments in printing, processing and quality control.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2450 (3 CREDITS) (0:6:0)
Commercial Photography
Photography for catalogue and illustration purposes is the emphasis of this course. Working to layouts as well as creative and conceptual photographs are attempted. All work is geared to potential client requirements and the highly demanding advertising industry. Students will provide images for Pacific Rim Magazine.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2456 (3 CREDITS) (0:1:5)
Digital Photography
This advanced option provides further continuity following PHOT 2348 for those students who desire more practical experience in capturing, making and manipulating digitized images. A considerable amount of the hands-on experience will be sought at a suitable industry sponsor’s location during the field experience portion of the term.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2458 (3 CREDITS) (0:6:0)
Imaging for The Internet
This advanced option is an in-depth study of on-line applications of photographic imaging. Building websites, and producing CD-ROM portfolios are examples of assignment types. Students will manage the department’s website.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2462 (3 CREDITS) (0:6:0)
Photojournalism
In this advanced option the emphasis is upon photography for newsletters, magazines, annual reports and brochures. Slides (transparencies) for multi-image productions, general public relations and publicity photographs are additional minor parts of the course. Students will gain experience in providing photographs for the college newspaper and other related productions.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2466 (3 CREDITS) (0:6:0)
Portrait Photography
This course emphasizes the work done by a portrait studio, including reception, portrait psychology, marketing, public relations, print finishing and presentation. Various subjects are photographed both in the studio and on location as in wedding assignments or the making of environmental portraits.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2470 (3 CREDITS) (0:6:0)
Scientific Photography
Students complete assignments for the departments within Langara that have need of photographs for displays or teaching purposes. Frequently the techniques used involve macro and micro set-ups.
Prerequisite(s): “C+” or higher grade in all previous Photo-Imaging Program courses.

PHOT 2480 (3 CREDITS) (0:2:0)
Photo-Imaging Explorations IV
This course is a module (four per term) of specialized photo-industry topics taught by guest lecturers. Graded S/U.
Note: Students must take all PHOT 1180, 1280, 2380 and 2480.
Credit will be granted upon completion of PHOT 2480.
PSYC (Psychology)

For more detailed information about the Department of Psychology, please visit our website.

For particular transfer credit information please, consult the BC Transfer Guide or visit the website www.bccat.bc.ca

Note: Students intending to major in psychology at a university are advised to take PSYC 1115, 1215, 2320, and 2321, plus other second-year courses necessary to transfer into the third year of a bachelor's program. As second-year requirements vary from institution to institution, students are advised to familiarize themselves with the programs of the university to which they want to transfer.

**PSYC 1115 (3 CREDITS) (3:1:0)**
**Fundamentals of Psychology I**
An introduction to Psychology, emphasizing the scientific method in the study of human behaviour. The course focuses on the history and methods of psychological enquiry, the phenomena of sensation and perception, and the fundamentals of conditioning and learning. Other topics, including human development, physiology, and the properties of language, thinking and states of awareness, will be selected at the discretion of the instructor.

Note: PSYC 1215 can be taken prior to PSYC 1115 or vice versa or they can be taken concurrently. PSYC 1115 will also be offered by Guided Independent Study and via the Internet. See Registration Guide for details.

**PSYC 1195 (3 CREDITS) (3:1:0)**
**Special Topics I**
This number is reserved for Psychology courses that may be offered from time to time by: a) College Psychology faculty who may wish to present a course in their specialty which may be of limited interest; or, b) Visiting Psychology lecturers.

Prerequisite(s): will be announced in the Registration Guide and Course Schedule.

Note: Announcements regarding PSYC 1195 offerings will be made in the Registration Guide and Course Schedule.

**PSYC 1215 (3 CREDITS) (3:1:0)**
**Fundamentals of Psychology II**
An introduction to Psychology. Emphasis is on the individual. The course will include the study of motivation, emotion and personality. Other topics, including human development, theories of intelligence, the social basis of behaviour, the dynamics of adjustment, and the treatment of behaviour disorders, will be selected at the discretion of the instructor.

Note: PSYC 1215 can be taken prior to PSYC 1115 or vice versa or they can be taken concurrently. PSYC 1215 will also be offered by Guided Independent Study and via the Internet. See the Registration Guide for details.

**PSYC 1295 (3 CREDITS) (3:1:0)**
**Special Topics II**
This number is reserved for Psychology courses that may be offered from time to time by: a) College Psychology faculty who may wish to present a course in their specialty which may be of limited interest; or, b) Visiting Psychology lecturers.

Prerequisite(s): will be announced in the Registration Guide and Course Schedule.

Note: Announcements regarding PSYC 1295 offerings will be made in the Registration Guide and Course Schedule.

**PSYC 2312 (3 CREDITS) (4:0:0)**
**Tests and Measurements**
This course is a survey of the current psychometric principles and strategies which are used to assess individual and group differences. Areas to be studied will include tests of: aptitudes, abilities, achievement, attitudes, interests, personality and intelligence. Students will examine a variety of tests to understand how they are administered, scored and evaluated. Additionally, they will have an opportunity to experiment with constructing their own psychological tests.

Prerequisite(s): PSYC 1115 and PSYC 1215 with "C" grade or higher.

Note: PSYC 2312 will also be offered via the Internet.

**PSYC 2317 (3 CREDITS) (3:0:1)**
**Applied Psychology**
The course examines group theory and increases students' proficiency in the use of group skills. Lectures, small group experiential learning exercises and participation in a major group project are used to develop an understanding of group theory as well as to provide opportunities to apply the knowledge thus gained. Topics include group dynamics, communication, leadership, decision-making, and management of controversy. Additional topics, such as psychology and the law and persuasion, will be included based on student career objectives.

**PSYC 2318 (3 CREDITS) (3:1:0)**
**Psychology of the Exceptional Child**
This course examines the antecedents, consequences and educational challenges of the preschool child with unusual needs and capabilities. Material will include both general and specific conditions and characteristics which make a child different, or in need of special consideration. Emphasis will be placed on observing, understanding, and promoting the psychological and educational welfare of these children. This course is oriented to the requirements of the Early Childhood Education and Special Education Assistant career programs.

Prerequisite(s): PSYC 1115 and 1215. Prerequisites waived for students enrolled in the Early Childhood Education or the Education Assistant programs.

**PSYC 2319 (3 CREDITS) (3:1:0)**
**Psychology of the Family**
Formerly: The Psychology of Marriage and the Family
Emphasizing the experience of the individual within intimate relationships, this course examines the various processes which inevitably affect families. Beginning with theories of attraction, students proceed to discussion of issues related to the development of a sense of compatibility, closeness and commitment. Definitions, types of marriage and family, the systems view of family life, communication, power and responses to stress are also dealt with. The final unit of the course addresses the central concerns of divorce, single parenting and the formation of blended families.

Prerequisite(s): PSYC 1115 and 1215 with a minimum grade of “C+” or higher and a 2.33 overall GPA.

**PSYC 2320 (3 CREDITS) (3:1:0)**
**Introduction to Research Methods**
A combined lecture-laboratory course dealing with the theory and practise of research design of experiments, the application of statistics to laboratory exercises, and the testing of experimental hypotheses.

Prerequisite(s): PSYC 1115 and 1215 with “C+” grade or higher in each course.

Note: This course makes strong demands on students to produce high-level written English.
PSYC 2321 (3 CREDITS) (3:1:0)
Data Analysis for Psychology
This course introduces the concepts and methods of behavioural data analysis. It focuses on the use of descriptive and inferential statistics in psychological research, and the conceptual interpretation of data.
Prerequisite(s): PSYC 1115 AND 1215 with “C+”, and PSYC 2320 (which may be taken concurrently). Within the previous 3 years one of: “C” or better in Principle of Mathematics 11, or “C” or better in Applications of Mathematics 12, or MATH 1150, or a satisfactory score on the Mathematics Diagnostic Test.

PSYC 2322 (3 CREDITS) (3:1:0)
Social Psychology
This course examines the effects of social influences on individual behaviour. Topics such as social perception, social cognition, interpersonal attraction, attitudes, mass media effects, prejudice, and aggression will be discussed.
Prerequisite(s): PSYC 1115 and 1215
Note: PSYC 2322 will also be offered via the Internet.

PSYC 2323 (3 CREDITS) (3:1:0)
Psychology of Health and Adjustment
A study of the ways in which individuals adjust to the demands of life. The course examines the nature and sources of stress as well as responses to stress. Evaluation of the self-concept in particular the personal, social, and vocational selves will be addressed.
Prerequisite(s): PSYC 1115 and 1215.

