SAMPLE COURSE OUTLINE

Course Code, Number, and Title:

KINS 1110: Human Anatomy

Course Format:

[Course format may vary by instructor. The typical course format would be:]

Lecture 1 h + Seminar 1 h + Lab 2 h

Credits: 3  Transfer credit: For information, visit bctransferguide.ca

Course Description, Prerequisites, Corequisites:

Human anatomy is the science of the structure of the human body. Building upon KINS 1100, students examine anatomy of the human body, with an emphasis on the neural, muscular, and skeletal systems. A focus on functional anatomy underlies all aspects of the course work.

Prerequisites: KINS 1100 or Grade 12 Biology (80%)

Corequisites: None

Learning Outcomes:

Upon successful completion of this course, students will be able to:

- Recall the definitions and key terms of reference related to human anatomy;
- Identify the bones of the human skeleton and their significant anatomic landmarks;
- Identify and classify joints of the human skeleton and describe their structure and function;
- Identify the muscles of the human body, recognize their origins and insertions, and describe their actions;
- Identify the cranial and spinal nerves associated with the skeletal muscles;
- Describe the functional relevance of the anatomical structure of the musculoskeletal system;
- Analyze basic movements using appropriate anatomic terminology.

Textbook and Course Materials:
[Textbook selection may vary by instructor. An example of texts and course materials for this course might be:]

Atlas of Human Anatomy

Marieb, EN and Hoehn, K. “Human Anatomy and Physiology”. Pearson. 2019

Note: This course may use an electronic (online) instructional resource that is located outside of Canada for mandatory graded class work. You may be required to enter personal information, such as your name and email address, to log in to this resource. This means that your personal information could be stored on servers located outside of Canada and may be accessed by U.S. authorities, subject to federal laws. Where possible, you may log in with an email pseudonym as long as you provide the pseudonym to me so I can identify you when reviewing your class work.

Assessments and Weighting:
Final Exam 30%
Other Assessments %
(An example of other assessments might be:) %

Midterm Exam: 30%
Quizzes/Tests: 40%

Proportion of individual and group work:
Individual: 100%

Grading System: Letter grade
Specific grading schemes will be detailed in each course section outline.

Passing grade: D

Topics Covered:
[Topics covered may vary by instructor. An example of topics covered might be:]

Anatomical Terminology; Head
Head, Neck and Vertebrae
Vertebrae and Thorax
Shoulder, Upper Arm, and Elbow
Elbow and Forearm
Wrist and Hand
Pelvis and Hip
Hip and Upper Leg

This generic outline is for planning purposes only.
Upper Leg and Knee
Lower Leg, Ankle, and Foot
Abdominal Region

*Each week includes a study of the bones, joints, ligaments, muscles, and nerves for each body region.

As a student at Langara, you are responsible for familiarizing yourself and complying with the following policies:

**College Policies:**

- **E1003 - Student Code of Conduct**
- **F1004 - Code of Academic Conduct**
- **E2008 - Academic Standing - Academic Probation and Academic Suspension**
- **E2006 - Appeal of Final Grade**
- **F1002 - Concerns about Instruction**
- **E2011 - Withdrawal from Courses**
