REGISTER: 604.323.5322

Dog owners, care-givers, and those working in the pet industry, will find this program provides a level of education beyond the basic understanding of dog walking, and details the skills and ability needed to be both effective in this industry and successful as a conscientious pet owner.

Students will be required to do a more in-depth examination of legislation and how this will affect them as a dog owner, dog walker, and business operator. Students will also be provided with the operational aspects of running and marketing this unique business including the tools to better understand how to run a dog walking business including personal and niche marketing, social media, community involvement, customer communication, and additional continuing education options.

Reinforce your current learning, introduce new research and techniques to your skills, and broaden your perspective of the industry. Earn a certificate that provides the confidence dog owners seek. Graduates will be at an advantage when compared to others in the industry as they will have both theoretical and practical preparation taught by industry professionals.