PSYC 2324 (3 CREDITS) (3:1:0)
Developmental Psychology (Early Childhood)
A study of the determinants of behaviour and the processes of growth and maturation during prenatal, infancy, and preschool periods. Physical, cognitive, social and emotional development are discussed.
Prerequisite(s): PSYC 1115 and 1215. Prerequisites waived for students enrolled in the Early Childhood Education or the Education Assistant career programs.

PSYC 2326 (3 CREDITS) (3:1:0)
Psychological Disorders
A review of the concept of disorder as used in Psychology and other clinical professions. The mental and behavioral features of various disorders are examined from a broad range of theoretical perspectives. Research on causes of disordered behaviour is discussed and evaluated.
Prerequisite(s): PSYC 1115 and 1215 with “C” grade or higher.

PSYC 2328 (3 CREDITS) (3:1:0)
Applied Early Child Psychology
This course deals with applied aspects of early child development. Emphasis will be on investigating ways in which theories and research enrich an understanding of contemporary issues in early child development. Topics may include risk factors in prenatal development, day care, childhood anxiety, and child abuse.
Prerequisite(s): PSYC 1115 and 1215 or registration in the Early Childhood Education or the Education Assistant career programs.

PSYC 2331 (3 CREDITS) (3:0:1)
Neuroscience
All course topics approach behaviour from the point of view of neurophysiological and neuroanatomical correlates. Some specific subjects include the cell biology of the neuron; gross structure of the nervous system; sensory and motor systems; emotion; learning and memory; and language. While the emphasis is on acquisition of basic structural and functional concepts through the use of the text, lectures and visual aids, there may also be some opportunity for laboratory observation.
Prerequisite(s): PSYC 1115 and 1215 with “C+” grade or higher and a 2.33 overall GPA.

PSYC 2332 (3 CREDITS) (4:0:0)
Psychology and Culture
This course is an examination of the cultural forces involved in the development of a sense of self and the factors that can pose a challenge to this process. Included for consideration are topics relevant to the history of the study of culture and psychology; definitions/typologies of culture; the impact of culture on individual thought, emotion and behaviour; the identification and application of appropriate methodologies in research on cross-cultural comparisons of individual and group differences; the role of culture in the diagnosis and treatment of behavioural disorders; and strategies for facilitating constructive cross-cultural interaction.
Prerequisite(s): A minimum ‘C’ grade in both PSYC 1115 and 1215.

PSYC 2341 (3 CREDITS) (3:0:1)
Cognitive Psychology
This course will deal with the basic findings and problems of research in the following core areas of Psychology: human memory and attention, language, thinking. It will emphasize content but it will also provide an opportunity to engage in laboratory research.
Prerequisite(s): PSYC 1115 and 1215 with “C+” grade or higher and a 2.33 overall GPA.

PSYC 2413 (3 CREDITS) (3:1:0)
History of Psychology
This course traces the development of modern Psychology from the rationalism of Descartes through modern humanism and into possible future directions. Landmark theorists and their contributions are studied. Special emphasis is placed on the social and scientific context in which the great theories of Psychology were developed.
Prerequisite(s): PSYC 1115 and PSYC 1215 with a “C+” grade or higher.

PSYC 2424 (3 CREDITS) (3:1:0)
Developmental Psychology (Middle Childhood and Adolescence)
This course is a continuation of PSYC 2324, although it can be taken separately. It is a study of the cognitive, emotional, and social development of the child during middle childhood and adolescence, and the factors influencing that development.
Prerequisite(s): PSYC 1115 and 1215. Prerequisites waived for students enrolled in the Early Childhood Education or the Special Education Assistant career programs.
Note: PSYC 2424 will also be offered via the Internet.
PSYC 2425 (3 CREDITS) (3:1:0)
Developmental Psychology (Adulthood and Aging)
This course is a study of social, emotional, personality, and cognitive development during the years of adulthood and aging. It will also deal with the psychological issues involved in such major life crises as death and dying.
Prerequisite(s): PSYC 1115 and 1215

PSYC 2426 (3 CREDITS) (3:1:0)
Psychotherapy
An introduction to therapy for mentally distressed and behaviorally disordered persons of various ages. Numerous therapeutic approaches will be examined: psychodynamics, humanistic, behavioral, cognitive. Both individual and group methods will be discussed in relation to wide social issues. This course is not designed to teach how to use therapeutic techniques.
Prerequisite(s): PSYC 1115 and 1215

PUBL (Publishing)
The following Publishing courses are restricted to students enrolled in the Publishing Program.

Prerequisites for all Publishing courses: Minimum C grade in all previous term Publishing Program courses, or permission of the department.

PUBL 1115 (3 CREDITS) (3:1:0)
Writing for Publication
This course examines how to write for publication in popular media. Most lessons concentrate on magazine writing, but advertising copywriting and writing for the Internet are also explored. Students generate and summarize story topics, and learn interviewing and research techniques. The focus is on gathering compelling content and writing with a tone that engages the audience.

PUBL 1118 (3 CREDITS) (3:1:0)
Designing for Print I
Students will learn the basic principles of print publication design: typography, the design process, and layout principles. Participants will learn about logo design and then implement a communications package. Provides an overview of various publishing formats. Studies the effective use of graphic, computer graphics, and photographic illustrations. Evaluations are project-based, with an emphasis on portfolio development.

PUBL 1124 (6 CREDITS) (4:2:2)
Adobe Photoshop
(Formerly: Computer Software Applications: Adobe Photoshop) Students will learn Adobe Photoshop, the most used photo-retouching, pixel-based image editing software in print-based, online and CD-ROM publishing, working on Macintosh computers with colour monitors using a variety of tool functions. They will learn monitor calibration, colour correction, and colour verification techniques. By the end of this condensed, project-based course, students will be able to put together a number of imagesetter-ready photo collages on the computer, using multiple techniques and filters as well as combining graphics and image files from other sources.

PUBL 1129 (3 CREDITS) (3:1:2)
Page Layout Software
This course serves as a foundation to spring magazine courses: the page layout software application used in the industry, its uses and applications as tools for graphic design and production artists. Instruction, exercises and projects are designed to develop proficiency in using the application through mini-lesson demonstrations, in-class exercises, projects, and lab time.
Note: Students will receive credit for only one of PUBL 1129 and PUBL 1126.

PUBL 1131 (3 CREDITS) (3:0:1)
Digital Illustration Tools and Software
In this condensed, hands-on, project-based course students will learn illustration software currently used in the publishing and publishing-related fields. Software applications feature precise drawing and transformation tools, multiple layering, colour palettes, automatic graphing, precise typographic control over text, compound paths, masking, blending and gradations. Working on Macintosh computers, students will use graphics tablets, allowing them to combine illustration and photo-manipulation software to produce color logos, 2D (or 3D) graphics, drawings, illustrations, and icons geared for high-quality offset printing, as well as for online and multimedia publishing.
Prerequisite(s): None

PUBL 1155 (3 CREDITS) (3:0:3)
Editing Theory and Techniques
Through work on Pacific Rim Magazine and other projects, students will engage in substantive editing, learning how publications are created and developed. Students will be responsible for content development, research, structure and organization of articles, corporate communications, and books, fact checking, choice of illustrations, writing of titles and subtitles, copyright, plagiarism, libel, and tone and level of language. They will also learn copy editing and proofreading, again through work on Pacific Rim Magazine and other projects. They will prepare copy on the computer using house style and attending to matters of style, usage, grammar, and mechanics.
Prerequisite(s): Minimum C grade in all previous term PUBL courses, or permission of the department.

PUBL 1158 (3 CREDITS) (3:0:3)
Magazine Design
Students will take a hands-on, project-based approach to magazine design with Pacific Rim Magazine as the main project. Topics include publication planning, developing appropriate magazine formats, design considerations, typography and page layout, graphics, the make-up of a magazine, stock and digital photography, and designing advertising for Pacific Rim Magazine. The main software programs are those for print, taught in a prior semester. The course instructor will act as Managing Art Director of PRM.
Prerequisite(s): Minimum C grade in all previous term PUBL courses, or permission of the department.

PUBL 1159 (3 CREDITS) (3:1:0)
Designing for Print II
Building on skills gained in Designing for Print I, students will explore and practice print publication design theories in greater depth. Additional publishing formats, such as magazines and promotional materials, are explored. Evaluations remain project-based, with an emphasis on portfolio development. The major assignment will be a comprehensive magazine design project as preparation for the production of Pacific Rim Magazine.
**PUBL 1161 (6 CREDITS) (5:1:3)**  
**Magazine and Offset Print Production I**  
Students will build portfolio-driven spot colour and full-colour publishing projects, with a focus on preparing materials for commercial printing. They will learn industry standards for providing print-ready digital files, including scanned images and illustrations, to create a magazine. Media kits, magazine workflow and planning will be explored, including prepress techniques, such as trapping, colour separation, and proofing methods. Industry tours to commercial printers, publishing houses, and other related businesses will be arranged in the early part of the semester.  
Prerequisite(s): Minimum C grade in all previous term PUBL courses, or permission of the department.

