

Course Outline

Course Code, Number, and Title:

BCAP 4820: Business Information Systems

Course Format:

Lecture 3 h + Seminar 1 h + Lab 0 h

Credits: 3

Transfer Credit: For information, visit bctransferguide.ca

Course Description, Prerequisites, and Corequisites:

This course provides an understanding of how technology is used by leading-edge organizations and includes the role the Internet plays in a successful enterprise. It also provides an introduction to computer management information systems that support organizations. Issues involving systems analysis, design and software applications in a business environment are included

Learning Outcomes:

Upon successful completion of this course, students will be able to

- Define the role the Internet plays in a networked enterprise
- Identify management, organizational and technology issues related to maintaining information systems which support the ongoing functioning and viability of the organization
- Analyze and describe a variety of issues related to the use of technology in managing today's organizations
- Intelligently discuss and debate with others the impact of information technology on business operations, organization structure, management and employees
- Effectively work in a team environment towards a common goal which applies knowledge gained, analyzes management problems related to information systems and creates appropriate solutions
