

Chair, Curriculum Review Committee

Campaign Statement

Tess MacMillan

Over my past year as the chair of the Curriculum Review Committee, I have strived to run organized and effective meetings where all committee members have an equal chance to discuss and ask questions about presented curriculum. I believe our discussions have led to more thoughtful and well-developed curriculum, and I have learned a great deal from my colleagues on the committee. With the hope of continuing what we have begun, I have accepted the nomination for chair. Further, I hope that by fulfilling the chair role for another it will bring predictability to the CRC during this time of instability at Langara.