**PUBL 1164 (6 CREDITS) (3:0:9)**  
**Magazine and Offset Print Production II**  
In this lab-intensive course, students will work with skills from previous courses to finalize the print-based 64-page glossy, colour version of Pacific Rim Magazine - the key project of the Langara Publishing program - on the computer, and output the entire digital magazine to colour proofs, ready for the commercial printer. This full-colour prepress process, one of the most sophisticated and widely used forms of publishing, is a major focus of the Publishing program. Once the newstand quality magazine is printed, it will be distributed throughout the Vancouver area.  
Prerequisite(s): Minimum C grade in all previous term PUBL courses, or permission of the department.

**PUBL 1229 (4 CREDITS) (4:0:3)**  
**Electronic Communications**  
Students will learn to write standards-compliant HTML and publish it to the web via FTP. Approximately half the course will focus on developing HTML and Cascading Style Sheet (CSS) competence. The second half of the course will introduce an industry-standard visual authoring package such as Dreamweaver. Also covered will be Photoshop treatment of web graphics and the differences and similarities between print and electronic design.  
Prerequisite(s): Minimum C grade in all previous term PUBL courses, or permission of the department.  
Note: Students will receive credit for only one of PUBL 1229 and PUBL 1226.

**PUBL 1230 (6 CREDITS) (4:2:2)**  
**Introduction to New Media Publishing**  
This is a hands-on, project-based course designed to teach skills for the production and distribution of electronic media publications. Students will prepare proposals and submit pre-production plans prior to producing a variety of media (DVD, text, images, video and sound). The software that students learn to use are industry standard applications for image creation/editing, video, motion graphics and DVD production.  
Prerequisite(s): Minimum “C” grade in all previous term PUBL courses, or permission of the department.

**PUBL 1231 (6 CREDITS) (4:2:2)**  
**Intermediate New Media Publishing**  
This project-based course will introduce students to basic animation, interactivity and programming for the Web using Adobe Flash software. Students will complete exercises and projects, possibly including a practical lab exam to demonstrate their understanding of concepts and competency with the software. Students will design and produce a web-based portfolio website. They will prepare and submit a pre-production (copy content, content map, design) and production schedule as well as give brief weekly written progress reports.  
Prerequisite(s): Minimum C grade in all previous term PUBL courses, or permission of the department.

**PUBL 1240 (2 CREDITS) (1:1:0)**  
**Publishing Issues and Practices**  
This course looks at publishing management practices and issues in magazine, book, corporate and Internet publishing. Topics will vary according to current publishing issues and may include circulation management, subscription fulfillment, book and magazine promotion, electronic rights, advertorials, e-books, print-on-demand, marketing to advertisers, the vanity press, split-run magazines, choice of publishing formats, stakeholder groups in corporate publishing, and government support for publications. A few classes will shift to a seminar format involving discussion of management practices pertinent to the publication of Pacific Rim Magazine.

**PUBL 1241 (2 CREDITS) (1:0:2)**  
**Self-Promotion in the Publishing Industry**  
Students learn self-promotion techniques to increase their employability and to market their work as freelancers. They develop a portfolio that highlights their specialty in design, production or editing. Other topics include market research, client negotiations and presentation skills.  
Prerequisite(s): Minimum C grade in all previous term PUBL courses, or permission of the department.

**RECR (Recreation)**

The following courses are designed for students considering a career in recreation and wanting to complete the Recreation Leadership Diploma Program. These courses can also be taken to meet the requirements of the Leisure Studies Diploma and as electives for arts and science students. As not all courses are offered each semester, students are advised to consult a Langara College counsellor or Recreation Department faculty when planning their program.

**RECR 1160 (3 CREDITS) (3:1:0)**  
**Foundations of Leisure and Recreation**  
(Formerly: Foundation of Recreation)  
This course presents a number of key concepts, issues and topics related to the field of leisure and recreation. These include the basic history, psychology and philosophy of recreation and leisure, as well as the scope of organizations and programs within Canada, i.e., the public, not-for-profit, and commercial sectors. The course also introduces current issues in the field.
RECR 1162 (3 CREDITS) (2:2:6)
**Direct Leadership in Recreation**
(Formerly: Leadership and the Recreation Experience)
This course is designed as an introduction to leadership techniques and theory as they relate to direct leadership of recreation activities. Students will learn skills for organizing and leading specific recreation activities, including co-operative games and group initiatives. A primary (and required) experience in this course is a four or five-day Outdoor Field School. There are additional costs related to this course.

RECR 1163 (3 CREDITS) (2:0:2)
**Recreation Leadership as Instruction**
This course focuses on the theory and practice of skills instruction in recreation. It introduces the generic skills required to instruct participants in a wide variety of recreational activities and settings. Developmentally appropriate stages and practices are emphasized. The progression will be highlighted. Attention will also be given to session preparation and implementation, group management, space utilization, and activity transitions. The course will utilize observations and analysis of groups in action, as well as lectures and readings.

RECR 1165 (3 CREDITS) (3:1:2)
**Inclusive Leisure Services**
An overview of the history, philosophy and scope of the provision of inclusive leisure services. Emphasis will be placed upon the identification of barriers to participation, the impact of such barriers and a process for change. Persons who have disabilities will be explored, with the intention of exploring the diversity of persons living in our communities, including those who have varying physical, sensory, cognitive and psychological abilities. Various leisure delivery services and available support organizations will be discussed.

RECR 1166 (3 CREDITS) (3:1:2)
**Valuing Diversity in Leadership**
(Formerly: Valuing Diversity in Leisure Services)
An overview of the history, philosophy, and scope of the provision of inclusive leisure services for all members of a community. Emphasis will be placed upon identification of barriers to participation, the impact of such barriers and a plausible process for change. Examples of persons who have diverse backgrounds and abilities will be explored, as will familiarization with available services and support organizations.

RECR 1167 (3 CREDITS) (3:1:0)
**Camp Programs and Administration**
Philosophy and practices of residential camps and summer day camps in Canada. Emphasis is on camp leadership skills, activity ideas, program development and camp administration.

RECR 1168 (3 CREDITS) (3:1:2)
**Recreation Program Planning**
This course is an introduction to the principles of planning, designing, implementing and evaluating recreation programs and services. This is accomplished through the application of a rational planning process involving needs and market assessment, developing objectives, value-based intentional program design models, advertising and evaluation techniques.

Prerequisite(s): RECR 1160 or 1162 or HMPF 1130 with a minimum grade of “C-”.

RECR 1170 (3 CREDITS) (3:1:2)
**Introduction to Recreation Facilities and Environments**
(Formerly: Recreation Facilities and Environments)
An introduction to the design and operation of various recreation facilities and environments. Course topics include design, legislation, regulations, programming, preparation for special events, introductory human resource management, safety of environments, fiscal planning and budgeting, operations of selected facilities, and new trends and issues. It also includes field trips to selected recreation facilities and observation projects.

RECR 1195 (3 CREDITS) (3:1:0)
**Special Topics I**
This number is reserved for Human Performance and Recreation courses that may be offered from time to time by: a) College Human Performance and Recreation Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting Human Performance and Recreation Lecturers.

Prerequisite(s): Prerequisites will be announced in the Registration Guide and Course Schedule.

Note: Announcements regarding the course offerings will be made in the Registration Guide and Course Schedule.

RECR 1261 (3 CREDITS) (3:1:0)
**Leadership and Group Processes**
An introduction to individual and group interaction, including theories of leadership, group dynamics, communication and interview skills, meeting and presentation techniques and time management.

RECR 1270 (3 CREDITS) (2:0:2)
**Applied Skills in Recreation Operations**
(Formerly: Recreation Facilities Maintenance)
The course is designed for the student to learn fundamental supervisory skills in the areas of legal liability, labour-management relations, security, contracting out, preventative maintenance, custodial procedures and staffing for efficient maintenance of recreation facilities. Includes field trips to selected recreation facilities and observation projects.

RECR 2166 (3 CREDITS) (3:1:2)
**Therapeutic Recreation Leadership**
Analysis and application of the principles and techniques used in preparation, delivery, and evaluation of programs. Emphasis placed on adaptation of activities, facility, equipment, and materials, behaviour controls, with a view to future developments.

