

Joshua Antonio

Joshua's background in education and project management means he knows how to get things done for students. As your current student representative, he's ready to continue working hard for you.

Here's what he'll focus on:

Your Voice Matters: Joshua will make sure your feedback on courses, support services, and policies is heard. He'll use online forums, surveys, and regular open meetings to get your input. He's especially interested in hearing your ideas about making program courses more relevant to today's job market.

Real Action for Students: Joshua will use his council vote to push for changes that directly benefit you. This means advocating for things like connecting students with more internship and co-op opportunities and making sure academic rules are fair. He'll always consider what students are saying when making decisions.

Working Together: Joshua will team up with faculty and other council members to find solutions that work for students. He's already got experience on the council, so he knows how to get things moving.

Staying Connected:

Joshua believes in being open and honest. He'll keep you in the loop about upcoming votes and explain why he voted the way he did. He'll be easy to reach if you have questions or concerns. He's committed to making your time at Langara awesome.

Prabhleen Madaan

As a dedicated and proactive student at Langara College, I am eager to serve as a Student Representative on the Education Council to advocate for student interests and contribute to meaningful academic discussions. Enrolled in BBA in Marketing Management at Langara since May 2023, I have maintained a CGPA of 3.56 and achieved Dean's Honor in a few semesters, while actively participating in various on and off campus volunteering programs.

My involvement in student initiatives and leadership roles has prepared me to represent the student body effectively. As the Langara Global I-Eat Committee Leader, Vice President of the Langara Bhangra Club, and GO Team Member, I have collaborated with diverse teams, coordinated events, and worked closely with students, faculty, and administration. Through my on-campus involvement, I have gained valuable insight into student resources services available, allowing me to better understand and support the needs of the student community.

I am passionate about promoting a more inclusive, innovative, and student-centered environment. Through this role, I aim to advocate for enhanced academic policies, improved student resources, and a more engaging campus experience. I look forward to contributing my skills to ensure that the voices of students are valued in the decision-making process.

Caden Wong

Hey there, I'm Caden and I'm running for student representative for the education council. I'm currently in my 2nd semester pursuing a major in Business.

As someone who finds importance in togetherness and community, I think it is important to have someone that can communicate and advocate for students regarding the curriculum that we all work with and follow.

I have experience working in customer service, as well as volunteering for fundraisers. With this experience, I believe I can effectively advocate for students and communicate to improve the educational offerings at Langara. Vote for me and I will do my best to enrich the student experience for all.
