

Celeste Wu

My name is Celeste Wu, and this is my first semester participating in the college leadership program. I have been actively involved in various leadership roles in the past, including serving on the Food Committee, working as a Resident Assistant, and holding several captain positions during my high school years. More recently, I volunteered as a moderator for a Discord server with over 50,000 users.

Those who know me often describe me as a passionate and warm-hearted individual. Like many, I have faced difficult times, but those challenges have made me stronger and more empathetic. I deeply care for others, and I see leadership as a way to give back to my community.