RECR 2260 (3 CREDITS) (3:1:2)
**The Arts and Heritage in Recreation**
(Formerly: The Arts and Heritage in Recreation Service Delivery)
This course explores the nature of and values associated with arts and heritage in recreation. The relationships and responsibilities of recreation organizations, and of leadership personnel, to the provision and facilitation of arts and heritage opportunities will be a primary focus.
Specialty which may be of limited interest; or b) Visiting recreation lecturers.

This course teaches the principles of advanced program planning and special event design building on the introduction of techniques learned in RECR 1168. It uses a project management approach and includes development of skills, knowledge, and practices required to achieve memorable and measurable results. Course objectives are achieved through participation in real-life application of skills through the planning of a small-scale recreation event in the community.

Prerequisite(s): RECR 1168 or permission of the instructor.

Recreation Event Planning

The purpose of this course is to teach the principles of modern recreation event design and delivery, specifically focusing on small-scale community events (in contrast to festivals and multi-day events). Using community development and project management approaches, students will learn the skills, knowledge, and practices required to achieve memorable and measurable results. Course objectives are achieved through participation in real-life application of skills through the planning of a small-scale recreation event in the community.

Prerequisite(s): RECR 1168 or permission of the instructor.

Recreation Facility Design

The objective of this course is to give the student the means to effectively communicate with members of the design team on a renovation or new construction. This will be achieved through two approaches. The first will be the techniques of communication: manual drafting, blueprint reading, and perspective sketching. The second will be the concepts on which the communication is based. This course will include classroom assignments, guest speakers, and field trips.

Prerequisite(s): None.

Recreation Facility Operations

Students will be introduced to selected operational systems and equipment for recreation facilities. Course topics include: reading of mechanical blue prints, B.C. Building Code requirements, B.C. Fire Code requirements, heating, ventilation, and air-conditioning systems, lighting and sound systems, working and major utilities, and project management. Classroom lectures and discussion will be complemented by tours of selected recreation facilities and guest speakers.

Prerequisite(s): None.
RECR 2388 (3 CREDITS) (0:1:5)
Internship Orientation and Portfolio Development
This course has two interrelated themes. The first theme involves an orientation to the students’ up-coming internships (in the fourth term). This orientation will include an introduction to the duties, responsibilities and assignments of the students as interns, and the process of investigating, assessing and choosing internship placements. The second theme is the continuation of the student’s portfolio development in an area of their chosen recreation specialty. With faculty supervision, the students will develop self-directed learning plans and will acquire the "essential abilities", including certifications, that are needed by all competent practitioners in the field of recreation. Graded S/U.
Prerequisite(s): RECR 2288. This course must be taken in the term (Fall Semester) prior to the Internship Course.

RECR 2470 (3 CREDITS) (1:6:2)
Recreation Issues and Trends
Problem-based learning approach to selected trends and issues in the field of Recreation, and exploring their application to recreation settings. Various research techniques are investigated and practiced to meet these goals.
Prerequisite(s): RECR 2288

RECR 2487 (12 CREDITS) (0:7:21)
Recreation Internship
Internship is a field-based contract with a recognized agency where the student can practice the learning outcomes of the courses from the first three semesters of the Recreation Leadership Diploma Program. It is a full-time, supervised learning experience lasting for 14 weeks. Student obligations and responsibilities are both practical hours and academic research. The nature of the services provided by agencies often required flexible work schedules involving weekend and evening duty. Graded S/U.
Prerequisite(s): All required courses in first three terms of Recreation Leadership Diploma Program. The exception of one non-Recreation, university-transferable course may be allowed with department permission.
Note: Students will receive credit for only one of RECR 2487, RECR 2488, RECR 2497 and RECR 2499.

RECR 2497 (12 CREDITS) (0:7:21)
Diploma Reflective Practicum in the Workplace
This course is designed to help currently employed, full-time recreation practitioners, who have a minimum of five years direct experience as a programmer (or equivalent level), become more intentional and more effective in their professional practice. Key concepts in the course include experiential learning, reflective practice, and the analysis of action theories. Learners will relate these concepts to their own workplaces with the help of a faculty supervisor and with the support of their employer. The course will take place at each learner’s workplace. Students must judge their time to accommodate weekly communication with their faculty advisor and to write weekly reports about their on-site learning and research. A major term paper is also required. Prospective students must apply to the department for permission to take this course. Contact the Recreation Co-ordinator for more information. Graded S/U.
Prerequisite(s): Department permission and all required courses in first three terms of the Recreation Leadership Diploma Program. The exception of one non-Recreation, university-transferable course may be allowed with department permission.
Corequisite(s): Students will receive credit for only one of RECR 2487, RECR 2488, RECR 2497 and RECR 2499.

RELS (Religious Studies)
RELS 1110 (3 CREDITS) (3:1:0)
Studying the Religions of the World
An introduction to the study of religion emphasizing the breadth of religious belief and practice in the contemporary world. Major themes, such as ritual, belief, ethics and community, and religion and culture, are discussed.

RELS 1120 (3 CREDITS) (3:1:0)
Religions of the East
An introduction to the study of the origins, ideas, practices, and evolution of Hinduism, Buddhism (including Zen), Taoism, Confucianism and Shinto.

RELS 1195 (3 CREDITS) (3:1:0)
Special Topics I
This number is reserved for Religious Studies course that may be offered from time to time by: a) College Religious Studies faculty who may wish to present a course in their specialty; or b) visiting Religious Studies lecturers.
Note: Announcements regarding this course offering and prerequisites will be made in the Registration Guide and Course Schedule.

RELS 1210 (3 CREDITS) (3:1:0)
Buddhism
A survey of the history of Buddhism from its founding to modern times. Included are traditions of South, Southeast and East Asia, as well as current issues such as Buddhism in the West, Buddhism and politics, and the Buddhist dialogue with Christianity.

RELS 1215 (3 CREDITS) (3:1:0)
Asian Mythology
A broad spectrum of the myths of South, Southeast and East Asia are studied, both as texts which have their own history and as expressions of cultural institutions. The myths of minority groups in Asia are included.

RELS 1220 (3 CREDITS) (3:1:0)
Religions of the West
This is an introductory survey course of the West’s three primary religions: Judaism, Christianity and Islam. This course examines the historical and social development of these religions and the various experiences of each. We will also consider modern issues and events such as the Holocaust, women, gays, lesbians and the Church. In other words, the course addresses both historical and contemporary factors that have impacted these faiths.

RELS 1230 (3 CREDITS) (3:1:0)
The Evolution of Early Christian Thought and Spirituality
An enquiry into the cultural roots of western Christian civilization focusing on its Jewish, Greek, Roman, and Persian antecedents and its evolution during the first four centuries of our era. Attention is given to present day issues such as biblical criticism as well as Third World political and economic factors challenging traditional beliefs. Special focus is given to Jesus the Jew and to the problem of anti-Semitism in the early church.

RELS 1295 (3 CREDITS) (3:1:0)
Special Topics II
This number is reserved for Religious Studies course that may be offered from time to time by: a) College Religious Studies faculty who may wish to present a course in their specialty; or b) visiting Religious Studies lecturers.
Note: Announcements regarding this course offering and prerequisites will be made in the Registration Guide and Course Schedule.
RELS 2210 (3 CREDITS) (3:1:0)
Religions Studied in Context
This course explores religions as living traditions through field research in religious sites and with religious groups using a highly interdisciplinary interpretation of field data. The course is intended to complement the historical, textual, or comparative approach of the other courses in Religious Studies at Langara College.
Prerequisite(s): One of RELS 1110, 1120, 1220, 1230, 1210, 1215 or ANTH 2250.

SSRV (Social Service Worker)
The following Social Service Worker courses are restricted to students enrolled in the Social Service Worker Program unless otherwise noted in the Registration Guide and Course Schedule.

SSRV 1115 (3 CREDITS) (3:1:0)
History and Philosophy of Social Work
A historical study of social problems, concepts, and trends in Britain, Canada, and the United States. Emphasis is on the changing methods employed to meet changing social needs. The profession’s Code of Ethics is studied.

SSRV 1116 (2 CREDITS) (2:2:0)
Social Service Methods I
A study of the concepts and basic principles of working with people in a helping relationship, including interpersonal skills and self-care.

SSRV 1117 (3 CREDITS) (3:1:0)
Social Problems
A study of special family and community problems, including areas such as poverty, diversity, and structural disadvantage.

SSRV 1118 (3 CREDITS) (4:0:0)
Community Practice Skills
This course will introduce students to some concepts of community organizing related to social service work. It will focus on interventions and practice skills that impact change at the community level.

SSRV 1119 (3 CREDITS) (3:1:0)
Social Service Methods II
Building on the concepts of Social Service Methods I (SSRV 1116), this course will emphasize the mastery of practical skills and their application to the helping relationship.

