SAMPLE COURSE OUTLINE

Course Code, Number, and Title:

KINS 1120: Heath and Exercise Management

Course Format:

[Course format may vary by instructor. The typical course format would be:]

Lecture 2 h + Seminar 0 h + Lab 2 h

Credits: 3

Transfer credit: For information, visit bctransferguide.ca

Course Description, Prerequisites, Corequisites:

An important role of kinesiologists in society is to provide information and services related to health and exercise. In this course, students explore the role of physical activity in promoting health and wellness, examine risk factors associated with chronic disease, and study basic principles of fitness and training. Through participation in experiential activities, students practice techniques of assessing the health- and skill-related components of fitness.

Prerequisites: None

Corequisites: None

Learning Outcomes:

Upon successful completion of this course, students will be able to:

- Specify and define health- and skill-related fitness components and relate them to scientific training principles;
- Design and demonstrate exercises based on the foundations of physical assessment, program design, and exercise management;
- Conduct and participate in basic fitness assessments for the purpose of fitness classification, goal setting, and exercise program design;
- Perform basic movement patterns to increase physical literacy.
