

Bhumika Laller

Statement

I am interested in being the CUPE Representative on the Education Council. In my role, I meet with students and encounter situations related to prerequisites, corequisites, etc., that impact their education at Langara.

I will be able to examine the changes from the perspective of an Academic Advisor and provide helpful feedback and insights on how they may impact our students.

Moreover, being a Langara Alum would allow me to look at the proposed changes through the lens of a student and how the changes would affect a student's journey at Langara. I intend to contribute to this committee in a way that helps alleviate issues and hurdles, and smoothly implement the required changes and new initiatives.