SSRV 1120 (3 CREDITS) (2:0:1)
Social Policy
A job-oriented study of legislation and social policies in the areas of income security, mental health, health and family services.

SSRV 1121 (3 CREDITS) (3:1:0)
Family in Society
A study of the family as a unit in society. The growth and development stages, expanding and contracting family with emphasis on the changing roles and structure of families.

SSRV 1131 (1 CREDIT) (0:0:5)
Social Service Field Work I
A practicum placement of up to 5 hours a week at an individual social service community agency. The practicum requires each student to work under the supervision of an agency field supervisor in order to learn how the needs of a particular client population are met by a particular agency. Graded S/U.

SSRV 1132 (1 CREDIT) (4:0:4)
Integrated Experiential Learning I
Through a combination of visits to community agencies and public institutions, guest speakers, classroom sessions, and group activities, students will become familiar with various aspects of human service delivery and the social context in which those services are delivered.

SSRV 1219 (2 CREDITS) (2:2:0)
Community Response to Individual, Family & Social Problems
Through a variety of classroom learning opportunities, including guest speakers and group discussions, students will focus on specific problem areas and the interventions of community agencies.

SSRV 1231 (5 CREDITS) (0:0:5)
Social Service Field Work II
A continuation of the practicum placement begun in SSRV 1131. In addition, students will be required to do a 5-week full time block placement in a different community agency. This block placement begins after the Spring Semester’s final exams are completed. Successful completion of Social Service Field Work I (SSRV 1131) is a prerequisite for this course.

SSRV 1232 (1 CREDIT) (4:0:4)
Integrated Experiential Learning II
Building on the concepts of Integrated Experiential Learning (SSRV 1132), students will focus on additional human service sectors.

SOCI (Sociology)

SOCI 1110 (0 CREDITS) (0:1:0)
Sociology and Aboriginal Perspectives
A non-credit course for First Nations students who wish to discuss Sociology as it relates to current aboriginal issues. Course content and format to be established at first session of each semester. Weekly one-hour seminar. Not offered every semester.

Prerequisite(s): Requires previous or concurrent registration in a Sociology course or permission from Department.

SOCI 1120 (3 CREDITS) (3:1:0)
Introduction to Sociology: Models and Concepts
A course comprising an introduction to sociological study, with an emphasis on core models and concepts.

Note: SOCI 1120 and 1121 may be taken in either order or concurrently.

SOCI 1121 (3 CREDITS) (3:1:0)
Introduction to Sociology: Structures and Processes
This introductory course focuses on structures and processes that constitute key features of our contemporary social world.

Note: SOCI 1120 and 1121 may be taken in either order or concurrently.
SOCI 1122 (3 CREDITS) (3:1:0)
Sociology Through Literature
An analysis of modern sociology through selected illustrative materials from various literatures. Not offered every semester.

SOCI 1127 (3 CREDITS) (3:1:0)
Social Problems
An examination of social structures and processes involving problems in personal and institutional adjustments. Topics include crime and delinquency, familial disruption, emotional disturbance, prejudice and discrimination, joblessness, poverty, and institutional conflict in Canadian society.

SOCI 1130 (3 CREDITS) (3:1:0)
Sociology and First Nations Issues
A sociological introduction to the aboriginal life experience and the formation of Canadian society. This course examines the place of aboriginal peoples in the structure of Canadian society including such topics as social inequality, education, health care, housing, criminal justice, work and the political order.

SOCI 1195 (3 CREDITS) (4:0:0)
Special Topics
This number is reserved for Sociology courses that may be offered from time to time by: a) College Sociology Faculty who may wish to present a course in their specialty which may be of limited interest; or b) Visiting Sociology Lecturers.

Note: Announcements regarding SOCI 1195 offerings and prerequisites will be made in the Registration Guide and Course Schedule.

SOCI 2200 (3 CREDITS) (3:1:0)
An Introduction to Modern Sociological Thought
An introduction to sociological theory, focusing on the key and persistent issues of the discipline. The course will consider such problems as social order versus social change, objectivity versus subjectivity, individualism versus holism, values versus facts, and other issues; it will examine the major thinkers and schools of thought in sociology in the light of what they said on these issues. This course will also be concerned with the role of theory, facts, explanations, verstehen, and models in sociological inquiry.

Prerequisite(s): SOCI 1120; and one of SOCI 1121, 1122, 1125, 1127, 1130, or ANTH 1120.

SOCI 2205 (3 CREDITS) (3:1:0)
Sociology of Deviance
An examination of sociological theories of deviance, focusing on contemporary issues such as crime, juvenile delinquency, drug addiction, vandalism, the abuse of persons, prostitution, and mental illness. The institutional and informal systems of social control will be examined. May not be offered every semester.

Prerequisite(s): SOCI 1120; and one of SOCI 1121, 1122, 1125, 1127, 1130, or ANTH 1120.

SOCI 2210 (3 CREDITS) (3:1:0)
Racism and Ethnic Relations
An introduction to the social processes involved in understanding racial and ethnic minority/majority group relations in Canada and around the world.

Prerequisite(s): SOCI 1120; and one of SOCI 1121, 1122, 1125, 1127, 1130, or ANTH 1120.

SOCI 2220 (3 CREDITS) (2:2:0)
Women and Social Structure
An analysis of the formal and informal organizational structures and social processes, including theories of socialization and of social stratification, associated with understanding the status and objective conditions of women in Canadian society.

Prerequisite(s): SOCI 1120; and one of SOCI 1121, 1122, 1125, 1127, 1130, or ANTH 1120.

SOCI 2222 (3 CREDITS) (3:1:0)
Social Change and Globalization
An investigation of the sociological problems, theories, and ideas concerned with understanding and explaining social change. Various factors influencing social change in the contemporary global context will be examined.

Prerequisite(s): SOCI 1120; and one of SOCI 1121, 1122, 1125, 1127, 1130, or ANTH 1120.

SOCI 2223 (3 CREDITS) (3:1:0)
Industrialization
The process of industrialization, the work force, the scale of society, consensus in society, and worldwide industrialization.

Prerequisite(s): SOCI 1120; and one of SOCI 1121, 1122, 1125, 1127, 1130, or ANTH 1120.

SOCI 2225 (3 CREDITS) (3:1:0)
Crime, Punishment and Justice in Historical Perspective
An examination of society’s reaction to law violations in a historical and contemporary context. Attention is focused upon religious, political, social, and philosophical thought influencing the evolution of punishment and the relationship between crime, class, and power in the development, implementation, and modification of penal methods.

Prerequisite(s): SOCI 1120; and one of SOCI 1121, 1122, 1125, 1127, 1130, or ANTH 1120.

SOCI 2233 (3 CREDITS) (3:1:0)
Sociology of Cyberspace
An examination of the social impact of modern technology on social relations, personal perceptions and the environment. The information highway will be examined in terms of the larger processes of economic globalization and the concurrent restructuring of work relations.

Prerequisite(s): SOCI 1120; and one of SOCI 1121, 1122, 1125, 1127, 1130, or ANTH 1120.

Note: To be offered via the Internet (www.langara.bc.ca).

SOCI 2240 (3 CREDITS) (3:1:0)
Contemporary Social Movements
A sociological examination of some of the major social movements, and their contesting ideologies, through which the contemporary social world is constructed. Theoretical tools will be developed to analyze movements organized around the ideas and practices of varieties of: neo-conservatism, feminism, ethno-nationalism, environmentalism, socialism, and religious fundamentalism. A cross-cultural perspective will be emphasized.

Prerequisite(s): SOCI 1120; and one of SOCI 1121, 1122, 1125, 1127, 1130, or ANTH 1120.
SOCl 2250 (3 CREDITS) (3:1:0)
THE SOCIOLOGY OF THE FAMILY
A sociological analysis of the family including sex roles, children’s rights, adoption and identity, marriage, divorce, socialization, and change in both historical communities and modern industrial societies.
Prerequisite(s): SOCI 1120; and one of SOCI 1121, 1122, 1125, 1127, 1130, or ANTH 1120.

SOCl 2260 (3 CREDITS) (3:1:0)
SOCIOLOGY OF POPULAR CULTURE
This course will investigate role of popular culture in everyday life from a variety of sociological perspectives. It will examine how ‘popular’ culture differs from other cultural forms, and the ways in which it is bound up with larger social and cultural processes.
Prerequisite(s): SOCI 1120; and one of SOCI 1121, 1122, 1125, 1127, 1130, or ANTH 1120.

SPAN (SPANISH)
Students with previous knowledge of Spanish should consult with the Department for suitable placement. Students with a “C” grade or higher in a Spanish course cannot repeat the same course without departmental permission.
(NOT ALL SPANISH COURSES MAY BE OFFERED EVERY SEMESTER.)

SPAN 1107 (3 CREDITS) (3:0:1)
PREPARATORY SPANISH
This course is designed to give beginning students in Spanish the best possible chance of success in the intensive Spanish 1115/1215 program. It is especially recommended for students who have never taken a language course or who have had difficulty with languages in the past. It is also open to general interest students. Basic concepts and language patterns will be emphasized. College credit.

SPAN 1115 (3 CREDITS) (3:0:1)
BEGINNER’S SPANISH I
Beginner’s courses in oral and written language; a prerequisite to the concentrated study of Spanish. Introductory courses for students who have no previous knowledge of Spanish.

SPAN 1118 (3 CREDITS) (3:0:1)
INTERMEDIATE SPANISH I
Designed for students who want a less advanced course than SPAN 2119/2219. Grammar, composition, translation, oral practice, and reading in Spanish for students who have completed Grade 11 Spanish in secondary school, or Spanish 12 or SPAN 1215 with “C-” grade or higher.
Prerequisite(s): Secondary school Spanish 11, or Spanish 12 or SPAN 1215 with at least a “C-” standing.
Note: If you plan to continue your study of Spanish at university you must take SPAN 2119/2219. SPAN 1118 and SPAN 2119 may not be taken concurrently.

SPAN 1205 (3 CREDITS) (3:0:1)
SPANISH CONVERSATIONAL SKILLS
A first year course designed to teach students to “Think on their feet” by means of activities emphasizing speaking and listening skills. Native speakers of Spanish not admitted.
Prerequisite(s): A minimum of SPAN 1115 or 1118 (or equivalent) with at least a “C+”. May be taken after or concurrently with SPAN 1215, 1218, 2119, 2219.

SPAN 1215 (3 CREDITS) (3:0:1)
BEGINNER’S SPANISH II
Beginner’s courses in oral and written language; a prerequisite to the concentrated study of Spanish. Introductory courses for students who have no previous knowledge of Spanish.
Prerequisite(s): SPAN 1115.

SPAN 1218 (3 CREDITS) (3:0:1)
INTERMEDIATE SPANISH II
Designed for students who want a less advanced course than SPAN 2119/2219. Grammar, composition, translation, oral practice, and reading in Spanish for students who have completed Grade 11 Spanish in secondary school, or Spanish 12 or SPAN 1215 with “C-” grade or higher.
Prerequisite(s): SPAN 1118
Note: If you plan to continue your study of Spanish at university you must take SPAN 2119/1219. SPAN 1218 and SPAN 2219 may not be taken concurrently.

SPAN 2119 (3 CREDITS) (3:0:1)
SPANISH LANGUAGE AND LITERATURE I
Oral and written practise including grammar review and composition; the reading of selected authors in the Spanish language.
Prerequisite(s): Grade 12 Spanish or SPAN 1215 or 1218 with a “C+” grade or higher. May not be taken concurrently with SPAN 1118.
Note: A student who has attended secondary school in a Spanish speaking country may not register in any first or second year Spanish course without permission of the Department. SPAN 1118 and SPAN 2119 may not be taken concurrently.

SPAN 2219 (3 CREDITS) (3:0:1)
SPANISH LANGUAGE AND LITERATURE II
Oral and written practise including grammar review and composition; the reading of selected authors in the Spanish language.
Prerequisite(s): SPAN 2119. May not be taken concurrently with SPAN 1218.
Note: A student who has attended secondary school in a Spanish speaking country may not register in any first or second year Spanish course without permission of the Department. SPAN 1218 and SPAN 2219 may not be taken concurrently.
STAT (Statistics)

For more detailed information about the department of Mathematics and Statistics, including course outlines and advice on course selection, please visit our website at www.langara.bc.ca/mathstats

Duplicate Courses

In some cases, different courses cover substantially the same material but are targeted to different audiences. Credit cannot be given for more than one such course or sequence. In particular, students may obtain college credit for at most one of STAT 1123, 1124, 1125, 1126, 1127, 1181. Student may not obtain College credit for both STAT 1124 and PSYC 2321.

University Transfer Commerce

Students wishing to enter the Business/Commerce programs at UBC are strongly advised to take the STAT 1181 and 2225 sequence for their Statistics requirement. Students planning to enter the Business program at SFU are strongly advised to take STAT 1181.

Prerequisites

Prerequisites for courses in Statistics are valid for only three years. Students wanting to register in a course for which the prerequisite was taken more than three years ago will require departmental permission. Students may be required to write a diagnostic test or to "upgrade" the prerequisite.

Repeating a course

A Statistics course may be taken only twice, regardless of the grade earned in the first enrolment. The department chair, or delegate, will decide on exceptions to this rule, usually on the basis of documented evidence of upgraded prerequisites.

Diagnostic Tests

The Statistics Diagnostic Test is designed to assess background knowledge of students who wish to take STAT 1124 or 1127 and who do not have an appropriate prerequisite from within the previous five years. Students wishing to take STAT 1123 or 1181 do not need to write the test. The Statistics Diagnostic Test and the Mathematics Diagnostic Test are written at the same location and time. Sample questions, a schedule of when the tests can be written for the upcoming term, and information about registering for the tests, are available at our website, www.langara.bc.ca/mathstats/mdt

STAT 1123 (3 CREDITS) (3:0:1)

Basic Probability and Statistics for Business

Includes: collection, classification, analysis, and presentation of numerical data; measures of location and variability; probability; random samples and sampling distributions; estimation of parameters; testing hypotheses; regression; index numbers; time-series; decision theory. Intended primarily for students in two-year Langara Business Administration Programs.

Prerequisite(s): None, but a grade of "C" or higher in Mathematics 11 (or equivalent) is strongly recommended.

STAT 1124 (3 CREDITS) (3:0:1)

Statistical Methods I

An introductory course in statistics developed through the concept of randomness for students in social sciences, nursing, social work, physiotherapy, business, etc. Topics will include sampling, experimental design, levels of measurement, descriptive statistics, regression, sampling distributions, normal distribution and inferential procedures of estimation and hypothesis testing. This course may be followed by STAT 1224. College credit will not be granted for both STAT 1124 and PSYC 2321.

Prerequisite(s): "C" grade or higher in Mathematics 11, or Applications of Mathematics 12 (or equivalent) or "C-" grade or higher in MATH 1150 (Mathematics 11A or Introductory Mathematics 11 are not acceptable as prerequisites). Entrance may also be gained through the Statistics Diagnostic Test or by permission of the Statistics Co-ordinator.

STAT 1125 (3 CREDITS) (4:0:1)

Introductory Statistics with Microcomputer Applications

Introduction to probability and statistics, using a spreadsheet package to facilitate calculations, graphing and presentation of data. Topics include sampling, description of univariate data, regression, correlation, cross tabulations, probability distributions, and introduction to inference.

Prerequisite(s): "C" grade or higher in Mathematics 11, or Applications of Mathematics 12, or Mathematics 11A, or Introductory Mathematics 11 (or equivalent), or "C-" grade or higher in MATH 1150. Registration in Computer Information Systems Program OR permission of the Mathematics Department.

STAT 1126 (3 CREDITS) (3:0:1)

Introductory Statistics for Marketing

A first course in Statistics, designed for students in the Marketing and Sales program. The course includes a class project involving the collection, presentation and analysis of data from a marketing problem. Topics covered in this course include sampling, descriptive statistics, regression, correlation, contingency tables, estimation, hypothesis testing.

Prerequisite(s): Registration in the Marketing and Sales program (or the permission of the Statistics Co-ordinator).

STAT 1127 (3 CREDITS) (4:0:0)

Statistical Methods Applications

A lab-oriented alternative to STAT 1124 emphasizing methods of data collection, analysis and reporting, suitable for students in social sciences, nursing, social work, business, etc. The labs give the opportunity for more hands-on experience. Topics will include sampling, experimental design, level of measurement, descriptive statistics, regression, sampling distributions, normal distribution and inferential procedures of estimation and hypothesis testing. This course may be followed by STAT 1224.

Prerequisite(s): "C" grade or higher in Mathematics 11 (or equivalent) or Applications of Mathematics 12, or "C-" grade or higher in MATH 1150 (Mathematics 11A or Introductory Mathematics 11 are not acceptable as prerequisites). Entrance may also be gained through the Statistics Diagnostic Test or by permission of the Statistics Co-ordinator.

Corequisite(s): STAT 1128
STAT 1128 (1 CREDIT) (0:0:2)
Lab Activities for Statistics
This is the laboratory component of STAT 1127. The lab activities will be used in a variety of ways: to provide a setting in which the students discover the ideas and concepts in group-oriented activities; to explore in greater detail the ideas and concepts that have previously been introduced; to see how two or more concepts are inter-related; to work with real-life data and to write reports based on such data.
Corequisite(s): STAT 1127

STAT 1181 (3 CREDITS) (3:0:1)
Descriptive and Elementary Inferential Statistics
A first course in probability and statistics including introduction to probability, descriptive statistics, regression, correlation, contingency tables, sampling distributions, estimation, hypothesis testing. This course may be followed by STAT 2225 or STAT 2228.
Prerequisite(s): MATH 1153, 1171, 1173 or 1174 with a “C-” grade or higher or equivalent (may be taken concurrently).
Note: Students planning to transfer to Business Administration at SFU are advised to take both STAT 1181 and STAT 1182 for credit to SFU’s BUED 232.

STAT 1182 (1 CREDIT) (1:0:2)
Using Excel in First-Term Statistics
This is an on-line course in which students who have already learned statistics can now learn to use Excel to carry out the usual first-term statistical graphs, calculations, and analysis.
Prerequisite(s): STAT 1123 or 1124 or 1181 or permission of department.
Note: Students planning to transfer to Business Administration at SFU are advised to take both STAT 1181 and STAT 1182 for credit to SFU’s BUED 232.

STAT 1224 (3 CREDITS) (3:0:1)
Statistical Methods II
A continuation of STAT 1124. Emphasis on methods and assumptions. Topics will include elementary probability, review of estimation and hypothesis testing, Chi-square test, analysis of variance, linear regression and correlation, introduction to multiple regression, non-parametric tests. Design and data analysis, with use of computer packages.
Prerequisite(s): STAT 1181 or 1124 or 1127 with a “C-” grade or higher or STAT 1123 or STAT 1126 with “A-” or higher.

STAT 2225 (3 CREDITS) (3:0:1)
Intermediate Statistical Inference
This continuation of STAT 1181 for students who want a deeper treatment of the techniques and theory of data analysis. A brief review of probability and elementary inference will be followed by two-sample inferences, regression and correlation, multiple regression, design considerations, analysis of variance, and non-parametric tests.
Prerequisite(s): STAT 1181 with a “C-” grade or higher, or STAT 1124 or 1127 with an “A” grade or higher.

STAT 2281 (3 CREDITS) (4:0:0)
Probability and Elementary Mathematical Statistics
Probability, conditional probability, random variables, moments and moment generating functions, discrete distributions including the binomial, hypergeometric and Poisson distributions, continuous distributions including the exponential, uniform, Chi-square, Beta, and Normal Distributions, Central Limit Theorem, applications to statistics including sampling, model building, and hypotheses testing.
Prerequisite(s): MATH 1271 or 1273 with “C-” grade or higher (or equivalent). Prior exposure to a course like STAT 1181 is recommended.

STAT 2290 (3 CREDITS) (3:0:1)
Elementary Statistics Applications
An introduction to probability and statistics. Topics include descriptive statistics, probability, estimation and hypothesis testing, experimental designs, analysis of variance and non-parametric statistics.
Prerequisite(s): MATH 1271 or 1273 (may be taken concurrently) or the equivalent.

STAT 3223 (3 CREDITS) (4:0:0)
Intermediate Quantitative Methods
Topics in this course include one and two population statistical inference; simple linear regression; multiple regression; index numbers and time series analysis; statistical decision theory; and linear programming. This course is intended primarily for students in a college business administration degree program.
Prerequisite(s): STAT 1123 with a minimum “B” grade or STAT 1181 with a minimum “C+” grade. One of BCAP 1200, CPSC 1000, CPSC 1010, or the equivalent is strongly recommended.

THEA (Theatre Arts)

The following Theatre Arts courses are restricted to students enrolled in the Theatre Arts Program.

THEA 1110 (3 CREDITS) (0:1:6)
Acting I
Introduction to the basic principles of acting through improvisation and script work. Concentration. Freeing the imagination. Developing a rehearsal process. Integration of the voice and body. Elementary scene work. Identification of and work on individual acting problems.

THEA 1120 (3 CREDITS) (0:1:5)
Movement I

THEA 1130 (3 CREDITS) (0:1:5)
Voice I
Freeing the voice. Work on breath support, relaxing vocal channel, range, resonance, diction and text. Connecting voice to body.

THEA 1140 (3 CREDITS) (1:1:4)
Theatre Skills I
Introduction to the etiquette and organization of professional theatre. Basics of set, costume and prop design and construction. Introduction to lighting design and set up. Assignments comprised of backstage work and front-of-house on Studio 58 productions.
THEA 1210 (3 CREDITS) (0:1:6)
Acting II
Introduction to the basic principles of acting through improvisation and script work. Concentration. Freeing the imagination. Developing a rehearsal process. Integration of the voice and body. Elementary scene work. Identification of and work on individual acting problems.

THEA 1220 (3 CREDITS) (0:1:5)
Movement II

THEA 1230 (3 CREDITS) (0:1:5)
Voice II
Freeing the voice. Work on breath support, relaxing vocal channel, range, resonance, diction and text. Connecting voice to body.

THEA 1240 (3 CREDITS) (1:1:4)
Theatre Skills II
Introduction to the etiquette and organization of professional theatre. Basics of set, costume and prop design and construction. Introduction to lighting design and set up. Assignments comprised of backstage work and front-of-house on Studio 58 productions.

THEA 2110 (4 CREDITS) (0:1:9)
Acting III
Continuation of developing rehearsal skills and creative potential. Work in various periods and styles. Advanced scene work. Preparation of audition material.

THEA 2120 (3 CREDITS) (0:1:5)
Movement III
Movement skills such as mime, mask, tap dancing, period dance and continued work on body integration with text.

THEA 2130 (3 CREDITS) (0:1:5)
Voice III
Voice techniques including singing, some dialect work, speaking verse, diction, building a vocal warm-up. Application of vocal skills to acting and performance.

THEA 2140 (3 CREDITS) (0:1:5)
Theatre Skills III
Practicum in stage management and production, including heading a crew, running a crew and backstage and rehearsal etiquette.

THEA 2150 (13 CREDITS) (0:0:35)
Production Practicum I
Practicum and directed studies in theatre production in such areas as lighting, props, set construction, costuming, publicity, theatre administration, production administration and stage management.

THEA 2210 (4 CREDITS) (0:1:9)
Acting IV
Continuation of developing rehearsal skills and creative potential. Work in various periods and styles. Advanced scene work. Preparation of audition material.

THEA 2220 (3 CREDITS) (0:1:5)
Movement IV
Movement skills such as mime, mask, tap dancing, period dance and continued work on body integration with text.

THEA 2230 (3 CREDITS) (0:1:5)
Voice IV
Voice techniques including singing, some dialect work, speaking verse, diction, building a vocal warm-up. Application of vocal skills to acting and performance.

THEA 2240 (3 CREDITS) (0:1:5)
Theatre Skills IV
Practicum in stage management and production, including heading a crew, running a crew and backstage and rehearsal etiquette.

THEA 2250 (15 CREDITS) (0:0:40)
Production Practicum II
Continuation of Production Practicum I (THEA 2150).

THEA 2350 (15 CREDITS) (0:0:40)
Theatre Arts Practicum I
Intensive practicum in Theatre Arts, including public performances at Studio 58, and work with professional companies. Audition techniques for Film, Television, and Theatre are developed. Also covered is how to market oneself as a Theatre Artist. Acting for film and television and introduction to the film/TV industry are included.

THEA 2450 (15 CREDITS) (0:0:40)
Theatre Arts Practicum II
Continuation of Theatre Arts Practicum I (THEA 2350).
WMST 1105 (0 CREDITS) (2:0:0)  
Lecture Series  
This is a non-credit, non-fee course consisting of a series of lectures and/or films on women's issues. A minimum of four lectures will be offered during the semester. Requirement for the Diploma in Arts and Science (Women's Studies).

WMST 1116 (3 CREDITS) (3:1:0)  
Investigating Women’s Realities: An Introduction  
Formerly Perspectives on Women  
An introduction to critical thinking about the lives of women. Through the lens of comparative theories and diverse perspectives, this course examines links and connections between personal and collective experiences - in the home, in the body, and on the street. Using an interdisciplinary and participatory approach, students will make sense of historical patterns and movements for social change.

WMST 1195 (3 CREDITS) (3:1:0)  
Women of the South  
This number is reserved for Women’s Studies courses that may be offered from time to time by: a) College Women's Studies Faculty who may wish to present a special interest course in their field of expertise; or b) Visiting Women's Studies Lecturers.  
Prerequisite(s): Prerequisites will be announced in the Registration Guide and Course Schedule.  
Note: Announcement regarding WMST 1195 offerings will be made in the Registration Guide and Course Schedule.

WMST 1216 (3 CREDITS) (3:1:0)  
Exploring Women’s Lives: An Introduction  
(Formerly: Further Perspectives on Women)  
An introduction to naming and analyzing women’s life experiences. Students will explore topics relevant to women’s everyday lives such as body image, work and family, to develop a critical awareness of what limits and expands experiences, locally and globally, yesterday and today. This course considers how gender is constructed across age, class, race/ethnicity and sexuality. It pulls from a variety of disciplines and uses a popular education approach to shed light on issues and strategies for change.  
Note: WMST 1116 and 1216 can be taken in any order.

WMST 1220 (3 CREDITS) (4:0:0)  
Women and Health  
This course will examine the construction of women’s health from a global perspective. Students will have the opportunity to develop critical skills for exploring issues that inform women’s health in Canada and in other countries throughout the world.

WMST 1321 (3 CREDITS) (4:0:0)  
Professional Growth IV: Empowerment  
This course will provide for exploration of the sociological, political and cultural issues that impact the empowerment of women. Participants will focus on these issues as they apply to the discipline of nursing.  
Prerequisite(s): NURS 2220 with “C” and NURS 2241 with “S” and NURS 2251 with “C” or permission of the instructor.

WMST 2272 (3 CREDITS) (3:0:0)  
Women and Social Change  
This interdisciplinary course will focus on feminist theories and strategies for creating social change, concentrating on women’s movements in Canada within an international context. A university transfer course.  
Prerequisite(s): WMST 1116 or 1216 (preferably both).

WMST 2274 (3 CREDITS) (3:0:0)  
Women and Sexuality  
This course will blend perspectives from several disciplines to examine the social forces and ideologies that have prescribed women’s sexuality, and will analyze significant contemporary issues that have an impact on women's sexuality. A university transfer course.  
Prerequisite(s): WMST 1116 or 1216 (preferably both).
LANGARA COLLEGE: BOARD, STAFF, FACULTY
**LANGARA COLLEGE BOARD**

AGHABABAEE-ZAMANI, Jamileh (Student)

CHIANG, David (Community) (Vice-Chair)

CLARK, Ross (Community)

CULEN, Laura (Chair, Education Council)*

DAWSON, Carole (Community)

DHALIWAL, Saru (Community)

DINEEN, Dennis (Community)

GORDON, Bruce (Community) (Chair)

HEMER, Craig (Community)

HOLMES, Linda (President)*

LEE, Linda (Community)

MCGIBNEY, Brian (Support Staff)

PAINTER, Claude (Faculty)

VACANT (Student) *non-voting

**LANGARA COUNCIL**

ALVES, Antonella; Representative, CUPE Local 15 - VMECW (Feb/08-Feb/09)

ARNOLD, Linda; Dean of Instruction

CARTER, Lynn; President, Langara Faculty Association

CULEN, Laura; Division Chair, Business & Community Programs

DOUGLAS, Deanna; Vice President, Administration and Finance

GERSON, Martin; Dean of Instruction

GOARD, Jim; Chair, Langara College Administrators' Association

HELMAN, Mang; Division Chair, Mathematics & Sciences

HOLMES, Linda; President & CEO, (Chair)

JILLINGS, Ken; Director, Human Resources

KORNUTIAK, Terry; Department Chair, Counselling

LOW, Wendy; Division Chair, Nursing

MAKAREWICZ, Grace; Director of Library & Bookstore Services

PAUL, Kevin; Registrar

PAWLAK, Ken; Division Chair, Creative Arts, Social Service & Education

PENDLETON, Brian; Division Chair, Social Sciences; (Vice-Chair, Education Council)

RANDALL, Lisa; Representative, Support Staff

SEMMENS, Roger; Division Chair, Humanities

WONG, Joyce; Department Chair, Library

WALSH, Arran; Student Representative (Oct/07-Oct/08)

PELLETIER (Ratte), Gabriel; Student Representative (Feb/08-Feb/09)

VACANT; Dean of Student Support Services

**FACULTY**

ARJUBAKARE, V., B.Sc. (Toronto), M.Math. (Waterloo), Psychology.

ADAIR, L., School of Management.

ADERNIECK, E., M.P.L. (Queeno), Applied Urban and Rural Planning Program.

ALEXUS, L., M.Sc. (Bret. Col.), Nursing Program.

ALLAN, L., Education Assistant Program.

LANGARA COLLEGE SCHOLARSHIPS & BURSARIES

LANGARA COLLEGE SCHOLARSHIPS

Scholarships are awarded for academic merit. In order for the competition for scholarships to be as equitable as possible, an applicant must meet certain eligibility conditions. Please check with the Financial Aid Department for these conditions. As well, scholarship recipients must satisfy any donor requirements and generally must be Canadian citizens, landed immigrants, or convention refugees with proof of status.

The Langara College scholarships include the following:

• General Scholarships that are available to Langara College students currently registered in a minimum of 12 credits and who were registered in a minimum of 12 credits in one of the past two semesters. Applications which may be required, can be obtained from the Financial Aid Department.
• Departmental Scholarships that are normally available to Langara College students registered in a minimum of 12 credits and who were registered in a minimum of 12 credits in one of the past two terms. (Exceptional circumstances may apply.) Students receive the recommendation of program faculty when they meet specific scholarship criteria. Please check with specific departments to see if an application is required.

NOTE:
As criteria change from time-to-time, please contact the Financial Aid Department or view the Langara College Calendar at www.langara.bc.ca for the most up-to-date scholarship information.

GENERAL

BLISS MURRAY SCHOLARSHIP recognizes a Canadian citizen who has a minimum GPA of 3.5 in any Langara program, demonstrates financial need (bursary application required), and is active in community affairs and volunteer work. (Spring)

LANGARA COLLEGE BURSARIES

A bursary is a non-repayable award that is based on need and satisfactory academic standing. Bursaries may be open to students in any program or restricted to students in specific programs, courses, or terms of study. Bursary recipients must satisfy any donor requirements and must be Canadian citizens, landed immigrants or convention refugees with proof of status. Bursaries are given out for the semester in which the student makes an application. Generally, applications must be returned to the Financial Aid office by the middle of the second month of the semester. Please check with the Financial Aid Office for exact dates. All applicants will be notified of the results. Bursary applications are available from the Financial Aid office. Unless specified, the bursary may be awarded in any semester.

Please note that in addition to the listed bursaries, Langara College has instituted entrance bursaries to assist students from selected secondary schools to study at the College in the September following graduation from grade 12. Students should contact their secondary school Counselling Department or the Langara College Financial Aid Department for details. Langara has a limited number of entrance bursaries for mature students, to begin study in any semester. The Gwyn & Aileen Gunn Bursaries listed below offer entry awards to First Nations students and to students entering the Journalism and Social Service Worker programs. The student must be registered either part-time or full-time, at Langara College, and must demonstrate financial need. The student will be recommended by the Disability Services Coordinator. (Spring or fall)

TRISH ROBINSON FILM STUDIES BURSARY is awarded to students who are registered in the second (Summer) term of the Film Arts Program, who achieved a minimum of a “B” average in the first (Spring) term of the program. They must demonstrate exceptional dedication to improving their acting skills.
UNIVERSAL BUDDHIST TEMPLE BURSARY
Every other year beginning 2006, a bursary is awarded to a financially deserving student enrolled in FSIE 1114, the Religious Studies field course in Buddhist. (Spring)

UNIVERSITY WOMEN’S CLUB OF VANCOUVER BURSARY offers bursaries to deserving female Langara College students.

VALERIE NIELSEN DUNSTERVILLE BURSARY is awarded to students enrolled in at least nine credits in any program. They must have a minimum cumulative GPA of 2.00, and demonstrate financial need. (Spring)

VANCOUVER FOUNDATION BURSARIES provide bursary funds on an annual basis to Langara College students in financial need.

VANCOUVER BUSINESS AND PROFESSIONAL WOMEN’S CLUB BURSARY provides financial assistance to female students who are undertaking studies to enter or re-enter the workforce. They must demonstrate financial need. (Spring)

VANCOUVER MUNICIPAL AND REGIONAL EMPLOYEE’S UNION (CUPE – LOCAL 15)
An annual bursary is available to the sons, daughters, or legal dependants of current local 15 members, who have been members for the past two years. The student can be beginning or continuing full-time enrollment at Langara College. The award is based on financial need and academic standing in previous studies. (Fall)

XEROX CANADA BURSARY provides bursary funding for students in their second or subsequent semester who demonstrate financial need. (Spring or Fall)
